

NOTES OF THE WORKING SESSION OF THE
SUDBURY PONDS AND WATERWAYS COMMITTEE

Date: March 26, 2007

Location: Flynn Building, Silva Conference Room (2nd Floor)

Present: David Blohm, Mark Ensign, Michael Fee and Rob Hershfeld

The meeting convened at 7:11 p.m. It was noted that a quorum was not present so those members in attendance elected to hold an informal working session. The following issues were discussed:

1. Mark Blohm is still away and will return on April 17, 2007. He should be present at our next meeting in order to provide an update regarding the GIS project.
2. At a meeting of OAR, Rob H. noted that the executive director expressed interest in the GIS project and stated that the OAR has data that they would be willing to share.
3. The Committee discussed glossary, coding and numbering issues associated with the establishment of separate watershed districts.
4. The members noted that what is and what is not publicly owned is an important delineating factor and should be part of the data layer. This is an issue that Mike F. agreed to work on.

The working session adjourned at 8:00 p.m.

The members of the PWC are:

Susan Crane, Chair

sjc@susancrane.com

David Blohm, Vice Chair

dblohm@blohmgroup.com

Rich Davison

davisonrh@aol.com

Mark Ensign
