Auctioneer's License—Howard C. Burr, Geo. Wilson.

SELECTMEN'S REPORT

Fellow Citizens—As we write this report and reflect upon the events which have taken place since our last report we realize that the year 1933 unquestionably will go down in history as a year of notable events and accomplishments, the greatest of which, possibly, for the most of us was the progress the country made in its war against depression.

We may very comfortably draw an analogy between the World War and this great war against depression which is now being waged in this country. It may be said that as in 1917 the task of the allied leaders was to restore the shaken morale of their armies, so our Federal Government devoted the year 1933 to restoring the morale of the American people. We may also say that the year 1933 corresponds to the last year of the war. In that last year of the World War the allies applied the strategy of a double line of defense thus stopping with their second line that part of the offense which sifted through the front line. Through this strategy the Germans lost their initiative and it was picked up by the allies and continued until victory was won. The first line in our fight against depression is the tremendous emergency expenditures by the Federal Government, with the second line the devaluation of the American dollar. Subsequently, according to the prospectus, will come an irresistible forward movement of business and industry under its own power. It is expected that this money put into circulation through the several Federal Agencies will start a buying movement which will cause the wheels of industry to turn to produce articles for consumption. As business and industry get into motion more and more people will leave the employ of the government in these P. W. A., C. W. A., C. C. C., and what have you projects, and return to permanent positions in private business.

It is rather staggering when we consider the tremendous sums of money to be raised to take care of this Federal relief, yet when we compare this with the public debt created by the late World War we find that our debt at that time was twenty-five billion dollars to be used to destroy people and property; whereas our present situation finds us in debt to the tune of about twenty-four billion dollars and this for the purpose of bringing back prosperity and furnishing sustenance and a few comforts to those unfortunate enough to be in want.

This program of spending is a part of the new deal promised last March when our President assumed his duties at Washington. This new deal was designed to put people back at work, thus furnishing them the wherewithal to alleviate their distressed circumstances and improve their morale. Whatever our political

affiliations we are forced to admit that the situation has changed. The average American citizen has been able to throw off that feeling of hopelessness and despair of ever getting out of the rut and has kindled within him that spark of hope so essentially necessary to his continuing an orderly fight back to better times. With this feeling of hope and confidence that the future holds promise we all should dedicate ourselves to the task of carrying on such relief work as is necessary to give everyone a comfortable living until business and industry can take this vast army back into their employ.

We have heard of the many forms of relief and schemes to give people employment such as the N. R. A., P. W. A., and C. W. A., etc. The one that probably interests us the most, at the moment, is the C. W. A. or Civil Works Administration devised last fall to put men and women to work immediately. The amount allotted for this town at that time, in round figures, was \$2,700. which was to be used for labor and materials. This board submitted projects designed to furnish the maximum amount of labor in the several projects amounting to \$3,045. Some of the projects have been completed, others are in operation, while others are still to be started. The failure to start some of these was caused by the severe weather making it impossible to do work of grading. At the time of this writing men on local C. W. A. projects have been given 3740 hours of labor receiving \$2,074 from the Federal Government for such labor. There were in the neighborhood of one hundred men registered as unemployed in town. You can thus see that the problem of selecting men for the different projects, while at the same time selecting the ones most needing and deserving, was a very difficult one and of necessity created disappointments and complaints. If there had been work enough for all it would have been very simple.

Supplementing this local C. W. A. work there have been several State projects which have given additional employment such as apple tree cutting, corn borer eradication, gypsy and brown tail moth work, State Farm work at North Sudbury, and barn cleaning work. These latter projects have given work to approximately fifty men.

From the above figures you can readily see that many people in town have been materially helped through this relief work. There have been discrepancies and mistakes made in handling this work, but we dare say Sudbury's record is not the worst by any means. We believe those in charge of administering this work were honest and untiring in their efforts to give employment to those most deserving.

Let us not lose sight of this point: permanent recovery will never come until the greater part of this vast army of unemployed are absorbed into private business and industry. The employment of these people by the Government will begin to taper off very soon making it imperative that diligence be practiced in the search for work elsewhere.

The above local projects were designed to furnish the maximum of labor, bearing in mind that money spent for materials and equipment would not directly assist our town's people.

The first project included the installation of a drain pipe, covered, along the Concord Road at South Sudbury making it possible to eliminate a section of the old ditch with its antiquated, dangerous and unsightly culverts beside the highway. The second was cleaning away the debris in the parking space at the rear of the Town Hall; the laying of the stone walls around it; the making of cemetery lots in the town cemetery from loam hauled from the parking space; and the widening of the curve on Old Sudbury Road in front of the hall by taking out a large tree. The third took care of cutting brush and graveling on Goodman Hill Road to make it passable for those who own property there. It is not intended to make this a main thoroughfare, simply to provide access to property. We should realize that the property along this road may in the near future be developed to a point where much additional revenue will accrue to the town in the form of taxes. The fourth project was the painting of the high school building which was sadly needed. Other projects approved but not started include work on the recreation field and the grading and beautifying of the property around the high school and between there and the Haynes house.

These projects were also designed as a part of a plan to make the town a more attractive and desirable place in which to live. Likewise these improvements, with others contemplated, should tend to make this town more appealing to those people seeking new homes of the better type.

A town water system, in our estimation, would be an added inducement for such people to locate in Sudbury. We are not alone in this belief as business men, bankers and real estate brokers in our surrounding towns and cities have been almost unanimous in their judgement that such is the history of every town making such an installation. People should consider this project with an unprejudiced mind, giving due consideration to its merits. It is a self liquidating project and one that will before the bonds are retired become a source of revenue to relieve our tax burden.

The preliminary steps have already been taken to furnish this water system. A source of supply was found which will prove ample in volume. The analysis of this water made by the State Board of Health was very satisfactory. To use their words it was "soft, clear, colorless, and of excellent quality for domestic uses." When considering the cost of this system, according to the committee's report, we are forced to agree that for every dollar our tax rate is increased, to pay for this system, our insurance rates will be reduced an equivalent amount. As we gradually retire the principal of these bonds the balance gradually increases in favor of the tax payer. We believe the installation of a water system is a good business investment for the town and merits your endorse-

ment. The committee's full report will be found elsewhere in the town report.

In the early part of last summer at least twenty-five percent of the street lights were discontinued. We believe no great hardship or inconvenience was experienced by the town's people except where an occasional light was removed from in front of a residence by a mistake of the Edison Company. We believe it possible to discontinue more lights, possibly ten to fifteen percent, and are making that recommendation.

We are recommending the reconstruction of a section of Union Avenue this year which will thus eliminate the annual breaking up of this road as well as to furnish work for needy town's people. By appropriating one thousand dollars for this purpose we expect to receive two thousand each from the State and County.

An amendment to our by-laws is recommended to make it possible to get a conviction against persons using the sides of our streets as dumping ground for rubbish and dead animals. It is a familiar sight to see heaps of old tin cans, rubbish and bags containing dead animals, etc., thrown beside roads in this town. In one particular instance a person was apprehended for depositing a bag full of supposedly dead hens in the brush beside the road. The case went to court and the only reason for a conviction was the fact that one of the hens was still alive; the party being convicted for cruelty to animals. There is no common law against this sort of thing and for this reason this board recommends the adoption of a by-law governing it.

In considering our budget for this year we should not lose sight of the fact that there were as of January 1, 1934 according to our tax collectors records over forty thousand dollars of uncollected taxes in this town. This is the largest, we believe, in the town's history at this time of year and indicates the increasing difficulty our tax payers are experiencing in getting money enough to pay their taxes.

Responsibility for this situation may lie in the expectation of many that their taxes can be "worked out on the roads," to use the familiar expression. It is possible for a certain percentage of our taxes to be paid in this manner and this board does not care to be recorded as against this practice entirely. There are many deserving cases of property owners who have found themselves unable to take care of their taxes in any other way. We approve of this practice just so far as it applies to those who have made an honest effort to take care of them by other means. We must remember however that there is a limited amount of money which can be used for such purposes and if we all depended on this privilege the town would go bankrupt. Let us not allow this to become another racket. If we do, the town will surely suffer. We should be thankful that the credit of the town has been maintained through these last four years of depression. Let us continue to be cautious

in our expenditures for town purposes so that this credit may be maintained.

