ORIGINAL GOODNOW LIBRARY

(1862)

We approach the 100th anniversary of the founding of Sudbury's Goodnow Library. And we thought it would be interesting to show the library in its initial form, how it looked in 1862 before subsequent additions were added to completely change its exterior design.

Means for building and establishing this, the second free public lending library in Massachusetts, came through the bequest of a John Goodnow, a prosperous Boston merchant. Mr. Goodnow was Sudbury born and wandered out in the world to seek his fortune. His family went back to one of the original town founders. The land was given and enough money was left to construct the building and to stock it with books.

The Town appointed a building committee and the library was built for something under \$3000. We find no record of it, but the odd design of the structure must have been chosen by the citizen building committee. Many people feel that it looked like a pill-box or a small fort.

The library opened with 2800 books on its shelves. It was lighted by oil lamps, heated by a large iron stove. Part of the librarian's duties was to keep the lamp chimneys washed and cleaned. The librarian's salary in the earlier days did not exceed thirty dollars per annum. It was a job of honor and prestige.

We are indebted to Mr. Ellsworth Davis for this handsome drawing of the original library building. For the model he used an old, faded out photograph in possession of the Goodnow Library.

SELECTMEN'S REPORT

The Selectmen, with Francis W. Trussell as Chairman and Harvey N. Fairbank as clerk, held sixty-six scheduled meetings in 1960, as well as numerous special meetings with various Boards, Officials, and Citizens of the town.

The completion of the new Police Station in South Sudbury on the Boston Post Road has provided adequate and modern facilities for this department, and should fulfill our needs in this respect for many years.

With the purchase from the Raytheon Company of a piece of land on the Boston Road, adjacent to their new laboratory, needed additional fire protection for South, East, and West Sudbury is fast becoming a reality. It is expected that the building will be ready for occupancy by June 1, 1961. To supplement this expansion, an article has been put into the Town Meeting warrant for a new Class "A" Fire Engine. The combined ages of the six pieces of fire equipment now owned by the town totals 114 years, or an average age of 19 years each. The Fire Department should be commended for the excellent protection they have provided the town with this antiquated equipment. Lest the residents of North Sudbury feel they have been neglected, we remind them that the town has purchased land on the corner of Dakin and North Road, and as soon as the South Sudbury Sub-Station is completed, steps will be taken to erect a North Sudbury Sub-Station on that location.

The exterior of the Town Hall, the upper Town Hall and the stairways have been painted to specifications drawn up with the assistance of Robert Desjardin, of the Commission of Historical Structures. It is planned to paint the lower Town Hall and the office space, but previous to this, considerable attention should be given to office needs and Committee Meeting Rooms. The space previously occupied by the Police Station has been assigned to the Board of Assessors. The Welfare Board has requested additional space, and a request has been received from the Planning Board for desk space. It is also possible that in the near future, space will have to be provided for the Town Treasurer. We also need additional vault space for storing Town Records. There are no toilet facilities in this section of the building, the nearest being in the front part of the building or upstairs behind the stage. The business of the various committees and Boards of the town is becoming so great that many nights it is practically impossible to find a space to hold a meeting. The complete office space requirements of the town should be reviewed and orderly future expansion planned. Some thought should be given to dividing the lower Town Hall with folding partitions to make committee meeting rooms.

The Haynes House, now known as the Loring Parsonage, has been placed under the jurisdiction of the Commission of Historic Structures. An article will be in the warrant of the Annual Town Meeting for them to have similar authority over the Hosmer House.

We wish to report that in accordance with the laws of the Commonwealth, the Town Bounds have been perambulated and the necessary reports filed.

Mr. Philip B. Buzzell of the firm of Hemenway and Barnes has been retained to represent the interests of the town in the Boston Edison Case. In an effort to keep the town informed as to the progress of this case copies of all communications from him have been furnished to the three Sudbury newspapers, as well as to the Citizens Committee.

An increase of over a quarter of a million dollars in the Sudbury School Budgets for 1961 should make us realize that more industry is needed if we are to balance the budget without increasing our already high tax rate. The dedication of the Raytheon Laboratory and the breaking of ground by Sperry are monuments to the untiring effort the Industrial Commission has put into their contribution of "holding the line" on the tax rate. Every citizen and official of the town should get behind this commission and help them continue the good work.

A five-member Conservation Commission has been appointed and Stanley Russell was elected chairman.

The \$12,000 appropriated for completion of the widening of Horse Pond Road will not be used for this project because of the objections of several residents of this road to deeding land to the town without receiving damage awards. With the increased traffic and school bus travel, many of our roads are now too narrow and should be widened. However, unless we can get the cooperation of the land owners, the cost of widening the roads will be increased considerably.

Notice of an application for a permit to erect a billboard between the Esso Gas Station and Pike's Garage on the Boston Post Road was received and, after a hearing, the Board opposed the granting of this permit and requested a hearing before the Outdoor Advertising Authority. The date for this hearing has not as yet been set. The permits for the other two billboards across the Post Road from the above location expire June 30, and a hearing will be requested before the Authority to voice our objections to renewing these permits.

The long awaited Route 20 Bypass is a little nearer reality, but as yet, is not a surety. Work continues in surveying a route and taking borings. But no definite route has, as yet, been established, nor has the actual construction been pro-

grammed into the department of Public Works Construction Plans for 1961 or 1962.

Meetings have been held with the Board of Health and Town Council to put into final form a Plumbing Code which will be presented at the Annual Town Meeting.

One of the next big problems facing the town is "Should we have sidewalks, or not?" The Women's Club has informed the Selectmen that one of their projects for the coming year will be a campaign to repair the sidewalks which already exist and to recommend sidewalks throughout the town. There are many "pros and cons" on this subject, but a complete study should be made to determine the advisability of constructing sidewalks. The state is in the process of surveying our school transportation costs, and it appears that we will not be allowed any reimbursement for pupils that live less than one and one-half miles from the school they attend. This could increase our pupil transportation cost about \$40,000 per year. Maybe, we should give sidewalks serious consideration.

It was with much regret that the Selectmen accepted the resignation of Mrs. Mary Quinn, who has been Chief Clerk at the Town Hall for many years.

The Selectmen wish to express their appreciation for the help and advice which they have received from the citizens of the town and the members of various boards and committees during the past year.

Respectfully submitted,

FRANCIS W. TRUSSELL

TOWN CLERK'S REPORT

PROCEEDINGS OF THE ANNUAL TOWN ELECTION

MARCH 7, 1960

Pursuant to law and the foregoing warrant, the Town Clerk attended at the Town Hall on Monday, March 7, 1960, and before the time appointed for the opening of the polls, delivered the ballots, the two state ballot boxes with the keys thereto, specimen ballots, cards, tally sheets, and the total vote sheet all prepared, for the Annual Town Election, to the Moderator, taking the required receipts therefor. At the hour named in the warrant, the Moderator examined the warrant and the return thereon and declared them in proper order.

He then opened the election with the reading of the call for the meeting and the constable's return.

VOTED: That the reading of the Several Articles of the Warrant be dispensed with at this time.

VOTED: That the choice of Field Drivers, Fence Viewers, a Pound Keeper and other officers not voted on the ballot be delegated to the Selectmen.

The Tellers attending, the ballot boxes were opened, found to be empty and immediately closed with both registers set at 0000.

Assisting in the election were Frederick Stone, Jane Bennett, Eileen Ward, Mary Maily, Helen A. Burr, Ralph H. Barton, George A. Brown, Marion Hriniaik, Grace Horton, Teresa Pirrello, Mary Ellen Gale, L. Roy Hawes, Barbara Bortle, Ruth Crowley, Leo Quinn, William Hall, Lillie Nelson, Alan Hall, Barbara Blanchard, Alfred Crowley, George Adams, Marjorie Reach, Elena Lile, David Baldwin, Waldo Logan and Margaret Hawes, all duly sworn.

The polls were opened at 10:00 A. M. and pursuant to law were closed at 8:00 P. M. The ballot box registers showed the number of ballots cast as 934 and 898, making a total of 1832. The absentee ballots were then opened and cast. The ballot box registers then showed that a total of 1832 ballots were cast in this election, and this number agreed with the number of names checked by the ballot clerks and tellers all duly sworn.

The result of the voting as canvassed by the election officers was completed at 11:55 P. M. and the results publicly announced at that time were as follows:

Thereupon the Moderator declared the election dissolved.

A. True Record, Attest:

LAWRENCE B. TIGHE,
Town Clerk.

**PROCEEDINGS OF THE ADJOURNED
SPECIAL TOWN MEETING
MARCH 9, 1960**

Pursuant to a vote taken December 15, 1959, the Adjourned Special Town Meeting of December 8, 1959 was held on Wednesday, March 9, 1960. The Moderator called the meeting to order at 7:52 P.M. and declared there was a quorum present. He then proceeded to read the remainder of the warrant.

Article 28. To see if the Town will vote to amend Article IX, Section 17 of the Zoning By-laws by adding the following paragraph:

“No lot within a subdivision or within the town shall have more than one building to be used for dwelling purposes.”

Pass any vote or take action relative thereto.

A motion in the words of the article had been previously approved by the Town Counsel.

Report of Town Counsel: “It is proposed by the Planning Board who submitted Article 28 for the consideration of the Town Meeting to amend Section 17 by adding a provision which would prohibit the erection of more than one building for dwelling purposes. If the amendment as proposed is adopted, it will be a valid by-law of the Town.”

Planning Board Report: “This article will prevent some abuses of the zoning laws that have occurred in the past. By limiting one dwelling to a lot it will be possible to control the conversion of accessory buildings so that only a nominal number of people will live in a given area. The Planning Board unanimously approves this article.”

VOTED: In the words of the Article. In favor 130, opposed 45.

Article 29. To see if the Town will vote to amend the Zoning By-laws, (Article IX) by inserting in Section 1 thereof after paragraph entitled “Industrial District No. 4,” the following new paragraph:

The private side railroad track and switch connection with the Boston and Maine Railroad on land now owned by Boston Edison Company and situated within this district may be used by the owners or lessees of said land for loading and

unloading of freight if a permit is granted therefor by the board of appeals; pass any vote or take action relative thereto.

Submitted by Boston Edison Company.

Report of Town Counsel: "This article would amend the Zoning By-laws by adding at the end of the perimetrical description of Industrial District No. 4 a sentence which would permit the use of the spur track or switch connected with the Boston and Maine Railroad and located on land of Boston Edison Company on the Boston Post Road. The spur track was installed when the land was in a single residence district without authority, either as an exemption granted by the State Department of Public Utilities under the provisions of General Laws, Chapter 40A, Section 10, or corresponding provisions of earlier laws or a variance granted by the Board of Appeals. The use of said spur track did not become a permissible nonconforming use upon the inclusion of the premises on which it is located in Industrial District No. 4; and as a result of conferences by officials of the Boston Edison Company and the Board of Selectmen and Town Counsel there has been a cessation of use of such track, the switch having been "spiked"; and litigation for the removal of such spur track has been avoided for the time being at least. The amendment here proposed in effect validates the installation of such spur track and permits its use by an owner or lessee of the land "for loading and unloading of freight if a permit is granted by the Board of Appeals." If adopted, the amendment will become a valid by-law of the Town."

Planning Board Report: "It is obvious that a railroad siding in an Industrial District should be used for the loading and unloading of freight. The Planning Board unanimously approved this article."

VOTED: *In the words of the Article. In favor 262, opposed 1.*

Article 30 had been taken up out of order following article 17.

Article 31. To see if the Town will vote to amend and revise the Town By-laws, Article IX, by striking out Section 5, "C" which now reads:

"A permit issued by the Planning Board and approved by the Highway Surveyor shall be required for any private road or driveway which enters a public right of way. The Town Highway Surveyor shall have the Authority to determine the grading and construction of that part of such roads and drives which lies within the public right of way in order that they may meet the requirements of public safety and proper

drainage. The owner of the road or drive shall pay any cost incidental to the construction thereof including the cost of any necessary drainage structures; pass any vote or take action relative thereto.

