Eastern Box Turtle Protection Area

- Vegetation clearing and earth moving should occur between November 1 and March 31.
- Avoid construction within 100' of a known hibernaculum between November 1 and March 31

Delineated Wetland Edge

- Turtle sweeps will be completed by trained environmental monitors between April 1 and October 31

Eastern Whip-poor-will Protection Area

- Avoid construction in the Whip-poor-will protection zone during the breeding season, between May 1 and August 1.

Vernal Pools

- Avoid construction up to 450 feet of a vernal pool between March 1 and June 1