We have passed through an extended period of hard times, so to speak; our morale has been shaken and our resources depleted, yet we have been spared the hideous scenes of revolt, rioting and revolution which the countries of Europe have witnessed. There are indications that this country is on the road to economic recovery without such experiences. A responsibility rests upon each and every one of us to keep our government both national, state and local on an even keel.

Respectfully submitted,

HARVEY N. FAIRBANK,
AUBREY W. BORDEN,
L. ROY HAWES,

Selectmen of Sudbury.

REPORT OF FINANCE BOARD

To the Board of Selectmen,
Sudbury, Massachusetts.

Gentlemen—The Finance Committee of the Town of Sudbury respectfully submit their report with recommendations as follows:

The total of the amounts requested by the different departments amounts to \$69,827.76. The total amount which we recommend amounts to \$63,107.76.

We feel that it is necessary to make every reduction possible in our tax rate. Our reason for this is the fact that the uncollected taxes as of January 31, 1934, amount to \$40,406.31. On account of this large amount of uncollected taxes, the town is not allowed to use any money left over from appropriations of the previous year or any of the miscellaneous receipts of the town.

Item	Requested	Recommended
1. Payment of interest.....	\$ 3,900.00	
We recommend.....		\$ 3,650.00
We are informed by the Selectmen that this reduction will take care of this item.		
2. Salaries and Expenses Town Officers..	1,900.00	
We recommend.....		1,950.00
This difference is to compensate the town treasurer for extra work and to allow for the expense of tax titles.		
3. Street Lights.....	4,800.00	
We recommend.....		4,000.00
The Board felt that there was a possibility of further reduction in the number of street lights.		

4.	Roads Maintenance Chapter No. 90 . . .	3,000.00	
	We recommend		2,000.00
	A reduction in this item is recommended by the Board on account of additional appropriations under later items.		
5.	Roads Maintenance Chapter No. 81. \$	4,800.00	
	We recommend		4,800.00
6.	General Road Expense	400.00	
	We recommend		400.00
	This item is to provide the town with a new gravel loader.		
7.	Snow and Ice Removal	1,500.00	
	We recommend		800.00
	The amount spent last year was \$800.00		
8.	Memorial Day Expenses	100.00	
	We recommend		100.00
9.	Care of Town Clock	45.00	
	We recommend		45.00
10.	Incidental Account	600.00	
	We recommend		450.00
	This reduction is on account of providing for the animal inspector's salary under a separate item.		
11.	Care of Soldiers' and Memorial Lots . . .	75.00	
	We recommend		75.00
12.	Premium on Bonds	200.00	
	We recommend		200.00

13.	Insurance Town Property	870.76	
	We recommend		870.76
	<p>This item is much larger than last year on account of the fact that this includes the insurance on the school property which formerly was granted to the School Committee under separate appropriation.</p>		
14.	State Aid	72.00	
	We recommend		72.00
15.	Police Department	1,400.00	
	We recommend		1,400.00
16.	Fire Department	2,350.00	
	We recommend		2,300.00
	<p>This reduction is on account of the elimination of hydrant equipment which is not necessary at this time.</p>		
17.	Town Hall Expense \$	1,300.00	
	We recommend		\$ 1,300.00
	<p>This is an increase of \$100 over that of last year on account of repairs to the chimney.</p>		
18.	Town Reports	250.00	
	We recommend		250.00
19.	Election and Registration	200.00	
	We recommend		200.00
20.	Care of "old" cemetery	100.00	
	We recommend		75.00
21.	Care of "town" cemetery	100.00	
	We recommend		75.00
22.	Library Trustees	300.00	
	We recommend		250.00
	<p>This is the same amount as last year.</p>		

23.	Moth Department	1,050.00	
	We recommend		500.00
	This smaller amount is recommended because there has been a large amount of work done this winter in creosoting and removing nests by the C. W. A.		
24.	Board of Health	1,000.00	
	We recommend		1,000.00
25.	Legal Advice to Selectmen	200.00	
	We recommend		100.00
	Only \$50 was spent last year.		
26.	Insurance of Town Employees	650.00	
	We recommend		400.00
	This reduction is on account of an error in the amount requested.		
27.	Tree Warden's Expense	250.00	
	We recommend		200.00
	Same amount as last year.		
28.	Tax Collector's Salary	900.00	
	We recommend		900.00
29.	Tax Collector's Expense	180.00	
	We recommend		180.00
30.	Town Accountant and Clerk to Boards	500.00	
	We recommend		500.00
31.	Reserve Fund	2,000.00	
	We recommend		2,000.00
	This is to take care of any emergency during the year.		
32.	Support of Schools	25,700.00	
	We recommend		25,500.00
	This reduction was agreed to by the School Committee at the hearing.		

- | | | |
|-----|---|----------|
| 33. | Middlesex County T. B. Hospital | 1,500.00 |
| | We recommend | 1,500.00 |
| | This is an item over which the town has no control. | |
| 34. | Public Welfare | 4,500.00 |
| | We recommend | 2,500.00 |
| | On account of the amount of money that is being spent by the Federal Government, we feel that there will be less cost for the first part of this year than normally. We also feel that work will be provided under item 36, which is in addition to any road work done last year. | |
| 35. | Old Age Assistance | 300.00 |
| | We recommend | 300.00 |
| | The Finance Board recommends that it be voted by the Town that this amount is to cover assistance, salaries, and incidental expenses. | |
| 36. | New Construction Chapter 90 Roads | 1,000.00 |
| | We recommend | 1,000.00 |
| | The Board understands that this is to provide for the reconstruction of Union Avenue between the State Road and the bridge. We are informed that, if the Town appropriates this amount, the state and county will provide \$4,000.00, making a total of \$5,000.00 available. | |
| 37. | Unpaid Bills | 1,000.00 |
| | We recommend | 1,030.00 |
| | This is on account of an additional bill received after the budget was made out. | |

38.	Salary of Animal Inspector	135.00	
	We recommend		135.00

This is a new item on the town warrant which was formerly paid out of Article 10.

39.	Repair of Bridges	100.00	
	We recommend		100.00

40. To see if the Town will vote to appoint a committee for the purpose of trying to secure lower automobile insurance rates and grant or appropriate \$100.00 or any other sum for their use; or take action thereon.

The Finance Committee has not had sufficient information on this article.

41. To see if the Town will vote to grant the sum of \$500.00 for the purchase of a certain piece of land on the northerly side of the Boston and Maine Railroad tracks between Union Avenue and the Boston Post Road; pass any vote or take any action relative thereto.

The Board does not think the Town should buy real estate which is now paying taxes to the Town.

One member of this committee, Gardner Poole, has been at all the meetings of the Finance Board, but is unable to sign this report as he is, at present, out of the state.

THE FINANCE COMMITTEE,

WALTER E. PIPER,
MELVIN L. GUPTILL,
LAWRENCE B. TIGHE,
E. NORMAN BOWRY.

TOWN WARRANT

For the Annual Town Meeting, March 5, 1934

COMMONWEALTH OF MASSACHUSETTS
Middlesex, ss.

To either of the Constables of the Town of Sudbury,

Greetings:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Sudbury, qualified to vote in elections and town affairs, to meet at the town hall in said town, on Monday, the fifth day of March, next at seven o'clock in the forenoon; then and there to act on the following articles namely:

Article 1. To choose by official ballot in accordance with law, a moderator, a town treasurer, a collector of taxes, three constables, a highway surveyor, a tree warden, all for one year; one member of the board of public welfare, one member of the board of health, one member of the school committee, one trustee of the Goodnow library, one assessor, one member of the board of selectmen, two members of the planning board, all for three years, one member of the planning board for one year to fill an unexpired term and also to choose field drivers, fence viewers, a pound keeper and any and all other necessary town officers for the ensuing year.

Also to vote by official ballot in accordance with law, on the following questions:

Question 1. Shall licenses be granted in this town for the sale therein of all alcoholic beverages (Whisky, rum, gin, malt beverages, wines and all other alcoholic beverages)?

Question 2. Shall licenses be granted in this town for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages)?

The polls will be open at seven o'clock in the forenoon and may be closed at four o'clock in the afternoon. The business meeting will be held at half past one in the afternoon.

Article 2. To hear and act on reports.

Article 3. To see if the town will grant and appropriate money for any and all necessary town purposes for the ensuing year; pass any votes or take any action relative thereto.

