## Notice of Intent

Through this document I am describing the occurrences and future intents with all actions in my back yard.

When Myself and my wife moved from Boston to Sudbury, though the house was in great disrepair and of abandoned landscape, we found great potential. One of our first actions was to improve on the overall appearance of the house, I noticed a rotten tree that noticeably had fallen for quite some time and well as a lot of fallen tree branches on the yard, so I decided to collect it and pile it near the far corner of the yard.

After speaking with Mrs. Capone at conservation, I was informed some of my actions may have been prevented due to the fact my property sits on conservation land. I am working closely with her to educate me and assist me in keeping the protected area.

Sincerely

Victor Nascimento

b. Date of map

If yes, the project is also subject to Massachusetts Endangered Species Act (MESA) review (321 CMR 10.18). To qualify for a streamlined, 30-day, MESA/Wetlands Protection Act review, please complete Section C.1.c, and include requested materials with this Notice of Intent (NOI); *OR* complete Section C.2.f, if applicable. *If MESA supplemental information is not included with the NOI, by completing Section 1 of this form, the NHESP will require a separate MESA filing which may take up to 90 days to review (unless noted exceptions in Section 2 apply, see below).*

- c. Submit Supplemental Information for Endangered Species Review\*

1. ☐ Percentage/acreage of property to be altered:

(a) within wetland Resource Area

percentage/acreage

(b) outside Resource Area

percentage/acreage

2. ☐ Assessor's Map or right-of-way plan of site

2. ☐ Project plans for entire project site, including wetland resource areas and areas outside of wetlands jurisdiction, showing existing and proposed conditions, existing and proposed tree/vegetation clearing line, and clearly demarcated limits of work \*\*

(a) ☐ Project description (including description of impacts outside of wetland resource area & buffer zone)

(b) ☐ Photographs representative of the site

\* Some projects **not** in Estimated Habitat may be located in Priority Habitat, and require NHESP review (see <http://www.mass.gov/eea/agencies/dfg/dfw/natural-heritage/regulatory-review/>). Priority Habitat includes habitat for state-listed plants and strictly upland species not protected by the Wetlands Protection Act.

\*\* MESA projects may not be segmented (321 CMR 10.16). The applicant must disclose full development plans even if such plans are not required as part of the Notice of Intent process.

## B. Fees

To calculate filing fees, refer to the category fee list and examples in the instructions for filling out WPA Form 3 (Notice of Intent).

Fee should be calculated using the following process & worksheet. **Please see Instructions before filling out worksheet.**

**Step 1/Type of Activity:** Describe each type of activity that will occur in wetland resource area and buffer zone.

**Step 2/Number of Activities:** Identify the number of each type of activity.

**Step 3/Individual Activity Fee:** Identify each activity fee from the six project categories listed in the instructions.

**Step 4/Subtotal Activity Fee:** Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

**Step 5/Total Project Fee:** Determine the total project fee by adding the subtotal amounts from Step 4.

**Step 6/Fee Payments:** To calculate the state share of the fee, divide the total fee in half and subtract \$12.50. To calculate the city/town share of the fee, divide the total fee in half and add \$12.50.

## Notice of Intent

Through this document I am describing the occurrences and future intents with all actions in my back yard.

When Myself and my wife moved from Boston to Sudbury, though the house was in great disrepair and of abandoned landscape, we found great potential. One of our first actions was to improve on the overall appearance of the house, I noticed a rotten tree that noticeably had fallen for quite some time as well as a lot of fallen tree branches on the yard, so I decided to collect it and pile it near the far corner of the yard.

After speaking with Mrs. Capone at conservation, I was informed some of my actions may have been prevented due to the fact my property sits on conservation land. I am working closely with her to educate me and assist me in keeping the protected area.

To restore the roughly 1,400 square foot area of understory that was altered I will allow the area to naturally revegetate. I will hand remove invasive species that reestablished, including buckthorn, multiflora rose, honeysuckle and bittersweet through the summer of 2019. In the fall of 2019, any areas that have not revegetated with non-invasive plants will be planted with native shrubs from the Commission's native plant list. This area will be monitored over the next three years and any invasive plants will be removed. Successful restoration will be achieved when area is revegetated with no less than 90% native species.

Sincerely

Victor Nascimento
