SECTION 1. The Annual Town Elections shall be held on the last Monday in March at such place and time as the Selectmen may determine. Those elected at the Annual Town Election, with the exception of the Moderator, shall take office at the close of the Annual Town Meeting. The Moderator shall take office on the day after election, or as soon thereafter qualified for a term of three years.

SECTION 2. The Annual Business Meeting shall begin on the first Monday in May at such place as the Selectmen shall determine. The Selectmen, after a Public Hearing, may delay the start of the Annual Town Meeting for up to 7 days provided that they act no later than the last day in February preceding. All sessions of the meeting shall begin at 7:30 P.M. and, unless otherwise voted by two-thirds of those present and voting, shall be adjourned to 7:30 P.M. of the next Monday, Tuesday, or Wednesday, whichever comes first (legal holidays excluded), upon completion of the article under discussion at 10:30 P.M.; except that any such meeting shall be adjourned before that time if a quorum shall be declared to have been lost, or at 8:30 P.M. if a quorum has not been assembled by then.

SECTION 3. The Selectmen shall cause a Warrant Report to be printed and distributed to the citizens of the Town at least seven days prior to commencement of the Annual Town Meeting and fourteen days prior to commencement of a Special Town Meeting. The Warrant Report will contain a copy of the articles as set forth in the official warrant, a summary of the intent and scope of each article prepared by the submitter, the report and recommendations of the Finance Committee, reports by other Town officials, boards or committees having an interest in a specific article, and supporting data such as maps and charts. The individual or group submitting information shall meet requirements for timing, format and brevity established by the Selectmen.

SECTION 4. Notice of every Town Meeting shall be given by posting a printed attested copy of the warrant therefor at the Town Hall at least seven days before the Annual Town Meeting and at least fourteen days before any Special Town Meeting.

ARTICLE II

GOVERNMENT OF TOWN MEETING

SECTION 1. The Warrant for each Annual Town Meeting shall be closed January 31 preceding the Annual Town Meeting, in each year. No article, including articles consisting of resolutions, shall be taken up at Town Meeting unless it appears in the printed warrant. The preceding sentence shall not apply to resolutions memorializing townspeople and town employees. Except as hereinafter specified, the Warrant for any Special Town Meeting shall be closed at least twenty-five days prior to the scheduled date of the meeting; provided further that there shall be at least ten days between the call of any Special Town Meeting and the closing of the Warrant therefor. This section shall not apply to any Special Town Meeting held for the purpose of considering the approval or disapproval of an amount of debt authorized by a Regional District School Committee, in accordance with General Laws, Chapter 71, section 16(d), or held for an emergency purpose.

SECTION 2. Except for the election of Town Officers, no meeting shall be legal unless a quorum is present, and a quorum shall consist of one hundred registered voters; once a quorum has been assembled, the continued existence of a quorum shall be presumed until a count of the voters present, which shall be taken upon the call of seven or more registered voters, establishes that a quorum is not present.

SECTION 3. The Moderator shall, at the time and place appointed, call the meeting to order, and forthwith proceed to read the call for the meeting, and the return of the person or persons who served it.

SECTION 4. The powers and duties of the presiding officer, not especially provided for by law, or by these bylaws, shall be determined by the rules and practices contained in the most recent edition of Town Meeting Time, so far as they are adapted to the conditions and powers of the town.

SECTION 5. The Moderator while presiding over a Town Meeting shall not participate in the discussion of any matter under consideration of the said town meeting, but he may upon request answer all questions relating to procedure in town meetings as may be submitted to him and to correct any errors of procedure which may occur.

SECTION 6. Every person speaking shall address the chair standing and uncovered. No person not a voter shall address the meeting without first obtaining consent of the meeting.

SECTION 7. Every non-resident appointed representative of the Town shall be a non-voting member of Town Meeting.

SECTION 8. No article in the warrant for any Town Meeting shall be taken up for consideration out of the order in which it appears there in, except by a four-fifths vote of the voters present and voting thereat.

SECTION 9. All motions shall be reduced to writing before being submitted to the meeting, if required by the presiding officer or clerk.

SECTION 10. When an article comes before any session of the Town Meeting, the proponent(s) shall be recognized first for the purpose of making a motion under the article and then for making a presentation in support thereof, if the motion is seconded. If the proponent is an elected or appointed board or committee within which there is a minority position in opposition to the article, a spokesman for that position will be recognized next. Thereafter, the Finance Committee shall be recognized if it wishes to speak on the article, followed by the Planning Board and/or any other Board or Committee which is required by law to report on the article.

SECTION 11. No person shall speak more than twice upon any question, except to correct an error or make an explanation until all others who have not spoken upon the question and desire to do so shall have an opportunity. The initial presentation by the proponent(s) of an article may not exceed ten minutes in length, and no other speech may exceed five minutes in length unless consent is given by a majority of those present and voting.

SECTION 12. When a question is under debate, motions may be received to adjourn, to lay the matter on the table, to move the previous question, to postpone indefinitely, to postpone to a time certain, to commit, and to amend; which several motions shall have precedence in the order in which they are herein enumerated, and the first three shall be decided without debate, provided that the Moderator need not allow a vote on a motion for the previous question unless, in his opinion, there has been a reasonable opportunity for debate on the question.

SECTION 13. A motion to reconsider a matter previously acted upon at the same session shall require an affirmative vote of two-thirds of those voters present and voting. A motion to reconsider a matter after adjournment of the session at which it was acted upon shall require a unanimous vote of those present and voting unless written notice of an intention to move reconsideration of the matter, signed by fifteen voters who attended that session is given to the Town Clerk on or before noon of the next weekday (legal holidays excluded) following the session at which the matter for which reconsideration is sought was acted upon. The Town Clerk shall publish notice of such intention by advertisement or by posting in his office or elsewhere in the Town Hall. The Moderator shall at the start of the next session announce the matter on which reconsideration is sought and shall further announce that the motion for reconsideration shall be the first order of business at the next succeeding session of the Town Meeting unless all business is completed prior to 10:30 P.M. of the same session, in which case the motion for reconsideration shall be the last item of business that evening. When the matter to be reconsidered comes before the meeting, the Moderator shall recognize for the motion the person who gave notice to the Town Clerk, unless he shall defer to another. All discussion on the motion must be confined exclusively to the merits or demerits of reconsideration. Passage of a motion to reconsider shall require an affirmative vote of two-thirds of those present and voting. If notice of reconsideration is given on more than one matter, they shall be taken up in the order in which they were submitted to the Town Clerk.

SECTION 14. Every vote, resolution, amendment, order or other action of the Town Meeting which instructs or requests any Town inhabitant, official, committee or board to study, propose, prepare, draft, present, file, petition for or otherwise initiate new legislation by the General Court of the Commonwealth of Massachusetts or the Congress of the United States, shall specify in terms whether or not such inhabitant, official, committee or board is required to present a draft of such legislation to the Town Meeting for approval before submitting it to said General Court or Congress.

SECTION 15. If a legal error in an action of the Town Meeting, attested to by the Town Counsel, is discovered, the Moderator shall, when presented with such error, recognize the Town Counsel for the purpose of identifying the error and explaining its effect. Following the explanation of the Town Counsel, the Moderator shall request a motion by the Board of Selectmen to correct the error. Such motion shall not be subject to the rules of reconsideration and shall require a simple majority unless otherwise mandated by State law or any portion of these bylaws. Action under such motion shall be limited to correction of the error.

SECTION 16. If the Town Accountant, or in his absence, the Assistant Town Accountant, discovers that information presented to the Town Meeting contains an accounting error, he shall request to be recognized for the purpose of identifying the error and explaining its effect. The Moderator shall recognize the Town Accountant for such purpose. Following the explanation, the Moderator shall request a motion by the Board of Selectmen to correct the error. Such motion shall not be subject to the rules of reconsideration and shall require a simple majority unless otherwise mandated. Any voter or Town official who discovers such an accounting error shall notify the Town Accountant, who, if he concurs, shall proceed as described above.

SECTION 17. The Moderator may determine, without a count, that a two-thirds, four-fifths, or nine-tenths vote has been achieved, which determination shall satisfy the provisions of Massachusetts General Laws Chapter 39, Section 15 or any other law requiring a two-thirds, four-fifths, or nine-tenths vote, unless a count is requested in conformance with the procedural requirements set forth in Town Meeting Time.

SECTION 18. All persons speaking on any article may be recognized by the Moderator after the presentation by the proponent(s) of the article, if any, but no speaker may be recognized in accordance with any pre-arranged speaking order. Notwithstanding the foregoing, in the event there is no speaker identified as the proponent, the Moderator may recognize speakers after the motion on the floor has been seconded.

ARTICLE V (A)

REMOVAL OF EARTH

SECTION 1. The Earth Removal Board is hereby established and shall consist of five registered voters of the Town, to be annually appointed by the Selectmen for a term of one year. Appointment to the Earth Removal Board may be made contingent on the member holding another office or membership on another board or committee, in which case removal or resignation from such other office, board or committee shall be deemed removal or resignation from the Earth Removal Board. Vacancies shall be filled by appointment for the remaining portion of the term. The Earth Removal Board can proceed or act only when a quorum of four or more members are present. A majority vote in favor of the issuance of a removal permit shall be required for the issuance of a removal permit.

SECTION 2. No person, firm or corporation shall remove any soil, loam, sand, gravel, stone, or other earth material from any land in the Town not in public use without first obtaining a permit, hereinafter called a Removal Permit, therefor from the Earth Removal Board, as provided in the following sections.

SECTION 3. Without restricting the generality of the previous sentence, a Removal Permit shall be required under this bylaw for the removal of soil, loam, sand, gravel, stone or other earth material in the course of excavation incidental to the construction of a business, industrial, research or commercial building or facility of any kind for which a building permit is required. This requirement for a removal permit extends also to any material removed for the installation of walks, driveways, parking lots, and similar appurtenances to said commercial building or facility.

SECTION 4. A Removal Permit shall not be required under this bylaw for the removal of soil, loam, sand, gravel, stone or other earth material in the course of excavation incidental to the construction of a single family residential building for which a building permit is required and to the installation of walks, driveways, and similar appurtenances to said building, provided that the quantity of material removed does not exceed that displaced by the portion of building, walk, driveway, or similar appurtenance below finished grade, or in the course of customary use of land for a farm, garden or nursery. This exemption does not cover removal of earth from the premises involving topographical changes or soil-stripping or loam-stripping activities, nor shall tentative or final approval of a subdivision plan be construed as authorization for the removal of earth material from streets shown on the subdivision plan.

SECTION 5. An application for an Earth Removal Permit shall be in writing and, among other things as required by the Earth Removal Board, shall contain an accurate description of the portion of land from which earth is to be removed, shall state fully the purposes for the removal thereof, and shall include plans of the land involved in such form as the Board may require. The Board may charge reasonable fees for making an application for earth removal. Upon receipt of an application for a Removal Permit for removal of earth from any land, the Board shall appoint a time and place for a public hearing notice of which shall be mailed to the

applicant and abutters and published in a newspaper having a circulation in the town at least twenty-one (21) days before such hearing.