The Selectmen herewith present the budget together with the recommendations of the finance committee.

Item	Requested	Recommended
1. Payment of interest	\$ 3,900.00	
<i>Finance committee recommends</i>		\$3,650.00
<i>We are informed by the Selectmen that this reduction will take care of this item.</i>		
2. Salaries and Expenses Town Officers	1,900.00	
<i>Finance committee recommends</i>		1,950.00
<i>This difference is to compensate the town treasurer for extra work and to allow for the expense of tax titles.</i>

	<i>Finance committee recommends</i>		900.00
29.	Tax Collector's Expense	180.00	
	<i>Finance committee recommends</i>		180.00
30.	Town Accountant and Clerk to Boards	500.00	
	<i>Finance committee recommends</i>		500.00
31.	Reserve Fund	2,000.00	
	<i>Finance committee recommends</i>		2,000.00
	<i>This is to take care of any emergency during the year.</i>		

32. Support of Schools 25,700.00
Finance committee recommends 25,500.00
This reduction was agreed to by the School Committee at the hearing.
33. Middlesex County T. B. Hospital 1,500.00
Finance committee recommends 1,500.00
This is an item over which the town has no control.
34. Public Welfare 4,500.00
Finance committee recommends 2,500.00
On account of the amount of money that is being spent by the Federal Government we feel that there will be less cost for the first part of this year than normally. We also feel that work will be provided under item 36, which is in addition to any road work done last year.
35. Old Age Assistance 300.00
Finance committee recommends 300.00
The Finance Board recommends that it be voted by the Town that this amount is to cover assistance, salaries, and incidental expenses.
36. New Construction Chapter 90 Roads 1,000.00
Finance committee recommends 1,000.00
The Board understands that this is to provide for the reconstruction of Union Avenue between the State Road and the bridge. We are informed that, if the Town appropriates this amount, the state and county will provide \$4,000.00, making a total of \$5000.00 available.

37. Unpaid Bills	1,000.00	
<i>Finance committee recommends</i>		1,030.00
<i>This is on account of an additional bill received after the budget was made out.</i>		
<hr/>		
38. Salary of Animal Inspector	135.00	
<i>Finance committee recommends</i>		135.00
<i>This is a new item on the town warrant which was formerly paid out of Article 10.</i>		
39. Repair of Bridges	100.00	
<i>Finance committee recommends</i>		100.00

Article 4. To see if the Town will vote to appoint a committee for the purpose of trying to secure lower automobile insurance rates and grant or appropriate \$100.00 or any other sum for their use; or take any action thereon.

The Finance Committee has not had sufficient information on this article.

Article 5. To see if the Town will vote to grant the sum of \$500.00 for the purchase of a certain piece of land on the northerly side of the Boston and Maine Railroad tracks between Union Avenue and the Boston Post Road; pass any vote or take any action relative thereto.

The Board does not think the Town should buy real estate which is now paying taxes to the Town.

Article 6. To see if the town will authorize the treasurer with the approval of the Selectmen to borrow money in anticipation of Revenue of the current fiscal year; or do or act thereon.

Article 7. To see if the town will grant or appropriate the sum of \$1,000.00, this being the town's share of the principal of the Middlesex County Tuberculosis Hospital Funding Loan, Act of 1932 bonds maturing in 1934, be and the same is hereby appropriated, and that a further sum of \$106.18 be and hereby is appropriated on account of interest and other charges on account thereof. That a further sum of \$74.74 be and hereby is appropriated for the town's share of the expense incurred under the provisions of Chapter 331 of the Acts of 1933, which provided for the settlement of certain claims of the Commonwealth against the Middlesex County Tuberculosis Hospital District. That a further sum of \$292.51 be and hereby is appropriated for the town's share of the net cost of care, maintenance, and repairs of the Middlesex County Hospital, including interest on temporary notes issued therefor, in accordance with sections of Chapter 111 of the General Laws applicable thereto.

Article 8. To see if the town will vote to amend its by-laws by adopting the following: Persons are prohibited from dumping, throwing or leaving dead animals, or rubbish on or beside our public highways. Persons not complying with this regulation shall be liable to a fine of not less than \$20.00 for each offense.

Article 9. To see if the town will vote to discontinue any part of its street lighting system: pass any vote or take action relative thereto.

Article 10. To see what action if any the town will take to guarantee the perpetual care of burial lots sold in the town cemetery, pass any votes or take action relative thereto.

Article 11. To see if the town will vote to accept the sum of \$100.00 dollars for the perpetual care of the Emma Moore lot and the sum of \$100.00 for the perpetual care of the Lemuel Moore lot, or do or act thereon.

Article 12. To see if the town will vote to accept from Blanche M. Keene the sum of \$125.00 for perpetual care of the Vose lot, or take action relative thereto.

And you are required to serve this warrant by posting attested printed copies thereof at the town hall, each public meeting house, railroad station and post office in said town, seven days at least before the time appointed for holding said meeting.

Hereof fail not and make return of this warrant with your doings thereon to the town clerk at or before the time of meeting of aforesaid.

Given under our hands this nineteenth day of February, one thousand nine hundred and thirty-four.

HARVEY N. FAIRBANK,
AUBREY W. BORDEN,
L. ROY HAWES,

Selectmen of Sudbury.

Scattering.....	6
Blanks.....	111

Under this article it was further Voted: *That the choice of other officers necessary to be chosen at this meeting be delegated to the selectmen.*

Article 2. To hear and act on reports.

Under this article a correction by the School Committee at page 9 of its report, as printed was noted: It should read "*Towns having less than 500 families do not have by law to maintain high schools.*" It was also noted by the mover at the last annual meeting that an error appears on page 46 of the town report, which should read "*A rising vote of appreciation for the work of the Finance Committee*" instead of the "*Fire Department.*" It was then Voted: *That, with the corrections noted, the reports of the several departments, as they appear in the annual town report, be accepted—No further reports were submitted.*

Article 3. To see if the town will grant and appropriate money for any and all necessary town purposes for the ensuing year; pass any votes or take any action relative thereto.

Under this article it was Voted: *to grant and assess except as otherwise noted the following sums of money for the purposes specified.*

1. Payment of Interest.....	\$ 3,900.00
2. Salaries and expenses of Town Officers.....	1,850.00
3. Street lights.....	4,500.00
4. Roads, Maintenance Chap. 90. \$1,000.00 (re-considered).....	3,000.00
5. Roads, Maintenance—Chap. 81.....	4,800.00
6. General Road expense.....	100.00
7. Snow and ice removal (Recommendation of Finance Committee \$800. in open meeting).....	800.00
8. Repair of Bridges—\$100.—(A motion to grant \$100. was ruled out of order).....	000.00
9. Memorial Day.....	100.00
10. Care of Town Clock (Vote of 114 to 48).....	45.00
11. Incidentals.....	600.00
12. Care of Soldiers and Memorial lots.....	75.00
13. Premiums on official bonds.....	200.00
14. Insurance of Town property.....	400.00
15. State Aid.....	72.00
16. Police Department.....	1,400.00
17. Fire Department.....	1,700.00
18. Town Hall expense.....	1,200.00
19. Town reports.....	245.82
20. Election and registrations.....	200.00
21. Care of Old Cemetery.....	40.00

22.	Care of Town Cemetery	40.00
23.	Library Trustees	250.00
24.	Moth Department	300.00
25.	Board of Health	1,000.00
26.	Legal advice to Selectmen	200.00
27.	Insurance of Town employees	400.00
28.	Expense of Planning Board (nothing asked)	00.00
29.	Tree Warden	200.00
30.	Collector's Salary	900.00
31.	Collector's expenses	180.00
32.	Town Accountant and Clerk of Boards	500.00
33.	Unpaid bills—Voted to <i>appropriate from Overlay Reserve fund the sum of \$1,397.02</i>	
34.	Reserve Fund. Voted to <i>appropriate from Overlay Reserve Fund the sum of \$2,056.37.</i> (Amounts granted under other articles).	
	Support of Schools (Article 4)	25,600.00
	Insurance of School property (Article 5)	700.00
	Middlesex County Tuberculosis Hospital (Art. 14)	1,739.90
	Settlement of Damage Suits (Art. 15)	400.00
	Shingling Legion Hall (Article 16)	175.00
	Public Welfare (Article 17)	1,500.00
	Old Age Assistance (Article 18)	600.00
	Amount granted at this meeting, to be assessed	59,912.72
	Amount appropriated from Overlay Reserve Fund	\$ 3,453.39

Article 4. To see if the town will grant or appropriate the sum of \$25,600. for the support of Schools; pass any votes or take any action relative thereto.

