SELECTMEN'S REPORT

Fellow Citizens—Just a few words at the outset of this report to put you in a “tax conscious” frame of mind. Without a doubt all of us, save a percentage of those still in the public employ, continue to feel, to an increasingly greater extent, our inability to maintain the earning capacity we had a year ago. With this situation facing us and the almost positive assurance that the income of the American people will be less in 1933 than it was in 1932 what should our attitude be toward the tax burden of our local townspeople?

It must be obvious that unless our burden of taxation is relieved in the proper proportion to the shrinkage in our income there is to be a sad day of reckoning that is going to be disastrous for this Republic. In the case of the attempt to assassinate our President-elect we see evidence of rebellion against the government.

We shrug our shoulders and say “oh, well that was only the work of a fanatic out of his head.” Yet who knows how long the people of this country who are suffering want and are enduring the effects of this depression will allow this situation to continue before they rebel and take matters in their own hands.

Let us see how serious this tax burden is to every man in the country. In 1913 the per capita amount of the public debt was \$43.33 while today that has increased to \$255.00. Just what does this per capita public debt mean? It means simply this: every man, woman and child in this country is in debt, to the extent of \$255.00, out side of his own private debts.

In 1913 the annual tax paid for the cost of government was about \$26.00 for each man, woman and child while today this item costs them \$110.00. That represents the gross earnings of the public for two months out every year. In other words, every man in the country has to take two months of his yearly earnings to pay for the cost of government. That means especially to the man who works but a few months out of the year, a very serious burden.

Our own citizens here in this town are finding the burden of taxation more and more serious as is evidenced by an increased number of requests for tax abatements and the greater number of places sold for the taxes during the past year.

With these few thoughts in mind you should be cautious in voting appropriations at the coming annual election. Let us “cut the coat to fit the cloth.”

The problems of the Welfare department are getting more serious and numerous. We believe the majority of people who have been forced to apply for aid from this department would rather be

self sustaining than a subject of charity. With this in mind and from a business stand point for the town we have recommended that all able bodied men give labor in some form to the town for assistance received. We believe at the present time this plan is in operation.

To date we have not been obliged to ask the town for an appropriation for Soldiers' Relief, but from all indications this will have to be done very soon because of demands which will have to be taken care of. It is our opinion that all this relief work---welfare, soldiers relief and old age assistance, should be handled by one department.

During the past year the board has been called upon to defend the town, in several suits against the town. These suits are the results of injury in accidents caused by motorists going off our highways and being smashed up by running into culverts and other obstructions along the edge of the road.

We have agreed to recommend to the town that one of these cases known as the "Nelson Case" be settled by paying the sum of \$400.00. Counsel for the town has advised such settlement it appearing to be the cheapest way out for the town.

The other case is the result of a car going off the road in North Sudbury. There are two suits against the town in this case; one for \$2,000.00 another for \$10,000.00. Counsel is now preparing our case.

A few months ago, one of Mr. Henry Ford's representatives at the Inn, during a telephone conversation, said that he had authority to say that Mr. Ford was willing to give to Sudbury a plot of land in Sudbury Center known as the Parmenter Store lot provided he was satisfied with the use to which the town would put it. As yet this conversation has not been confirmed but it is expected that word can be had from Mr. Ford soon enough to take action at town meeting.

In considering the budget for the next year we believe that still further economies can be effected without seriously effecting the welfare of the community. We are recommending that a part of our street lights be discontinued. Upon investigation we find that this town is paying more for street lights than most towns of our size and valuation. In making this recommendation we do not anticipate taking them away from street intersections, bad curves, or in front of residences. We all know that street lights do not assist the motorist in driving.

Please take notice that the business meeting, town meeting day, will begin promptly at half past one this year.

Respectfully submitted,

HARVEY N. FAIRBANK,
AUBREY W. BORDEN,
HOWARD M. GOODNOW.

REPORT OF FINANCE BOARD

February 10, 1933.

To the Board of Selectmen,
Sudbury, Mass.

Gentlemen—The Finance Committee of the Town of Sudbury respectfully submit their report with recommendations as follows.

The committee met on January 20 and chose for its chairman Walter E. Piper and for secretary John T. Batchelder, and pursuant to notice duly posted a public hearing was held at the town hall on January 28 and adjourned meetings on February 3, 4, 6, 9 and 10, at which all the town departments were present or represented. All estimates and requests for appropriations submitted to the committee were carefully considered, estimates checked against expenditures of former years, and additional information obtained where necessary.

The assessors announce an expected loss of at least \$5,000.00 this year in receipts from income and corporation taxes; also an expected shrinkage in taxable personal property. It is still unknown whether we shall receive anything from the gasoline tax this year whereas last year the town received from this source \$3,200.00. The tax collector reports increasing difficulty in the collection of taxes with more and more of our taxable real estate unavoidably taken over by the town for unpaid taxes and added to the accumulation of tax titles held by the town which are unproductive of present income. Our excess and deficiency account (unexpended appropriation balances) has been so depleted through the withdrawals of the last two years that we are no longer permitted to appropriate from it until replenished. Nevertheless appropriations aggregating \$69,266.92 are asked for this year and if granted without substantial reductions will result in an increase in the tax rate.