Submitted by the Sudbury Planning Board.

Report of Town Counsel: "The article under consideration would repeal the provisions of Section 5 "C". It is within the competency of this Town Meeting to do so. Repeal of said paragraph "C" is desirable, as in my opinion it is beyond the authority of the enabling statute."

Planning Board Report: "The courts have ruled that Planning Boards do not have the power to issue permits under the Zoning Enabling Act. Therefore Section 5 "C" of the Sudbury zoning laws is illegal and should be removed.

UNANIMOUSLY VOTED: *In the words of the article.*

The meeting dissolved at 8:20 P. M.

A True Record, Attest:

LAWRENCE B. TIGHE,
Town Clerk.

PROCEEDINGS OF THE ANNUAL TOWN MEETING
MARCH 9, 1960

Pursuant to law and the foregoing warrant dated February 10, 1960 and signed by Lawrence B. Tighe, Francis W. Trussell and Harvey N. Fairbank, Selectmen, and the return of service by John F. McGovern, Constable, the Moderator presided, called the meeting to order at 8:25 P. M. and declared there was a quorum present. The Moderator examined the warrant and the return thereon and declared them in proper order. He then proceeded to read aloud the warrant.

VOTED: *To dispense with the reading of the separate articles in the Warrant at this time.*

The Moderator announced that the amount of "Free Cash" available as of January 1, 1960 was \$98,528.70.

VOTED: *To take up Article 39 out of order after Article 8 has been acted upon.*

VOTED: *To take up Article 38 out of order following Article 39.*

Article 1. To hear the reports of the Town Officers and Committees and act thereon.

George D. White, Town Engineer, presented a report on drainage conditions throughout the Town, as voted under article 25 of the Special Town Meeting of May 26, 1959.

William L. Hall submitted a majority report on the matter of taking over the Sudbury Water District, as voted under article 38, of the Annual Town Meeting of March 4, 1959. The minority report was presented by Edward W. Coburn.

VOTED: *That the report of the Town Engineer and the reports of the Committee to Study the Taking Over the Water District be accepted, and that they be included as Appendix A and B, respectively, of the proceedings of this Annual Town Meeting.*

Mr. J. Lawrence Devoll called attention to an error in the Town Report on page 9 listing him as a member of the Committee on Town Administration. Mr. Devoll stated that he was no longer active on this committee.

VOTED: That the remainder of the reports be accepted as printed, subject to typographical errors when and if found.

RESOLVED: That the Board of Selectmen be directed to prepare and place an article in the Warrant for the next Town Meeting authorizing and directing the Selectmen to have prepared such documents as may be required petitioning the Legislature for the passing of an enabling Act whereby the Sudbury Water District may be incorporated into the Town of Sudbury.

RESOLVED: That the Board of Selectmen (1) recognize the recommendations of the Finance Committee as listed in their published report, and (2) take action on such recommendations as they deem proper and beneficial.

General Report of the Finance Committee

The Finance Committee has been notified by the Division of Accounts that the "Free Cash" as of January 1, 1960 is \$98,528.70. It is the intention of this committee to recommend the following transfers from "Free Cash" or Excess and Deficiency

Article 10 — Featherland Farm	\$2,950.00
Article 15 — Study and Preliminary Plans for Junior High School	13,500.00
Article 24 — Purchase of the so-called Neelon Property	9,000.00
Article 26 — Police Building Construction	3,000.00

These items aggregate \$28,450.00 and if voted will leave a balance of approximately \$70,000.00 in the "Free Cash." There also remains a balance of approximately \$20,700.00 in the Overlay Surplus-Reserve Fund.

We believe that the balance of these funds should remain unhampered until the need for school building purposes can be determined. Articles 15 and 16 indicate that school buildings are contemplated in the Haynes Road area and for Junior High. We sincerely recommend the retention of these funds for school building and for emergencies which may arise during the year 1960.

Article 2. To see if the Town will vote to amend Schedule A and B of the Personnel Administration Plan by replacing the present Schedules A and B with the following:

Schedule A Classification Plan	Minimum Salaries		Schedule B Salary Plan			Maximum Salaries
	Starting Salary	Step 1	Step 2	Step 3	Step 4	
GROUP I						
Police Chief	\$5400	\$5600	\$5800	\$6000	\$6200	
Fire Chief						
Town Engineer						
GROUP II						
Police Sergeant	\$4600	\$4775	\$4950	\$5125	\$5300	
Fire Lieutenant						
GROUP III						
Patrolman	\$4200	\$4350	\$4500	\$4650	\$4800	
Firefighter						
GROUP IV						
Office Supervisor	\$3850	\$4000	\$4150	\$4300	\$4450	
GROUP V						
Chief Clerk	\$3350	\$3475	\$3600	\$3725	\$3850	
Librarian						
GROUP VI						
Senior Clerk	\$3000	\$3125	\$3250	\$3375	\$3500	
GROUP VII						
Junior Clerk	\$2600	\$2725	\$2850	\$2975	\$3100	
GROUP VIII						
Foreman Mechanic	\$1.76	\$1.84	\$1.92	\$2.00	\$2.09	
GROUP IX						
Semi-skilled Laborer	\$1.65	\$1.71	\$1.78	\$1.85	\$1.93	
GROUP X						
Unskilled Laborer Janitor	\$1.38	\$1.43	\$1.49	\$1.54	\$1.60	

PART-TIME EMPLOYEES

Deputy Fire Chief	\$ 600.00 per year
Fire Captain	500.00 per year
Fire fighter (off duty fire time)	1.85 per hour
Fire fighter (off duty station time)	1.25 per hour
Call Fire fighter—\$10.00 per year and	1.85 per hour
Patrolman	1.85 per hour
Town Accountant	2,100.00 per year
Veteran's Agent and Director	250.00 per year
Dog Officer	750.00 per year
Scaler of Weights and Measures	150.00 per year
Town Hall Custodian— (Rent Free House)	600.00 per year
Superintendent of Cemeteries— Min. \$500.00 to Max.	800.00 per year

Animal Inspector	225.00 per year
Children's Librarian	1.75 per hour
Librarian's Assistant	1.35 per hour
Clerk	1.35 per hour
Semi-skilled Laborer — \$1.50 Min. to Max.	1.85 per hour
Unskilled Laborer	1.35 per hour
Swimming and Wading Pool Director — \$1.35 Min. to Max.	1.50 per hour
Assistant Director — \$1.25 Min. to Max.	1.40 per hour
Playground Supervisor — \$1.35 Min. to Max.	1.50 per hour
Pass any vote or take action relative thereto. Submitted by the Personnel Board	

VOTED: To amend Schedule A and B of the Personnel Administration Plan by replacing the present Schedules A and B with the Schedule shown in the Town Warrant.

Article 3. To see if the Town will grant and appropriate or transfer from available funds the following sums or any other sums of money for any and all necessary Town purposes for the ensuing year, and to fix the salaries of all elected officials for the year 1960 in accordance with the following schedule; pass any vote or take action relative thereto.

A. GENERAL GOVERNMENT

	Funds† Available 1959	Charges 1959	Recom- mended 1960
1. Accountant, Town			
Salary	\$2,100.00	\$2,100.00	\$2,100.00

		\$84,941.22	\$76,829.55
			\$89,065.00

* Balance of \$1,280.00 will be carried forward to complete the work previously approved in the 1959 Annual Town Budget.

** Balance of \$731.76 carried forward from 1958.

† Includes regular and special appropriations, transfers and balances brought forward from previous year.

Finance Committee report: "We have explained in our general report our attitude on salaries of elected officials and the basis of salaries as recommended by the Personnel Board. The budget recommendations reflect these attitudes. Travel expense appropriations have been segregated from general budgets in instances where such expenses will exceed \$100.00 in the aggregate. Provision has been made in Election and Town meeting expenses for additional costs for national elections.

No additional appropriation has been recommended for repairs to the Haynes House pending a decision by the town meeting on the warrant article concerning the use of this building. There remains a balance of \$1,280.00 from a previous appropriation for minor work to be done on this building.

All requests for legal services for General Government have been deleted from various budget accounts and have been incorporated under "Law." Supplies for the Assessors and the Tax Collector are shown in their respective departmental accounts. We refer to our recommendations relative to the purchase of certain supplies under these accounts, especially forms and stationery, which must be specifically approved to meet common needs or mechanical adaptation. Under "Town Hall, General," there is included item 38, "Extraordinary Repairs," for \$4,100.00, which is the estimated cost of painting the Town Hall. This item is subject to public bids.

While the sum of \$2,500.00 has been requested under Assessors' Revaluation Account, the unexpended balance of \$2,100.00 remains in a similar account appropriated in 1959. We anticipate that the expenditure of the \$2,100.00 will complete the revaluation program instituted in 1959."

VOTED: To eliminate Item 33.

VOTED: That the sum of \$88,765.00 be appropriated for the various accounts as listed under Section A, General Government and that all salary and wage rates be retroactive to January 1, 1960.

B. PROTECTION OF PERSONS AND PROPERTY

	Funds Available 1959	Charges 1959	Recom- mended 1960

23.	Tree Planting Program	—	—	1,000.00
24.	Insect and Pest Control	5,000.00	4,987.97	5,000.00
		<u>\$98,012.74</u>	<u>\$94,708.04</u>	<u>\$132,292.00</u>

* In addition \$17.21 will be carried forward from the 1959 appropriation.

Finance Committee report: *“The salaries provided herein are in accordance with the recommendations of the Personnel Board.*

Uniform allowances have been provided for both the Police and Fire Departments. These allowances meet the approval of the Selectmen and the chiefs of the departments and are based as follows — Policemen henceforth will purchase their original uniform requirements as outlined by the chief (approximate cost \$180.00). After six months, on certification by the chief, the officer will be paid \$100.00 uniform allowance. Thereafter each piece of uniform will be replaced by town funds upon a necessary certification by the chief. The uniform, which excludes arms and special equipment, will at all times remain the property of the officer. Firemen will be furnished one dress uniform (approximate cost \$60.00).

The Fire and Police budgets are substantially in accordance with the requests of these departments. We have deleted from

special articles — “Fire Alarm System Extensions” and “Police Automobile Replacements” and included them as departmental expenses as these items recur each year.

The Hydrant Rental account has been based on previous “per hydrant” rental figures of \$35.00 or 212 units. The Water District has requested \$75.00 per hydrant. After consultation with the Selectmen, various boards, and the Water District Commissioners, we have recommended, as an alternative, Item 13 — “Hydrant Rental — Supplemental” in the amount of \$10,000.00. These funds will meet the fair annual apportionment of the cost of constructing a new standpipe by the Water District to accommodate present services and future extensions.

We believe that the total recommended figure of \$17,420.00 is equitable and will meet the base hydrant rental established in prior years as well as the extraordinary standpipe costs.

The Tree Department budget has been segregated into four accounts as shown in items 21 thru 24. A member of the Finance Committee has surveyed the projects as outlined by the Tree Warden and this committee has concurred with the budget request. As far as we can determine the appropriations for Tree and Brush and Insect and Pest Control are warranted. The Tree Planting Program has been reviewed with the Tree Warden and representatives of the Garden Clubs. The amount of \$1,000.00 recommended is substantially less than the requested appropriation but will serve to initiate this program.”

VOTED: That the sum of \$132,292.00 be granted and appropriated for the various accounts as listed under Section B — Protection of Persons and Property and that —

1. The Salary of the Tree Warden be set at \$16.00 per day and transportation be reimbursed at the rate of 8¢ per mile.
2. Item 19, Police Automobile Replacement shall be the subject of public bid. The terms of such bid shall require the posting of either a performance bond or a certified check for at least \$100.00 to guarantee performance.
3. All Salaries and wages shall be retroactive to January 1, 1960.

