Bonnie O'Leary and Haley Dunn presented an application for a wood carved wall mounted sign that conforms to the bylaws.

The applicant indicated that the sign would be installed on existing brackets above the existing sign for Massage Therapy Center.

The Board recommended that the applicant increase the size of the lettering on the sign for better legibility and to reduce the amount of white space on the sides of the image.

The Board unanimously voted to approve the sign as presented with the recommendation that the lettering be larger.

Miscellaneous

The board approved the minutes of February 13.
