Stormwater Management Permit – 41 Lincoln Lane – Delegate Approval Authority

Ms. Kablack provided a brief description of the project, noting the development has previously received an Order of Conditions from the Conservation Commission and they are very familiar with the proposal. Given the Board's next regularly scheduled meeting is not until August 3, she recommended the Board delegate its authority to the Conservation Commission.

On motion duly made and seconded, it was unanimously

VOTED: To delegate the Planning Board's authority for Stormwater Management Permit review to the Conservation Commission regarding the Stormwater Management Permit Application submitted for 41 Lincoln Lane.

The meeting was adjourned by Vice-Chairman Poch at 8:45 a.m.