SECTION 6. A removal Permit for removal of soil, loam, sand, gravel, stone or other earth material shall be granted only if the Earth Removal Board shall rule that such removal is not detrimental to the neighborhood. The exercise of any removal permit granted under provisions of this bylaw shall be subject to conditions, limitations and safeguards, to be set forth therein by the Board to protect the health, welfare, convenience, and safety of the public, and to promote the best interests of the neighborhood and of the Town. These conditions may include, but are not limited to:

- m) inspection of the premises at any time by the Board or its representative

SECTION 7. The Earth Removal Board may require as a condition of the granting of a removal permit to remove soil, loam, sand, gravel, stone, or other earth material, that the permittee shall furnish cash, certified check, or a surety company bond to the Town as obligee in a penal sum to be fixed by said Board as it shall deem sufficient to cover the cost of the performance of all labor and materials as shall be required to carry out all the conditions, limitations, and safeguards as may be imposed by said Board in connection with the removal of the particular substances for which the Removal Permit is issued. No Removal Permit shall be issued under provisions of this bylaw for a period of more than one year, though removal permits may be renewed without hearing at the discretion of the Board.

SECTION 8. If the Earth Removal Board shall be informed or shall have reason to believe that any provision of this bylaw or of any Removal Permit or condition thereof has been, is being, or is about to be violated, the Board shall make, or cause to be made, an investigation of the facts, and if the Board finds any violation, the Board shall send a notice ordering cessation of the improper activities to the owners of the premises in question or his duly authorized agent, and to the occupant of the premises. If after such notice the violation continues, the Board may suspend any removal permit, it has issued or take such other action as is necessary to enforce the provisions of the bylaw and/or seek penalties as provided in Chapter 40, Section 21, Clause 17 of the General Laws. If any Removal Permit is suspended, an early date shall be set by the Board for a public hearing, notice of which shall be given to the permittee and shall be published at least 7 days before such hearing in a newspaper having a circulation in the Town. Any removal permit granted by the Board may be revoked for cause shown after such a public hearing. The suspension or revocation of a removal permit shall not relieve the

permittee of his obligations thereunder except at the discretion of the Board.

SECTION 9. The Earth Removal Board shall record all proceedings brought under this article in a book to be kept for that purpose and shall file in the office of the Town Clerk a copy of all decisions, and the said Town Clerk shall keep a proper index thereof.

SECTION 10. This bylaw shall take effect upon its approval by the Attorney General and as provided by law; provided, however, that any continuous earth removal activities in actual legal working operation on December 1, 1959, may continue unaffected by this law until April 1, 1960. Permits for operation of the latter activities will be required after April 1, 1960.

SECTION 11. If any provision of this bylaw shall be held invalid or unconstitutional, such invalidity or unconstitutionality shall not be construed to affect the validity or constitutionality of any of the remaining provisions.

Any such discontinuance shall be effectuated within fifteen (15) days from the date of receipt of the Chief of Police's order.

ARTICLE V (C)

SMOKING PROHIBITION

- (a) It is hereby declared that smoking in public places is a public nuisance, dangerous and hazardous to the public health, and violative of the right of non-smokers to breathe air which is free of smoke contamination.
- (b) As used herein, 'smoking' shall include carrying a lighted cigarette, cigar, pipe or other tobacco product.
- (c) No person shall smoke in any elevator accessible to the public.
- (d) No person shall smoke in any room to which the public is invited or in which the public is permitted, including by not limited to, any health care facility, classroom, lecture hall, theater, motion picture theater, opera house, concert hall, library, auditorium, school, retail store, reception area, restroom or lavatory, waiting room, or public area of a bank, but not including any private residence, nor any restaurant or other place mentioned in subsection (e), nor any party, beano game, social reception, or fraternal or veteran's organization.
- (e) No person shall smoke in any restaurant or public eating establishment except in specifically designated smoking areas. This prohibition does not apply in cases in which an entire room or hall is used for a private social function and not by the proprietor or person in charge of the restaurant.

Smoking areas may be designated by the proprietor or other person in charge of a restaurant, except in places in which smoking is prohibited by the fire marshal or by other law or regulation. Designated smoking areas shall comprise no more than fifty (50) percent of the seating capacity of the restaurant. Where smoking areas are designated, existing physical barriers and ventilation systems shall be used to minimize the toxic effect of smoke on persons in adjacent no-smoking areas. In the case of restaurants consisting of a single room, the provisions of this subsection shall be considered met if one side of the room is reserved and posted as a no-smoking area, provided that the no-smoking area comprises no less than fifty (50) percent of the seating capacity of the restaurant.

However, to the extent that the shape of the room allows maximum separation, the proprietor will be required to utilize those natural barriers to satisfy the provisions of this article. Furthermore, if such natural barriers do not exist, the proprietor will make every effort to set up the space to inhibit the transfer of smoke to no-smoking areas.

The proprietor or other person in charge of a restaurant shall make reasonable efforts to prevent smoking in the no-smoking areas of the restaurant by:

- (1) posting appropriate signs;
- (2) arranging seating to provide a smoke-free area;
- (3) asking smokers to refrain from smoking upon request of a client, patron or employee suffering discomfort from the smoke; or
- (4) any other means which may be appropriate.

This subsection shall not apply to any bar with a seating capacity of fewer than seventy-five (75) persons, which is used primarily for selling alcoholic beverages for consumption on the premises and in which any sale of food or presentation of entertainment is incidental to the sale of such beverages.

Nothing in this subsection shall make lawful smoking; in any area in which smoking is or may hereafter be prohibited by law.

- (f)
 - (1) Except as provided in paragraph (2) of this subsection (f), no person shall smoke in any room under the control of a public or private employer which employees normally frequent during the course of employment, including, but not limited to, work areas, employee lounges and restrooms, conference rooms, and hallways, but not including any private residence unless it is used as a child care or health care facility, nor any dining area of a restaurant or other place mentioned in subsection (e).
 - (2) At the written request of one or more employees, an employer may (but is not required to) designate the area in the immediate vicinity of the employee's usual work station as a smoking area, if the employer finds that such a smoking area will not allow non-smoking employees or the public to breathe any significant amount of smoke. Upon the same request and finding, an employer may also make other reasonable accommodation to smoking employees, including provision of a separate employee lounge for smoking, no larger in floor area or seating capacity than the employee lounge for non-smokers. Upon request in writing, an employer shall provide a copy in writing of its smoking policy under this paragraph, including any designated smoking areas or other accommodation for smoking employees, to any employee, prospective employee, and the Sudbury Board of Health. Any employee aggrieved by an employer's smoking policy or any portion thereof may appeal in writing to the Sudbury Board of Health, who may modify it in any manner to carry out the purposes of this section. In any dispute arising from such a smoking policy, the health concerns of non-smokers shall be given precedence.
- (g) Every person having control of premises upon which smoking is prohibited by this article or his

or her agent or designee, shall conspicuously display upon the premises a sign reading "Smoking Prohibited by Law".

- (h) It shall be unlawful for any person having control of any premises or place in which smoking is prohibited by this article to knowingly permit a violation of this article. A person shall be held to have knowingly permitted a violation of this article if a visitor to his or her premises observes one or more people smoking (other than in properly designated smoking areas) on three successive visits. Any licenses issued by the Town to such a person shall be subject to suspension for up to fifteen (15) days for a single violation of this article, and shall be subject to suspension for up to one year, or to revocation, for any successive violation.
- (i) Any person who knowingly violates any provision of this article, or who smokes in an area in which a "Smoking Prohibited by Law" notice is conspicuously posted as required by subsection (g) of this article, shall be subject to a penalty of \$25.00. Each day during which a violation exists shall be deemed to be a separate violation.
- (j) The Sudbury Board of Health shall enforce the provision of this article, and for this purpose shall have the assistance of the Town Executive Secretary, Town Counsel, and the Police and Building Departments. In addition to the remedies provided by subsections (h) and (i), the Sudbury Board of Health or any person aggrieved by any violation of this article may apply for injunctive relief to enforce said provisions in any court of competent jurisdiction.
- (k) If any section, subsection, sentence, clause, phrase, or portion of this article is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision and such holding shall not affect the validity of the remaining portions thereof.

This form shall be made available to the public by the Fire Chief. The age of a tank is to be determined from the date when it was first installed. If the owner cannot document the age of the tank to the satisfaction of the Fire Chief, the installation date will be presumed to be January 1971. The registration tag issued by the Fire Chief shall be visibly affixed to the fill pipe by the owner on or before January 1, 1993.

ARTICLE V (F)

STORMWATER MANAGEMENT

1.0 PURPOSE

- A. The purpose of this Bylaw is to protect, maintain and enhance the public health, safety, environment and general welfare of the Town by establishing minimum requirements and procedures to control the adverse effects of soil erosion and sedimentation, construction site runoff, increased post-development stormwater runoff and nonpoint source pollution associated with new development and redevelopment. It has been determined that proper management of stormwater runoff will minimize damage to public and private

property and infrastructure, safeguard the public health, safety, environment and general welfare of the public, protect water and aquatic resources, protect and enhance wildlife habitat, and promote groundwater recharge to protect surface and groundwater drinking supplies. This Bylaw seeks to meet that purpose through the following objectives:

1. Establish a mechanism by which the municipality can monitor and ensure compliance with requirements of its National Pollutant Discharge Elimination System (NPDES) General Permit for Stormwater Discharges from Small Municipal Separate Storm Sewer Systems and other applicable State and Federal mandates.
2. Establish decision-making processes surrounding land development activities that protect the integrity of the watershed and preserve the health of water resources.
3. Require that new development, redevelopment and other land alteration activities maintain the after-development runoff characteristics as equal to or less than the pre-development runoff characteristics where appropriate in order to reduce flooding, stream bank erosion, siltation, nonpoint source pollution, property damage, and to maintain the integrity of stream channels and aquatic habitats.
4. Establish minimum post-development stormwater management standards and design criteria for the regulation and control of stormwater runoff quantity and quality; Establish minimum design criteria for the protection of properties and aquatic resources downstream from land development and land conversion activities from damages due to alterations in volume, velocity, frequency, duration, and peak flow rate of storm water runoff; Establish minimum design criteria for measures to eliminate or minimize to the extent feasible nonpoint source pollution from stormwater runoff which would otherwise degrade water quality.
5. Establish design and application criteria for the construction and use of structural stormwater control facilities that can be used to meet or exceed the minimum post-development stormwater management standards.
6. Encourage the use of nonstructural stormwater management, better site design practices or “low-impact development practices”, such as reducing impervious cover, increasing site-wide infiltration,

and preserving open space and other natural areas, to the maximum extent practicable.

7. Promote water conservation through the re-use of stormwater for irrigation.
 8. Establish provisions that require practices that eliminate soil erosion and sedimentation and control the volume and rate of stormwater runoff resulting from land disturbance activities.
 9. Establish provisions to ensure that soil erosion and sedimentation control measures and stormwater runoff control practices are incorporated into the site planning and design process and are implemented and maintained.
 10. Establish provisions for the long-term responsibility for and maintenance of structural stormwater control facilities and nonstructural stormwater management practices to ensure that they continue to function as designed, are maintained, and pose no threat to public safety or the environment.
 11. Establish provisions to ensure there is an adequate funding mechanism, including surety, for the proper review, inspection and long-term maintenance of stormwater facilities implemented as part of this Bylaw.
 12. Establish administrative procedures for the submission, review, approval or disapproval of stormwater management plans, erosion and sediment controls, and for the inspection of approved active projects, and long-term follow up; Establish certain administrative procedures and fees for the submission, review, approval, or disapproval of stormwater plans, inspection of construction sites, and the inspection of approved projects.
- B. Nothing in this Bylaw is intended to replace the requirements of the Town of Sudbury Zoning Bylaw, the Town of Sudbury Wetlands Administration Bylaw, the Town of Sudbury General Bylaw, any other Bylaw that may be adopted by the Town of Sudbury, or any Rules and Regulations adopted there under. Any activity subject to the provisions of the above-cited Bylaws or Rules and Regulations must comply with the specifications of each. In case of conflict, this Bylaw and any promulgated Rules and Regulations shall supersede.