The committee believes that reductions must be recommended wherever possible; that where requirements are uncertain appropriations should not be in an amount designed to cover all contingencies, since the tendency is to spend up to the full amount of an appropriation although unnecessary, and unexpended balances, if any, go into the excess and deficiency account where they are at present unavailable for appropriation to other uses. In the event of demands unforeseen or unprovided for it is always possible to resort to the reserve fund or to hold a special town meeting at small expense. Hence the reductions recommended below are urged without hesitation, and it is also considered that in these times of low prices a reduced appropriation in any department need not mean reduced efficiency and those public employees

whose compensation may be reduced in terms of dollars and cents will still be better off economically than in former times of higher prices. The finance committee has no power to reduce any of the appropriations asked for. Its duties in this respect are advisory only and its recommendations have only such effect as the voters may see fit to give them. It is hoped that adequate action will be taken by the voters for the relief of our tax payers in these times of unprecedented economic distress. Following are the specific recommendations of the committee on each article proposed.

Article 3 of the Town Warrant.

Item	Estimated	Recommend
1. Payment of Interest	\$ 4,200.00	
We recommend		\$ 3,900.00
As per the town treasurer's revised estimate due to reduction of principal on bonds.		
2. Salaries and Expenses Town Officers..	2,088.00	
We recommend		1,750.00
The amount paid last year was \$1,739.75.		
3. Street Lights	5,700.00	
We recommend		4,275.00
A reduction of 25% in the number of lights, which we understand can be made without eliminating lights at turns or intersections or in front of buildings.		
4. Roads maintenance Chapter No. 90 . .	3,000.00	
We recommend		1,000.00
This with like amounts from state and county aid as formerly will provide \$3,000, which with an appropriation under Chapter 81 of \$4,800 (see next item) aided by \$6,200 from the state, will make a total of \$14,000 which we believe sufficient for the purpose. We also recommend that this department be reorganized as soon as this can lawfully be carried out so as to place the expenditure of these sums in the hands or under the supervision of more than one town official. We realize that by appropriating \$2,000 more under this chapter as asked the town would probably receive ad-		

ditional state aid of \$4,000. This merits consideration in connection with the problem of unemployment in the town, but without assurance of wide-spread distribution of employment hereunder we cannot recommend this additional expense to the town.

5.	Roads maintenance Chapter No. 81	4,800.00	
	We recommend		4,800.00
	As necessary in order to secure state aid of \$6,200.00 as in former years.		
6.	General Road Expense	200.00	
	We recommend		100.00
	As probably sufficient for the incidentals this is designed to cover which cannot lawfully be paid out of items 4 or 5.		
7.	Snow and Ice Removal	1,500.00	
	We recommend		500.00
	This seems probably sufficient in view of weather conditions thus far this year, and if events should require more then resort may be had to reserve fund or a special town meeting.		
8.	Repair of Bridges \$		0.00
	No appropriation asked.		
9.	Memorial Day	225.00	
	We recommend		100.00
	This recommended reduction is in line with our effort to keep down the tax rate.		
10.	Care of Town Clock	45.00	
	We recommend this be not granted, and further that the care of the town clock be made a part of the regular duties of the janitor of the town hall.		
11.	Incidentals	1,000.00	
	We recommend		600.00
	The same amount as for the last four years; if more is required resort may be had to reserve fund or a special town meeting.		

12.	Care Soldiers and Memorial Lots.....	90.00	
	We recommend.....		75.00
	In line with the general policy of economy that we believe necessary.		
13.	Premium on Bonds.....	200.00	
	We recommend.....		200.00
14.	Insurance Town Property.....	500.00	
	We recommend.....		400.00
	This we believe will be sufficient if the selectmen secure a blanket policy covering all town property, which we recommend.		
15.	State Aid.....	72.00	
	We recommend.....		72.00
	This appropriation is necessary; the amount is later refunded by the state.		
16.	Police Department.....	1,500.00	
	We recommend.....		1,500.00
17.	Fire Department.....	2,200.00	
	We recommend.....		1,700.00
	We understand this will cover operating expenses and that no new equipment is contemplated.		
18.	Town Hall Expense.....	1,600.00	
	We recommend.....		1,200.00
	This expense last year was \$1,773.12 in which were included items which will not occur this year about equal to the difference in amount.		
19.	Town Reports.....	270.00	
	We recommend.....		270.00
20.	Election and Registration.....	200.00	
	We recommend.....		200.00
21.	Care of Old Cemetery.....	50.00	
	We recommend.....		40.00
	In line with the general policy of economy.		
22.	Care of Town Cemetery.....	50.00	
	We recommend.....		40.00
	In line with the general policy of economy.		