C. HEALTH AND SANITATION

Board of Health			
1.	District Nursing Assn.		
	Fee	\$2,500.00	\$2,500.00 \$3,000.00

2.	Inspection Fees00	.00	4,400.00
3.	Dental Clinic	1,500.00	926.25	1,200.00
4.	Mosquito Control	2,500.00	2,475.00	3,000.00
5.	Other Operating Ex- penses	2,480.00	1,235.68	1,300.00
6.	Animal Inspector	225.00	225.00	225.00
7.	Sanitary Land Fill	8,092.00	8,092.00	9,000.00
		<hr/>	<hr/>	<hr/>
		\$17,297.00	\$15,453.93	\$22,125.00

Finance Committee report: "Items under the Board of Health category meet the budget requests. Inspection Fees in the amount of \$4,400.00 have been provided for professional opinions on health and plumbing; we understand that expenditures under this category will be refunded to the town under a schedule of permit charges to be determined by the Board of Health.

The item of Mosquito Control is subject to action by the Board of Selectmen, however, we are informed that the Board of Health is consulted in the expenditure of these funds.

Item 7, Sanitary Land Fill has been provided to meet contract commitments."

VOTED: That the sum of \$22,125.00 be granted and appropriated for the various accounts as listed under Section C — Health and Sanitation.

D. HIGHWAYS

	<i>Funds† Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>	
1.	Highway Surveyor, Salary	\$5,200.00	\$5,200.00	\$5,800.00
2.	Road Equipment Oper- ating Expense	7,500.00	7,458.86	8,500.00
3.	Highway Building Main- tenance00	.00	1,500.00
4.	Street and Traffic Lights	7,500.00	7,500.00	9,500.00
5.	Snow and Ice Removal ..	18,000.00	17,860.86	20,000.00
6.	General Highway Main- tenance	11,500.00	10,342.72	15,000.00
7.	Bridge Repair	200.00	193.88	2,000.00
8.	Street Drainage Im- provements00	.00	2,000.00
9.	Chapter 81 — Mainte- nance	9,375.00	9,367.50	9,375.00
10.	Chapter 90 — Mainte- nance	2,000.00	1,997.30	2,000.00
11.	Chapter 90 — Construc- tion	4,750.00	—*	5,500.00
	Appropriation by Town	<hr/>	<hr/>	<hr/>
		\$66,025.00	\$59,921.12	\$81,175.00
12.	State and County Aid Chapter 81	\$20,625.00	\$20,625.00	\$18,750.00†

13.	Chapter 90 — Maintenance	3,000.00	3,000.00	3,000.00
14.	Chapter 90—Construction	14,250.00	—*	16,500.00†
	Total Cost of Highway Dept.	\$103,900.00	\$83,546.12	\$119,425.00

* These funds in the total amount of \$19,000.00 appropriated in 1959 have not been spent and are carried forward to 1960. In addition, an appropriation in the amount of \$5,500.00 (with aid anticipated of \$16,500.00) is proposed for 1960.

† Anticipated funds subject to determination and approval by the Commonwealth and Middlesex County.

Finance Committee report: *"The Finance Committee recommends \$81,175.00. The Personnel Board has recommended increases in salary to all employees in the Highway Department and we recommend a similar percentage increase for the Highway Surveyor's salary in the amount of \$600.00.*

We believe that our street and traffic lights should remain on all night and not be extinguished at 1:00 A. M. In order to do this, an increase of \$2,000.00 in the street light budget has been recommended.

It was noted during our sub-committee survey of this Department that the Highway building was in need of urgent repairs and \$1,500.00 has been recommended to correct these deficiencies.

In addition, long range program to improve the safety of some dangerously narrow bridges has been suggested and \$2,000.00 has been recommended for this year's program. A similar long range program to improve and correct drainage problems in certain areas has been suggested and \$2,000.00 has been recommended to initiate this project."

VOTED: *That the sum of \$81,175.00 be granted and appropriated for the various accounts as listed under Section D, Highways and that all salary and wage rates be retroactive to January 1, 1960.*

E. PUBLIC WELFARE AND ASSISTANCE

	<i>Funds† Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>
Public Assistance			
1. Welfare Administration..	\$2,300.00	\$.00	\$2,600.00
2. General Relief	2,000.00	149.94	2,000.00
3. Old Age Assistance	25,000.00	25,000.00	26,000.00
4. Disability Assistance ..	2,000.00	2,000.00	1,000.00
5. Aid to Dependent Children	3,500.00	3,500.00	3,500.00
Town Appropriations..	\$34,800.00	\$30,649.94	\$35,100.00

Federal Aid:

6.	Assistance	27,391.06	23,912.05*	†
7.	Administration	3,045.81	2,818.90*	†
		<hr/>		
		\$65,226.87	\$57,380.89	

* These funds in the total amount of \$3,479.01 and \$226.91 respectively, are carried forward to 1960.

† Funds will be available under Federal Aid Program but exact amounts are not available at this time.

Finance Committee Report: *"The Board of Public Welfare has requested that this budget be appropriated in one amount \$35,100.00 to expedite accounting procedures — we concur with this request, the segregation of this budget is shown for comparison with prior years; also the Federal Aid is shown so that the aggregate expenditures for Public Assistance may be known."*

VOTED: *That the sum of \$35,100.00 be granted and appropriated for Public Welfare and Assistance. It is specifically noted that this is appropriated in one sum as requested by the Board of Public Welfare.*

F. VETERANS' SERVICES

	<i>Funds Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>
Veterans' Agent			
1. Salary	\$250.00	\$250.00	\$250.00
2. Expense			50.00
3. Veterans' Benefits	5,000.00	4,017.84	5,000.00
	<hr/>		
	\$5,250.00	\$4,267.84	\$5,300.00

Finance Committee report: *"The recommended budgets are substantially the same as prior years and are subject to "case load" requirements and regulations governing the granting of benefits."*

VOTED: *That the sum of \$5,300.00 be granted and appropriated for the various accounts as listed under Section F. Veterans' Services.*

G. SCHOOLS

	<i>Funds Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>
1. Regional High School, Assessment	\$271,037.31	\$271,037.31	\$324,966.00
2. Sudbury Public Schools			
Salaries and Expenses..	471,115.00	469,691.67	649,767.00
3. School Outlays	11,975.00	11,829.89	10,517.00

4.	School Rental (Evening Use)	800.00	790.69	1,500.00
5.	Out-of-state Travel	300.00	73.71	300.00
	Town Appropriations....	\$755,227.31	\$753,423.27	\$987,050.00
6.	Federal Aid	13,544.60	3,655.79*	**
		\$768,771.91	\$757,079.06	

* Unexpended funds in the amount of \$9,388.81 will be carried forward to 1960.

** Funds will be available under Federal Aid Program but exact amounts are not available at this time.

Finance Committee report: "We recommend the amount of \$987,050.00 following a careful study of the budgets submitted by the Regional and Sudbury School Committees. Since the expense of operating our schools represents the largest part of the tax dollar, a sub-committee of the Finance Committee has attended the meetings of the Sudbury School Committee since last summer in order to be fully informed with respect to the monetary policies and requirements of the school system in Sudbury. It is the opinion of the Finance Committee that the School Committee is very much aware of its fiscal responsibilities and gives unusual attention to every expenditure or appropriation requested. Approval is given only to those requests actually necessary for the proper functioning and maintenance of our school system.

The largest increases in the budgetary requests are attributable to the constantly increasing enrollment; this includes the maintenance of salaries at a level commensurate with the high standards of the Sudbury school system, so as to permit the hiring and keeping of high calibre career teachers. In addition, the budget reflects pro-rated operating expenses coincident to the opening of the General John Nixon and the Israel Loring Schools during 1960. Included in the increases are salaries for twenty new teachers, two principals and additional custodians. The decrease in Outlay expense for new equipment is largely due to the continuing use of previously purchased textbooks and equipment.

Federal Aid funds expended during 1959 covered expenses largely for the purchase of school bus-stop signs and the installation of a fire alarm system at the South School as well as for emergency needs in excess of budgeted items. These funds are under the complete control of the School Committee and actually constitute a contingency fund.

Shown below in Exhibit 1 is the 1960 Budget of the Sudbury Public Schools (Elementary and Junior High). In Exhibit 2 is shown the 1960 Budget of the Lincoln-Sudbury Regional School District, from which the Sudbury assessment

has been determined by formula in accordance with the Lincoln-Sudbury Regional Agreement.

EXHIBIT I SUDBURY PUBLIC SCHOOLS
THE 1960 BUDGET

	1959 Budget	1959 Est. Disburse.	1960 Budget
<i>General Control</i>			
1. Salary of Superintendent	\$4,170.00	\$4,170.00	\$4,650.00

16. Libraries	3,115.00	3,115.00	3,305.00
17. Health and Physical Educa- tion	5,510.00	5,043.00	6,300.00
18. Miscellaneous	7,330.00	6,416.00	6,645.00
	\$57,435.00	\$56,214.00	\$61,930.00
<i>Other Expense</i>			
19. Out of State Travel	\$1,000.00	\$1,000.00	\$1,100.00
20. Evening Use of Buildings ..	500.00	700.00	700.00
21. Vocational Tuition	6,325.00	4,500.00	7,595.00
	\$7,825.00	\$6,200.00	\$9,395.00
Total Operating Expense	\$393,915.00	\$379,915.00	\$440,330.00
22. Outlay			4,405.00
23. Debt Service	110,015.00	110,015.00	144,480.00
	\$503,930.00	\$489,930.00	\$589,215.00

VOTED: That the sum of \$987,050.00 be granted and appropriated for the various accounts as listed under Section G. Schools.

H. LIBRARIES

	<i>Funds Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>
1. Goodnow Library	\$10,290.00	\$10,290.00	\$12,750.00
Town Appropriations ..	\$10,290.00	\$10,290.00	\$12,750.00
Estimated receipts from other sources			
2. Dog Tax	1,300.00	1,381.99	1,350.00
3. Trust Funds	1,200.00	1,146.87	1,000.00
	\$12,790.00	\$12,818.86	\$15,100.00

Finance Committee report: *"The principal increases in this budget represents salaries, which have been approved by the Personnel Board, and an additional provision for publications."*

VOTED: *That the sum of \$12,750.00 be granted and appropriated for the Goodnow Library Account and that all salary and wage rates be retroactive to January 1, 1960.*

I. PARKS AND RECREATION

	<i>Funds Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>
Celebration and Entertainment			
1. Fourth of July	\$950.00	\$950.00	\$950.00
Cemetery Operation			
2. Superintendent, Salary	600.00	600.00	700.00
3. Expenses	700.00	409.85	700.00
4. Cemeteries and Memo- rial Parks Maint.	1,700.00	841.34	1,700.00
Parks and Playgrounds			
5. Salaries	1,000.00	982.43	1,200.00
6. Expenses	3,000.00	2,372.42	6,500.00
	\$7,950.00	\$6,156.04	\$11,750.00

Finance Committee report: *"A detailed budget has been submitted to support the Parks and Playgrounds appropriation of \$7,700.00. The increased budget contemplates increased development and activity in swimming areas and the purchase of basic materials for the construction of tennis courts."*

VOTED: *That the sum of \$11,750.00 be granted and appropriated for the various accounts as listed under Section I. Parks and Recreation and that all salary and wage rates be retroactive to January 1, 1960.*

J. UNCLASSIFIED

	<i>Funds Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>
1. Fidelity Bond Expense	\$775.00	\$537.45	\$900.00
2. Incidentals	363.00	363.00	400.00
3. Insurance	30,000.00	24,680.84	31,000.00
3A. Insurance (Bldg. in Prog- ress)	17,000.00	—	—
4. "Legion Hall" Expense ..	500.00	393.67	500.00
5. Memorial Day Expense ..	500.00	432.50	500.00
6. Town Report	2,826.37	2,826.37	3,200.00
7. Reserve Fund	6,000.00	5,254.50	10,000.00
	<hr/> \$57,964.37	<hr/> \$34,488.33	<hr/> \$46,500.00

Finance Committee report: *"The insurance budget has been set in accordance with the schedule submitted by the insuring agent for the town. In 1959 \$17,000.00 was appropriated to cover anticipated completion of school buildings. This amount was not expended, and the Finance Committee will recommend that this account be closed and the funds appropriated to reduce the aggregate of the budgets to be raised by taxation.*

The Finance Committee recommends that a Reserve Fund of \$10,000.00 be provided for the year 1960. This fund is not subject to direct expenditure by this committee, but is used to supplement other budget accounts when unforeseen or emergency expenses tend to exhaust these accounts. Transfers from this account are made on majority votes of the Finance Committee after requests are made and the validity thereof is accepted by the Committee. Due to the present financial requirements of town operations, we feel that the \$10,000.00 requested is a minimum reserve."