2.0 DEFINITIONS

The following definitions shall apply in the interpretation and implementation of this Bylaw. Additional definitions may be adopted by separate regulation:

ALTER: Any activity that will measurably change the ability of a ground surface area to absorb water, will change existing surface drainage patterns, or will increase or decrease the rate or volume of flow from a site.

BEST MANAGEMENT PRACTICE (BMP): Structural, non-structural and managerial techniques that are recognized to be the most effective and practical means to prevent and/or reduce increases in stormwater volumes and flows, reduce point source and nonpoint source pollution, and promote stormwater quality and protection of the environment. “Structural” BMPs are devices that are engineered and constructed to provide temporary storage and treatment of stormwater runoff. “Nonstructural” BMPs use natural measures to reduce pollution levels, do not require extensive construction efforts, and/or promote

pollutant reduction by eliminating the pollutant source.

BETTER SITE DESIGN: Site design approaches and techniques, including low-impact development (LID) that can reduce a site's impact on the watershed through the use of nonstructural stormwater management practices. Better site design includes conserving and protecting natural areas and green space, reducing impervious cover, using natural features for stormwater management, and providing site-wide infiltration.

DEVELOPMENT: Any construction that disturbs or alters a parcel of land.

DISTURBANCE OF LAND: Any action, including removal of vegetation, that causes a change in the position, location, or arrangement of soil, sand, rock, gravel or similar earth material.

EXEMPT USE: Any use subject to the provisions of M.G.L. chapter 40A, section 3.

GENERAL STORMWATER MANAGEMENT PERMIT (GSMP): A permit issued for an application that meets a set of pre-determined standards outlined in the Regulations adopted by the Planning Board under Section 4.0 of this Bylaw. By meeting these pre-determined standards, the proposed project will be presumed to meet the requirements and intent of this Bylaw.

IMPERVIOUS SURFACE: Any material or structure on, above or below the ground that prevents water from infiltrating through the underlying soil. Impervious surface is defined to include, without limitation: paved surfaces (parking lots, sidewalks, driveways), roof tops, swimming pools, and paved, gravel and compacted dirt surfaced roads.

INFILTRATION: The act of conveying surface water into the ground to permit groundwater recharge and the reduction of stormwater runoff from a project site.

LOW IMPACT DEVELOPMENT (LID): An ecosystem-based approach to land development and stormwater management that ensures that each development site is designed to protect, or restore, the natural hydrology of the site.

MASSACHUSETTS STORMWATER MANAGEMENT STANDARDS: The latest version as may be amended from time to time of the Stormwater Management Standards and accompanying Stormwater Handbook issued by the Department of Environmental Protection pursuant to authority under the Wetlands Protection Act, M.G.L. c. 131, § 40, and the Massachusetts Clean Waters Act, M.G.L. c. 21, §§ 26-53. The Stormwater Management Standards are incorporated in the Wetlands Protection Act Regulations, 310 CMR 10.05(6)(k) and the Water Quality Certification Regulations, 314 CMR 9.06(6)(a).

MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) or MUNICIPAL STORM DRAIN SYSTEM: The system of conveyances designed or used for collecting or conveying stormwater, including any road with a drainage system, street, gutter, curb, inlet, piped storm drain, pumping facility, retention or detention basin, natural or man-made or altered drainage channel, reservoir, and other drainage structure

that together comprise the storm drainage system owned or operated by the Town of Sudbury.

NONPOINT SOURCE POLLUTION: Pollution from many diffuse sources caused by rainfall, snowmelt, or other method of pollutant transport moving over and through the ground. As the runoff moves, it picks up and carries away natural and human-made pollutants, finally depositing them into water resource areas.

PRE-DEVELOPMENT: The conditions that exist prior to the proposed disturbance activity. Where phased development or plan approval occurs (preliminary grading, roads and utilities, etc.), the existing conditions at the time prior to the first plan submission shall establish pre-development conditions.

POST-DEVELOPMENT: The conditions that reasonably may be expected or anticipated to exist after completion of the land development activity in accordance with approved plans on a specific site or tract of land. Post-development refers to the phase of a new development or redevelopment project after completion, and does not refer to the construction phase of a project.

RECHARGE: The replenishment of underground water reserves.

REDEVELOPMENT: Any construction, alteration, improvement, repaving, or resurfacing on a previously-developed site.

RUNOFF: Rainfall or snowmelt water flowing over the ground surface or other source which may result in transport of pollutants.

SITE: The entire parcel of land being developed.

STORMWATER MANAGEMENT: The use of structural or non-structural practices that are designed to control or treat stormwater runoff pollutant loads, discharge volumes, and/or peak flow discharge rates. Stormwater Management includes the use of Low-Impact Development (LID) management practices.

STORMWATER MANAGEMENT PERMIT (SMP): A permit issued by the Planning Board, after review of an application, plans, calculations, and other supporting documents, which is designed to protect the environment of the Town from the deleterious effects of uncontrolled and untreated stormwater runoff.

3.0 AUTHORITY

This Bylaw is adopted under authority granted by the Home Rule Amendment of the Massachusetts Constitution, the Home Rule statutes, and pursuant to the regulations of the federal Clean Water Act found at 40 CFR 122.34, and as authorized by the residents of the Town of Sudbury at the 2009 Annual Town Meeting.

4.0 ADMINISTRATION

A. The Planning Board shall administer, implement and enforce this Bylaw. Any powers granted to or

duties imposed upon the Planning Board may be delegated in writing by the Planning Board to any Town employee, board or agent.

B. Stormwater Regulations

The Planning Board may adopt, and periodically amend, Rules and Regulations relating to the terms, conditions, definitions, enforcement, fees (including application, inspection, and/or consultant fees), procedures and administration of this Stormwater Management Bylaw by majority vote of the Planning Board, after conducting a public hearing to receive comments on any proposed revisions. Failure by the Planning Board to promulgate such Rules and Regulations or a legal declaration of their invalidity by a court shall not act to suspend or invalidate the effect of this Bylaw.

C. Stormwater Management Standards and Handbook

The Planning Board will utilize the policy, criteria and information including specifications and standards of the most recent edition of the Massachusetts Stormwater Management Standards and Handbook for execution of the provisions of this Bylaw. Unless otherwise specified in the Town of Sudbury Stormwater Regulations, stormwater management practices that are designed, constructed, and maintained in accordance with these design and sizing criteria will be presumed to be protective of Massachusetts water quality standards.

D. General Stormwater Management Permit

The Planning Board shall have the authority to develop a General Stormwater Management Permit (GSMP) for specific types of projects and thresholds as defined in Section 5.B. of this Bylaw. Requirements of the GSMP shall be defined and included as part of any Stormwater Regulations promulgated as a result of this Bylaw. By meeting these pre-determined standards, the proposed project will be presumed to meet the requirements and intent of this Bylaw. If the proposed project does not meet the criteria set forth in the GSMP, the applicant must apply for a Stormwater Management Permit (SMP).

E. Actions by the Planning Board

The Planning Board shall take any of the following actions as a result of an application for a Stormwater Management Permit as more specifically defined as part of Stormwater Regulations promulgated as a result of this Bylaw: Approval, Approval with Conditions, or Disapproval

F. Appeals of Action by the Planning Board

A decision of the Planning Board shall be final. Further relief of a decision by the Planning Board made under this Bylaw shall be reviewable in the Superior Court in an action filed within 60 days thereof, in accordance with M.G.L. Ch 249 § 4.

G. Alternate Stormwater Mitigation

Under certain circumstances where onsite options for stormwater mitigation are limited, or where offsite options provide better protection, the Planning Board may allow the applicant to contribute to the implementation of offsite stormwater mitigation. This may be allowed at the discretion of the Planning Board only where a net public benefit is clearly demonstrated and documented by meeting or exceeding the purpose and intent of this bylaw.

5.0 APPLICABILITY

A. This Bylaw shall be applicable to all new development and redevelopment, including, but not limited to, building permit applications, site plan applications, subdivision applications, wetland permit applications, grading applications, septic permits, Earth Removal permits, any activity that will result in a change in rate, volume, timing, or quality of stormwater runoff flowing from a parcel of land, or any activity that will alter the drainage characteristics of a parcel of land, unless exempt pursuant to Section 5.D of this Bylaw, and no such activity shall commence until a permit under this Bylaw has been issued.

B. General Stormwater Management Permit (GSMP) Thresholds

A General Stormwater Management Permit (GSMP) shall be required from the Planning Board for the following:

2. Disturbance or alteration, including paving, repaving or resurfacing, of from 500 square feet to 2,000 square feet of land in a commercial, industrial, institutional or exempt use provided there is no net increase in impervious surface, unless such use is an existing non-conforming use prohibited under section 4242 of the Town of Sudbury Zoning Bylaw (Water Resource Protection District).
3. Construction or maintenance and repair of utility lines (gas, water, electric, telephone, etc.) other than drainage lines or systems, which will alter terrain, ground cover, or drainage patterns.

SCENIC ROADS

SECTION 1. ADMINISTRATION

1.1 Purpose

The purpose of this Bylaw is to protect the scenic quality and character of Town roads designated as Scenic Roads by establishing rules and regulations governing local administration of the Scenic Road Act, M.G.L. c. 40, s. 15C. The local authority and jurisdiction of the Planning Board, herein, shall be consistent with the Scenic Road Act. The Scenic Road Act governs the cutting or removal of trees, or the tearing down or destruction of stone walls during the repair, maintenance, reconstruction, paving, or other alteration of roads that have been designated as a scenic road by the Town. The Town has adopted these regulations with the following objectives:

- a) To maintain the natural beauty and scenic qualities along scenic roads in the Town of Sudbury.
- b) To enhance the rural character of scenic roads of the Town and encourage compatibility with existing roadside features.
- c) To implement more fully the provisions of the Scenic Road Act, M.G.L. c.40, s. 15C.

1.2 Procedure to Designate a Road as a Scenic Road

The Planning Board, the Conservation Commission, the Historical Commission, or the citizens of the Town of Sudbury by petition (consistent with petition requirements to place an article on the warrant) may propose “scenic road” status for any road in the Town of Sudbury, other than a numbered route or state highway.

The Planning Board shall hold a Public Hearing on the proposal or petition, notifying the Selectmen, the Tree Warden, Director of Public Works, the Conservation Commission, the Historical Commission and the Historic Districts Commission and shall advertise the hearing twice in a newspaper of general circulation; the first advertisement at least fourteen days prior to the date of the public hearing. The Planning Board shall make a recommendation to Town Meeting on the merits of the proposed road as a scenic road. No road shall be designated a scenic road by Town Meeting unless such designation is favorably recommended by the Planning Board, Conservation Commission, or Historical Commission.

A majority vote of Town Meeting is required for designation of a road as a scenic road. Such designation shall be effective as of the date of Town Meeting action. Any work on any portion of the right-of-way of a scenic road, which was not physically commenced at the time the road was designated by Town Meeting as a scenic road, shall conform to these regulations.