23.	Library Trustees	500.00	
	We recommend		250.00
	Together with the income from the trust fund we consider this should be sufficient.		
24.	Moth Department	500.00	
	We recommend		300.00
	As the town is doing no spraying this amount should be sufficient for creosoting.		
25.	Board of Health	1,000.00	
	We recommend		1,000.00
	Last year \$1,092.75 was expended and from cases now being cared for this year's expenses will probably be greater.		
26.	Legal Advice to Selectmen	200.00	
	We recommend		200.00
27.	Insurance town employees	400.00	
	We recommend		400.00
28.	Expense of Planning Board	0.00	
	No appropriation asked.		
29.	Tree Warden	270.00	
	We recommend		200.00
	In line with the general policy of economy.		
30.	Collector of Taxes Salary	900.00	
	We recommend		900.00
31.	Collector Expenses	180.00	
	We recommend		180.00
32.	Town Accountant and Clerk to all Boards	500.00	
	We recommend		500.00
33.	Unpaid Bills	1,397.02	
	We recommend		1,367.02
	This covers all items under this head that we consider the town should pay.		

34. Reserve Fund	1,000.00	
We recommend		1,000.00

We approve this item since this amount is considered proper to provide for deficiencies that may result from reductions recommended in other items.

Article 4 of The Town Warrant.

School Committee, for support of schools	25,600.00	
We recommend		24,600.00

Under this article and the next the sums asked total \$26,500, the same amount as was granted last year. In the finance committee's report last year a 10% reduction in salaries was recommended and the town voted an appropriation in accordance therewith, but no such reduction in salaries was made by the school committee. We feel that this reduction should be made this year and our recommended reduction in the appropriation is based on this ground.

Article 5 of the Town Warrant.

School Committee, insurance of school property	900.00	
We recommend		700.00

This amount we believe sufficient if used in connection with the blanket policy recommended under Item 14 above.

Article 14 of the Town Warrant.

Middlesex County Tuberculosis Hospital		
On account of principal of bonds	1,000.00	
Interest and other charges on bonds . .	197.18	
Care, maintenance, repairs, interest on temporary notes, cost of care and treatment of patients	542.72	

We recommend all these items totaling \$1,739.90—as a county assessment not subject to the town's control.

Article 16 of the Town Warrant.
 Re-shingling Legion Hall 175.00
 We recommend 175.00

Article 17 of the Town Warrant.
 Board of Public Welfare, welfare work 3,500.00
 We recommend 2,500.00
 If the highway surveyor will co-
 operate with the welfare department
 and spread employment in his depart-
 ment as widely as possible we believe
 this amount will be sufficient.

Article 18 of the Town Warrant.
 Board of Public Welfare, Old Age
 Assistance 1,000.00
 We recommend 600.00
 A larger amount than was spent for
 this purpose last year.

Article 19 of the Town Warrant.
 Placing Light at Dudley and State
 Roads.
 We recommend this be not granted.
 This being in line with our recom-
 mendation of a reduction in the num-
 ber of street lights under Item 3 above.

One member of this committee, Gardner Poole, has been
 unavoidably absent from its meetings and has not seen and is
 unable to join in this report.

THE FINANCE COMMITTEE.

WALTER E. PIPER,
 MELVIN L. GUPTILL,
 JOHN T. BATCHELDER,
 HERBERT J. ATKINSON.

TOWN WARRANT

for the Annual Town Meeting, March 6, 1933

COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

To either of the Constables of the Town of Sudbury,
Greetings:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Sudbury, qualified to vote in elections and town affairs, to meet at the town hall in said town, on Monday, the sixth day of March, next at seven o'clock in the forenoon; then and there to act on the following articles namely:

Article 1. To choose by official ballot in accordance with law, a moderator, a town treasurer, a collector of taxes, three constables, a highway surveyor, a tree warden, all for one year; one member of the board of public welfare, one member of the board of health, one member of the school committee, one trustee of the Goodnow library, one assessor, one member of the board of selectmen, one member of the planning board, all for three years, and also to choose field drivers, fence viewers, a pound keeper and any and all other necessary town officers for the ensuing year.

The polls will be open at seven o'clock in the forenoon and may be closed at four o'clock in the afternoon. The business meeting will be held at half past one in the afternoon.

Article 2. To hear and act on reports.

Article 3. To see if the town will grant and appropriate money for any and all necessary town purposes for the ensuing year; pass any votes or take any action relative thereto.

The Selectmen herewith present the budget together with the recommendations of the finance committee.

Article 4. To see if the town will grant or appropriate the sum of \$25,600. for the support of Schools; pass any votes or take any action relative thereto.

School Committee, for support of schools	25,600.00	
<i>Finance committee recommends</i>		24,600.00

Under this article and the next the sums asked total \$26,500, the same amount as was granted last year. In the finance committee's report last year a 10% reduction in salaries was recommended and the town voted an appropriation in accordance therewith, but no such reduction in salaries was made by the school committee. We feel that this reduction should be made this year and our recommended reduction in the appropriation is based on this ground.

