RE: Sudbury-Hudson Transmission Reliability Project: Sudbury, Marlborough, Stow and Hudson, MA
MHC #RC.62384, EEA #15703

By USPS and email to Alan.R.Anacheka-nasemann@usace.arm.mil

Dear Mr. Anacheka-Nasemann,

The Sudbury Historical Commission is conducting its review of the above named undertaking as a consulting party under Section 106 of the National Historic Preservation Act of 1966, as amended.

The Commission looks forward to providing comment and recommendations to the Massachusetts Historical Commission and the Army Corp of Engineers, but has not been able to conclude its review. This is due to the fact that the Commission is waiting to receive the information and documentation we requested from Eversource on July 23, 2020 about this project and, in particular, information about the National Register eligible Bridge #127 and Bridge #128 which traverse the Hop Brook waterway.

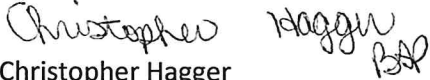

By this letter we would like to make a Freedom of Information Act request for the following documents:

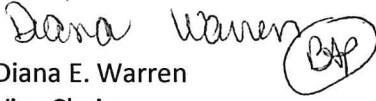

- Filing Application for the Eversource Sudbury-Hudson Reliability Project - MA Department of Conservation and Recreation Project, and cover letters, if any,
- Memorandum of Understanding between NSTAR/Eversource and the MA Department of Conservation and Recreation, if ACE is in receipt of,
- April 21, 2017 Preliminary Engineering Review of Bridge 127 and 128, and
- Eversource/VHB document: evaluation of alternatives to demolishing/replacing Bridge 127.

The Commission is willing to pay reasonable costs related to providing documents we request not to exceed twenty-five dollars (\$25.00), but in any event would prefer receipt of documents by email at historical@sudbury.us.ma. Please inform the Commission by email if the cost estimate for providing the requested documents will exceed twenty-five dollars.

The Commission appreciates your assisting the Sudbury Historical Commission. Thank you.

Sincerely,

Christopher Hagger
Chair
Sudbury Historical Commission

Diana E. Warren
Vice Chair
Sudbury Historical Commission