1.3 Roads Subject to the Provisions of the Scenic Road Act

1.31 The following roads were designated at Scenic Roads at the 2003 Annual Town Meeting:

SECTION 2. DEFINITIONS

In the absence of contrary meaning established through legislative or judicial action pursuant to M.G.L. Ch. 40, Sec. 15C, these terms contained in that statute and herein shall be construed as follows:

"Cutting or removal of trees" shall mean the destruction of one or more trees having a trunk diameter of four (4) inches or more measured one (1) foot from the ground, trimming of major branches or trimming of roots sufficient in the Tree Warden's opinion to cause eventual destruction of a tree. Not included in this definition is the routine or emergency maintenance which removes only permanently diseased or damaged limbs, trunks, or roots, and dead whole trees.

"Repair, maintenance, reconstruction, or paving work" shall mean any work done within the right of way by any person or agency, public or private. Construction of new driveways or alterations of existing ones is included to the extent such work takes place within the right-of-way. Roadside clearing of trees to provide for vehicle clearance or for improvement to line-of-sight shall also be included in this definition. Construction or alteration of water, sewer,

electric, telephone, cable TV or other utilities within the right-of-way is also included.

"Road" shall mean the entire right of way of a vehicular traveled way plus its necessary appurtenances including bridge structures, drainage systems, retaining walls, traffic control devices, and sidewalks, but not intersecting streets or driveways. The right of way includes the area on and within the boundaries of the public way. If the boundaries are not officially known, any affected tree or stone wall shall be presumed to be within the public right of way until shown otherwise.

"Tearing down or destruction of stone walls" shall mean the temporary or permanent destruction of more than ten (10) linear feet of stone wall involving more than one (1) cubic foot of wall material per linear foot. Temporary removal of stone walls, to be followed by replacement of the disturbed portion of the wall within a reasonable period of time, not to exceed 90 days, at the same location with the same materials and according to the original character, shall be subject to informal filing and review procedures, set forth under section 3.6.

SECTION 3. PROCEDURES FOR ALTERING A SCENIC ROAD

3.1 Filing

Any person or organization seeking the consent of the Planning Board under M.G.L. Ch. 40, Sec. 15C (The Scenic Roads Act) regarding road repair, maintenance, construction, reconstruction, paving or other alteration that will involve the cutting or removal of trees or the tearing down of stone walls, or portions thereof on a scenic road, shall file a request with the Planning Board, together with the following:

- a) A plan showing the location and the nature of the proposed action and a description of the proposed changes to trees and stone walls (six copies). At a minimum, such plan shall be to scale (preferred scale is 1" = 40') and shall clearly show existing trees and those to be removed, noting the species and diameter (measured one foot above ground). The plan shall indicate the width, height, character and dimensions of any stone wall, as well as the proposed methods for the repair or reconstruction of any portion of the stone wall.
- b) A statement of the purpose(s) for the changes.
- c) Photographs of the existing site showing the area to be affected by work and the surrounding area for a distance of at least 100 feet to either side on the scenic road in question. All photographs must be signed and dated by the applicant.
- d) Any further explanatory material useful to adequately inform the Planning Board prior to the public hearing, or as required by the Planning Board.
- e) Except in the case of Town agencies, a deposit sufficient for the cost of advertising and notification; and
- f) A certified list of abutting property owners within one hundred (100) feet of the affected property.

3.2 Notice

Planning Board shall, as required by statute, give notice of its public hearing by twice advertising in a newspaper of general circulation in the area. The Board shall also send copies of that notice to the Selectmen, Conservation Commission, Historical Commission, Town Engineer, Highway Surveyor, Tree Warden, Department of Public Works, and owners as of the preceding January first of property located in whole or in part within one hundred (100) feet of the proposed action.

3.3 Timing

The Planning Board shall hold a public hearing within forty-five (45) days of receipt of a properly filed request, and shall make a decision within sixty (60) days of that receipt, unless a longer time is agreed to by the applicant. The date and time of the public hearing shall be set outside of normal weekday work hours (8:00 AM - 5:00 PM, Monday - Friday) so as to encourage maximum citizen participation.

3.4 Tree Warden

Planning Board hearings shall be held in conjunction with those to be held by the Tree Warden acting under M.G.L. Ch. 87. Consent to an action by the Planning Board shall not be construed as inferring consent by the Tree Warden, or vice versa.

3.5 Emergency Repair

The procedures of this article shall not be required when the Tree Warden or his deputy act in an emergency in accordance with M.G.L. Ch. 87 to remove fallen trees or limbs which cause an obstruction to public travel or a dangerous situation with respect to utility lines.

3.6 Informal Filing and Review Procedures

3.61 Temporary removal of limited portions of a stone wall, to be followed by replacement of the disturbed portion within a reasonable period of time, not to exceed 90 days, at the same location with the same materials and according to the original character, shall be subject to these informal filing and review procedures. Other temporary removal shall not be entitled to these informal filing and review procedures.

3.62 The applicant shall submit a cover letter, sketch plan of the work to be done, photographs of the area for a distance of 50 feet on either side of the work site and a statement of the purpose for the temporary removal. Such purposes may include temporary removal for the purposes of utility connections or gaining temporary access, among others.

3.63 Based upon the information submitted, the Planning Board shall determine if the proposed work is of a limited and temporary nature and may vote to approve the work to be completed without further public process. The Planning Board may require sufficient bond to be posted to ensure restoration of the stone walls.

3.64 Following completion of the work and replacement of the stone wall in accordance with the Planning Board approval, the applicant shall submit a cover letter to the Planning

Board confirming completion together with dated photographs of the restored wall.

SECTION 4. DESIGN STANDARDS

4.1 Curb Cuts

Each lot fronting on a scenic road shall generally have one driveway curb cut. The paved width of a driveway for a single family home shall not exceed twelve (12) feet, or eighteen (18) feet for any multi-family dwelling. Subdivision roads and new roads for commercial properties shall be governed by the applicable Town regulations for these types of developments. The use of common driveways is encouraged to preserve and to enhance the visual appearance and rural character of scenic roads in the Town of Sudbury.

4.2 Stone Wall Removal Limitations

- a) The maximum amount of stone wall to be removed shall be the width of the pavement of the driveway or new road at the location of the stone wall plus three (3) feet on either side.
- b) Unless otherwise waived, removed stone shall be used to repair other sections of the wall within the scenic road, in accordance with the Planning Board approval.
- c) No wall shall be cut without construction of an appropriate terminus.
- d) In no case shall stones be disposed of or used for purposes other than to repair the remaining stone wall within the scenic road without the prior consent of the Planning Board.
- e) Any construction of a terminus or repair of a stone wall shall match the method of the existing construction.

4.3 Tree Removal Limitations

- a) No tree with a trunk exceeding eight (8) inches in diameter, one (1) foot above ground level, shall be cut for a driveway unless the curb cut cannot otherwise be safely located.
- b) No cluster of trees located within six (6) feet of each other, with individual trunks exceeding six (6) inches in diameter, one (1) foot above ground level, shall be cut for a driveway unless the curb cut cannot otherwise be safely located.
- c) For each tree with a trunk exceeding six (6) inches in diameter, one (1) foot above ground level, that is removed, a tree in a species, size and location, with advice from the Tree Warden and suitable to the Planning Board, shall be planted, or an equivalent payment into the town-wide tree replacement fund shall be made. This section shall not apply to projects undertaken by the Town of Sudbury.

4.4 Waivers

The Planning Board may waive the design standards, as set forth under this Section 4 herein, if it finds that the waiver is consistent with the considerations and intent of Section 5. The Planning Board shall consider public safety, sight lines, lot configuration, character of the stone wall and existing vegetation in its deliberation for the granting of a waiver.

SECTION 5. CONSIDERATIONS

In acting on applications for alterations to scenic roads, the Planning Board may take into consideration the following:

1. Preservation of natural resources;
2. Environmental and historical values;
3. Scenic and aesthetic characteristics;
4. Public safety;
5. The characteristics of local residential traffic and resident expectations;
6. Relationship of road design to the standards of the Planning Board's subdivisions regulations and of the Massachusetts D.P.W.;
7. Compensatory actions proposed, such as replacement trees or walls;
8. Functional urgency of the repair, maintenance, reconstruction, or paving;
9. Additional evidence contributed by abutters, Town agencies, and other interested parties;
10. Other sound planning consideration.

SECTION 6. DECISION AND REPORTING

The Planning Board shall within sixty (60) days of receipt of a properly filed request submit a written determination of consent or denial to the applicant and a copy to the Board of Selectmen, Historical Commission, Conservation Commission and the Town Clerk. A report of denial shall include an indication of what modifications, if any, would lead to consent. The Planning Board may require sufficient bond to be posted to ensure restoration of the site.

SECTION 7. ENFORCEMENT

7.1 Filing and Restoration Requirement

Cutting or removal of trees, or the tearing down or destruction of stone walls, or portions thereof, within the layout of a designated scenic road, without prior approval from the Planning Board and in violation of this bylaw will necessitate an immediate filing with the Planning Board, as detailed above, and the area affected shall be subject to restoration of the features, as specified by the Planning Board. This restoration shall consist of replacing/repairing the stone wall as necessary and replacing the trees cut on a square-inch per square-inch basis at locations specified by the Planning Board. A square-inch per square-inch replacement means that the combined area of the replacement trees measured 1 foot above ground level must equal the total area of the original tree trunk as measured 1 foot above ground level.

7.2 Compliance

Failure to comply with the duly issued decision of the Planning Board shall be subject to restoration as detailed above and other remedial measures the Planning Board deems necessary.

7.3 Penalty

Cutting or removal of trees or the tearing down or destruction of stone walls within the layout of the scenic road in violation of this Section may be subject to a fine of not more than three hundred dollars (\$300.00), as set forth under the Scenic Road Act, MGL Ch. 40, Sec. 15C. Each day that a violation continues shall constitute a separate offense, until an application is made to the Planning Board, with continued progression toward a good faith effort for restoration. In addition, the Planning Board and Building Inspector may withhold or revoke any current or pending permit on the property associated with said violation.

7.4 Enforcement Authority

The Planning Board, the Building Inspector and the Tree Warden shall have the authority to enforce the provisions of this section, as applicable.

TOWN PROPERTY

SECTION 1. DISPOSAL OF TOWN-OWNED PERSONAL PROPERTY. Any board or officer in charge of a department of the Town may, with the approval of the Town Manager for property having an aggregate value of less than \$5,000 and with the approval of the Board of Selectmen for property having an aggregate value of \$5,000 or more, transfer to another Town department or transfer by sale any personal property of the Town within the possession or control of the department which has become obsolete or is not required for further use by the department or any other Town department; provided, however, that in the case of transfer by sale of such property which has, in the opinion of the Town Manager, an aggregate value in excess of \$2,000, or in the case of transfer by sale of personal property (regardless of its value) which, in the opinion of the Board of Selectmen, the Historical Commission and the Committee for the Preservation and Management of Town Documents and is contained in a list maintained by them, is historically significant to the Town, the sale shall be by public bid in a manner prescribed by said Board of Selectmen; and provided further that in the case of transfer by sale of such historically significant property the Board of Selectmen shall send advance written notice of such transfer by sale and such public bid to the Historical Commission and to the Committee for the Preservation and Management of Town Documents. Such notice shall contain a description of the property to be sold sufficient to identify it, shall state the date, time and place appointed for the sale thereof and the terms and conditions of such sale. Failure to send or post a notice as herein provided, or any insufficiency in the notice sent or posted, shall not invalidate the title to any property sold hereunder provided the deed is approved by the Selectmen. At such sale or any adjournment thereof, the Selectmen may reject any and all bids at such sale or any adjournment thereof, if, in their opinion, no bid is made which approximates the fair value of the property. No bid is accepted until the deed, drawn in accordance therewith, has been approved by the Selectmen and accepted by the successful bidder.