Article 5. To see if the town will grant or appropriate the sum of \$900.00 for renewing the insurance upon its school properties; pass any vote or take action relative thereto.

School Committee, insurance of school property	900.00	
<i>Finance committee recommends</i>		700.00

This amount we believe sufficient if used in connection with the blanket policy recommended under Item 14 above.

Article 6. To see if the town will permit the Selectmen to sell the school property situated in North Sudbury, provided a reasonable price can be obtained for the same; pass any votes or take any action relative thereto.

Article 7. To see if the town will authorize the treasurer with the approval of the Selectmen to borrow money in anticipation of Revenue of the current fiscal year; or do or act thereon.

Article 8. To see if the town will make any provision for allowing the owners of real estate to work out their taxes; pass any vote or take any action relative thereto.

Article 9. To see if the Town will accept from the Estate of Sarah A. Haynes the sum of \$100. the same to be invested and reinvested and the income thereof to be expended from time to time for the perpetual care of the lot in Mount Pleasant Cemetery in which the remains of said Sarah A. Haynes are buried.

Article 10. To see if the town will accept the sum of one hundred twenty-five dollars from Lydia M. Morse for perpetual care of a lot in Mount Pleasant Cemetery known as the Alice E. Rice lot; or take any action relative thereto.

Article 11. To see what action if any the town will take relative to the discontinuance of any part of its street lighting system; or pass any vote relative thereto.

Article 12. To see what action if any the town will take regarding the offer made by a representative of Mr. Henry Ford to give to the town a plot of land in Sudbury Center known as the Parmenter Store lot, pass any votes or take action relative thereto.

Article 13. To see if the town will vote to establish the rate of compensation for town employees and trucks, pass any votes or take action relative thereto.

Article 14. To see if the town will appropriate a sum sufficient to pay the County of Middlesex as required by law on account of assessments levied on the town for its share of the principal of the Middlesex County Tuberculosis Hospital Funding Loan, Act of 1932 bonds maturing in 1933 issued in compliance with Chapter 10, Acts of 1932, also for any other indebtedness

incurred and outstanding under said Chapter 10, also for the town's share of interest on said bonds due in 1933, also for the care and treatment of tubercular patients under Acts of 1923, Chapter 385 as amended by Acts 1931, Chapter 60, also for care, maintenance and repair of said Hospital for 1932 including interest on temporary notes issued therefor in accordance with General Laws, Chapter 111, sections 85 and 85A, and for all other expenses in connection therewith, determine how the money shall be raised, or in any way act thereon.

Middlesex County Tuberculosis Hospital.....		
On account of principal of bonds.....	1,000.00	
Interest and other charges on bonds..	197.18	
Care, maintenance, repairs, interest on temporary notes, cost of care and treatment of patients.....	542.72	
<i>Finance committee recommend all these items totalling.....</i>		1,739.90
<i>—as a county assessment not subject to the town's control</i>		

Article 15. To see if the town will vote to authorize the Selectmen to settle any damage suits now pending against the town; pass any votes or take action relative thereto.

Article 16. To see if the town will vote to grant the sum of \$175.00 to cover cost of shingling Legion Hall, pass any votes or take action relative thereto.

Re-shingling Legion Hall.....	175.00	
<i>Finance committee recommends.....</i>		175.00

Article 17. To see if the town will vote to grant and appropriate the sum of \$3,500.00 for public welfare work in this town; pass any votes or take action relative thereto.

Board of Public Welfare, welfare work.....	\$ 3,500.00	
<i>Finance committee recommends.....</i>		2,500.00

If the highway surveyor will cooperate with the welfare department and spread employment in his department as widely as possible we believe this amount will be sufficient.

Article 18. To see if the town will vote to grant and appropriate the sum of \$1,000.00 for Old Age Assistance, and provide for its expenditure; pass any votes or take action relative thereto.

Board of Public Welfare, Old Age Assistance.....	1,000.00	
<i>Finance committee recommends.....</i>		600.00

A larger amount than was spent for this purpose last year.

Article 19. To see if the town will vote to have one street light installed at the junction of Dudley Road, and State Road; or take action relative thereto.

Placing Light at Dudley and State Roads

Finance committee recommends this be not granted.

This being in line with our recommendation of a reduction in the number of street lights under Item 3 above.

And you are required to serve this warrant by posting attested, printed copies thereof at the town house, each public meeting house, railroad station and post office in said town, seven days at least before the time appointed for holding said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the town clerk, at or before the time of meeting aforesaid.

Given under our hands this eighteenth day of February, one thousand nine hundred thirty-three.

HARVEY N. FAIRBANK,
AUBREY W. BORDEN,,
HOWARD M. GOODNOW,

Selectmen of Sudbury.

The clerk requests information of any omission or errors in the lists of births, deaths and marriages, and he hereby gives public notice that he is prepared to furnish blanks for the proper return of births, and calls particular attention to the following provisions of law, requiring parents and others to make return of birth within forty days thereafter.