Voted: *To grant and assess the sum of \$25,600.00 for support of schools.*

Article 5. To see if the town will grant or appropriate the sum of \$900.00 for renewing the insurance upon its school properties; pass any vote or take action relative thereto.

Voted: *To grant the sum of \$700.00 for renewing insurance upon the school buildings.*

Article 6. To see if the town will permit the Selectmen to sell the school property situated in North Sudbury, provided a reasonable price can be obtained for the same; pass any votes or take any action relative thereto.

By a vote of 56 to 70 a motion to "*permit the selectmen to sell the school property at North Sudbury, provided a reasonable price can be obtained for it*" was lost. Thereupon it was Voted: *That the selectmen be permitted to sell the school building at North Sudbury, if a reasonable price can be obtained.*

Article 7. To see if the town will authorize the treasurer with the approval of the Selectmen to borrow money in anticipation of Revenue of the current fiscal year; or do or act thereon.

Voted unanimously: *That the town treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time, in anticipation of the revenue of the financial year, beginning January 1, 1933, and to issue a note or notes therefor, payable in one year; any debt or debts incurred under this vote to be paid from the revenue of said financial year.*

Article 8. To see if the town will make any provision for allowing the owners of real estate to work out their taxes; pass any vote or take any action relative thereto.

Under this article it was Voted unanimously: *That the real estate owners of the town be allowed to work on the roads to the amount of their taxes, such work to be performed either with trucks or hand labor. That said real estate owners be given first preference after the regular town equipment and skilled labor has been put to work. That those real estate owners who are more than one year in arrears be given preference to the amount of their overdue taxes.*

Article 9. To see if the Town will accept from the Estate of Sarah A. Haynes the sum of \$100. the same to be invested and reinvested and the income thereof to be expended from time to time for the perpetual care of the lot in Mount Pleasant Cemetery in which the remains of said Sarah A. Haynes are buried.

Voted: *That the town accept the sum of \$100.00 from the estate of Sarah A. Haynes for the purpose specified in the article.*

Article 10. To see if the town will accept the sum of one hundred twenty-five dollars from Lydia M. Morse for perpetual care of a lot in Mount Pleasant Cemetery known as the Alice E. Rice lot; or take any action relative thereto.

Voted: *That the town accept the sum of \$125.00 for the purpose named.*

Article 11. To see what action if any the town will take relative to the discontinuance of any part of its street lighting system; or pass any vote relative thereto.

Voted: *That the Board of Selectmen be authorized to discontinue at least twenty-five percent of the street lights.*

At this point the unfinished business of the last annual meeting being Article 5 of the warrant therefor, was taken up and it was Voted: *That the subject matter of said article 5 be indefinitely postponed.*

Article 12. To see what action if any the town will take regarding the offer made by a representative of Mr. Henry Ford to give to the town a plot of land in Sudbury Center known as the Parmenter Store lot, pass any votes or take action relative thereto.

Voted unanimously: *That the town accept from Mr. Henry*

Ford the gift of the plot of land at Sudbury Centre known as the Parmenter store lot, and that it be used for town purposes.

Also Voted unanimously: *That the thanks of the town are hereby extended to Mr. Ford for this gift, and that he be notified of this action.*

Article 13. To see if the town will vote to establish the rate of compensation for town employees and trucks, pass any votes or take action relative thereto.

By a vote of 80 to 79 it was voted: *that this article be indefinitely postponed.*

Article 14. To see if the town will appropriate a sum sufficient to pay the County of Middlesex as required by law on account of assessments levied on the town for its share of the principal of the Middlesex County Tuberculosis Hospital Funding Loan, Act of 1932 bonds maturing in 1933 issued in compliance with Chapter 10, Acts of 1932, also for any other indebtedness incurred and outstanding under said Chapter 10, also for the town's share of interest on said bonds due in 1933, also for the care and treatment of tubercular patients under Acts of 1928, Chapter 385 as amended by Acts 1931, Chapter 60, also for care, maintenance and repair of said Hospital for 1932 including interest on temporary notes issued therefor in accordance with General Laws, Chapter 111, sections 85 and 85A, and for all other expenses in connection therewith, determine how the money shall be raised, or in any way act thereon.

Middlesex County Tuberculosis Hospital

On account of principal of bonds \$ 1,000.00

Interest and other charges on bonds 197.18

Care, maintenance, repairs, interest on temporary notes, cost of care and treatment of patients 542.72

Voted: *That the sum of \$1,739.90 be granted for the purpose named in this article.*

Article 15. To see if the town will vote to authorize the Selectmen to settle any damage suits now pending against the town; pass any votes or take action relative thereto.

Voted: *That the selectmen be empowered to make settlement for the sum of \$400.00 for a damage suit now pending against the town.*

Article 16. To see if the town will vote to grant the sum of \$175.00 to cover cost of shingling Legion Hall, pass any votes or take action relative thereto.

Re-shingling Legion Hall \$ 175.00

Voted: *That the town grant the sum of \$175.00 to cover the cost of shingling the Legion Hall: to be expended by the Selectmen.*

Article 17. To see if the town will vote to grant and appropriate the sum of \$3,500.00 for public welfare work in this town; pass any votes or take action relative thereto.

Board of Public Welfare, welfare work \$3,500.00

Voted: *That the sum of \$1,500.00 be granted for the purpose named.*

Article 18. To see if the town will vote to grant and appropriate the sum of \$1,000.00 for Old Age Assistance, and provide for its expenditure; pass any votes or take action relative thereto.

Board of Public Welfare, Old Age Assistance 1,000.00

Voted: *That the sum of \$600.00 be granted for the purpose named.*

Article 19. To see if the town will vote to have one street light installed at the junction of Dudley Road, and State Road; or take action relative thereto.

Placing Light at Dudley and State Roads. . .

Voted: *That the Selectmen be authorized to install a light at the place referred to in this article.*

At this point (4 o'clock P. M.) it was Voted: *That the polls be kept open one-half hour.* Then Voted: *to take up Article 3 and thereupon it was Voted: That the grant for Roads, Maintenance, item 4 of Article 3, be increased to \$3,000.00.*

After the announcement of the vote for town officers, it was Voted: *That this meeting be dissolved.*

FIRE DEPARTMENT REPORT

To the Board of Selectmen:

Gentlemen—During the year 1933, there were forty-four calls for fire, a decrease of about forty percent from last year. Twenty-two were woods and grass fires, ten for buildings, seven for chimneys, and five for automobile fires.

Permits were issued for fires in the open, for use of dynamite, installing gasoline tanks, oil burners, and the storage of fuel oil, for which a permit must be obtained for any amount over ten gallons.

The twenty-four regular meetings and drills, held during the year, were well attended and a definite course of training was carried out. Two officers of the department attended the Arlington drill school for firemen, which is under the direction of the State Board of Education. The object of this school was to have a uniform course of training and to promote mutual aid between fire departments of neighboring cities and towns.

I believe the greatest help toward better fire protection would be a town water system with fire hydrants. I also desire to emphasize the importance of preventing fires by eliminating fire hazards, such as: accumulation of rubbish, defective chimneys and carelessness, which causes seventy-five percent of all fires.

I wish to express my appreciation for the cooperation given me by the selectmen, the telephone operators, and the members of the department.

EXTENSION SERVICE

Following is a general report of the work carried on by the Middlesex County Extension Service in the town of Sudbury for 1933.

Probably the greatest work this year in the town of Sudbury has been carried on with the dairymen. Much time has been spent either locally or in a county way on production and marketing problems pertaining to milk. Many farm visits have been made to assist in individual problems in dairy replacements and production of field crops.

Some work has also been done with the poultrymen in remodeling and reconstruction of barns or poultry houses and in flock management and disease control.

Local fruit growers and market gardeners have also made many requests to the Extension Service for assistance.

The Homemakers' Day Extension group in South Sudbury has been under the leadership of Mrs. W. J. Brennan, Mrs. Llewellyn Richardson, Mrs. J. B. Way, and Mrs. A. Kirkland.