The Selectmen shall include, as a part of their report in the Annual Town Report, a listing, by parcel, of all property sold under this bylaw, which listing shall include the date of the sale, the name of the purchaser, a general description of the property sold and the sales price.

This bylaw shall not be construed to prevent the Town of Sudbury from disposing of such property under the provisions of General Laws, Chapter 40, Section 3.

SECTION 3. The Selectmen may accept, from time to time, in behalf of the Town of Sudbury, gifts of land and interest in land for the following purposes: walkway and sidewalk purposes, storm drainage and above and below ground general drainage purposes, for slope maintenance purposes, for the purposes of rounding street corners and for any purpose approved by the Planning Board and shown on a plan approved by the Planning Board under General Laws, Chapter 41, Sections 81K to 81Y, inclusive.

LICENSES AND PERMITS SUBJECT TO UNPAID TAXES AND FEES

SECTION 1. The Tax Collector or other municipal official responsible for records of all municipal taxes, assessments, betterments and other municipal charges, hereinafter referred to as the Tax Collector, shall annually furnish to each department, board, commission or division, hereinafter referred to as the Licensing Authority, that issue licenses or permits including renewals and transfers, a list of any person, corporation or business enterprise, hereinafter referred to as the Party, that has neglected or refused to pay any local taxes, fees, assessments, betterments or other municipal charges for not less than a twelve month period, and that such Party has not filed in good faith a pending application for an abatement of such tax or a pending petition before the appellate tax board.

SECTION 2. The Licensing Authority may deny, revoke or suspend any license or permit, including renewals and transfers of any Party whose name appears on said list furnished to the Licensing Authority from the Tax Collector; provided, however, that written notice is given to the Party and the Tax Collector, as required by applicable provisions of law and the Party is given a hearing, to be held not earlier than fourteen days after said notice. Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any Party. The Tax Collector shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the Licensing Authority with respect to such license denial, revocation or suspension shall be made only for the purposes of such proceeding and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be reissued or renewed until the Licensing Authority receives a certificate issued by the Tax Collector that the party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the Municipality as of the date of issuance of said certificate.

SECTION 3. Any party shall be given an opportunity to enter into a payment agreement, thereby allowing the licensing authority to issue a certificate indicating said limitations to the license or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

SECTION 4. The Board of Selectmen may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of Chapter two hundred and sixty-eight in the business or activity conducted in or on said property.

SECTION 1. DEFINITIONS & APPLICABILITY.

This Bylaw is enacted pursuant to General Laws, Chapter 166, Sections 21, 22, 22C and 24 and shall be construed in a manner consistent with the provisions therein and the definitions in Section 22A of Chapter 166. This Bylaw does not apply to transmission lines carrying electric power in excess of twenty thousand volts, phase-to-phase.

SECTION 2. RULES & REGULATIONS.

- A. The Board of Selectmen shall adopt, and may from time to time amend, Rules and Regulations to effectuate the purposes of the Bylaw, which shall be consistent with this Bylaw and applicable provisions of the General Laws, and shall file a copy of said Rules and Regulations with the Town Clerk. Such rules shall prescribe, at a minimum, safety, environmental and aesthetic standards for the placement and numbers of poles, wires and associated overhead structures.
- B. The Selectmen may grant a waiver from their Rules and Regulations, on a case-by-case basis, only if such waiver would enhance the public safety, health, convenience or welfare.

SECTION 3. REGULATION OF EXISTING AND NEW CONSTRUCTION.

- A. No Utility shall install or construct, except by way of replacement or upgrading of existing facilities, any poles and overhead wires and associated overhead structures upon, along or across any public way within the Town.

ARTICLE XXII

WETLANDS ADMINISTRATION

SECTION 1. PURPOSE

The purpose of this bylaw is to maintain the quality of surface water, the quality and level of the ground water table and water recharge areas for existing, or potential water supplies; to protect the public health and safety; to protect persons and property against the hazards of flood water inundation; to protect the community against the costs which may be incurred when unsuitable development occurs in wetland resource areas; and to provide for the reasonable protection and conservation of certain irreplaceable natural features, resources and amenities for the benefit and welfare of the present and future inhabitants of the Town of Sudbury.

Accordingly, this bylaw protects the wetlands, related water resources, and certain adjoining land areas in the Town by providing for prior review and control of activities deemed to have a significant or cumulative adverse effect upon wetlands values, including but not limited to the following: protection of public and private water supply, protection of ground water, flood control, erosion and sedimentation control, storm damage prevention, avoidance of water and soil pollution, protection of fisheries, wildlife habitat, rare species habitat including rare plant species, agriculture, aqua culture, and recreation values, deemed important to the community (collectively, the "wetlands values protected by this bylaw".) This bylaw is intended to utilize the Home Rule authority of this municipality to protect additional resource areas, for additional values, with additional standards and procedures to augment those of the Wetlands Protection Act, G.L. Ch. 131, §40 and Regulations thereunder, 310 CMR 10.00.

SECTION 2. JURISDICTION

In accordance with this purpose no person shall remove, fill, dredge, build upon, degrade, pollute, discharge into, or otherwise alter the following resource areas: any freshwater wetland; marshes; wet meadows; bogs; swamps; vernal pools; banks; reservoirs; lakes; ponds; rivers; streams; creeks; lands under waterbodies; lands subject to flooding by ground water, surface water, or storm flow (collectively the "wetland resource areas protected by this bylaw"); and certain adjacent upland areas (collectively "the adjacent upland resource areas protected by this Bylaw") as described in Section 9. Definitions, without a permit from the Conservation Commission, or as provided by this Bylaw.

SECTION 3. CONDITIONAL EXCEPTIONS

The application and permit required by this bylaw shall not be required for maintaining, repairing, replacing or enlarging an existing and lawfully located single-family residential structure or appurtenance thereto unless such filing is otherwise required by state or federal law.

The application and permit required by this bylaw shall not be required for maintaining, repairing, or replacing,

but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, telephone, telegraph, or other telecommunication services, provided that written notice has been given to the Commission prior to commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

The application and permit required by this bylaw shall not be required for work performed for normal maintenance or improvement of land which is lawfully in agricultural use at the time the work takes place, provided that written notice has been given to the Commission prior to the commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

The application and permit required by this bylaw shall not be required for emergency projects necessary for the protection of the health and safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof; provided that advance notice, oral or written, has been given to the Commission prior to commencement of work or within 24 hours after commencement; provided that the Commission or its agent certifies the work as an emergency project; provided that the work is performed only for the time and place certified by the Commission for the limited purposes necessary to abate the emergency; and provided that within 21 days of commencement of an emergency project a permit application shall be filed with the Commission for review as provided by this bylaw. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

Other than stated in this section, the exceptions provided in the Wetlands Protection Act, G.L. Ch 131, §40, and Regulations, 310 CMR 10.00, shall not apply under this bylaw.

SECTION 4. APPLICATIONS FOR PERMITS AND REQUESTS FOR DETERMINATION

Written application shall be filed with the Commission to perform activities affecting all wetland and adjacent upland resource areas protected by this bylaw. The permit application shall include such information and plans as are deemed necessary by the Commission as specified in the bylaw regulations to describe proposed activities and their effects on the resource areas protected by this bylaw. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw.

Where this bylaw and the Wetlands Protection Act G.L. Ch. 131, §40, and Regulations, 310 CMR 10.00 have concurrent jurisdiction the Commission shall accept the Notice of Intent and plans filed under the Wetlands Protection Act as the permit application and plans under this bylaw for those parts of the project where precise overlap exists, provided all pertinent areas and activities subject to the jurisdiction of this bylaw and all information required by bylaw regulations are addressed.

Any person desiring to know whether or not a proposed activity or an area is subject to this bylaw may in writing request a determination from the Commission. Such a Request for Determination (RFD) shall include information and plans as are deemed necessary by the Commission.

At the time of the permit application the applicant shall pay a filing fee according to the following schedule:

- | | | |
|-----|--|--|
| (a) | Single minor project -- i.e., house addition, tennis court, swimming pool, or other accessory residential activity | \$25 per project |
| (b) | New single family dwelling | \$250 |
| (c) | Subdivision--road and utilities only | \$500 plus \$2 per foot of road sideline within a resource area |
| (d) | Drainage, detention/retention basins | \$500 plus \$2 per 100 cubic feet of basin within a resource area |
| (e) | Multiple Dwelling Structure | \$500 plus \$100/unit, all or part of which is within a resource area |
| (f) | Commercial and Industrial Projects | \$500 plus \$0.50 per square foot of disturbance in an undeveloped resource area |
| (g) | Application filed after Enforcement Order | double the above fee |
| (h) | Determination of Applicability | no charge |
| (i) | Remediation of a Contaminated Site or Enhancement of a Degraded Resource (excluding violations) | \$25 per project |

This fee is not refundable. The fee is in addition to that required by the Wetlands Protection Act., G.L. Ch. 131, §40, and Regulations, 310 CMR 10.00. Town, county, state, and federal projects are exempt from the filing fee. The fee for an application for a modification of a permit will be the excess of the fee for the modified project as calculated above over the fee paid for the original permit but in no instance will it be less than \$25.

Upon receipt of a permit application or RFD, or at any point in its deliberations, the Commission may deem it necessary to obtain expert engineering or other outside consultant services in order to reach a final decision on the application. The specific consultant services may include but are not limited to resource area survey and delineation, analysis of resource area values, including wildlife habitat evaluations, hydrogeologic and drainage analysis, and environmental or land use law.

In such instances the Commission shall notify the applicant of this need and the estimated costs and provide the opportunity for the application to be amended or withdrawn. Should an applicant choose to proceed the Commission shall require the applicant to pay the reasonable costs and expenses borne by the Commission for

these consulting services as listed below. This fee is called the consultant fee. The exercise of discretion by the Commission in making its determination to require the payment of a consultant fee shall be based upon its reasonable finding that additional information acquirable only through outside consultants would be necessary for the making of an objective decision.

The Commission may require the payment of the consultant fee at any point in its deliberations prior to a final decision. The applicant shall pay the fee to be put into a consultant services account of the Commission which may be drawn upon by the Commission for specific consultant services approved by the Commission at one of its public meetings.

The Commission shall return any unused portion of the consultant fee to the applicant.

The maximum consultant fee charged to reimburse the Commission for reasonable costs and expenses shall be according to the following schedule:

<u>Project Cost</u>	<u>Maximum Fee</u>
UP TO \$100,000	NO FEE
\$100,001 - \$500,000	\$2,500
\$500,001 - \$1,000,000	\$5,000
\$1,000,001 - \$1,500,000	\$7,500
\$1,500,001 - \$2,000,000	\$10,000

Each additional \$500,000 project cost increment (over \$2,000,000) shall be charged at an additional \$2,500 maximum fee per increment.

The project cost means the estimated, entire cost of the project including, but not limited to, building construction, site preparation, landscaping, and all site improvements. The consultant fee shall be paid pro rata for that portion of the project cost applicable to those activities affecting all resource areas protected by this bylaw. The project shall not be segmented to avoid being subject to the consultant fee. The applicant shall submit estimated project costs at the Commission's request, but the lack of such estimated project costs shall not avoid the payment of the consultant fee.