Extract from the General Laws, Chapter 46:

“Section 6. Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town in which such child is born.

“Section 8. A parent, keeper, superintendent or other person required by Section 6 to give or cause to be given notice of a birth or death, neglecting so to do for ten days after the time limited therefor . . . shall forfeit not more than five dollars.”

ASSESSORS' REPORT

To the Citizens of Sudbury:

In presenting the Assessors' report we wish to call your attention to the part "Recapitulation." A comparison with Recapitulation 1931 will show why taxes were no higher in 1932, a condition which cannot recur in 1933 unless by careful economy. The part marked "Estimated receipts," will probably be reduced by 30 to 50 percent.

The town also faces a reduction in values. With these facts in mind it would seem wise to be careful in making grants for the coming year as any town with low taxes becomes attractive to the home owner.

Table of aggregates, polls, etc., assessed in the town of Sudbury, April 1, 1932:

FIRE DEPARTMENT REPORT

To the Board of Selectmen:

Gentlemen—The records of the Fire Department show an increase in the number of fires but a decrease in the cost of extinguishing them. This is due in part to more favorable weather conditions. By the cooperation of the telephone operators and the prompt response of the men on the department, it has been possible to check most of the fires at the start.

During the year 1932 the Department responded to seventy-five calls: forty-one of which were for grass and woods fires, ten involved buildings, twelve automobile fires, and twelve for chimney fires. One hundred and ninety-six permits were issued for burning in the open air, storage of oil, and use of dynamite.

Twenty-four regular meetings and drills were held during the year. Other activities of the department were: ball games, a bowling team, a field day, and the organization of a firemen's association; all of which tend to promote a greater interest in the Department.

The installation of a booster tank and pump on the Ford truck makes it a more valuable piece of equipment for both building and forest fires.

I would recommend that some effort be made to develop and make available any sources of water supply in the town which might be used in fighting fire. I would also urge every person handling and storing gasoline and fuel oils to use the greatest precaution.

To avoid delay or confusion in case of fire call the telephone operator and give definite information especially as to the location of the fire.

I wish to thank all the members of the department, the telephone operators and those citizens who have shown a special interest in this department.

EXTENSION SERVICE

Following is a report of the work of the Middlesex County Extension Service as developed in the town of Sudbury during the year 1932.

In agriculture a great many requests have been received from dairymen for individual farm visits. Forty-eight visits were made to help with bovine tuberculosis work, milk marketing, and on growing forage crops.

Six monthly moving pictures were exhibited at the Town Hall.

A demonstration on the control of corn borer was attended by 31.

Twenty-nine farm visits were made at the request of the fruit growers, and the market gardeners. Soil tests were made for lime requirements and assistance given in the production and marketing of various crops. A pruning demonstration was given.

Eighteen homemakers attended the project meetings in the homemaker's day series. There were 383 people to whom information was passed and as a result 328 new practices have been adopted.

Twenty-three people attended the child guidance meetings and they adopted 110 new practices in dealing with their children.

A food preservation meeting was held in Sudbury at the town hall. Prof. Cole showed the women many new ways to make their canning easier.

In response to a special request, a meeting of 30 people was held in South Sudbury; Mr. Davis from the State College conducted the meeting on the use of greens in the home.

A garden, two food, a clothing and a canning club included most of the 31 4-H members in Sudbury. A few were enrolled in the poultry project. Arvid Nelson, Mrs. Valeska Wholrab, Miss Gwendolyn Noyes, and Mrs. N. W. Gillette were leaders.

The Sudbury Grange gave three prizes of \$2.00 each to William McSweeney, Gertrude Neary and Pauline Piacitelli for excellence in garden work.

Eleanor Dibiase was awarded a two-day trip to the State College for excellence in the food project. She was one of four girls to represent the County in a State contest in quick bread-making and won third place.

Club members held an exhibit in connection with a Parent-Teacher meeting in Sudbury in the spring. Three girls entered the County 4-H Dress Revue.

The town committee, under the chairmanship of Mrs. W. E. Davison, has been very effective in forwarding 4-H Club work. Mrs. Baldwin and Mrs. Gillette are members of the committee.

Respectfully submitted,

GEORGE H. CLARKE,

Local Director.

REPORT OF TOWN PLANNING BOARD

In view of the acute economic conditions existing in this country today and especially as they affect our community, the Planning Board has curtailed in every respect all action which would mean expense to the town. The Board has even gone so far as to involve no expense whatsoever to the town during the past year and asks for no appropriation for the year 1933. However, every endeavor will be made by the Board to continue to further the best interests of the town in such a way as to make Sudbury a better place in which to live.