Prof. Cole, food preservation specialist of Massachusetts State College, conducted a meeting in the town hall in Sudbury. About 25 women attended this meeting for help with their canning problems and for suggestions on the newest methods of food preservation.

The boys and girls 4-H Clubs have been carried on in food, clothing, garden and poultry, led by Mrs. Anna Wohlrab, Mrs. Llewellyn Richardson, Arvid Nelson, H. A. Rorstrum, and John Carson. Mrs. W. E. Davison has served as town 4-H chairman.

The various clubs held an exhibit in June and in October gave an evening program before the Grange. Alberta Seavey was second in a county-wide baking-powder biscuit competition. Mary Quinn took part in a county muffin contest and also in the 4-H dress revue, in which also were Constance Bernard, Nancy Fairbank, and Mary and Pauline Piacitelli.

William McSweeney was awarded a ten-day stay at the State 4-H camp for excellence in the garden project. Eleanor Diabiasse also received the award for good work in the food project.

Members of the Wayside Inn garden club were winners in the Acton Fair 4-H vegetable judging competition.

Mrs. Richardson attended the State leaders' camp at the State College. A two-day trip to the State College was awarded to Mary Piacitelli.

Respectfully submitted,

GEORGE H. CLARKE,
Local Director.

Circulation of Books and Magazines and Fines Collected For 1933

Books	7,612
Magazines	1,920
Fines	\$ 42.64

Besides the books from Dr. and Mrs. Walback, the library received from Mr. Wm. Tufts a number of books helpful to Tech. students. Mr. and Mrs. Aiken gave three books of fiction in appreciation of readers privilege for their students.

Mr. L. Winship contributed several juvenile books and others on various subjects.

Mrs. Raymond gave a two years subscription to "Among the Deep Sea Fishers"—a magazine devoted exclusively to Sir Wilfred Grenfell's work in Labrador.

Respectfully submitted,

MABEL S. GOHLKE, Librarian.

REPORT OF TOWN WATER COMMITTEE

To the Honorable Board of Selectmen:

Sudbury, Massachusetts.

Gentlemen—The Water Committee of Sudbury was appointed during the last week of June, 1933, by vote of the Selectmen, to examine into the feasibility of setting up a town water supply system under the terms of the National Recovery Act, which had just been passed by the National Congress. The Committee was directed to report not later than August 15th of the current year.

Several meetings were held, and all phases of the question were explored by the Committee to the best of their ability. Their findings are embodied in the following report.

THE PUBLIC NEED

One of the first tasks was to examine the questions of public necessity and convenience involved in the problem. For, according to the terms of the NRA, the Government aid pledged in that law is to be granted only to projects having sound justification in public need as well as in adequate financing setup.

Your Committee believe such need to be urgent and conclusive in the matter of water supply. In their canvass of the town they found that conditions of drought are, and have been for years, a recurrent and harassing problem for many citizens of the community. Some property owners are faced by shortage of water practically every summer. Others, for whom a water supply is a vital commercial need, have incurred considerable financial losses due to inadequate supply. In parts of the town the Committee discovered that the extant water supply is of such bad quality that citizens are forced to purchase water for drinking purposes from Wayland and other nearby points.

Instances were found where property owners have undergone already, or face in the immediate future, very heavy expenses occasioned by the need of repairing or renewing their pumping, storage and piping systems, owing to the obsolescence of existing plant.

A review of the record of property destroyed by fire, during the past decade in Sudbury, discloses that the loss has been tremendous—with adverse effects upon the town's flow of tax revenues. In one unforgettable instance, this loss compelled a heavy expenditure. Your Committee believe that a large portion of these losses and expenses would have been averted or diminished had the town possessed adequate fire protection through a water supply system. They urgently suggest that a water system be considered carefully as a protection of the town's taxable resources.

One of the most striking discoveries made by the inquiry was that Sudbury is paying, in excess tribute to Insurance Companies and Power Companies, a sum sufficient every dozen years to pay the whole costs to the town of instituting a water supply system such as the Committee will describe later in this report. These facts are beyond question. In order to emphasize their importance in dollars and cents to the citizens, the Committee have obtained from the New England Insurance Exchange the following letter in reply to a query asking what effect installation of a town water system would have upon insurance premiums.

"In all probability if a town water system is installed, and we would assume that before any negotiations are completed that this office would be consulted, we would be able to grade Sudbury as "D" for minimum rates on dwelling house property. At the present time Sudbury is graded as "E." This classification permits of credit for dwelling property subject to minimum rates and located within one mile of the fire department station, the distance being measured over regularly traversed highways. Now if the water supply is installed credit would be allowable within 500 feet of a public hydrant and within two miles of the fire department station.

"As an example of the savings I quote the present unprotected rates, that is, more than one mile from a fire department station, on a frame, single family dwelling of all-year-round occupancy, without any tile or metal chimneys, as follows: Without the Three-Fourths Value Clause, 80 cents per \$100 per year with a combustible roof and 75 cents with a non-combustible roof. With the Three-Fourths Value Clause, 70 cents with a combustible roof and 65 cents with a non-combustible roof. Within one mile of the fire department station this same type of dwelling takes a rate, without the Three-Fourths Value Clause, of 65 cents with a combustible roof and 60 cents with a non-combustible roof, and with the Three-Fourths Value Clause 55 cents with a combustible roof and 50 cents with a non-combustible roof. Now this same dwelling, if within 500 feet of a public hydrant and within two miles of the fire department station, would take a rate of 31 cents with a combustible roof and 27 cents with a non-combustible roof. While the contents rates in the previous cases are the same, in this case the contents rates would be 36 cents with a combustible roof and 32 cents with a non-combustible roof.

"In regard to specifically rated property, such as churches, schoolhouses, garages, stores, etc., as each one of these buildings takes an individual or specific rate it is not possible to definitely state what the effect would be with the installation of hydrants but as the bulk of the property in Sudbury is mainly of the dwelling character, I rather feel that the information given will cover most of the cases."

In short, a town water system meeting Fire Insurance requirements would save the citizens benefiting from it 45 to 50 percent annually on their payments for fire insurance. These savings, the Committee further advises your Board, will be available not only to residential properties and contents as such, but to farm residences which stand 100 feet or more distant from barns and outbuildings. In addition, the New England Insurance Exchange informs us that insurance risks within the water district later described, but outside the two mile limit above specified, will undergo reappraisal and probably some readjustment downward.

A further saving directly affecting the pockets of citizens if town water were installed, would be found in costs now operative for electricity for well and pump systems common throughout our town. The Committee sought estimates from expert engineering authorities on this point. They were assured that this saving would run, for the average household of four persons, from \$12 to \$24 a year, depending upon the habits of water usage and the consequent frequency of pump operations.

The importance of a town water system is significant in the fact that the Committee in canvassing the water district have received the written pledge of approximately 100 property owners to take town water when such a system is installed.

For all these reasons, and for the further reason that a water system would improve real estate values and add to the community an asset which would, ultimately, prove a lucrative source of revenue for the benefit of taxpayers, and finally, because such a system would insure to the town the benefits of healthy and well balanced growth, the Committee believe the introduction of town water is economically imperative.

THE OPPORTUNITY

The NRA proposes a free grant, or gift, of 30 percent of the costs of labor and materials in all projects approved by the Government. It further proposes to set up borrowing facilities, which would enable towns to finance the remaining costs of such enterprises at an interest rate not exceeding 4 percent a year.

Your Committee obtained a copy of this Act and verified this proposal. Communication was had, further, with Senator David I. Walsh, to ascertain whether in his opinion a water system project of this kind would come within the provisions of the NRA.

Senator Walsh replied that

“Such a project as a town water supply is, in my opinion, typical of the public works that the Federal Government desires to promote.”

To obtain further assurance, the Committee communicated with Public Works Director Harold Ickes, at Washington. Mr. Ickes forwarded to your Committee a statement of NRA policy in which water works systems are given absolute priority over any and all other types of public works projects under scope of the Act.

“The following classes of projects will be preferred as to the grant:

I—Waterworks projects not unduly burdening the community with debt and necessary for its health and convenience.” (Act II Circular I Federal Emergency Administration of Public Works).