All fees collected pursuant to this bylaw shall be deposited in the Conservation Commission Revolving Fund, established pursuant to G.L. C. 44, Section 53E1/2.

SECTION 5. NOTICE AND HEARINGS

Any person filing a permit application or a RFD with the Commission, except an application for a minor project (such as a house addition, tennis court, swimming pool, or other accessory residential activity) shall within seven (7) days after such person is informed of the date and time of the hearing thereon, give written notice by certified mail (return receipt requested) or hand delivered, to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, including any in another municipality or across a body of water. The notice to abutters shall have enclosed a copy of the permit application or request, with plans, or shall state where copies may be examined and obtained by abutters. An affidavit of the person providing such notice, with a copy of

the notice mailed or delivered, shall be filed with the Commission. When a person requesting a determination is other than the owner, the request, the notice of the hearing, and the determination itself shall be sent by the Commission to the owner as well as to the person making the request.

The Commission shall conduct a public hearing on any permit application or RFD, with written notice given at the expense of the applicant, five business days prior to the hearing, in a newspaper of general circulation in the municipality.

The Commission shall commence the public hearing within 21 days from receipt of a completed permit application or RFD unless an extension is authorized in writing by the applicant.

The Commission shall issue its determination in writing within 7 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.

The Commission shall issue its permit in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.

The Commission shall combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act, G.L. Ch. 131, §40, and Regulations, 310 CMR 10.00, in instances of concurrent jurisdiction.

With the consent of the applicant the Commission shall have authority to continue the hearing to a certain date announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information from the applicant or others deemed necessary by the Commission in its discretion, or comments and recommendations of the boards and officials listed in §6. In the event the applicant objects to a continuance or postponement, the hearing shall be closed and the Commission shall take action on such information as is available.

SECTION 6. COORDINATION WITH OTHER BOARDS

As appropriate the Conservation Commission may choose to solicit the advice and opinions of other Town boards and officials in the course of its deliberations. Town boards and officials shall be entitled to file written comments and recommendations with the Commission at or before the public hearing. The Commission shall take any such comments and recommendations into account but shall not be bound by them. The applicant shall have the right to receive any comments and recommendations, and to respond to them at a hearing of the Commission, prior to final action.

SECTION 7. PERMITS AND CONDITIONS

The Commission, after a public hearing, shall issue or deny a permit for the activities requested within 21 days of the close of the hearing. If it issues a permit, the Commission shall impose such conditions as it deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions. The Commission shall take into account the cumulative adverse effects of loss, degradation, isolation, and replication of protected resource areas throughout the community and the watershed, resulting from past activities, permitted and exempt, and foreseeable future activities.

The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the resource area values protected by this bylaw; and where no conditions are adequate to protect those values.

Lands within 100 feet of wetlands resource areas and within 200 feet of perennial streams and rivers are presumed important to the protection of these resources because activities undertaken in close proximity to wetlands and other resources have a high likelihood of adverse impact upon the wetland or other resource, either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of the activities. These adverse impacts from construction and use can include, without limitation, erosion, siltation, loss of groundwater recharge, poor water quality, and harm to wildlife habitat. For this reason these adjacent upland areas are a valuable resource under this Bylaw. The Commission therefore may require that the applicant maintain a strip of continuous, undisturbed vegetative cover in part or all of the adjacent upland resource area and set other conditions on this area, unless the applicant provides evidence deemed sufficient by the Commission that the area or part of it may be disturbed without harm to the values protected by the law.

A permit shall expire three years from the date of issuance. Any permit shall be renewed for additional one year periods if a request for renewal is received in writing by the Commission at least thirty (30) days prior to expiration of the permit, and providing the Commission finds that (1) good cause has been shown for such extension and (2) such extension will not have significant adverse effects, immediate or cumulative, upon any of the wetland values protected by this bylaw. Notwithstanding the above, a permit may contain requirements which shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place, and shall apply to all owners of the land.

The Commission shall, after receiving a written request for a Certificate of Compliance, inspect the resource area where any activity governed by a permit issued under this bylaw was carried out. If such activity has been completed in accordance with said permit, the Commission shall within twenty-one (21) days after such a request issue a Certificate of Compliance evidencing such determination, which may in an appropriate case be combined with a Certificate of Compliance issued under the Wetlands Protection Act. A Certificate of

Compliance may specify conditions in the permit which will continue to apply for a fixed number of years or permanently and shall apply to all owners of the land.

Violations of this bylaw, submission of false or erroneous information, or new information that substantially alters the likely impact of the project on wetlands resources or values may cause the Commission to revoke or modify a permit or determination issued under this bylaw after notice to the holder of the permit or determination, notice to the public, abutters, and town boards, pursuant to §5 and §6, and a public hearing.

The Commission in an appropriate case may combine the permit or determination issued under this bylaw with the Order of Conditions or Determination of Applicability issued under the Wetlands Protection Act, G.L. Ch. 131, §40, and Regulations, 310 CMR 10.00.

No work proposed in any permit application shall be undertaken until the permit issued by the Commission with respect to such work has been recorded in the Registry of Deeds or, if the land affected is registered land, in the registry section of the Land Court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been recorded. Such certification shall include the book and page or instrument number and date.

SECTION 8. REGULATIONS

After the public notice and public hearing, the Commission shall promulgate reasonable rules and regulations to effectuate the purposes of this bylaw. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw.

At a minimum these regulations shall define key terms in this bylaw not inconsistent with the bylaw and procedures governing the amount and filing of fees.

SECTION 9. DEFINITIONS

The following definitions shall apply in the interpretation and implementation of this bylaw.

The term "bank" shall include the land area which normally abuts and confines a water body; the lower boundary being the mean annual low flow level, and the upper boundary being the first observable break in the slope or the mean annual flood level, whichever is higher.

The term "adjacent upland resource area" shall include all lands within 100 feet of wetland resource areas as enumerated in Section 2, except for perennial streams and rivers for which the adjacent upland resource area extends for 200 feet from the top of bank, and except for vernal pools, ponds under 10,000 square feet in area, and isolated land subject to flooding for which special adjacent upland resource area definitions are described below.

The term "vernal pool" shall include, in addition to that already defined under the Wetlands Protection Act, G.L. Ch. 131, Sec. 40, and Regulations thereunder, 310 CMR 10.00, any confined basin or depression not occurring in existing lawns, gardens, landscaped areas, or driveways which, at least in most years, holds water for a minimum of two continuous months during the spring and/or summer, contains at least 200 cubic feet of water at some time during most years, is free of adult predatory fish populations, and provides essential breeding and rearing habitat functions for amphibian, reptile, or other vernal pool community species, regardless of whether the site has been certified by the Massachusetts Division of Wildlife and Fisheries. The presumption of essential habitat value may be overcome by the presentation of credible evidence which in the judgement of the Commission demonstrates that the basin or depression does not provide the habitat functions as specified in the Bylaw regulations. The adjacent upland resource area for vernal pools shall extend 100 feet from the mean annual high-water line defining the depression, or one-half of the distance between the vernal pool and any existing house foundation, whichever is smaller. In either case the adjacent upland resource area for vernal pools shall not extend over existing lawns, gardens, landscaped or developed areas.

The term "existing" in the determination of adjacent upland resource area shall mean existing as of the date this bylaw becomes effective.

The term "isolated land subject to flooding" shall include an area, depression, or basin that holds at minimum one-eighth acre foot of water and at least six inches of standing water once a year. Not included are swimming pools, artificially lined ponds or pools, or constructed wastewater lagoons. The adjacent upland resource area for isolated land subject to flooding shall be 25 feet.

The term "pond" shall include any open body of fresh water with a surface area observed or recorded within the last ten years of at least 5,000 square feet. Ponds shall contain standing water except for periods of extended drought. Not included are swimming pools, artificially lined ponds or pools, or constructed wastewater lagoons. The adjacent upland resource area for ponds under 10,000 square feet shall extend 100 feet from mean annual high-water or one-half the distance from existing house foundation, whichever is smaller, but in no case shall the adjacent upland resource area include existing lawns, gardens, landscaped or developed areas.

The term "rare species" shall include, without limitation, all vertebrate and invertebrate animal and plant species listed as endangered, threatened, or of special concern by the Massachusetts Division of Fisheries and Wildlife, regardless of whether the site in which they occur has been previously identified by the Division.

The term "person" shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof to the extent subject to town bylaws, administrative agency, public or quasi-public corporation or body, this municipality, and any other legal entity, its legal representatives, agents, or assigns.

The term "alter" shall include, without limitation, the following activities when undertaken to, upon, within or affecting resource areas protected by this bylaw:

- (a) Removal, excavation, or dredging of soil, sand, gravel, or aggregate materials of any kind;

- (b) Changing of pre-existing drainage characteristics, flushing characteristics, sedimentation patterns, flow patterns, or flood retention characteristics;
- (c) Drainage, or lowering of water level or water table;
- (d) Dumping, discharging, or filling with any material which may degrade water quality;
- (e) Placing of fill, or removal of material, which would alter elevation;
- (f) Driving of piles, erection, or repair of buildings, or structures of any kind;
- (g) Placing of obstructions or objects in water;
- (h) Destruction of plant life including cutting of trees;
- (i) Changing temperature, biochemical oxygen demand, or other physical, biological, or chemical characteristics of any waters;
- (j) Any activities, changes, or work which may cause or tend to contribute to pollution of any body of water or ground water.
- (k) Application of pesticides or herbicides;
- (l) Incremental activities which have, or may have, a cumulative adverse impact on the resource areas protected by this bylaw.

Except as otherwise provided in this bylaw or in regulations of the Commission, the definitions of terms in this bylaw shall be as set forth in the Wetlands Protection Act, G.L. Ch. 131, §40, and Regulations, 310 CMR 10.00.

SECTION 10. SECURITY

As part of a permit issued under this bylaw, in addition to any security required by any other municipal or state board, agency, or official, the Commission may require that the performance and observance of the conditions imposed thereunder (including conditions requiring mitigation work) be secured wholly or in part by a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a Certificate of Compliance for work performed pursuant to the permit.

SECTION 11. ENFORCEMENT

No person shall remove, fill, dredge, build upon, degrade, or otherwise alter resource areas protected by this bylaw, or cause, suffer, or allow such activity, or leave in place unauthorized fill, or otherwise fail to restore illegally altered land to its original condition, or fail to comply with a permit or an enforcement order issued pursuant to this bylaw.

Where the Commission deems it necessary to carry out its duties under this bylaw by entering privately owned land it shall do so with the authority of the property owner and shall be subject to the limitations imposed by the applicable federal and state laws. With the authority of the property owner or his/her designee the Commission may make or cause to be made such examinations, surveys, or sampling as the Commission deems necessary.

The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by violation notices, administrative orders, and civil and criminal court actions. Any person who violates provisions of this bylaw may be ordered to restore the property to its original condition and take other action deemed necessary to remedy such violations, or may be fined, or both.

Municipal boards and officers, including any police officer or other officer having police powers, shall have authority to assist the Commission in enforcement.

