B. Fees

Fee should be calculated using the following process & worksheet. **Please see Instructions before filling out worksheet.**

Step 1/Type of Activity: Describe each type of activity that will occur in wetland resource area and buffer zone.

Step 2/Number of Activities: Identify the number of each type of activity.

Step 3/Individual Activity Fee: Identify each activity fee from the six project categories listed in the instructions.

Step 4/Subtotal Activity Fee: Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

Step 5/Total Project Fee: Determine the total project fee by adding the subtotal amounts from Step 4.

Step 6/Fee Payments: To calculate the state share of the fee, divide the total fee in half and subtract \$12.50. To calculate the city/town share of the fee, divide the total fee in half and add \$12.50.

To calculate filing fees, refer to the category fee list and examples in the instructions for filling out WPA Form 3 (Notice of Intent).

New England Conservation/Wildlife Mix – Spec Sheet (PDF)

The New England Conservation/Wildlife Mix provides a permanent cover of grasses, wildflowers, and legumes. For both good erosion control and wildlife habitat value. The mix is designed to be a no maintenance seeding, and is appropriate for cut and fill slopes, detention basin side slopes, and disturbed areas adjacent to commercial and residential projects. S: Virginia Wild Rye (*Elymus virginicus*), Little Bluestem (*Schizachyrium scoparium*), Big Bluestem (*Andropogon gerardii*), Red Fescue (*Festuca rubra*), Switch Grass (*Panicum virgatum*), Partridge Pea (*Chamaecrista fasciculata*), Panicleleaf Tick Trefoil (*Desmodium paniculatum*), Indian Grass (*Sorghastrum nutans*), Blue Vervain (*Verbena hastata*), Butterfly Milkweed (*Asclepias tuberosa*), Black Eyed Susan (*Rudbeckia hirta*), Common Sneezeweed (*Helenium autumnale*), Heath Aster (*Aster pilosus*/Symphyotrichum pilosum), Early Goldenrod (*Solidago juncea*), Upland Bentgrass (*Agrostis perennans*).

To the Conservation Commission,

We respectfully submit the following plan to the Commission to revegetate the riverfront area of the property located on 31 Beckwith Street.

Letters have been submitted to all abutters within 100 feet by certified mail as of July 5, 2019.

A Notice of Intent has been filed with both the State and the Commission and all fees have been paid as of July 5, 2019.

The activities/disturbances you describe include:

- Removal of shrubs (prickers/briars) and requested grass area next to it near riverfront.
This is a total of 300 square feet and will be mitigated with the following trees and plants:

Shadblow/Serviceberry Bushes (2 – 3), Swamp Azaleas (2 – 3).

We would like to plant the following trees:

River Birch (1)

Silver Maple (1 - 3)

- Installation of a swing set.
This is a total of 250 square feet. The structure will be removed. In its place we will plant the following native vegetation in the area:

Highbush Blueberry bushes (3 - 5), Sweet Pepper bushes (2 - 3).

We would like to plant the following trees:

Silver Maple (1)

- Removal of trees due to storm damage.
The square footage of this is difficult to calculate. We will do a combination of Wildlife Conservation seed mix along the banks of the riverfront Raspberry and Blueberry bushes along the sides where the most tree damage from the storm was done.
Several evergreens and 2 Silver Maples have already been planted and established after the storm damage was done.
- We would also assist in the removal of some invasive plants. There are three separate locations of Bittersweet growing on the property as well as a Tree of Heaven. We would remove them all.
There is a Rose of Sharon damaged by the storm located on the side of the house that is entwined with Bittersweet and we would like to remove both.

Thank you for your time and consideration of this matter.

Regards,

Robert Boormeester