We have been reliably informed that the Department of Public Works has decided to postpone for this year at least the contemplated reconstruction of the Boston Post Road through the Towns of Sudbury and Wayland. Your Planning Board again wishes to urge all citizens of the town to realize the distinct advantages to be gained by rebuilding the Post Road on a new location especially as it affects the south part of the town. Such a by-pass would again make the old Post Road a very desirable road on which to build homes as it was in the earlier days before the automobile traffic became so heavy and turned it into an express highway. The town would gain very materially in taxes on such new properties. The Weston by-pass has been in effect several years now and none of us can help but feel the great improvement that has been made not only in the town itself but to the motorist as well. As a further consideration of the Sudbury by-pass we refer you to page 79 of the 1931 Annual Town Report in which attention is drawn to the destruction of practically all of the beautiful shade trees along the Boston Post Road through the town if the road is rebuilt on its approximate present location. We cannot urge too strongly that all citizens of the town who take pride and interest in the practical and orderly development of the town bring pressure to bear whenever possible in favor of a Sudbury by-pass for the Boston Post Road.

The Planning Board has under way for filing with the Board of Selectmen a map showing business locations in the town as of October 30, 1931, the date on which the Zoning By-Laws as approved by the Attorney General became effective.

The Board very emphatically wishes to call attention to that provision in the Zoning By-Laws which has to do with set-backs especially as it relates to the location of gasoline pumps. There have been several violations of this law within the past year and the Board urges that proper steps be taken to correct such violations.

At this time, The Planning Board wishes to renew its recommendation as published in its Annual Report last year in which it

recommended the acquiring of the old Parmenter store lot in Sudbury Center (now owned by Henry Ford) and this lot to be developed as a simple type of old New England Park for a memorial to the World War Veterans of Sudbury. We understand from the Board of Selectmen that this lot can now be acquired without expense to the town. If this lot is acquired and developed as recommended a beauty spot will be added to the center of the town and all possibility of the detrimental development of this lot will be eliminated. We further recommend that a committee be appointed to take whatever steps are necessary to acquire this lot and proceed with its development as suggested.

CHARLES H. WAY, Chairman,
 PAUL WHITNEY RHOADES, Secretary,
 HOWARD C. BURR,
 STEPHEN MINOT WELD GRAY,
 HERBERT L. NEWTON.

TOWN HALL BUILDING COMMITTEE

It seems almost needless to add to the report submitted in the last annual report. At that time all contracts were listed both for equipment and supplies and would have been paid to a large extent but for the fact that fifteen percent was withheld for sixty days as a guarantee of satisfactory work. A list of all bills paid on contracts and for various miscellaneous items may be found in the town accountant's reports for 1931 and 1932.

The hall is now completed, but some work should be done on the grounds surrounding it to make it more attractive. At very little expense a few evergreens and shrubs could be planted to take care of this. The parking space at the rear has been partly completed. It is hoped that money may be had to complete this work this Spring.

With this final report the committee wishes to thank the townspeople for the honor of serving on this committee and now beg to be discharged.

Respectfully submitted,

HARVEY N. FAIRBANK,
 Chairman for the committee.

The library has welcomed a large number of new borrowers of books and magazines during the year. There are few homes where there are not one or more enjoying the advantages of the branch library or the main library.

Readers of non-fiction are increasing, encouraging the book committee to purchase worth while lasting literature.

Mr. William Tufts gave the library a large number of books on engineering and other scientific subjects which will help students in any technical school.

Mr. Gilmore and Mr. Lawrence Winship gave fiction.

A cordial invitation is extended to everybody to visit the library and the branch. Get acquainted with what they have to offer you, then patronize them.

REPORT OF SCHOOL COMMITTEE

To the Citizens of Sudbury:

Among America's greatest assets are her children and youth. They are her future citizens, and the greatest care should be given to their mental and spiritual development.

We hear a great deal today about reckless spending in the schools of our land, and it is wise to curtail expenses in every feasible way. But we should remember that reckless economy may be more dangerous than reckless spending. The latter may increase taxes and should be avoided if possible, but the former cripples the rising generation and provides a weaker citizenship in the near future. Slashing salaries, shortening the school year and dropping various departments which have made the modern school so much superior to the school of other days, indicates a failure to carefully study and to fully appreciate the importance of protecting the future citizenship of the community.

Your committee have faced the difficulty of keeping the high standard of the Sudbury schools with a greatly reduced appropriation. Much time and painstaking study have been given to the solution of the problem. It became necessary to dispense with the special instructors in music, art, manual training and sewing. But our faithful and excellent corps of teachers have willingly assumed larger duties in these directions. Our janitor has undertaken the leadership of manual training so that all of these departments have been maintained with a good degree of efficiency. In addition to this the teachers have voluntarily contributed of their salary to help balance the budget. We gladly record our great appreciation of the loyalty of the faculty.

The year has been pleasant and successful with the happiest relation between committee and teachers and the co-operation of pupils and parents. The total enrollment has greatly increased during the year.

The annual school exhibit in June was held in the Town Hall and reflected great credit upon instructors and pupils.

The graduation exercises of the High and Grammar Schools were, as usual, excellent and greatly appreciated.