VOTED: *That the sum of \$46,500.00 be granted and appropriated for the various accounts as listed under Section J. Unclassified.*

K. INTEREST (DEBT SERVICES)

	<i>Funds Available 1959</i>	<i>Charges 1959</i>	<i>Recom- mended 1960</i>
1. Interest on Bonds	\$39,359.70	{ \$34,468.56	\$72,505.00
2. Interest on Temporary Loans	—	{ 4,891.14	3,495.00
3. Debt Reduction	94,500.00	94,500.00	150,500.00
	<hr/> \$133,859.70	<hr/> \$133,859.70	<hr/> \$226,500.00

Finance Committee report: *"These recommendations are based on information submitted by the Treasurer in accord-*

ance with his schedule of Interest and Bond Retirement requirements.”

VOTED: That Item 2 be changed to \$3,000.00 and that the sum of \$80,505.00 be granted and appropriated for the interest accounts as listed under Section K — Items 1 and 2.

VOTED: That the sum of \$150,500.00 be granted and appropriated for the Debt Reduction Account, and that

1. \$1,000.00 be transferred from the account entitled Sales of Portion of Secatore Land
2. \$2,046.51 be transferred from the Treasurer's Premium Account
3. \$147,453.49 be raised by taxation

Finance Committee report: “As far as we can determine there are certain accounts open and the funds therefor are no longer required; therefore these funds may be transferred at this time to apply against the amounts granted and appropriated under this article.”

VOTED: That the following unexpended budget accounts be closed and the funds thereof appropriated to the aggregate of the budgets granted and appropriated under this article.

Account	Amount
Print Town By-Laws	\$525.70
Permanent Building Committee	732.83
Police Uniform Account	22.43
Preparation Plans for Fire, Police, Civil Defense Building	774.07
Extension Fire Alarm System, Hudson Rd.	73.91
Civil Defense Administration	17.21
Original Construction Old Lancaster Road	313.10
Renovation, Plans, Etc., Center School	700.00
Insurance Buildings in Progress	17,000.00
	\$20,159.25

L. STATUTORY ASSESSMENTS

1. State Parks and Reservations	\$2,123.35	\$1,936.33	—
2. Assessment for County Tax	15,464.80	15,832.19	—
3. Middlesex County Retirement Fund	6,216.49	6,216.49	—
	\$23,804.64	\$23,985.01	

Finance Committee report: *"These items are automatically included in the budget by assessors in determining the tax rate."*

Article 4. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1960, and to issue a note or notes therefor payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, General Laws; pass any vote or take action relative thereto.

Submitted by the Treasurer.

UNANIMOUSLY VOTED: *In the words of the Article.*

Article 5. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1961, and to issue a note or notes therefor payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, General Laws; pass any vote or take action relative thereto.

Submitted by the Treasurer.

UNANIMOUSLY VOTED: *In the words of the Article.*

Article 6. To see if the Town will vote to transfer the sum of \$20,625.00, or any other sum for Chapter 81 Highways from unappropriated available funds in the treasury to meet the State's share of the cost of the work, the reimbursements from the State to be restored, upon their receipt, to unappropriated available funds in the treasury; pass any vote or take action relative thereto.

Submitted by the Treasurer.

VOTED: *Indefinite postponement.*

Article 7. To see if the Town will vote to transfer the sum of \$14,250.00, or any other sum, for Chapter 90 Construction from unappropriated available funds in the treasury to meet the State and County share of the costs of the work, the reimbursements from the State and County to be restored,

upon their receipt, to unappropriated available funds in the treasury; pass any vote or take action relative thereto.

Submitted by the Treasurer.

VOTED: *Indefinite postponement.*

Article 8. To see if the Town will vote to transfer the sum of \$3,000.00, or any other sum, for Chapter 90 Maintenance from unappropriated available funds in the treasury to meet the State and County share of the costs of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury; pass any vote or take action relative thereto.

Submitted by the Treasurer.

VOTED: *Indefinite postponement.*

VOTED: *To take up Article 38 at this time.*

Article 38. To see if the Town will vote to amend Article IX of the By-Laws (Zoning), Section 8, by striking out the words "the removal of sod, loam, sand, gravel and ledge for sale, except when incidental to and in connection with the construction of a building for which a permit has been issued by the Selectmen, or" and as amended such section will read as follows:

Section 8. The use of land for a cemetery, playground, picnic ground, for educational purposes or recreation field, shall be allowed only if the Board of Appeals shall rule that such use is not detrimental to the neighborhood. The provisions of this section shall not apply to the use of land by the Town for municipal purposes. Pass any vote or take action thereon.

Submitted by the Planning Board.

Planning Board report: "*At the special town meeting of December 1959 the town voted to establish an Earth Removal Committee to control the removal of earth materials within the town. Article IX Section 8 of the By-laws (Zoning) previously pertained to controls of removal of sod, loam, sand, gravel, and ledge. It was allowed to remain in the By-laws at the time the Earth Removal Committee was established in order to protect the town in case the Attorney General should find some problem with the "Earth Removal" By-law. The Attorney General has approved the "Earth Removal" By-law and the Planning Board therefore approves this zoning change.*"

Report of Town Counsel: "*Article 38 of the Warrant for the Annual Town Meeting to be held on March 9, 1960 would strike out from Section 8 of the Zoning By-laws that part which confers jurisdiction of the Board of Appeals to grant permits for the removal of sod, loam, sand, gravel and ledge from private land if said Board shall rule that such removal or use is not detrimental to the neighborhood. This amendment is desirable as the provision of Article V (A) as amended at the special town meeting held on December 8, 1959 are now in full force and effect. The amendment, if adopted, will be a valid By-law of the Town.*"

VOTED: *In the words of the article. In favor 317, opposed 2.*

Article 39. To see if the Town will vote to amend Article IX, Section 1 of the Zoning By-Law by inserting a new business district to be known as business district number 17 and directing that the boundaries of the same be incorporated into the existing zoning map of the Town of Sudbury, under the direction of the Board of Selectmen as follows:

Beginning at a point where the westerly line of Industrial District #8 intersects Boston Post Road; thence southwesterly along the border of Industrial District #8 to Nobscot Road; thence westerly by Nobscot Road 400 feet more or less to land now or formerly of Ralph Hawes; thence northerly by land of said Hawes in two courses, N 40° - 31' - 20" W, 460 feet more or less and N 69° - 22' - 50" W, 555 feet more or less; thence N 32° - 49' - 12" E, 518 feet more or less to Boston Post Road; thence easterly along said Boston Post Road to the point of beginning. Pass any vote or take action thereon.

Submitted by Star Market Co.

Planning Board report: "*The land we are considering here is located across the street from the Limited Industrial Zone occupied by the new Raytheon plant. Situated as it is, in an area visually dominated by Raytheon, it cannot be considered as prime residential land or open land suitable for conservation or recreation; hence we do not believe that rezoning it for Business would conflict with any concepts of our proposed Master Plan.*"

There has been some question as to why a piece of land with this proposed use is to be considered for a Business Zone rather than a Shopping Center Zone. In this connection it should be remembered that Shopping Center Zones, as described in our By-laws, are particularly appropriate for resi-

dential areas, where the special restrictions placed upon the shopping center would cause it to blend harmoniously with the homes around it; in this case, however, the area is no longer primarily residential in use or appearance. Nonetheless, there is only one respect in which the site plan proposed by Star Market Co., does not meet Shopping Center Zone requirements; the parking lot is placed in front of the building, rather than behind it. Because of the slope of the land and the proximity of another large building we do not feel that the appearance of the area would be improved by having the market placed close to the Post Road. Concerning the appearance of the area, it is pertinent to mention that, following a suggestion made at the Public Hearing, Star Market has agreed to intersperse the parking area with plantings of trees and shrubs, as is required of Shopping Center Zone parking lots.

The question of additional revenue for the Town has received enough attention so that we do not think it necessary to do more in this report than to note that a greatly increased tax yield could be realized as a result of this rezoning.

Finally, we come to the much-discussed By-Pass. The Planning Board would like to remind you that, at the adjourned Town Meeting of December 8, 1959, the Town voted against the Planning Board's recommendation, to rezone to Business the Mercury land at the corner of the Post Road and Landham Road, thus increasing the potential cost of land takings on property which has long been regarded as the probable cut-off point for the By-Pass. In the light of this action it would be highly inconsistent to disapprove Article 39 on any grounds having to do with the By-Pass particularly since, in this instance, all of the most recent information we have been given indicates that the proposed route will not conflict with this site.

For these reasons, the Planning Board unanimously approves Article 39."

Report of Town Counsel: "The proponent of this article would establish a new business district on the southerly side of Boston Post Road and the westerly side of Nobscot Road.

I attended the hearing before the Planning Board on this proposed amendment. It appears that if such amendment is adopted, the Star Market Company will establish, as I understand it, a shopping center which will include one of its own markets. Plans for the laying out of the locus for that purpose and front elevations of the buildings which will be erected thereon were exhibited to the Planning Board.

Nothing has been offered nor do I have factual information which shows that the change would not be in harmony with the zoning enabling act and the general welfare of the town.

On the basis of the facts which I now have relating to the tract of land, it seems to me that the town may constitute and establish the land described as a business district."

A motion in the words of the article was defeated; in favor 190, opposed 199.

The meeting adjourned at 11:45 to Wednesday evening, March 16th at 8:00 P. M. at the Center School.

**PROCEEDINGS OF THE ADJOURNED
ANNUAL TOWN MEETING
MARCH 16, 1960**

At 8:00 P. M., the Moderator called to order the Adjourned Annual Town Meeting of March 9, 1960 and declared there was a quorum present.

VOTED: *To reconsider Article 39.*

A motion was presented by John C. Powers. The Moderator declared it a legal motion.

Planning Board report: *"The Planning Board on reviewing this amendment to Article 39 has voted in its favor for the same reasons set forth in the original report."*

Report of Town Counsel: *"I am constrained to withdraw the opinion which I submitted when the article was first considered. The motion now under consideration is beyond the scope of the article. See G. L. c. 40A, Acts of 1956 and Nelson vs Belmont, 274 Mass. 35, and if adopted the amendment will not be a valid by-law of the town."*

VOTED: *That the Town amend Article IX, Section 1 of the Zoning By-law by inserting a new Limited Business District to be known as Limited Business District Number 2, and direct that the boundaries of the same be incorporated into the existing Zoning map of the Town of Sudbury, under the direction of the Board of Selectmen as follows:*

Beginning at a point where the westerly line of Industrial District No. 8 intersects Boston Post Road; thence southwest-erly along the border of Industrial District No. 8 to Nobscot Road; then westerly by Nobscot Road 400 feet more or less to land now or formerly of Ralph Hawes; thence northerly by land of said Hawes in two courses, N 40° 31' 20" W 460 feet more or less and N 69° 22' 50" W 555 feet more or less; thence N 32° 49' 12" E 518 feet more or less to Boston Post Road; thence easterly along said Boston Post Road to the point of beginning.

In favor 343, opposed 158.

Article 9. To see what disposition will be made of Middlesex County Dog License Refund; pass any vote or take action relative thereto.