The Committee believe, therefore, that a water system project for Sudbury would have reasonably good chances of securing the above mentioned financial benefits, if such project were properly drawn in relation to the towns financial condition. The Committee desires to point out further that, in Massachusetts, two Emergency Boards have been set up by the Legislature to co-operate with Federal authorities in matters of this kind. To these boards have been delegated powers commonly residing in the Legislature itself. The extent of these powers remains to be determined, insofar as they concern such questions as the establishment of Water Districts. Your Committee have succeeded, however, in causing to be written into the Act of the Legislature pertaining to these matters, a specific mention of water systems.

The whole problem of town water, and any attempt at present of solving that problem, the Committee desire to emphasize, depends directly upon the assumption that Federal aid can be had through presentation of an acceptable plan to the proper Federal and State Boards.

TIME STUDY

Your Committee conferred with two reputable engineering firms in an endeavor to seek a contrast of views on a proposed installation. All idea of piping the entire town was abandoned when it was found that the cost would be prohibitive. In order to reach definite conclusions, covering a plan on a more limited scale, the Water District idea was adopted.

A Water District is a portion of any community which is especially marked off from the remainder and incorporated for the purpose of setting up a water system and paying for it.

Such a District is the creature of the town, the state, and itself. That is, it is created by process of an authorization from the town, by formal legal procedure on the part of the state in the form of an enabling law, and, finally, through acceptance by the voters residing within the proposed District, by a majority vote,

at a town District Meeting, of the enabling authorization so conferred.

A Water District is a device to permit a town water system to be begun on a smaller scale than would be required for the entire community. It has a further purpose. Since the installation of a limited service to begin with, confers benefits and savings on but part of the community, it is common practice to restrict the burden of cost, as reflected in the tax levy, to those so benefited. In other words, those beyond the confines of the district, since they obtain no immediate benefit, are not asked to contribute in taxation to the financing of the District system save in the matter of hydrant rental charge, which is a levy upon the whole town.

Hydrant rental costs are extremely low. In the plan discussed in this report, they would amount to considerably less than \$800 a year and but 33 cents on the tax levy. This tax is offset, further, by savings effected through reductions of insurance costs on public buildings. Hydrant rental is a charge upon the whole community because it represents a community safeguard. It pays for the water used in fighting fires, in protecting the town's flow of tax revenue, in protecting schools, and other town and community buildings—such as Legion Hall, churches, garages, etc. It is usual in all towns, though the proposed charge cited in the report—\$22 per hydrant—is less even than Wayland charges. Usually hydrant rentals range from \$35 to \$50 per annum.

The Committee presented to the engineers with whom it conferred, a scheme for initial installation approximating 8 miles of main, with a pumping station, a system of driven wells for supply, and a standpipe on Goodman Hill—the highest point in the town. This installation has been drawn approximately as follows:

Boston Post Road—From Bartlett Greenhouses on the West to Seneca Hall property near junction of Post Road and King Philip Road. King Philip Road to extremities and Pokonoket Avenue to Newton Property. Maple Avenue to first Foss property; and Raymond Road to Arthur White property.

Concord Road—from junction at Post Road in South Sudbury, through Sudbury Center to Cifrino and Haines properties including run up Candy Hill. Church Street from Concord Road to top of hill.

Hudson Road—from Sudbury Center to junction of Hudson and Maynard Roads. Peakham Road from junction of Hudson Road to E. P. Stiles property.

Old Wayland Road—from Sudbury Center to point near Easterly junction with Rice Road. A short extension into Rice Road.

This district, as proposed, covers approximately one-half of the town's assessed valuation, and includes in excess of \$800,000

of net assessed valuation in buildings and other insurable property such as furniture, etc. Consequently, it offers an adequate assessed value as a district tax base.

The plans for initial installation of mains have been so specified, as to make the District system adequate to meet all future demands for water and fire protection, when the mains are extended, as they would be with the passing of years, to the town limits. They are designed, specifically to supply at the appropriate time **North Sudbury**, the **Wayside Inn region**, **East Sudbury**, and residents at the extremes of Maynard and Hudson Roads.

After comparing and analyzing engineering plans (which the Committee were fortunate in securing free of cost to the town) one which seemed the more feasible as to costs and other features was selected. This plan was submitted by the firm of Fay, Spofford and Thorndike, of Boston, one of the most reputable engineering firms in New England.

The plan, which the Water Committee recommend, is appended to this report. It is preliminary in nature. In order to obtain final engineering data as to water supply, a further study will be required. This further study will entail an appropriation of \$1,850.00, for "driving wells and making a well test of the proposed source of water supply and for the necessary engineering services in arranging for and directing the well tests, in interpreting and reporting the results of the well tests, in preparing a description of the limits of the Water District, in securing approval of the Massachusetts Department of Public Health of the proposed water supply and approval of the New England Insurance Exchange of the capacity of the proposed water works system and in preparing the applications to state and federal authorities for approval of the project and for allocation of federal funds. The sum of \$1,850 should be appropriated for the well tests and engineering services aforementioned. In case the well tests are successful approximately one-half of the total amount appropriated will have been spent in the construction of wells which can be incorporated as part of the permanent driven well system."

FEATURES OF PLAN

I. Cost of Project: Total cost of project—\$105,000—made of Federal grant plus bond issue for water district. While the estimated engineering figure for this project came to \$95,000, the Committee feel that approximately 10 percent more should be added to allow for any increase in material costs and other contingencies.

II. Extent of System: 8 (plus or minus) miles of water main to be laid with 70 service connections.

III. Bonds: Money to be borrowed from the Federal Government at a rate of interest not to exceed 4 percent with retirement beginning the 3rd year, and thereafter to be paid in 27 annual instalments.

IV. Project One of Diminishing Costs: Water Rate. In the beginning this annual rate (\$25 per year) is high compared to other towns—Dedham \$13.50, Winchester \$6.00, Needham \$10.00. This high rate becomes lower as the number of takers increases and the interest charges on bonds decrease due to their gradual retirement. The towns cited show to what extent the water rate diminishes after the debt is shrunk or retired.

V. Project a Paying Proposition: A Town Water System is the only kind of a public works project guaranteed to make money for the town and to liquidate its own cost.

