Sudbury Health Dept. Weekly COVID-19 Report as of September 16, 2020

The Sudbury Health Department is actively monitoring the status of the COVID-19 pandemic among Sudbury residents. The reporting structure below is designed to balance the privacy of affected residents, while keeping the public informed about COVID-19 activity among Sudbury residents on a weekly basis. The frequency and format are subject to change. It is important to understand that these numbers DO NOT include positive cases among non-residents, who work in Sudbury ONLY THOSE who LIVE IN SUDBURY.

Table 1. Distribution of confirmed and clinically diagnosed cases in Sudbury				
COVID-19 Diagnosis	Total Cases	New Cases	Active cases	Recovered/off quarantine
Confirmed* COVID-19	218	3	3	179
Probable** COVID-19	42	3	3	36
Contacts***	158	17	21	137

^{*}Confirmed cases are individuals who had a positive lab test.

*** Numbers change daily for multiple reasons including classification change, transfers to other communities and states based on official residence.

Table 2. COVID-19 cases in the community versus long term care facilities		
Sudbury Community Cases	72	
Long Term Care Confirmed Cases	146