Submitted by the Selectmen.

VOTED: *That the funds from the Middlesex County Dog License Refund in the amount of \$1,580.58 be appropriated to the Goodnow Library Account.*

VOTED: *To take up Article 26 out of order.*

Article 26. To see if the Town will grant, appropriate, or otherwise provide the sum of \$60,000.00, or any other sum, for the purpose of building and furnishing a Police Station on the Legion Hall site on the Boston Post Road, and to sell, remove or otherwise dispose of the Legion Hall now located on the site; pass any vote or take action relative thereto.

Submitted by the Permanent Building Committee.

Finance Committee report: *"It is the opinion of the Finance Committee that the present quarters occupied by the Police Department are totally inadequate and that proper facilities must be provided for the proper functioning of this Department. It is our understanding that the proposed site is endorsed by the Chief of Police. Under Article 12 of the Proceedings of the Special Town Meeting, December 8, 1959, the Permanent Building Committee was authorized to advertise for and record bids for the sale, removal, demolition or other disposition of the Legion Hall and to report at the 1960 Annual Town Meeting on the recommended use or disposition of this building. Also, under Article 11 of that meeting the amount of \$3,000.00 was appropriated for preparing final plans and specifications and obtaining bids for a Town Police Station by alteration of the Legion Hall building or construction of a new building on the Legion Hall site. It is our under-*

standing that the Permanent Building Committee will recommend the construction of a new building on the Legion Hall site."

VOTED: That the sum of \$60,000.00 be granted and appropriated to construct a new building for the Police Department on the so-called Legion Hall site. That \$3,000.00 be transferred from Excess and Deficiency and that the Treasurer with the approval of the Board of Selectmen, issue bonds or notes in the amount of \$57,000.00 for a period not to exceed twenty years as provided in Section 7(3) Chapter 44 General Laws. These Funds shall be expended under the jurisdiction of the Permanent Building Committee. To expedite the construction of this building, with the approval of the Selectmen, jurisdiction over this site and the present building thereon shall be placed in the Permanent Building Committee to carry out the tenor of Articles 11 and 12 of the December 8, 1959 Special Town Meeting. Following construction, jurisdiction of this site and the buildings thereon shall revert to the Board of Selectmen.

In favor 430, opposed 18.

Article 10. To see if the Town will vote to acquire by purchase, eminent domain or otherwise, land owned by Israel Bluestein located on Concord Road and Morse Road and known as Featherland Farm and containing approximately 42 acres or any part thereof for the sum of \$53,000.00, or any other sum; pass any vote or take action relative thereto.

Submitted by the Park and Recreation Commission.

Finance Committee report: "The Finance Committee has previously expressed its view on this property at the special town meeting on December 8, 1959. The Park and Recreation Commission has indicated to us that they have not had sufficient time to complete their report on the subject. The Finance Committee will, therefore, report at the town meeting."

Finance Committee report at the meeting: "The Finance Committee has been informed by the Park and Recreation Commission that a price of \$29,950.00 has been determined as acceptable to Mr. Israel Bluestein for certain land owned by him located on Concord Road and Morse Road and known as Featherland Farm containing approximately forty acres (40). We have also been informed that

1. this figure does not include the cement block building known as the Hatchery Building
2. a certified appraisal of the total property including the Hatchery Building shows a valuation of \$38,000.00

3. *the value of the structures on the land comprising the forty acres contemplated in this purchase is approximately \$200.00*
4. *the Park and Recreation Commission will request substantially minor funds for improvements for at least a period of three years, and that no large appropriations will be requested for capital or operating costs during this three year period*
5. *the option deposit of \$1,000.00 is applicable to the total purchase price of \$29,950.00*

On this basis, the Finance Committee approves the purpose of this article. We recommend that the amount of \$2,950.00 be transferred from Excess and Deficiency and that the balance of \$26,000.00 be provided by bonds or notes for a period not in excess of ten years. We recommend that, with the permission of the Selectmen, the Park and Recreation Commission be designated as custodian of this property."

VOTED: That the Park and Recreation Commission be and they hereby are authorized to purchase or take by eminent domain in behalf of the Town from Israel Bluestein two parcels of land, the first of which is located on Concord and Morse Roads, containing about 32.64 acres, the boundaries of which are substantially as follows: westerly by the location of New York, New Haven and Hartford Railroad, northeasterly by land now or formerly of Albee, easterly by land of Felch, southerly by land of Felch, easterly again by land of Felch, Secatore and Guptill, southerly, northerly and westerly by land of Bluestein, easterly by land of Erickson, southwesterly by Concord Road, southerly and easterly by land of Erickson, northerly by land of Erickson, easterly by Concord Road, southerly by Morse Road, and westerly and southwesterly by land of Morse; and the second parcel is located westerly of the location of the New York, New Haven and Hartford Railroad, and contains about 7 acres, the boundaries of which substantially are as follows: westerly and northerly by land of Morse, easterly by the location of New York, New Haven and Hartford Railroad, and southerly by land of Morse, for the uses and purposes of the said Commission; and that the town appropriate and grant therefor the sum of \$28,950 of which amount the sum of \$2,950 be transferred from Excess and Deficiency and the Town Treasurer be authorized with the approval of the Board of Selectmen to borrow under the provisions of General Laws, Chapter 4A, the sum of \$26,000 for a period not to exceed ten years; and if the said Commission shall acquire said land by purchase, they are hereby further authorized to grant to said Bluestein an easement of passage on foot or vehicles over a

portion of the first part of land above described which fronts on Concord Road and lies between the two several parcels of land supposed to be owned by Erickson for access to other land of said Bluestein which lies northerly and westerly of land of Erickson, and the said Commission, in the event of a taking by eminent domain, may grant said easement, the value of which shall be determined and deducted from the amount of any award of damages to be made.

In favor 257, opposed 37.

Article 11. To see if the Town will vote to appropriate the sum of \$12,000.00, or any other sum, to be used to develop a Master Plan for the Town, and to secure the services of a professional planning consultant for this purpose. These funds to be expended by the Planning Board; pass any vote or take action relative thereto.

Submitted by the Planning Board.

Finance Committee report: "This article has been discussed with the Planning Board, and the Finance Committee concurs with the need for a master plan to be developed for the Town of Sudbury, and will make a more specific report at the town meeting."

Finance Committee report at the meeting: "The Finance Committee has been informed that a three year program is contemplated to develop a Master Plan. It is anticipated that the cost will approximate \$36,000.00. While no commitments have been made, the general aim is to develop the plan in three stages — the first stage to be initiated this year."

VOTED: To grant and appropriate the sum of \$12,000.00 to develop the first stage of a master plan and, with the permission of the Board of Selectmen, to authorize the Planning Board to contract with a professional planning consultant for this purpose. These funds are to be under the jurisdiction of the Planning Board.

Article 12. To see if the Town will vote to recognize a moral obligation to Donald E. Shay, Jr., with respect to injuries received in an accident on or about May 25, 1955 involving a school bus and to grant and appropriate the sum of \$12,000.00, or any other sum, in compensation for such injuries, such sum to be paid to or for the benefit of said Donald E. Shay, Jr., upon authorization by the General Court; pass any vote or take action relative thereto.

Submitted by Richard A. Schmalz, Carl R. Scovel and Michael P. Tristan.

Finance Committee report: *"The Board of Selectmen appointed a distinguished committee to study and evaluate the injuries received in an accident by Donald E. Shay, Jr., and to determine whether the Town had a moral obligation to the boy and family. The Finance Committee approves this and the following article."*

Report of Special Advisory Committee in re Donald E. Shay, Jr.

To the Townspeople of Sudbury:

Most of us know that Donald E. Shay, Jr. of Sudbury was seriously injured in an accident several years ago involving a school bus.

Many of us, however, have with the passage of time lost track of the effects of this unfortunate accident on young Donnie and on the Shay family. A feeling, nevertheless, has been growing for some time that the Town ought to do something, but no one seemed to know just who should do what. This is understandable because many of the facts which were needed to appraise the situation were unknown.

This fall, at the request of the School Committee, we, the undersigned, undertook to investigate the matter with the understanding that we would make our findings and recommendations known to the Town at Town Meeting. This is our report.

We found first of all that the medical and other expenses which have been incurred by young Donnie's parents have mounted to the point where there is a grave danger that the family will be unable to keep its head above water without some help. Total expenses to date are over \$10,000. Approximately \$3,000 of these expenses have not been covered by any form of insurance.

We found, secondly, that although Donnie has made a good recovery from many of his injuries, he received a most serious internal injury from which he will never fully recover. Although it is to be hoped that most major surgery has been done, there will be a need for frequent medical check-ups and care for an indefinite period.

We found, thirdly, that the Town has no legal liability either to Donnie or to his parents with respect to the injury because of a fundamental principle of Massachusetts law which dates back to early English days. This principle is sometimes popularly phrased as "the King can do no wrong." In other words, a state, town or municipal agency acting within the scope of purely governmental functions, such as providing for compulsory schooling, is immune as a matter of law from liability for any negligence.

It seemed to us, however, that there is no escaping the conclusion that the Town has a moral obligation to compensate

Donnie and his parents for the injuries and expenses which they have incurred. The fact that the accident occurred on Town property, during the normal school day and involved the operation of a Town owned school bus in an area where many children were under its supervision would in all probability have presented a jury question as to the legal liability but for the absolute immunity of the Town which we have just mentioned.

It is our recommendation, therefore, that the Town recognize this moral obligation to young Donnie and to his parents by adopting the substance of Articles 12 and 13 of the Warrant.

The task of recommending the amounts of compensation called for in these Articles was perhaps our most difficult one. We felt that because the Town has no legal liability and because any legal liability of any of its employees acting in their individual capacity was extinguished by settlement of a suit against the Town, we could not approach this task from the point of view of what a jury might award in a comparable case against a private corporation.

We feel that the amount of \$3,000 to be paid to Mr. and Mrs. Shay will enable them to meet their outstanding expenses in connection with this matter and will reimburse them for most of their other expenses which have not been compensated for by insurance.

It is our feeling that the sum of \$12,000 should be paid to trustees to provide for Donnie's post-high school education, with the understanding of course that should this not be feasible the trustees in their discretion may apply the whole or any part of the trust amount for Donnie's use and benefit.

We recommend that this trust terminate when Donnie reaches the age of twenty-three and that the balance of any amount then in trust be paid to him at that time free of all trust. Should Donnie not reach the age of twenty-three, we feel that the balance of any amount remaining in the trust fund at his death should be payable to his parents, or if they pre-decease him, to his heirs. None of these funds should return to the Town.

We are very grateful for the cooperation which we have received from the School Committee, the Board of Selectmen, the Finance Committee, the Town Counsel, Representative DeNormandie and from Mr. and Mrs. Shay, who have many times gone through the painful process of recalling the details of this matter for our benefit.

Respectfully submitted,

/s/ Richard A. Schmalz
 Carl R. Scovel
 Michael P. Tristan

VOTED: *That the town recognize a moral obligation to Donald E. Shay, Jr., with respect to injuries received in an accident on or about May 25, 1955 involving a school bus and that the town grant and appropriate the sum of \$12,000 in compensation for such injuries, such sum to be paid, upon authorization of the General Court, to Donald E. Shay, Sr., the Town Treasurer for the time being and a bank or trust company to be designated by the Board of Selectmen, as trustees who shall manage the fund so established in accordance with a trust agreement to be prepared and approved by Town Counsel and a member of the Special Advisory Committee in re Donald E. Shay, Jr., for the primary purpose of providing for the higher education of Donald E. Shay, Jr., the trustees to be authorized in their discretion otherwise to apply the whole or any part of the fund for the use and benefit of Donald E. Shay, Jr.*

Article 13. To see if the Town will vote to recognize a moral obligation to Donald E. Shay, Sr., and Mary E. Shay with respect to expenses incurred or to be incurred in connection with injuries received by their son, Donald E. Shay, Jr., in an accident on or about May 25, 1955 involving a school bus and to grant and appropriate the sum of \$3,000, or any other sum, in compensation for such expenses, such sum to be paid to said Donald E. Shay, Sr. and Mary E. Shay upon authorization by the General Court; pass any vote or take any action relative thereto.

