

# SUDBURY FIRE STATION #2 Project

## Project Overview ....

Turning 60 years old this year, the Sudbury Fire Station #2 no longer meets the needs of a modern fire and ambulance department.

The station has three main challenges:

- The building is undersized
- There are no gender neutral accommodations for firefighters
- There is a shortage of fire equipment storage space

The proposed project includes the design and construction of a new Sudbury Fire Station #2 on the existing site which will support Sudbury Fire and ambulance operations and help maintain efficient emergency response times.

## ANNUAL TOWN MEETING SATURDAY MAY 22, 2021