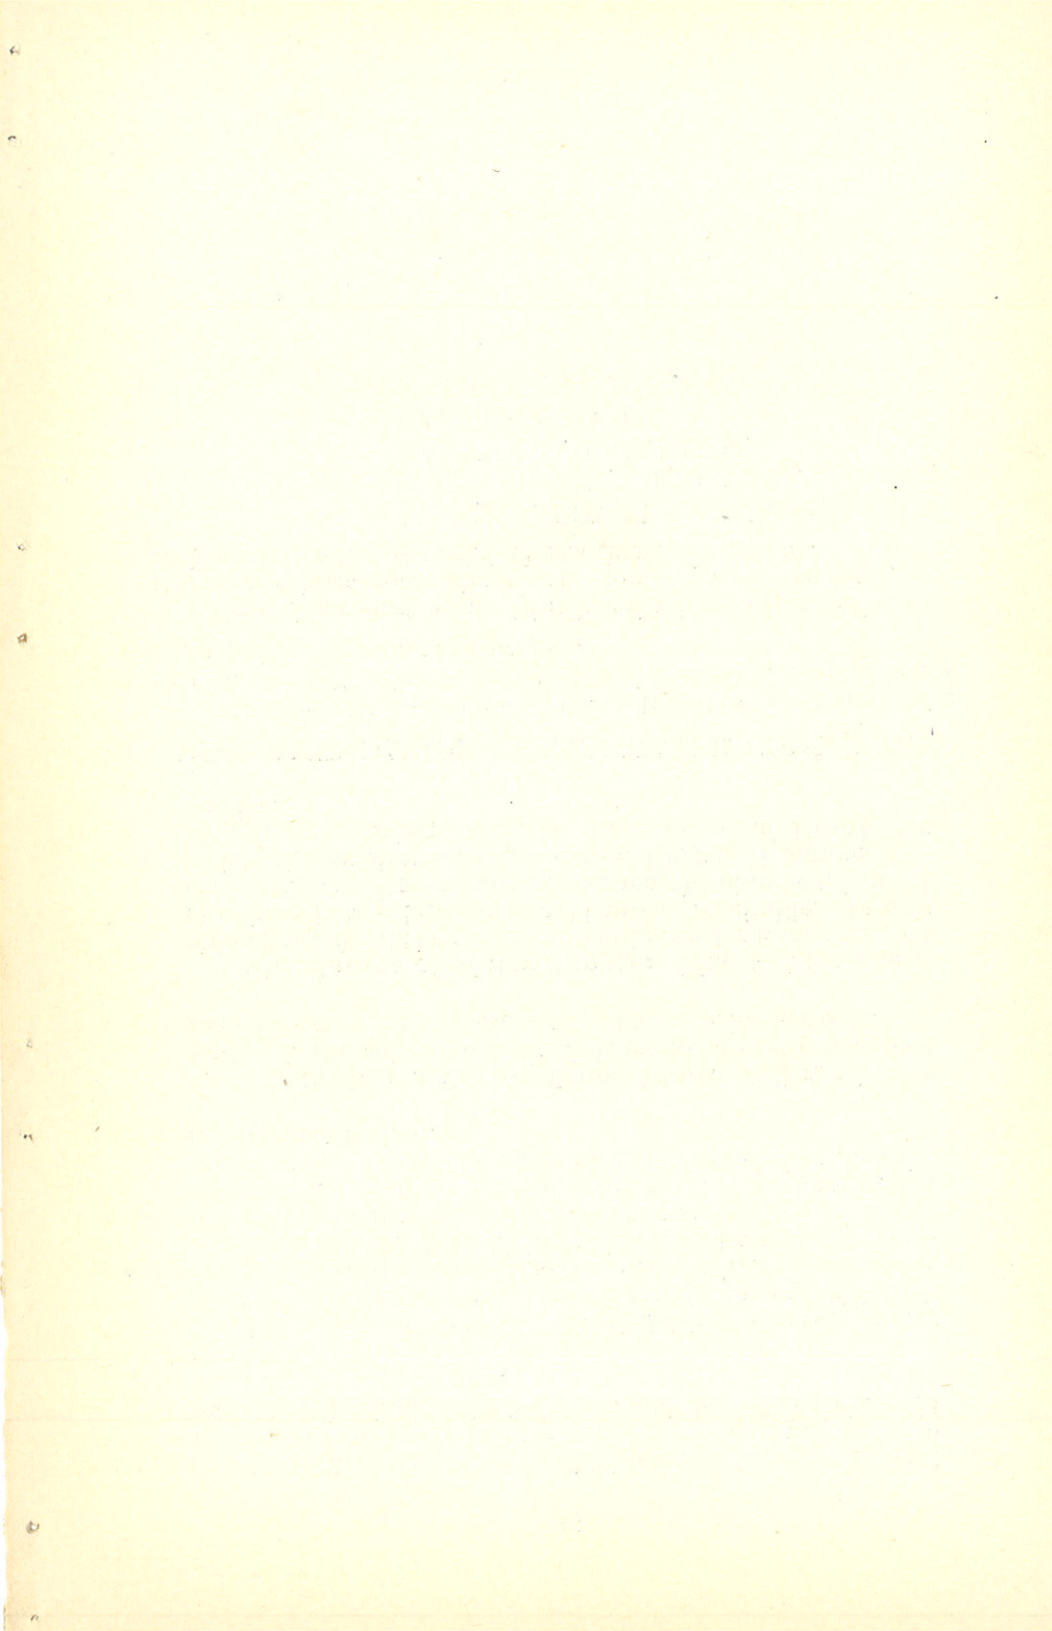

VI. Source of Water Supply: First test for a suitable supply should be made south of Lancaster Road and then elsewhere if this location should prove unsuitable. In any event, from whatever source water may be obtained, it must satisfy the requirements of the New England Insurance Exchange for quantity, and the State Board of Health for quality.

RECOMMENDATION OF THE WATER COMMITTEE

The Committee recommend to the Board of Selectmen that a Special Town Meeting be called, to enable the citizens to indicate their desires regarding this project.

Since this report was originally submitted to the Selectmen there have been some slight price advances on materials, etc. which would effect the original cost figures somewhat.

JAMES H. POWERS, Chairman,
 PAUL WHITNEY RHOADES, Secretary,
 HARVEY N. FAIRBANK,
 GARDNER POOLE,
 NATHAN GUPTILL.

REPORT OF SCHOOL COMMITTEE

To the Citizens of Sudbury:

While many schools in the United States have been closed because of the continued economic depression, and others have shortened the school year, and still others have combined classes and have dropped some important departments, it is a matter of great satisfaction that the Sudbury Schools have maintained the high standard of previous years and have continued with practically a full schedule. The enrollment has increased especially in the High School so that we have the largest High School attendance in our history.

An up-to-date ideal school, in addition to daily recitations from well selected text books, must have a broad outlook and give attention to health, development of character, obedience to law, community interests, and preparation for the various activities of life. This high standard our faithful and able corps of teachers are keeping in view. But to fully accomplish the task requires the heartiest co-operation of committee, faculty, pupils, parents and citizens of the town. The record of the year in this respect has been very gratifying.

The annual school exhibit in June, the graduation exercises and the High School reception were of unusual interest and greatly enjoyed.

The Parent-Teachers' Association has been helpful in sponsoring the dental clinic and in creating a larger interest of the parents in the welfare of the schools..

The treasurer's report, the report of the superintendent, the high school principal, the school physician and the school nurse should be read carefully by every one at all interested in the schools for they contain much valuable information and many worthwhile suggestions.

We thank all who have helped to make the schools of the town so successful during the year.

Respectfully submitted,

GEORGE H. CLARKE,
NATHAN W. GILLETTE,
PHILENA A. BARTLETT,

School Committee.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

In presenting my twenty-fourth annual report, the thirty-sixth in the series from this Office, I am mindful of the great necessity for economy in every way. Consequently I have endeavored to make all reports as brief as possible, keeping in mind the need of permanent records of interest in the future and including statistics of present day value.

September found the schools re-opening with two new teachers, both of whom were in the class room as teachers for the first time. In November Miss Sanderson replaced Miss Gilchrist. Miss Sanderson came to us through unusual circumstances and after much experience of exceptional merit.

Miss Hall who served an apprenticeship with us last year for travelling expenses secured permanent full time work this school year. Not until January 1934 were we able to secure the service of an apprentice for Art who could come to us for travelling expenses. Miss Betty Tufts is a graduate of the Teacher Training Department of the Massachusetts School of Art.

Miss Bernice I. Stone is giving of her services as an apprentice in the schools to assist in the work of Physical Education. In behalf of the students I extend to her our thanks for this generous vigorous service. We hope that this practical training opportunity may help in securing the desired salaried place in some school another year.

Mr. Tallant has, besides his services as Janitor, taught the boys of the sixth, seventh, and eighth grades something of the Art of working in wood. Mr. Tallant holds the respect of the boys and he is creating in them a real love for expression in the wood-working craft.

Two afternoons per week, the last period of the day is greatly disturbed in the upper grades and high school on account of four or five from each group being permitted to go to the Library for books to take home for home reading, books for themselves and for others in the home. We have studied this matter for some years. The number making use of this concession has increased. Students make no effort to abuse this privilege. We appreciate the worthiness of this service of the children to the home and the value of the home reading to all. But it is a wasteful method of dispensing books in so far as the children's time and well being are concerned. The school and the teachers therein are on hand for service but enough children are dismissed to go to the Library to make the last two periods of two days per week greatly depreciated in so far as regular school work is concerned. If no other method can be found for this Library service to the home we should not curtail this one. It appears to us a good plan to study the matter seriously. Possibly the Library could serve the Public as well if

opened so that the students may get their books during the noon recess.

Thus far this school year has been one that promises to be highly effective in every grade and department. We have had little sickness. The attendance has been excellent. The general response of the children, the young men and young women has been of special merit. We look forward to a full year of achievement worthy of any school any where.

We are grateful to those who have contributed money and labor for the improvement of the municipal play ground. The High School Boys, the Teachers, and Mr. Tallant have put in some very vigorous and profitable hours of labor to improve the baseball and soccer fields. This high grade promising recreation field is being enjoyed greatly by the school population and apparently by others beyond school age if the service it has rendered the community in the last two summers is a measure. Sudbury has an excellent opportunity to have without much further outlay one of the choicest recreation fields in this vicinity.

The reports of Dr. Sparks and Mrs. Snelling indicate that the Dental Project in the schools, sponsored by the Parent-Teacher Association, is proving of much value and is worthy of being continued.