Submitted by Richard S. Schmalz, Carl R. Scovel and Michael P. Tristan.

VOTED: *That the town recognize a moral obligation to Donald E. Shay, Sr., and Mary E. Shay with respect to expenses incurred or to be incurred in connection with injuries received by their son, Donald E. Shay, Jr., in an accident on or about May 25, 1955 involving a school bus and that the town grant and appropriate the sum of \$3,000 in compensation for such expenses, such sum to be paid to said Donald E. Shay, Sr. and Mary E. Shay upon authorization by the General Court.*

The meeting adjourned at 11:15 P. M. to Wednesday evening, March 23, 1960 at 8:00 P. M. in the Center School.

**PROCEEDINGS OF THE ADJOURNED
ANNUAL TOWN MEETING**

MARCH 23, 1960

At 8:12 P.M. the Moderator called the meeting to order and declared there was a quorum present.

The first order of business was the reading of the following letter from a group of visitors from many lands who had attended the first session of the Town Meeting:

HARVARD UNIVERSITY
School of Public Health
Department of Public Health Practice
55 Shattuck Street, Boston 15, Mass.
March 15, 1960

Professor John Carrell Morris
Town Moderator
250 Raymond Road
Sudbury, Massachusetts

Dear Sir:

The permission that you granted us to attend, as guests of honor, the Annual Town Meeting of Sudbury, on Wednesday, March 9, 1960 was a real privilege because it availed us of a unique experience.

To witness the democratic process of government, in vivid action, engenders in the soul a thrilling delight not less intense than the ecstasy of the old Athenians when their social life was pulsating with the creative challenge of their pioneer City-State form of government.

"Town" government is a pure illustration of a "government of the people, by the people, for the people." In this country every person (a U. S. or non-U. S. citizen) must get a direct refreshing acquaintance with the elements of unadulterated democracy; hence, a pilgrimage visit to the Mecca of democracy — A New England Town Meeting (such as Sudbury's) — is a necessity. The spirit of this way of government can thus be kept aflame in the hearts of people and of nations.

Your ability, as a moderator, was easily evident; the reverend Episcopalian Minister uttered a soul-searching, thought-provoking and spirit-motivating prayer; and many speakers from the floor spoke with convincing clarity and studied content. Such performance stands, in our memory, as a challenging example of the behavior of a community with a heightened sense of civic responsibility.

Therefore, all of us are ever thankful to Dr. Marjorie Young and to you for this enriching and impactful event in the history of our graduate education in public health practice at Harvard.

Sincerely,

Dr. F. Bonner (U.K.)	Dr. E. C. Bryant (U.S.A.)
Dr. P. Delon (France)	Dr. G. Gelinás (Canada)
Dr. C. Lu (Formosa)	Dr. N. Madesayya (India)
Dr. Madhavankutty (India)	Miss A. McCluskey, S.B., A.M. (U.S.A.)
Dr. H. Minners (U.S.A.)	Dr. L. Navarro (Venezuela)
Dr. C. Neuman (U.S.A.)	Dr. Z. A. Shakhashiri (Lebanon)
	Visiting Associate Professor of Public Health Practice, (HSPH)

A motion to reconsider Article 39 was lost by a vote of 175 Yes — 330 No.

Article 14. To see if the Town will vote to raise or appropriate or transfer from available funds the sum of \$15,000.00, or any other sum, for study and preliminary plans for a new elementary school to be erected on the Haynes Road School site and when the Town approves an appropriation for the Haynes Road School the Permanent Building Committee will transfer \$15,000 to the Water District for the water main and hydrant installation at the Haynes Road site; pass any vote or take action relative thereto.

Submitted by the Permanent Building Committee and The School Committee.

Finance Committee report: *“This article must necessarily be segregated into two parts*

1. *The appropriation of \$15,000.00 for the study and preliminary plans for a new elementary school to be erected on the Haynes Road School site*
2. *The expression of an intent, and not the appropriation of funds to direct the Permanent Building Committee to transfer to the Water District for the water main and hydrant installation at the Haynes Road site the amount of \$15,000.00 when and if an appropriation is voted for the construction of school at this site. We believe that this second part does not call for a report of the Finance Committee inasmuch as no appropriation is called for the construction of the Haynes Road School under this article.”*

VOTED: *That the sum of \$5,000.00 be granted and appropriated for study and preliminary plans for a new elementary school to be erected on the Haynes Road school site, such sums to be expended under the jurisdiction of the Permanent Building Committee.*

RESOLVED: *That it is the wish of the town that the Permanent Building Committee establish a schedule that will provide for occupancy of the Haynes Road School by July 1, 1962.*

Article 15. To see if the Town will vote to raise or appropriate or transfer from available funds the sum of \$30,000.00, or any other sum, for study and preliminary plans for a Junior High School building to be added to the present brick Center School building; pass any vote or take action relative thereto.

Submitted by the Permanent Building Committee and The School Committee.

Finance Committee report: *"The present estimates of school population indicate that Sudbury will need one school building devoted solely to Junior High School students with classrooms numbering between thirty and thirty-six rooms within five years. The School Committee plans to construct an addition to the Center School. Some of the added rooms will be needed for the school year commencing September 1962. It is our understanding that these funds included provision for educational consulting, physical planning, soil and boring tests and architectural fees, and will therefore be considered in the school construction appropriation. The Finance Committee recommends that the funds be appropriated as requested, and that the balance of the funds remaining in the appropriation for the construction of the Horse Pond Road School be applied to this article."*

Finance Committee report at the meeting: *"The Finance Committee approves the purpose of this article."*

VOTED: *That the sum of \$30,000.00 be granted and appropriated for study and preliminary plans for a Junior High School building to be added to the present brick Center School building, such sums to be expended under the jurisdiction of the Permanent Building Committee. The amount of \$30,000.00 shall be transferred from Excess and Deficiency.*

RESOLVED: *That it is the wish of the town that the Permanent Building Committee establish a schedule that will provide for occupancy of the Junior High School Addition by July 1, 1963.*

RESOLVED: *That the Permanent Building Committee establish in its schedule for construction of the Haynes Road School, the sum of \$15,000 to be transferred to the Water District for water main and hydrant installation on the Haynes Road site.*

Article 16. To see if the Town will vote to grant, appropriate or otherwise provide the sum of \$30,000.00, or any other sum, for the purpose of purchasing the property of the Sudbury Methodist Church on Concord Road, adjacent to the Town Hall property; pass any vote or take action relative thereto.

Submitted by the Trustees of the Sudbury Methodist Church.

Report of Permanent Building Committee: *"As voted in Article 18 of the Special Town Meeting of December 8, 1959:*

"That the Permanent Building Committee be requested to study and evaluate any possible use which the Town might make of the Methodist Church Building, its possible value to the Town and its recommendations relative to possible purchase by the Town and to submit a report at the next Annual Town Meeting."

The Permanent Building Committee submits the following report:

The Permanent Building Committee has inspected the Methodist Church building and property since the December 8th Town Meeting. The building has two floors, each approximately 38 x 42 feet and a small service "EL" and bell tower. The building is 127 years old but soundly constructed and in good repair. There is no evidence of settling, rotting timbers, or fundamental weaknesses.

The lower floor is an open room with small cubicles behind doors. The upper floor is a congregation hall with handsome curved benches and a high ceiling.

The heating plant is adequate but marginal and would require expensive ducting work and probable replacement of the furnace if the building were to be occupied every day, particularly if areas were partitioned.

The electric wiring would need replacement if the building were to be used for an operation requiring any significant increase in power for machines, added lights or other electric services.

On February 9th, 1960 the Permanent Building Committee met with the Selectmen, the Finance Committee, a representa-

tive of the Planning Board, and a representative of the Methodist Church. This group could not indicate a specific need or function for which the building might be modified so the Permanent Building Committee, not knowing what it was to be altered to did not proceed on considering alteration costs.

The building provides about 3,200 square feet of space. At the price asked in the article (\$30,000) this comes to about \$9.40 per square foot located on about $\frac{1}{4}$ acre of land.

The Permanent Building Committee feels that this is not a desirable cost for space that is of questionable use, that needs expensive alterations, and, (because of the age and construction of the building) creates the certainty of very high maintenance costs.

The Permanent Building Committee therefore, recommends that this building should not be purchased at the asking price to satisfy any town needs for buildings.

In the meeting of February 9th the Permanent Building Committee submitted the observation that this proposition cannot be considered solely on the basis of the square footage of the building. The strategic location of the land and the integrated plan for Town buildings, future expansion, and traffic control at the center should be evaluated also. We feel that this is beyond the scope of our committee's responsibility and have limited our report to the building.

Respectfully submitted,

Edward E. Kreitsek, Chairman
 Robert J. Caldwell
 Stephen E. Grande, Jr.
 Donald W. Neelon
 Francis G. Publicover"

Planning Board report: "Proposal for the preservation of Sudbury Center have had a long history. In 1945 a consultant (Deveneau Bender) was hired to devise a plan for its development as a civic center. Although most of the plan is now obsolete, his basic idea of the area as a civic center and residential zone has been preserved.

The present Planning Board has had considerable discussion on the articles (No. 16, 24, and 25) in this Warrant concerning the Center. No. 16 we do not favor, although we would like to see the town ultimately own the land and also the Grange land. However, the church building does not seem to lend itself to any use by the town.

Article No. 24 we favor as we believe the Town should pick up land in the Center area when available. We feel that the

Haynes House should continue to be used for offices as it is now. The Town is presently in such urgent need of office space we do not see how we can eliminate it. The Town will ultimately be faced with what to do with the Hosmer House and at that time consideration of this question might arise again.

Looking to the future, we believe that the Center will receive prompt attention from the consultant drawing up the Master Plan, so that we have made no proposal at this time. There is pending in the present Legislature, House Bill No. 1157, which establishes a new Chapter 40C which authorizes towns to establish historic districts for the purpose of preserving and protecting buildings, sites, and districts of historic interest. If this passes, we will probably soon ask for a committee to work with the consultant to set up the bounds for such a district and which would also be empowered to survey and recommend to the Town a planned development of the Sudbury Center area."

A motion under this article was defeated by a vote of 62 Yes — 254 No.

Article 40. To see if the Town will vote to amend Article IX (Zoning) of the By-Laws by striking out in Section 1 the paragraph immediately following the description of Residential Zone "C-2" and inserting in place thereof the following new paragraph:

"The Business Districts, Limited Business Districts, Industrial Districts, Limited Industrial Districts, Shopping Center Districts and Research Districts shall be denoted on said zoning map by letters as follows: Business Districts, B — ; Limited Business Districts, LB — ; Industrial Districts, ID — ; Limited Industrial Districts, LID — ; Shopping Center Districts, SC — ; Research Districts, RD — ; and each such district as now established or as may hereafter be established with a description of the boundaries thereof shall be numbered consecutively in the order in which they were established or may hereafter be established; and written descriptions of the several districts as now constituted are as follows:" Pass any vote or take action relative thereto.

Submitted by the Board of Selectmen.

Report of Town Counsel: *"The paragraph which would be stricken out by the proposed amendment merely provides for the lettering and numbering of Business and Industrial Districts. The amendment prescribed for the lettering and numbering of all districts in the town established for uses and purposes, other than for residences, as now constituted, and*

as new districts of any of the categories named therein may be established they will be designated by appropriate letters and numbered consecutively in the zoning by-laws.

It appears that the letter D was inadvertently omitted after the letters LB immediately following the words "Limited Business Districts," and it was also omitted after the letters SC immediately following the words "Shopping Center Districts." The omissions will be supplied in the motion to be presented.

