**Planning for Resiliency**

**Listening Session and Public Workshop**

**Listening Session -**

**Municipal Vulnerability Preparedness (MVP)**

The Town is currently working with community stakeholders to identify and prioritize steps to reduce risks and improve resilience to projected climate change impacts across the community. Please join us (7 – 8 PM) to hear the findings developed from the MVP process.

**Public Workshop – Hazard Mitigation Plan**

The Town is currently updating the 2010 Hazard Mitigation Plan. This plan is important because it helps the Town remain eligible to receive funding for projects that reduce the risk of injury or damage to property from future natural hazard events such as flooding and hurricanes. Please join us (8 – 9 PM) to understand what the Town has accomplished since the 2010 Plan and what we should be working on for the next five years.