Any person who violates any provision of this bylaw, or regulations, permits, or administrative orders issued thereunder, shall be served with a Notice of Violation enumerating the alleged violations. If after ten business days the Commission has not received what it deems to be either (a) sufficient evidence demonstrating that no violations have occurred, or (b) a filing that will remove the violations along with evidence that sufficient progress is being made to correct the violations then the violator shall be punished by a fine of \$100 per offense. Beginning ten business days after the date of the Notice of Violation each day or portion thereof during which a violation continues, or unauthorized fill or other alteration remains in place, shall constitute a separate offense, and each provision of the bylaw, regulations, permits, or administrative orders violated shall constitute a separate offense.

As an alternative to criminal prosecution in a specific case, the Commission may issue citations under the non-criminal disposition procedure set forth in G.L. Ch. 40, §21D.

SECTION 12. BURDEN OF PROOF

The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the permit application will not have significant or cumulative negative effect upon the resource area values protected by this bylaw. Failure to provide evidence that in the judgment of the Commission is adequate to support this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

SECTION 13. APPEALS

A decision of the Commission shall be reviewable in the Superior Court in accordance with M.G.L. C. 249, §4.

SECTION 14. RELATION TO THE WETLANDS PROTECTION ACT

This bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule statutes, independent of the Wetlands Protection Act, G.L. Ch. 131, §40, and Regulations, 310 CMR 10.00, thereunder.

SECTION 15. SEVERABILITY

The invalidity of any section or provision or phrase of this bylaw shall not invalidate any other section or provision or phrase thereof, nor shall it invalidate any permit or determination which previously has been issued.

UPPER HOP BROOK PROTECTION

SECTION 1. PURPOSE

The purpose of this Hop Brook Protection (HBP) Bylaw is to provide for the safe recreational enjoyment of the Upper Hop Brook Ponds while at the same time prohibiting those motorized activities which conflict with and create safety hazards for other less intrusive and benign recreational uses such as walking, canoeing, fishing, ice skating, and cross country skiing by adults and children, or activities which are incompatible with efforts to restore and maintain a healthy ecological balance in the ponds.

SECTION 2. LOCATION

The Upper Hop Brook Ponds are hereby defined as those ponds on Hop Brook upstream of the Peakham Road bridge which is adjacent to the Haynes Meadow Conservation Area.

The Town Manager shall establish and appoint a committee to be known as the Capital Improvement Planning Committee, composed of three members appointed by the Town Manager, three members appointed by the Selectmen, and one member appointed by the Finance Committee. The Finance Director shall be an ex officio member without the right to vote. The Committee shall choose its own officers annually. The Committee shall study proposed capital projects and improvements involving major tangible assets and projects which 1) have a useful life of at least five years; and 2) have a single year cost of \$10,000 or a multi-year cost of \$100,000 or more. All officers, boards and committees, including the Selectmen and Sudbury Public School Committee, shall by October 1 of each year, give to the Committee, on forms prepared by it, information concerning all anticipated projects requiring Town Meeting action for the next six years. The Committee shall consider the relative need, impact, timing, and cost of these expenditures and the effect each will have on the financial position of the Town. The Committee shall inventory the fixed assets of the Town with the assistance of Town staff, prioritize the capital requests submitted by Town boards and departments, and develop a financing strategy for implementation.

SECTION 3. The Committee shall prepare an annual report recommending a Capital Improvement Budget for the next fiscal year, and a Capital Improvement Program for the following five years. The report shall be submitted to the Finance Committee for its consideration. The Committee shall submit the capital budget to the Annual Town Meeting for adoption by the Town.

Such Capital Improvement Budget, after its adoption, shall permit the expenditure on projects included therein of sums from departmental budgets for surveys, architectural or engineering advice, options or appraisals; but no such expenditure shall be incurred on projects which have not been so approved by the Town through the appropriation of sums in the current year or in prior years, or for preliminary planning for projects to be undertaken more than five years in the future.

SECTION 5. The Committee's report shall be published and made available in a manner consistent with the distribution of the Town Meeting report. The Committee shall deposit its original report with the Town Clerk.

SECTION 6. The actions of the Town under Article 14 of the September 14, 1986 Town Meeting are rescinded.

ARTICLE XXVI

PUBLIC WAY ACCESS PERMIT

- A. **PURPOSE:** It is the purpose of this Bylaw to establish requirements for the review of applications for projects which alter public ways in the Town of Sudbury, and to establish procedures for the predictable, timely, and uniform review of such applications so as to ensure public safety. These procedures apply to projects which propose physical modification to existing access to a public way and to projects which propose the construction of new or modification of existing access which serves a building or expansion of a facility or use that generates a substantial increase in or impacts traffic on a public way. Such procedures shall not be construed to apply to State numbered ways according to Massachusetts General Laws, Chapter 81, Section 21, except those State numbered ways that are maintained by the Town of Sudbury.

- B. **APPLICABILITY:** Projects subject to this Bylaw shall include the following: (1) “modification to existing access to a public way” shall mean any alteration of the physical or traffic operational features of the access. (2) “substantial increase or impact on traffic” shall mean that generated by a facility which meets or exceeds any of the following thresholds: (a) Residential, other than single family, including hotels, motels, lodging houses and elderly housing facilities: any increase to the existing certificate of occupancy of more than 25 persons; (b) Subdivisions: 5 lots or greater; (c) Non-residential: 250 trips per day as defined in the ITE Trip Generation Manual, 4th Ed.; (d) Non-residential: 25 new parking places; (e) Non-residential: new construction of 5,000 square feet or more.

- C. **SUBMITTAL OF PERMIT APPLICATION:** The Planning Board shall be responsible for the issuance and/or denial of public way access permits for residential uses. The Board of Selectmen shall be responsible for the issuance and/or denial of public way access permits for all other uses. A permit applicant shall request issuance of a permit on a standard form, supplied by the Planning Board or the Town Clerk. A permit application shall be deemed complete only after the following items have been submitted: (1) standard application form; (2) evidence of compliance with the Massachusetts Environmental Policy Act by the Executive Office of Environmental Affairs of the Commonwealth, if determined to be necessary; (3) engineering plans acceptable to the permitting board, where required.

- D. **PROCEDURES:**
 - (1) Any application for a public way access permit required under this Bylaw shall be transmitted by the permitting Board within five (5) working days to the DPW Director for review and comment. The DPW Director shall, within thirty-five (35) days of receipt of the application, report to the Board in writing its findings as to the safety of the proposed activity and, in the event of a finding that the proposed activity would be unsafe, its recommendations, if possible, for the adjustment thereof. Failure by the DPW Director to respond within thirty-

five days of the receipt of the application shall be deemed lack of opposition thereto.

- (2) Where an application is deemed complete, the Board shall render a decision within sixty (60) days of filing of the application. Such decision shall be filed with the Town Clerk.

Where the Board denies said application, it shall state specific findings for the denial of its decision.

E. Powers of the Board of Selectmen and Planning Board

- (1) The Board may deny the issuance of a public way access permit due to the failure of the applicant to provide sufficient roadway improvements to facilitate safe and efficient roadway operations, or when the construction and use of the access applied for would create a condition that is unsafe or endangers the public safety and welfare.
- (2) The Board may, in the alternative, impose conditions upon an access permit to facilitate safe and efficient pedestrian and traffic operations within the access and on adjacent public ways, to mitigate traffic impacts, to maintain level of service of an adjacent public way after projected increases in traffic from the proposed project, and to avoid, or minimize environmental damage during the construction period and throughout the term of the permit. Such conditions may include, but not be limited to: (a) necessary limitations on turning movements; (b) restrictions on the number of access points to serve the parcel; (c) vehicle trip reduction techniques; (d) necessary and reasonable efforts to maintain existing levels of service; (e) design and construction of necessary public way and pedestrian improvements by permittee; (f) reimbursement by the permittee of costs to the Town for inspection of the public way improvement work.
- (3) Variance: Where site or access conditions do not allow the proposed access to meet recognized design standards (hereinafter governed by the Rules and Regulations of the Planning Board Governing the Subdivision of Land, and other standards utilized by the Massachusetts Highway Department), the Board may vary application of the design standards on a case by case basis, upon the finding that there are no reasonable available alternatives which would allow access in compliance with these standards. In this case, the applicant must commit to provide measures to mitigate impacts to traffic and operational safety which the Board determines are necessary.

F. Access Permit Provisions

- (1) Construction under the terms of a public way access permit shall be completed within one year of the date of issue, unless otherwise stated in the permit. The Board may extend the permit for an additional year, at the written request of the permittee, filed prior to the expiration of the original construction period.
- (2) When the Board determines that a permit condition has not been complied with, it may suspend or revoke a public way access permit if, after notice to the permittee of the alleged

noncompliance, twenty-four hours have elapsed without compliance.

- (3) The Board may require a performance bond to be posted by the permittee in an amount not to exceed the estimated cost of the work, as determined by the Director of Public Works. The performance bond shall be posted prior to the issuance of the permit.
- (4) The Board may issue written orders or regulations to carry out or enforce the provisions of this Bylaw.

ARTICLE XXVII
IN-GROUND IRRIGATION SYSTEMS

PURPOSE: It is the purpose of this bylaw to establish requirements for the installation of in-ground irrigation systems on residential properties for the protection of the quality and quantity of water supplied by the Sudbury Water District.

APPLICABILITY: All in-ground irrigation systems serving residential uses installed after the effective date of this bylaw will be required to comply with the following:

1. Installation of new in-ground irrigation systems and expansion of existing systems will be permitted only when the source of water supply is a private well owned and under the control of the property owner or a legally created organization of the owners of property using the well.
2. All wells installed for the purposes of this bylaw shall be subject to the regulations of the Sudbury Board of Health. All wells shall be tested for coliform bacteria and shall require treatment if such tests indicate the presence of coliform.
3. Installation and continued operation of such systems will be in accordance with the requirements herein:
 - a. Private wells for irrigation purposes shall not be located within one hundred (100) feet of a sewage disposal system, within one hundred (100) feet of an existing potable water supply well and within one hundred (100) feet of a wetland or vernal pool. Lessor setbacks to sewage disposal systems may be approved by the Board of Health.
 - b. All wells shall be dug or drilled to a minimum depth of 100 feet, unless it is demonstrated through hydrogeological analysis that the cone of influence of the well at its maximum pumping capacity does not intercept any surface water resource.
 - c. There will be no connection between the private water supply and the municipal water service. Separation using valves or removable sections of pipe is prohibited.
 - d. Discharge of water from the private water supply will be through sub-surface sprinkler heads that rise when activated by water pressure. Water from this source will not be available through sill cocks, garden hoses or any other points.
 - e. The purpose of the private water supply is limited to irrigation of lawn and plants, and is not to be used for washing automobiles, filling swimming pools or as a potable water supply.
4. Irrigation systems sourced by private water supplies and operated as described herein shall not be limited to specific hours of operation nor odd/even days of use if the Town declares a water emergency.
5. All irrigation systems shall utilize moisture sensors.

6. An Integrated Pest Management Plan shall be compiled and submitted with an application to install an in-ground irrigation system. The plan shall encourage minimal use of fertilizers and pesticides by use of non-chemical methods to control pests, such as by the use of indigenous species of plants.
7. Sellers of property covered by these regulations are responsible to inform the purchaser of these requirements in any purchase and sale agreement.
8. A permit to install a new in-ground irrigation system shall be required from the Board of Health and fees for review and inspection shall be established. All other state, federal or local approvals shall be required where necessary.