The amendment as proposed by Article 40 may be classified as a perfecting amendment; and, if adopted, would be a valid by-law of the town."

Planning Board report: "The purpose of this article is to establish symbols and numbering for the various zoning districts, said symbols to be used on the zoning map to identify the various districts. The Planning Board favors this article.

VOTED: That the town amend Article IX (Zoning) of the By-laws by striking out in Section 1 the paragraph immediately following the description of Residential Zone "C-2" and inserting in place thereof the following new paragraph:

The Business Districts, Limited Business Districts, Industrial Districts, Limited Industrial Districts, Shopping Center Districts and Research Districts shall be denoted on said zoning map by letters as follows: Business Districts, BD-; Limited Business Districts, LBD-; Industrial Districts, ID-; Limited Industrial Districts, LID; Shopping Center Districts, SCD-; Research Districts, RD-; and each such District as now established or as may hereafter be established with a description of the boundaries thereof shall be numbered consecutively in the order in which they were established or may hereafter be established; and written descriptions of the several districts as now constituted are as follows:

Article 41. To see if the Town will vote to amend Section 1 of Article IX (Zoning) of the By-laws by striking out at the end of the description of Residential Zone "A - 1" the words: "exclusive of any Business and Industrial Zones within the described boundaries," and inserting in place thereof the words: exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts within the above described boundaries; and by further amending said Section 1 by adding after the word "beginning" at the end of the description of Residential Zone "A - 2" the following:— exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts within the above described boundaries;

and by further amending said Section 1 by striking out at the end of the description of Residential Zone "A - 3" the words: "exclusive of any Business or Industrial Zones within the described boundaries," and inserting in place thereof the words:—exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts within the above described boundaries; and by further amending said Section 1 by striking out at the end of the description of Residential Zone "B - 1" the words:—"exclusive of any Business and Industrial Zones within the described boundaries," and inserting in place thereof the words:—exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts within the above described boundaries; and by further amending said Section 1 by striking out at the end of the description of Residential Zone "B - 2" the words: "exclusive of any Business or Industrial Zones within the described boundaries," and inserting in place thereof the words:—exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts, within the above described boundaries; and by further amending said Section 1 by adding after the word "beginning" in the last line of the description of Residential Zone "B - 3" the following: exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts within the above described boundaries; and by further amending said Section 1 by adding after the word "beginning" in the last line of the description of Residential Zone "C - 1" the following:—exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts within the above described boundaries; and by further amending said Section 1 by adding after the word "beginning" in the last line of the description of Residential Zone "C - 2" the following: exclusive of any Business, Limited Business, Industrial, Limited Industrial, Shopping Center and Research Districts within the above described boundaries; pass any vote or take action relative thereon.

Submitted by the Board of Selectmen.

Planning Board report: *"The purpose of this article is to add language to the descriptions of the residential zones. Then when land is zoned out of the residential zones, the descriptions of the residence zones involved will automatically remain correct. The Planning Board favors this article."*

Report of Town Counsel: *"The subject article would amend Section 1 of the Zoning By-laws by inserting at the end of the perimetrical description of each of Residential Zones "A-1," "A-2," "A-3," "B-1," B-2," B-3," "C-1" and "C-2" a provision excluding from the area of each of said Zones so much thereof as has been or shall hereafter be established*

as Business, Limited Business, Industrial, Limited Industrial and Shopping Center Districts.

It would be quite impractical to change the description of the outer boundary of each residential zone during the evolutionary period of zoning in the town as portions of said zones may be carved therefrom to meet the economic changes and trends; and, heretofore, as new districts were cut out of residential zones and established, the outer lines thereof were substantially described, and, in some instances, by metes and bounds with compass bearings, and they can be identified with certainty.

The amendment as proposed by this article may be classified as a perfecting amendment; and, if adopted, would be a valid by-law of the town."

VOTED: *In the words of the article.*

Article 42. To hear the report of the Selectmen relative to the laying out of the following named street, to wit: Tea Kettle Road, beginning on the northerly side of Hudson Road, a distance of approximately 475 feet as shown on a plan on file in the office of the Town Clerk, prepared by George D. White, Town Engineer, dated January 20, 1960; and to see if the Town will vote to accept such street as and for a Town way under the provisions of G. L. c. 82; and will authorize the Selectmen to take by eminent domain or acquire by purchase, or otherwise acquire, any land necessary for the layout and construction of said street, provide the sum or sums of money necessary to pay the cost of damages thereof and the cost of construction; direct how said money shall be raised; pass any vote or take action relative thereon.

Submitted by the Selectmen.

VOTED: *That the report of the Board of Selectmen of the laying out as a town way Tea Kettle Lane extending northerly from Hudson Road as described in said report and shown on a plan entitled: "Town of Sudbury, Massachusetts, plan of Tea Kettle Lane for acceptance. Scale 1 in. = 40 ft. Jan. 20, 1960," prepared by George D. White, Town Engineer is hereby accepted; and the said Board of Selectmen be and they hereby are authorized to take by eminent domain or to acquire in behalf of the town for street purposes the land described in said report by deed or otherwise, but without cost to the town in any event.*

Article 43. To hear the report of the Selectmen relative to the laying out of the following named street, to wit:

Colonial Road, beginning at Old Lancaster Road and extending easterly to land of Ralph Robins, a distance of approximately 1,530 feet, as shown on a plan on file in the office of the Town Clerk, prepared by George D. White, Town Engineer, dated January 20, 1960; and to see if the Town will vote to accept such street as and for a Town way under the provisions of G. L. c. 82; and will authorize the Selectmen to take by eminent domain or acquire by purchase, or otherwise acquire, any land necessary for the layout and construction of said street, provide the sum or sums of money necessary to pay the cost of damages thereof and the cost of construction; direct how said money shall be raised; pass any vote or take action relative thereon.

Submitted by the Selectmen.

VOTED: *That the report of the Board of Selectmen of the laying out as a town way Colonial Road extending easterly from Old Lancaster Road as described in said report and shown on a plan entitled: "Town of Sudbury, Massachusetts, plan of Colonial Road for acceptance. Scale: 1 in. = 40 ft. January 20, 1960," prepared by George D. White, Town Engineer, is hereby accepted; and the said Board of Selectmen be and they hereby are authorized to take by eminent domain or to acquire in behalf of the town for street purposes the land described in said report by deed or otherwise, but without cost to the town in any event.*

Article 44. To hear the report of the Selectmen relative to the laying out of the following named street to wit: Stub Toe Lane, beginning at Country Village Lane and extending easterly to Tea Kettle Lane, a distance of approximately 1,260 feet, as shown on a plan on file in the office of the Town Clerk, prepared by George D. White, Town Engineer, dated January 20, 1960; and to see if the Town will vote to accept such street as and for a Town way under the provisions of G. L. c. 82; and will authorize the Selectmen to take by eminent domain or acquire by purchase, or otherwise acquire, any land necessary for the layout and construction of said street, provide the sum or sums of money necessary to pay the cost of damages thereof and the cost of construction; direct how said money shall be raised; pass any vote or take action relative thereon.

Submitted by the Selectmen.

VOTED: *That the report of the Board of Selectmen of the laying out as a town way Stub Toe Lane extending easterly from Country Village Lane as described in said report and as shown on a plan entitled: "Town of Sudbury, Massachusetts, plan of Stub Toe Lane for acceptance. Scale: 1 in. = 40 ft.*

January 20, 1960" prepared by George D. White, Town Engineer, is hereby accepted; and the said Board of Selectmen be and they hereby are authorized to take by eminent domain or to acquire in behalf of the town for street purposes the land described in said report by deed or otherwise, but without cost to the town in any event.

Article 45. To hear the report of the Selectmen relative to the laying out of the following named street, to wit: Homestead Street, beginning on Peakham Road and extending northerly to Colonial Road, a distance of approximately 500 feet, as shown on a plan on file in the office of the Town Clerk, prepared by George D. White, Town Engineer, dated January 13, 1960; and to see if the Town will vote to accept such street as and for a Town way under the provisions of G. L. c. 82; and will authorize the Selectmen to take by eminent domain or acquire by purchase, or otherwise acquire, any land necessary for the layout and construction of said street, provide the sum or sums of money necessary to pay the cost of damages thereof and the cost of construction; direct how said money shall be raised; pass any vote or take action relative thereon.

Submitted by the Selectmen.

VOTED: That the report of the Board of Selectmen of the laying out as a town way Homestead Street extending northerly from Peakham Road as described in said report and shown on a plan entitled: "Town of Sudbury, Massachusetts, plan of Homestead Street for acceptance. Scale: 1 in. = 40 ft., Jan. 13, 1960," prepared by George D. White, Town Engineer, is hereby accepted; and the said Board of Selectmen be and they hereby are authorized to take by eminent domain or to acquire in behalf of the town for street purposes the land described in said report by deed or otherwise, but without cost to the town in any event.

Article 17. To see if the Town will vote to grant and appropriate or transfer from available funds the sum of \$15,000, or any other sum, to relocate and rebuild Codger Lane west of Union Avenue; pass any vote or take action relative thereto.

Submitted by The Industrial Development Committee.

VOTED: Indefinite postponement.

The meeting adjourned at 11:10 P.M. to the following Wednesday, March 30, 1960, at 8:00 P.M. in the Center School.

PROCEEDINGS OF THE ADJOURNED
ANNUAL TOWN MEETING
MARCH 30, 1960

At 8:30 P.M. the Moderator called the meeting to order and declared there was a quorum present.

Article 18. To see if the Town will vote to grant or appropriate or transfer from available funds the sum of \$425.00, or any other sum, to purchase a Kitchenette Unit for the Firemen's quarters; pass any vote or take action relative thereto.

Submitted by Bernard Darby.

Finance Committee report: *"The Finance Committee has been informed by the Fire Chief that this is a desirable piece of equipment for his department, and approves this article."*

VOTED: *That the sum of \$425.00 be granted and appropriated to purchase a kitchenette unit for the firemen's quarters.*

Article 19. To see if the Town will vote to grant and appropriate or transfer from available funds the sum of \$3,000.00, or any other sum, to purchase or rent air conditioning equipment for the Town Hall Office; pass any vote or take action relative thereto.

Submitted by the Selectmen.

VOTED: *Indefinite postponement.*

Article 20. To see if the Town will vote to transfer from the Road Machinery Fund the sum of \$9,000.00, or any other sum, to purchase a four-yard dump truck for the Highway Department, said truck to replace one of the presently owned 1942 GMC trucks; pass any vote or take action relative thereto.

Submitted by The Public Works Advisory Board and The Highway Surveyor.

Finance Committee report: *"The Finance Committee recommends this article and recommends that bids under this article be accompanied by certified checks or performance bonds binding the bidder to proper performance."*

VOTED: *That the amount of \$9,000.00 be transferred from the Road Machinery Fund to purchase a four-yard dump*

truck for the Highway Department. This purchase shall be subject to public bid and the terms of such bid shall require the posting of either a performance bond or a certified check for at least \$300.00 to guarantee performance.

Article 21. To see if the Town will grant and appropriate or transfer from available funds the sum of \$12,000.00, or any other sum, to complete the rebuilding of Horse Pond Road to Peakham Road; pass any vote or take action relative thereto.

Submitted by the Public Works Advisory Board and Highway Surveyor.

Finance Committee report: *"The purpose of this article is to extend Horse Pond Road approximately 1500 feet, which will complete the entire road from Boston Post Road to Peakham Road. The Finance Committee approves this article."*

VOTED: *That the sum of \$12,000.00 be granted and appropriated for the purpose of completing the rebuilding of Horse Pond Road to Peakham Road.*

Article 22. To see if the Town will vote to grant and appropriate or transfer from available funds the sum of \$1,500.00, or any other sum, to purchase paint and equipment to paint traffic lines on some of our heavily traveled roads. Said work to be done under the supervision of the Chief of Police; pass any vote or take action relative thereto.

