Sign Application; Glory Computer, 339 Boston Post Road

The Board reviewed the application for a two primary wall signs (front and rear) submitted by the above referenced applicant. The signs are 2' x 4' however, graphic depictions do not match those dimensions.

It is the opinion of the Design Review Board that the architectural size and placement is not good; colors and content are satisfactory.

The signs were unanimously approved as submitted with the following conditions:

1. Front sign be sized and positioned in such a manner that the left side is in line with the sign above and the right side is no closer than 8" from the adjacent roof.
2. The rear sign should be 2 feet high and no more than 6 feet long.
3. The rear sign should be centered over the window.
