The Design Review Board met with Ruben Mohsen on behalf of the sign applicant. The proposal is for two identical vinyl awning signs flanking the center entrance, which project 1' and measure 8 feet, 6 inches in length and are 1 foot, 10 inches in height.

While the signs as presented meet bylaw requirements, the Board requested they be wall mounted signs rather than awnings. Mr. Mohsen will consult with the business owner and the Board will be notified.
