# GOODNOW LIBRARY

MIGRATING THE SUDBURY ARCHIVES TO INMAGIC "PRESTO"

## GOOD THEN. GOOD NOW. GOOD FOR THE FUTURE.

---

## THE SUDBURY ARCHIVES: AN OVERVIEW

- First created by the library in 1991 through a joint effort with the Sudbury Foundation, and the first of its kind
- 15,000+ documents, including scans, transcriptions and subject headings
- Content from Goodnow Library, Sudbury Town Clerk's Office, Sudbury and Wayland Historical Societies, First Parish Church, the Sudbury Historical Commission, the Wayside Inn and the Sudbury Grange.
- Includes unbroken run (1639-1850) of town meeting records among other special collections

**61-180 seconds: 496/5,294**
**181-600 seconds: 558/9,129**
**601-1800 seconds: 369/9,729**
1800+ seconds: 138/5,692

**Location:**
678 locations from around the world

*sessions/pageviews

# ISSUES WITH CURRENT SOFTWARE PLATFORM

- No search box
- Design not meeting current browser design standards

# SOME LINKS TO IMAGE OF RECORD ARE NO LONGER FUNCTIONAL:

# MODERN BROWSERS NOT COMPATIBLE:

# THE PRESTO SOLUTION

- Improved simple search box – Search across all textbases at once.
- Offers a modern User Interface and provides a much richer user experience.
- Different user experiences can be instituted through security roles i.e. different homepages/portals according to login.
- Is optimized to manage not only physical materials like Books and Journals, but also electronic documents and assets. I.e. electronic documents, multimedia files, urls, images, etc.
- Greatly enhanced security that is fully configurable through the easy to use Graphical User Interface (GUI).
- Offers advanced alerting capabilities to users and staff that can be delivered via email or as an RSS feed. i.e. users with appropriate permissions can create an alert to receive an email when a new book on a topic of interest is added.
- Has a taxonomy builder, allowing the library staff to create browse-able directories. This helps facilitate user adoption and assists users in finding the content they are looking for quickly and easily.
- Ability to act on content/records found.  Email, Print, Download, Infocart.
- Contains social capabilities to gather User feedback via Rating, Commenting, Tagging (Can be turned on or off or permissioned according to role).
- Usage metrics and event capturing.

## IT'S GOOD FOR THE TOWN, NOT JUST THE LIBRARY

**We'll have:**

• Increased accessibility-access from home, convenience

• Added visual richness

• Better conservation/preservation

• Ability to add new content by all groups through a centralized platform

• Finding aids

• Support of Info Systems, Clerk's Office, Sudbury Foundation and endorsement from original project manager and archivist