The George J. Raymond scholarship has been awarded to Miss Ruth Way and the Woman's Club Scholarship to Alden Bowker. We congratulate these contestants upon their achievement.

The Parent-Teacher's Association has continued its management of the lunch room and dental clinic and has rendered valuable service to the school.

We have carefully studied the budget for this next year. It is impossible to make an accurate estimate. Our enrollment may increase as it has done during the past year requiring additional supplies and possibly greater transportation expenses. Unex-

pected repairs and incidentals may be needed. But with the desire to help curtail expenses after painstaking examination of the situation we have asked for an amount which we believe will carry us through without seriously affecting the efficiency of the schools.

We hope that every parent and every voter who is really interested in the schools will appreciate our efforts and vote for the appropriation desired.

To superintendent, teachers, pupils and all who have helped us this year we give hearty thanks.

Respectfully submitted,

GEORGE H. CLARKE,
NATHAN W. GILLETTE,
PHILENA A. BARTLETT,

*Towns having less than 500 families do have by law to maintain high schools. If such towns do maintain high schools the State grants \$250 yearly for every full time teacher employed and a proportional part of same amount for part time teachers employed. However, whenever the valuation per pupil of a town equals or exceeds the taxable valuation per pupil of the State a town does not receive such State Aid.

The taxable valuation of Sudbury, per pupil, for this last distribution to State Aided High Schools was \$11,739 while the taxable valuation per pupil for the State was \$9,921.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Sudbury School Committee:

It is an esteemed honor to present my twenty-third annual report. It is the thirty-fifth in the series from this Office. Your attention is directed to the reports of other school officials and to the statistics compiled for the State Returns. The pages recording the names of graduates and teachers are permanent records to which years hence reference will be made, judging from the many times it has been necessary to call upon the Misses Clark, who have a very complete file of town reports, for data regarding the service of teachers in Sudbury during the past thirty or more years, as well as to refer to the list of graduates from time to time. Therefore these records are made with care in the hope that future needs may be met accurately.

In reviewing the events of the past year the slow but sure development of the municipal playground is a subject worthy of note and of praise. Sudbury is in a position now to enjoy the development of an excellent recreation center. The service this center rendered the community last summer and the service it gives the school children during the school year are glowing tributes to the need of such entertainment and occupation.

The current school year finds us without special teachers. Our Janitor covers the woodworking, a practice teacher for travelling expenses cares for the lessons in art, music is cared for by the regular teachers to the high school and may be carried on there if the students wish to elect the course; sewing is given to the sixth grade only. It is not to be presumed that in every feature our teachers can accomplish with all their other manifold duties as much as would be compassed were the children provided with the time of teachers for four days per week. However the time of the children is well used in other directions of endeavor when not turned into the channels of the courses directed by special teachers. Orchestral work equal to that given by Mr. Taunton is impossible. A considerable expense to the town is lifted by this action, a curtailing process that is quite general, according to recent surveys made by the State Department of Education.

We are very glad to record in these times the fact that two of our graduates have qualified for the scholarships this year.

The work of the Parent-Teacher Association in maintaining a Dental Clinic is of very great value to the children. Every effort should be put forth to sustain the Association in this endeavor. Clean sound mouths point toward health. The health of every child is important for no other reason than the selfish one that a child in poor physical condition is a menace to every other child in the school. A room filled with healthy vigorous boys and girls is the best guarantee for non-contagion we can have.

In dealing with boys and girls we should ever bear in mind the fact that boys do not develop as rapidly as girls in the early

teen age. Therefore we expect too much from our boys if we measure their attainments by those of the young ladies. In music boys suddenly find themselves endowed with a brand new voice as strange to them as to us who listen to them. In music they are handed out a new part written on a different staff. Our deep sympathy and our abiding understanding should surround these lads in comparing them with young women who have moved along with them in the school on a chronological basis.

Sudbury has a very high grade type of school and a fine student body.

I appreciate your sympathetic study of all school needs, the excellent co-operation of every one working in the schools, the genial whole hearted activity of the students, and the continuation of parental confidence in the functioning of all school activities.

Respectfully submitted,

FRANK H. BENEDICT.

PRINCIPAL'S REPORT

Mr. Frank H. Benedict,
Superintendent of Schools.

Dear Sir—With a firm belief that the school is the steering gear of democracy and that the social life of tomorrow will depend to a great extent on the school program of today the teaching staff of the Sudbury Schools is pledged to the fundamental job of training intelligent co-operative citizens; with well-balanced emotions; with knowledge of their own special aptitudes; with constructive ideas as to the use of leisure; and with high moral character.

HIGH SCHOOL SUBJECTS OFFERED 1931—1932

English	General Science
Latin	Chemistry
French	Commercial Arithmetic
Algebra	Bookkeeping
Geometry	Shorthand
U. S. History	Typewriting
Problems of Democracy	Drawing

We offer a choice of subject matter which seems absolutely essential and basic to the needs of our pupils, many of whom are preparing for normal school and university training.