Exceptions: In-ground irrigation systems installed on land used primarily and directly for the raising of fruits, vegetables, berries, nuts and other foods for human consumption, feed for animals, flowers, trees, nursery or greenhouse products, and ornamental plants and shrubs; or on land to be used in a related manner which is incidental thereto and represents a customary and necessary use in raising such products.

Article XXVIII
**DEMOLITION DELAY OF HISTORICALLY SIGNIFICANT BUILDINGS,
STRUCTURES OR SITES**

SECTION 1. INTENT AND PURPOSE

This Bylaw is adopted for the purpose of protecting the historic and aesthetic qualities of the Town of Sudbury by preserving, rehabilitating or restoring, whenever possible, buildings, structures or archeology sites which constitute or reflect distinctive features of the architectural or historic resources of the Town, thereby promoting the public welfare and preserving the cultural heritage and character of the Town of Sudbury.

The intent of this Bylaw is to provide an opportunity to develop preservation solutions for properties threatened with demolition; and to allow the owner, the Sudbury Historical Commission and other appropriate Town departments time to find grants or some person or group willing to purchase, preserve, rehabilitate or restore the building or structure.

SECTION 2. DEFINITIONS

For the purposes of this Bylaw the following words and phrases have the following meanings:

SHC – the Sudbury Historical Commission

Demolition Permit – the permit issued by the Building Inspector as required by the state building code for the demolition, partial demolition or removal of a building or structure.

Historically Significant Building, Structure or Archeology Site - one which is (1) importantly associated with one or more historic persons or events, or with the architectural, cultural, political, economic or social history of the Town, the Commonwealth of Massachusetts or the United States of America; or (2) is historically or architecturally important by reason of period, style, method of building construction or association with a particular architect or builder, either by itself or in the context of a group of buildings or structures.

SECTION 3. REGULATED BUILDINGS AND STRUCTURES

The provisions of this Bylaw shall apply only to the following buildings or portion thereof or structures: (1) a building or portion thereof, structure or archeology site listed on the National Register of Historic Places or the State Register of Historic Places, or the subject of a pending application or listing on either of said Registers; or (2) a building or portion thereof, structure or archeology site located within 200 feet of the boundary line of any federal, state or local historic district; or (3) a building or portion thereof, structure or archeology site included in the Inventory of

the Historic and Prehistoric Assets of the Commonwealth, or designated by the SHC for inclusion in said Inventory; homes listed in the "Old Homes Survey" of the SHC plus those structures or portion thereof constructed prior to January 1, 1940 town-wide or any building or portion thereof or structure of indeterminate age. Notwithstanding the preceding sentence, the provisions of this Bylaw shall not apply to any building or portion thereof or structure located in a local historic district and subject to regulation under the provisions of Chapter 40C of the Massachusetts General Laws.

SECTION 4. PROCEDURE

- (1) The Building Inspector shall forward a copy of each demolition permit application for a building or structure identified in SECTION 3 of this Bylaw to the SHC within five (5) business days after the filing of such application, and shall notify the applicant in writing of this action. No demolition permit shall be issued at this time.
- (2) Within thirty (30) business days after its receipt of such application, the SHC shall schedule with the applicant a site inspection for the SHC to assist in its determination if a building or portion thereof, or structure is historically significant.
- (3) If the SHC determines that the building or structure is not historically significant, it shall so notify the Building Inspector and the applicant in writing and the Building Inspector may issue a demolition permit. If the SHC determines that the building or structure is historically significant, it shall notify the Building Inspector and the applicant in writing that a demolition plan review must be made prior to the issuance of a demolition permit. If the SHC fails to notify the Building Inspector of its determination within thirty (30) business days of the site inspection, then the building or structure shall be deemed not historically significant and the Building Inspector may issue a demolition permit.
- (4) Within sixty (60) days after the applicant is notified that the Commission has determined that a building or structure is historically significant, the applicant for the permit shall submit to the SHC five (5) copies of a demolition plan which shall include the following information: (i) a map showing the location of the building or structure to be demolished with reference to lot lines and the neighboring buildings and structures; (ii) photographs of all street façade elevations; (iii) a description of the building or structure, or part thereof, to be demolished; (iv) the reason for the proposed demolition; and (v) a brief description of the proposed reuse of the parcel on which the building or structure to be demolished is located.
- (5) Not later than thirty (30) business days of receipt of such plan, the SHC shall hold a public hearing with respect to the application of a demolition permit, and shall give public notice of the time, place and purposes thereof at least fourteen (14) days before the said hearing in the local newspaper and by mailing, postage prepaid, a copy of such notice to the applicant, to the owners of all adjoining property and other property deemed by the SHC to be materially affected, to the Selectmen, Planning Board, Zoning Board and to such other persons as the SHC shall deem entitled to notice. The Commission shall determine that a building or structure should preferably be preserved only if it finds that the building or structure is an historically significant building or

structure which, because of the importance made by such building or structure to the Town's historical and/or architectural resources, it is in the public interest to preserve, rehabilitate or restore (as defined in SECTION 3).

- (6) If, after the public hearing, the SHC determines that demolition of the property or any part thereof, would be detrimental to the historical or architectural heritage or resources of the Town, such building or structure shall be considered to be a preferably preserved building, and the SHC shall file with the Building Inspector and the applicant within thirty (30) days of the hearing thereon a written report on the demolition plan which shall include the following: (i) a description of the age, architectural style, historic association and importance of the building or structure to be demolished; (ii) a determination as to whether or not the building or structure should preferably be preserved and no demolition permit shall be issued until six (6) months after the date of such determination by the Commission.
- (7) The SHC shall also notify the Massachusetts Historical Commission, Town Planner, Town Manager, Community Preservation Committee and any other interested parties in an effort to obtain assistance in preservation funding or in finding an adaptive use of the building which will result in its preservation. The SHC shall invite the owner of record of the building or structure to participate in an investigation of alternatives to demolition including but not limited to incorporation of the building into future development of the site, adaptive re-use of the building or structure, seeking a new owner willing to purchase and preserve, restore or rehabilitate the building or part thereof, or moving the building.
- (8) Once a building or portion thereof or a structure has been designated to a preferably preserved status, the owner shall be responsible for properly securing the building or structure to the satisfaction of the Building Inspector. Should the owner fail to secure the building or structure, the loss of such through fire or other cause shall be considered voluntary demolition and all non-compliance penalties shall pertain .

SECTION 5. EMERGENCY DEMOLITION

If the condition of a building or structure poses a serious and imminent threat to the public health or safety due to its deteriorated condition, the owner of such building or structure may request the issuance of an emergency demolition permit from the Building Inspector. As soon as practicable after the receipt of such a request, the Building Inspector shall inspect the property with a member of the SHC or designee. After the inspection of the building or structure, the Building Inspector shall determine whether the condition of the building or structure represents a serious and imminent threat to public health or safety and whether there is any reasonable alternative to the immediate demolition of the building or structure which would protect the public health or safety. If the Building Inspector finds that the condition of the building or structure poses a serious and imminent threat to public health or safety, and that there is no reasonable alternative to the immediate demolition thereof, he may issue an emergency demolition permit to the owner of the building or structure. Whenever the Building Inspector issues an emergency demolition permit under the provision of this SECTION 5, he shall prepare a written report describing the condition of the building or structure and the basis for

his decision to issue an emergency demolition permit with the SHC. Nothing in this SECTION 5 shall be inconsistent with the procedures for the demolition and/or securing of buildings and structures established by Chapter 143, Sections 6-10, of the Massachusetts General Laws. In the event that a Board of Survey is convened under the provisions of Section 8 of said Chapter 143 with regard to any building or structure identified in SECTION 3 of this Bylaw, the Building Inspector shall request the Chairman of the SHC or his designee to accompany that Board of Survey during its inspection. A copy of the written report prepared as a result of such inspection shall be filed with the SHC.

SECTION 6. NON COMPLIANCE

Anyone who demolishes a building or structure identified in SECTION 3 of this Bylaw without first obtaining, and complying fully with the provision of, a demolition permit, shall be subject to a fine of three hundred dollars (\$300.00). In addition, unless a demolition permit was obtained for such demolition, and unless such a permit was fully complied with, the Building Inspector shall not issue a building permit pertaining to any parcel on which a building or structure identified in SECTION 3 of this Bylaw has been demolished for a period of five (5) years after the date of demolition.

As determined by the SHC, a building permit may be issued at any time for new construction after the six months delay, but within the 5-year period as described in Section 6, which would replicate the exterior of the demolished significant structure, including but not limited to use of materials, design, dimensions, massing, arrangement of architectural features and execution of decorative details.

SECTION 7. APPEALS TO SUPERIOR COURT

Any person aggrieved by a determination of the SHC may, within sixty days, in accordance with M.G.L. c.249, s.4, after the filing of the notice of such determination with the Building Inspector, appeal to the superior court for the Middlesex County. The court shall hear all pertinent evidence and shall annul the determination of the SHC if it finds the decision of the Commission to be unsupported by the evidence or exceed the authority of the Commission or may remand the case for further action by the SHC or make such other decree as justice and equity require.

SECTION 8. SEVERABILITY

In case any section, paragraph or part of this Bylaw is declared invalid or unconstitutional by any court of competent jurisdiction, every other section, paragraph and part of this Bylaw shall continue in full force and effect.

The Right to Farm is hereby recognized to exist within the Town of Sudbury. The above-described agricultural activities may occur on holidays, weekdays, and weekends by night or day and shall include the attendant incidental noise, odors, dust, and fumes associated with normally accepted agricultural practices. It is hereby determined that whatever impact may be caused to others through the normal practice of agriculture is more than offset by the benefits of farming to the neighborhood, community, and society in general. The benefits and protections of this Bylaw are intended to apply exclusively to those agricultural and farming operations and activities conducted in accordance with generally accepted agricultural practices. Moreover, nothing in this Bylaw shall be deemed as acquiring any interest in land, or as imposing any land use regulation, which is properly the subject of state statute, regulation, or local zoning law.

Section 4. Disclosure Notification

Within 30 days after this Bylaw becomes effective, the Board of Selectmen shall prominently post in the Town Clerk's Office and make available for distribution the following disclosure:

“It is the policy of this community to conserve, protect and encourage the maintenance and improvement of agricultural land for the production of food, and other agricultural products, and also for its natural and ecological value. This disclosure notification is to inform buyers or occupants that the property they are about to acquire or occupy lies within a town where farming activities occur. Such farming activities may include, but are not limited to, activities that cause noise, dust and odors. Buyers or occupants are also informed that the location of property within the Town may be impacted by commercial agricultural operations, including the ability to access water services for such property under certain circumstances.

SECTION 5. RESOLUTION OF DISPUTES

Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Board of Selectmen, the Zoning Enforcement Officer, or the Board of Health, depending upon the nature of the grievance. The filing of the grievance does not suspend the time within which to pursue any other available remedies that the aggrieved may have. The Zoning

Enforcement Officer or Board of Selectmen shall forward a copy of the grievance to the Agricultural Commission, which shall review and facilitate the resolution of the grievance, and report its recommendations to the referring Town authority within an agreed upon time frame.

The Board of Health, except in cases of imminent danger or public health risk, shall forward a copy of the grievance to the Agricultural Commission, which shall review and facilitate the resolution of the grievance, and report its recommendations to the Board of Health within an agreed upon time frame.

Section 6. Severability Clause

If any part of this Bylaw is for any reason held to be unconstitutional or invalid, such decision shall not affect the remainder of this Bylaw. The Town of Sudbury hereby declares the provisions of this Bylaw to be severable.
