Len,

Thank you so much for your quick reply. I am sorry to hear that you had also been in accidents in that same location. Like you, both times I was rear-ended as well.

I am incredibly perplexed that this is even being debated. To further burden an already dangerous congested area is unconscionable.

If this passes, I imagine our towns liability will be tremendously heightened because officials are aware of historic, well documented accidents and safety concerns, and then they proceed to exacerbate the risk by passing the project. It seems to me that they are potentially putting our town at significant risk for a law suit.

Thanks for your efforts to protect our town and residents.

Best Regards,
Ann Sadowsky
436 Peakham Road

Hello Ann and Bruce,

Thank you for your comments regarding Sudbury Station.

The only way Town boards and committees are made aware of residents' concerns, and then be in a position take responsive action, is when residents speak up, as you are doing.

As you may be aware, as a member of the Board of Selectmen I have opposed Sudbury Station in the strongest terms.

You are absolutely correct that the Peakham Road/Hudson Road intersection is already too dangerous. I spoke to the Board of Appeals at one of their Sudbury Station hearings about the two auto accidents I was involved in at the intersection of Peakham Road and Hudson Road. On both occasions I was rear-ended. That intersection is not safe now, and another road coming out of Sudbury Station will only make it worse.

Len Simon

We wanted to send my deepest concerns regarding the additional traffic expected in our historic town center. I have been hit twice in the past few years while I was stopped waiting to make a turn in and out of the intersection at Peakham Road and Maynard Road. This is documented as Police have been called each time. I have seen multiple accidents at that intersection. There must be a record kept of what areas in Sudbury have high accidents. Please pull this information and strongly reconsider the Sudbury Station project as it would significantly add to this already congested and dangerous intersection. Safety needs to be our first thought and what determines our actions. Thank you for your efforts.

Best Regards,