We have been fortunate in having a small turnover of teachers during the past three years. Our school may no longer be termed a kindergarten for beginning teachers. It is of paramount importance that the subject matter in our schools be presented by experienced teachers.

PARENT-TEACHER PROJECTS

We are indebted to the Parent-Teacher Association for the school lunch system and the annual dental clinic. It is hoped that these projects will be continued for we recognize the fact that much of a pupil's progress in school depends upon his physical fitness.

ATHLETICS

The athletic field adjoining the school affords an opportunity for many group activities. This year it has been used for Baseball, Tag-Football, Soccer and Field-Hockey for grades seven through twelve.

Miss Beatrice Beckwith and Miss Winifred Blackmer have given freely of their time in coaching the girls in Field-Hockey. Their efforts have been greatly appreciated.

It is hoped that the good start made in levelling the field will be continued. The Sudbury High School Athletic Association, a school organization, is prepared to vote money each year to help increase the value of this land as a community recreation center.

ATTENDANCE

The statement concerning attendance in the report of last year may well be repeated.

School officials have learned that the enforcement of regularity of attendance requires co-operation on the part of the home, the child, and the teacher. Punctuality is treated as a valuable habit. Attendance is considered an opportunity, the neglect of which works hardship, and the good use of which helps to bring success in school work and in life.

SUDBURY HIGH SCHOOL ALUMNI ASSOCIATION

The Sudbury High School Alumni Association has been inactive for several years. This association, properly reorganized, could serve its members, the high school, and the community, in many ways.

POST-GRADUATE WORK

When we were of high school age, it was possible for every worker to get a position of some kind. Today, not only in depression but in prosperity, it is difficult for earnest workers to secure employment. It is evident that many of our graduates cannot be absorbed by industry at present. The school is eager to use its resources for the benefit of those who can profit by post-graduate work.

ECONOMY IN EDUCATION

It is during a period of depression more certainly than at any other time that the program of education should be maintained and developed. Fewer opportunities are provided at home than were made available during the period of prosperity. There is

greater danger of social maladjustment and of physical deterioration when parents are out of work.

It is our duty to make the best possible use of the resources at hand and to maintain instruction at a high level of efficiency. When that result is obtained the most important characteristic of an economical school system has been created.

REPORT OF SCHOOL PHYSICIAN

Mr. Frank H. Benedict,
Superintendent, of Sudbury Schools,
Cochituate, Mass.

Dear Mr. Benedict—I herewith have the honor of submitting my report as Physician of Sudbury Schools for the year 1932.

Number of students examined:

Grades	187
High School	68
Total	<u>255</u>

The following defects were noted:

In the grades:

Malnutrition	30
Poor posture	58
Pediculosis	7
Skin eruptions	3
Carious or dirty teeth	56
Tonsils needing attention	27
Tonsils with slight defects	25

Adenoids	19
Enlarged glands	20
Organic heart	2
Nervous symptoms	2
Eyes needing medical advice	3

In the High School:

Defective or dirty teeth	11
Diseased tonsils	5
Enlarged Thyroid gland	2

There is a marked general improvement of the school children during the last two or three years.

I consider the small number of poor teeth an excellent example of the benefit obtained from a dental clinic.

There are fewer tonsils requiring attention than ever before.

By arrangement with the Board of Health those students who had previously received toxin-antitoxin were Schicked in the month of June.

I wish to again thank you, the school nurse, the teachers and especially the students for their hearty co-operation in this work.

Respectfully submitted,

ERNEST E. SPARKS.

REPORT OF NURSE

To the Sudbury School Committee:

A report of the school nursing for the year ended December 31, 1932, is hereby submitted.

Forty-two days were spent in Sudbury school work: 132 pupils treated or advised; 61 home visits made; all pupils weighed and measured; physical examinations recorded; report made to Dr. Sparks; notices of defects sent to parents; much time spent clearing up infected heads in the spring and again in September. Every opportunity is used to teach the children general health principles.

In September there were 44 pupils 10 per cent or more underweight, which is 17 per cent of the grades and 25 per cent of the High School.

Twenty-six pupils entered school for the first time in September; 17 were without defects. Twenty-six were vaccinated and 4 had had inoculations for diphtheria. The defects were 4 tonsils, 8 carious teeth, and 2 infected heads.

The Schick test was given by Dr. Sparks June 6, 1932. All those tested were found to be immune to diphtheria.

The dental corrections for the year are as follows: 44 by examination; 50 by dental clinic; and 8 by family dentists, a total of 102 or 48 per cent of the school population.

Respectfully submitted,

DOROTHY R. SNELLING, R. N.

South Lincoln, Massachusetts, January 4, 1933.

REPORT OF THE SUPERVISOR OF ATTENDANCE

My services as Supervisor of Attendance during the past year have called for the investigation of 30 cases of absence. Seventeen cases were found to be legal absences and 13 cases were without cause, or recorded as cases of truancy. There have been no cases demanding court action.

Aside from services mentioned I have taken the School Census.
