ACTIVITY	QTY	RATE	AMOUNT
Job Location: Senior Center			
Found the Trane condenser that controls the function hall of the senior center needing replacement due to age and condition. Found the control side of the system needing replacing along with refrigeration leak in the condenser coil. Also due to the discontinuation of refrigerant R-22 the new system will be in compliance with state regulations on new R-410A system.			
York Condenser 208/230 volts 3 Phase 120,000 BTU	1	5,900.00	5,900.00
R-410A Control TXV	1	390.00	390.00