The Raymond Scholarship and the one offered yearly by the Sudbury Woman's Club are helping students who receive them to meet later financial educational expenses. Their greatest service is to all in the school by adding zest to the academic attainments.

I appreciate the loyal co-operation of all school employees and the cheerful happy response of the students in our efforts to make their school life one of fair play, good works, and worthy citizenship.

Respectfully submitted,

FRANK H. BENEDICT.

PRINCIPAL'S REPORT

Mr. Frank H. Benedict,
Superintendent of Schools.

Dear Sir:

In 1927 the National Congress of Parents and Teachers adopted seven objectives of education as their platform. These objectives are (1) health and safety; (2) worthy home membership; (3) mastery of the tools, technics, and spirit of learning; (4) citizenship and world goodwill; (5) vocational and economic effectiveness; (6) wise use of leisure; and (7) ethical character.

This report explains briefly how we are endeavoring to apply these objectives of education in the Sudbury schools.

1. How our schools promote health. By cooperating with the parents in an effort to have every beginner enter school free from remedial defects; by providing for every child clean, comfortable buildings and playgrounds; by wholesome and happy atmosphere and routine; by training in health habits in school; by studying the facts of personal hygiene and community sanitation; by developing an appreciation of health as a foundation of happiness; by regular health examinations and dental supervision.

2. How our schools help to improve homes. By teaching children how to cook, to sew, to repair and build home equipment; by magnifying the home as one of the finest things in life so that children may appreciate their parents and understand their own obligations to do their share in enriching home life; by training in music, conversation and recreation; by bringing the school and home into full cooperation through the parent-teacher association so that children are helped by the interest of parents in their school activities.

3. How our schools encourage learning and thinking. By seeking to provide a competent and well-trained teacher in every classroom; by maintaining an adequate and vital curriculum; by effective forms of school and class organization; by school terms of reasonable length; by teaching the common branches which are the tools of learning and developing skill in the technics of learning; by making the atmosphere of the school such that children will acquire the spirit of learning.

4. How our schools prepare for faithful citizenship. By making the school a little democracy in whose activities all have an interest and a share; by helping each child to study the needs of people, and how these needs are served by government or individual enterprise; by arousing interest in the record of human progress; by teaching children facts about voting, holding office, the solution of public problems, and other ideals that look toward

wise management in community, state, and nation; by attention to current economic and social problems; by developing appreciation of and loyalty to the principles of American government.

5. How our schools develop vocational and economic efficiency. By developing sound working attitudes and habits within the school—joy in work, appreciation of the dignity of labor; by cultivating qualities of character and personality essential to the highest success in any occupation.

6. How our schools train for the wise use of leisure. By introducing our young people to a wide range of life interests and the use of them—books, music, dancing, drama, games, sports, social activities, and creative hobbies.

7. How our schools build character. By helping each child to develop high standards of physical and mental fitness; by training the senses in the classroom and on the playground; by bringing all the children together and teaching them to work in friendly cooperation; by surrounding children with teachers who are genuine, earnest and happy. No one can teach more than he is.

I conclude my seventh annual report with sincere appreciation for the hearty cooperation of my fellow-teachers, the superintendent of schools, the school committee, and the large number of our citizens who are striving to make life richer for our young citizens.

Respectfully submitted,

ALAN F. FLYNN.

January, 1934.

REPORT OF THE SCHOOL PHYSICIAN

Mr. Frank H. Benedict,
Superintendent of Sudbury Schools,
Cochituate, Mass.

Dear Mr. Benedict:

I herewith have the honor of submitting to you my tenth report as school physician of Sudbury Schools, for the year 1933.

Number of students examined:

Grades	205
High School	74
Total	279

The following defects were noted:

In the grades:

Malnutrition	13
Poor posture	21
Pediculosis	2
Cariou or dirty teeth	28
Tonsils with slight defects	19
Tonsils needing immediate attention	22
Symptoms of adenoids	8
Enlarged cervical glands	6
Enlarged thyroid glands	2
Defective heart	3
Foot and spine deformities	2
Eyes needing medical attention	5
Atrophied arm	1

In the High School:

Defective or dirty teeth	8
Defective tonsils	6
Enlarged thyroid gland	2

I believe this is as a whole an excellent record.

Teeth, tonsils, and adenoids, the three major defects found among school children, are in much better condition than when I first began to do this work in these schools. The dental clinic has been a great help in the general condition of the teeth.

There has been held by order of the Board of Health a Toxin-Antitoxin Clinic at which a few pre-school children were inoculated. At this date there has not been any Schick test given. I feel this should be taken care of at the earliest date that it seems possible to do so.

I desire to again extend to you, the faculty, the students, and Mrs. Snelling, my thanks for the co-operation in this work.

Respectfully submitted,

ERNEST E. SPARKS.

REPORT OF THE SCHOOL NURSE

To the Sudbury School Committee:

A report of the school nursing for the year ending December 31, 1933, is hereby submitted.

Thirty-nine days were spent in Sudbury; 128 pupils treated or advised; 48 home visits made; two trips to Marlboro with pupils for follow-up in the State Tuberculosis Clinic; 8 pupils taken home from school owing to illness.

The pupils were weighed and measured twice during the year.

Doctor Sparks was assisted with the yearly physical examination of all pupils. Notifications of physical defects have been sent to parents, and many corrective measures have resulted. The grammar school teachers have been assisted with the eye examination of all pupils, but I regret to report only one pupil out of six needing glasses has obtained them.

Except for a few cases of measles in the spring, the school has been practically free from contagious diseases.

The sixth annual diphtheria toxin-antitoxin clinic was conducted by Doctor Sparks in April. Toxin-antitoxin was given to 41 children, 13 of pre-school and 17 of school age.

Free from dental defects:

Through examination 15 students were found without need of dental service; 66 by the dental clinic and 5 by family dentist were treated for imperfections, Total number without dental defects 86.

An application is being made to the State Department of Public Health to repeat their regular ten-year health survey.

Respectfully submitted,

DOROTHY R. SNELLING, R. N.

South Lincoln, Massachusetts.
January 9, 1934.

REPORT OF THE SUPERVISOR OF ATTENDANCE

Mr. F. H. Benedict,
 Superintendent of Schools,
 Sudbury, Massachusetts.

Dear Mr. Benedict:

During the fiscal year I have investigated 38 cases of absence. Twenty-six cases were found to be legal absences and twelve were recorded as cases of truancy. There has been no need for court action during the year for which we should all be thankful.

Aside from services mentioned I have taken the School Census.

The result of this enumeration is herewith given:

Number of boys five years of age and under seven . . .	30	
Number of girls five years of age and under seven . . .	25	
Total		55
Number of boys seven years of age and under fourteen .	108	
Number of girls seven years of age and under fourteen .	102	
Total		210
Number of boys fourteen years of age and under sixteen	39	
Number of girls fourteen years of age and under sixteen	35	
Total		74
Number of resident children attending private schools:		
Boys between 5 and 7	2	
Girls between 5 and 7	1	
Total		3
Boys between 7 and 14	11	
Girls between 7 and 14	18	
Total		29
Boys between 14 and 16	25	
Girls between 14 and 16	3	
Total		28

Number of children attending out of town schools:

Boys between 5 and 7.....	0	
Girls between 5 and 7.....	0	
Total.....		0
Boys between 7 and 14.....	0	
Girls between 7 and 14.....	0	
Total.....		0
Boys between 14 and 16.....	1	
Girls between 14 and 16.....	3	
Total.....		4

Number of children not attending school:

Boys between 5 and 7 years of age.....	8	
Girls between 5 and 7 years of age.....	8	
Total.....	16	
*Boys between 7 and 14 years of age (Physical Disability).....	1	
Girls between 7 and 14 years of age (Physical Disability).....	1	
Total.....		2

Number of children attending State Schools on account of physical infirmity:

Boys 7 to 14 years of age.....	0	
Girls 7 to 14 years of age.....	2	
Total.....		2

Number of children not attending school of school age who are receiving approved home instruction:

Boys between 7 and 14 years of age.....	0	
Girls between 7 and 14 years of age.....	1	
Total.....		1

*Note—State approved instruction 2 hours per week.

Respectfully submitted,

ALVIN S. BRADSHAW