Submitted by the Chief of Police and Highway Surveyor.

Finance Committee report: *"After consultation with the Selectmen, it is the understanding of the Finance Committee that many citizens have requested lines be painted on the roads for traffic safety. The Finance Committee recommends the purchase of this equipment by public bid and that the operation of said equipment be under the jurisdiction of the Highway Surveyor."*

VOTED: *That the sum of \$1,500.00 be granted and appropriated to purchase traffic line painting equipment, which shall be under the jurisdiction of the Highway Surveyor. This purchase shall be by public bid and the terms of such bid shall require the posting of either a performance bond or a certified check for at least \$150.00 to guarantee performance.*

Article 23. To see if the Town will vote to raise and appropriate, or transfer from available funds the sum of \$1,500.00, or any other sum, for preliminary plans and

specifications for an addition to the Goodnow Library; pass any vote or take action relative thereto.

Submitted by the Goodnow Library Committee.

Finance Committee report: *"The Library Committee has requested these funds to prepare architectural plans for the extension of library facilities and the Finance Committee approves this article."*

VOTED: *That the sum of \$1,500.00 be granted and appropriated for preliminary plans and specifications for an addition to the Goodnow Library. These funds shall be expended under the jurisdiction of the Permanent Building Committee.*

Article 24. To see if the Town will vote to purchase land now owned by Donald Neelon and formerly a part of the Hosmer property in Sudbury Center and to provide the sum of \$9,000.00, or any other sum, to cover the cost thereof, or take action relative thereto.

Submitted by the Selectmen.

Finance Committee report: *"Reference is made to our prior year reports in which the Finance Committee recommended that the town should consider the three contiguous properties bounded by Old Sudbury Road and Concord Road. Since the Hosmer Property has been acquired, which gives access from Old Sudbury Road to the Neelon property, it now appears feasible to purchase the land owned by Donald Neelon. The Finance Committee approves this article."*

VOTED: *That the sum of \$9,000.00 be transferred from Excess and Deficiency for the purpose of purchasing land now owned by Donald Neelon and formerly a part of the Hosmer property in Sudbury Center and described as follows: Beginning at a stone bound on the easterly side of Concord Road and running northerly along said Concord Road for a distance of 374.87 feet more or less, thence turning and running easterly along land now or formerly of Hadley and Hosmer for a distance of 389.07 feet more or less, thence turning and running southerly by land now or formerly of Haynes and Crumm for a distance of 367.29 feet more or less, thence turning and running westerly by land now or formerly of Garfield 407.27 feet more or less to the point of beginning. Containing 3.39 acres more or less.*

144 Yes — 17 No.

Article 25. To see if the Town will vote whether the Haynes House shall be retained as a historical structure or

should be used as a Town office and janitor's residence; pass any vote or take action relative thereto.

Submitted by the Selectmen.

REPORT ON HAYNES HOUSE

My statements under this article are my own opinions and are not to be construed as the opinions of any committee of which I am a member.

The Town owns a frame building adjacent to the town hall which is generally known as the Haynes House or the janitor's residence. More formally this home should be referred to as the Loring Parsonage.

I believe that this house and land was acquired by the Town about 1930 at which time the Town Hall was erected on a portion of the land. The house was used as a janitor's residence from that time, and one room was used as a fireman's recreation area. About two years ago, the recreation area was adapted for the Town Engineer. Practically nothing was expended by the Town on this house between 1930 and 1957.

Extensive funds were appropriated at recent town meetings to repair the roof, install plumbing and heating and to repair to some extent the underpinning. This house is still in need of work and some decision is necessary.

Many of the thoughts and much of the information which I present have been contributed by Mr. Robert Desjardin of Old Sudbury Road who resides in the Bigelow Parsonage, later known as the Davison home.

Generally it is the consensus of opinion that the town center should be retained as it now appears. We are very fortunate in this town to have the opportunity to retain one of the very few New England Town Centers in its original state. I am sure you will agree that it is a refreshing atmosphere and a symbol of New England country living to which we ascribe.

The Loring Parsonage was built about 1720 and is classified as a Center Chimney Colonial; its doorway is characteristic of Central Middlesex County. It appears to me to be a very valuable part of our Town.

I understand that correct restoration is not more expensive than incorrect repairing. This theme is the basis of my proposal. What I have to propose is not radical, does not withdraw this structure from its current use and in the long run does not place an undue burden on the town's finances.

MOVE: That —

1. A Commission of three be appointed by the Moderator to be known as the Commission on Historical Structures

2. with the approval of the board of selectmen, jurisdiction over the Loring Parsonage be placed in this commission
3. no alterations, repairs, attachments, or schedule of maintenance shall be undertaken without written approval of the Commission
4. no change in present occupancy shall be made, except to vacate, without approval of the Commission.
5. The Commission shall have such other authority as is necessary to manage the Loring Parsonage properly
6. on or before the next annual town meeting, this Commission shall examine the Loring Parsonage, prepare a plan of procedure and report thereon.

While all the conditions necessary to insure the functioning of this commission may not be incorporated in this motion, it may serve to initiate this program. I believe a body, such as is proposed, is vitally necessary. I also believe, and I have been assured, that there are a number of capable citizens who are willing to donate their knowledge and skills to a Commission of this nature. I urge the adoption of this motion.

/s/ Edward F. Moynihan

VOTED: *That*—

1. *A Commission of three be appointed by the Moderator to be known as the Commission on Historical Structures*
2. *With the approval of the Board of Selectmen, jurisdiction over the Loring Parsonage be placed in this Commission*
3. *No alterations, repairs, attachments, or schedule of maintenance shall be undertaken without written approval of the Commission*
4. *No change in present occupancy shall be made, except to vacate, without approval of the Commission*
5. *The Commission shall have such other authority as is necessary to manage the Loring Parsonage properly*
6. *On or before the next annual Town Meeting, this Commission shall examine the Loring Parsonage, prepare a plan of procedure and report thereon.*

Article 27. To see if the Town will grant, appropriate, or otherwise provide the sum of \$3,000.00, or any other sum, for the purpose of preparing preliminary plans for a Fire Station on the parcel of land on the southwesterly corner of the land owned by the Raytheon Company on the Boston Post Road; or, if this site cannot be made available, to prepare preliminary plans for a Fire Station on any other site

selected by the Fire Chief with concurrence of the Board of Selectmen; pass any vote or take action relative thereto.

Submitted by the Permanent Building Committee.

Finance Committee report: *"The Finance Committee approves the purpose of this article."*

VOTED: *That the amount of \$3,000.00 be granted and appropriated for the purpose of preparing preliminary plans for a fire station on the parcel of land on the southwesterly corner of the land owned by or occupied by the Raytheon Company on the Boston Post Road; or, if this site cannot be made available, to prepare preliminary plans for a fire station on any other site selected by the Fire Chief with the concurrence of the Board of Selectmen. The funds hereunder shall be subject to the jurisdiction of the Permanent Building Committee.*

Article 28. To see if the Town will vote to authorize the Selectmen to grant to the Postmaster General of the United States and his assigns an option or right to purchase within sixty days from the date hereof, the price to be set at this meeting, the land and building on the Boston Post Road known as Legion Hall; pass any vote or take action relative thereto.

Submitted by the Selectmen.

VOTED: *Indefinite postponement.*

Article 29. To see if the Town will vote to grant, appropriate or otherwise provide the sum of \$600.00, or any other sum, to purchase a Snow Blower to be used for clearing snow from around the Haynes House and the Town Hall, also to keep the skating rinks on the tennis courts clear of snow, and also the pond on Concord Road; pass any vote or take action relative thereto.

Submitted by Bernard Darby.

Finance Committee report: *"The Finance Committee does not approve this article."*

Finance Committee report at the meeting: *"The Finance Committee does not approve this article. We believe that this piece of equipment is not absolutely necessary for Town Hall maintenance. During the past year a snow blower was borrowed from the Regional High School for clearing the skating rinks and the Concord Road pond. While we realize that there is a matter of inconvenience, we believe that the same procedure can be followed at least temporarily."*

VOTED: *In the words of the article.*

Article 30. To see if the Town will vote to grant, appropriate, or otherwise provide the sum of \$20,000.00, or any other sum, to widen and resurface the roads on the route to be taken by the Water District in extending the District to North Sudbury; pass any vote or take action relative thereto.

Submitted by the Selectmen.

Finance Committee report: *"This article relates to the extension of the water mains to the northern section of Sudbury. Pending positive action at the Water District Annual Meeting, the report of the Finance Committee must be deferred. A specific report on this article will be made at the town meeting."*

Finance Committee report at the meeting: *"Although the Finance Committee unanimously take issue with the financial policies of the Sudbury Water District as expressed in our Finance Committee Report, we believe the importance of the industrial growth of Northern Sudbury, as zoned, is paramount."*

VOTED: *That the sum of \$15,000.00 as recommended by the Highway Surveyor be granted and appropriated for the purpose of this article. Such sums shall be expended under the jurisdiction of the Highway Surveyor.*

Article 31. To see if the Town will vote to grant, appropriate or otherwise provide the sum of \$4,100.00, or any other sum, to install equipment so that the four air raid sirens located in Sudbury may be operated from the Fire Station; pass any vote or take action relative thereto.

Submitted by John Murphy.

VOTED: *Indefinite postponement.*

Article 32. To see if the Town will grant, appropriate, or otherwise provide the sum of \$3,000, or any other sum, for the purpose of obtaining professional services, assistance, or personnel to investigate, evaluate, survey or otherwise appraise land or buildings now owned by the Town, or proposed for acquisition by the Town. This fund to be under the jurisdiction of the Permanent Building Committee, to be spent for the purpose stated for the period ending at the next Annual Town Meeting; pass any vote or take action relative thereto.

Submitted by the Permanent Building Committee.

VOTED: *Indefinite postponement.*

Article 33. To see if the Town will vote to authorize the Board of Selectmen to negotiate for and obtain option on approximately one acre of land, or more, in the North Sudbury area for the site of a future fire station. Said site to meet with the approval of the Permanent Building Committee and the Fire Chief; pass any vote or take action relative thereto.

Submitted by Albert St. Germain, Fire Chief.

VOTED: *To authorize the Board of Selectmen to negotiate for and obtain an option on approximately one acre of land more or less in North Sudbury area for the site of a future fire station. Said site shall meet with the approval of the Selectmen, Permanent Building Committee and the Fire Chief.*

Article 34. To see if the Town will vote to accept the provisions of Chapter 136, Section 4B, that provides that the Selectmen may grant a license to operate Bowling Alleys on the Lord's Day; pass any vote or take action relative thereto.

Submitted by the Selectmen.

A motion in the words of the article was lost.

Article 35. To see if the Town will vote to authorize the Board of Selectmen to extend from time to time the street lighting system by installing lights of such size and capacity with necessary equipment at such locations as shall be recommended by the Public Works Advisory Board; pass any vote or take action relative thereto.

Submitted by the Selectmen.

VOTED: *In the words of the article.*

Article 36. To see if the Town will vote to change the term of office of the Tax Collector from three years to one year as authorized by General Laws, Chapter 41, Section 1, and that said term of one year shall begin at the annual election of officers in 1961; pass any vote or take action relative thereto.

Submitted by the Finance Committee.

Finance Committee report: *"The submission of this article is the second step to implement the recommendation of the Finance Committee in its 1958 report. The first step was accomplished at the annual meeting of 1959, changing the term of the Town Treasurer from three years to one year.*

The third step will be to submit an article to legally combine the two offices. As was pointed out in Finance Committee report under Article 27 of the last annual meeting, the purpose of that article and this one also is to have the terms of the two offices run concurrently so that you may have an opportunity to vote on the combination if and when an article is properly included in the warrant."

VOTED: That the term of office of the Tax Collector be changed from three years to one year as authorized by General Laws, Chapter 41, Section 1. Said term of one year shall begin at the annual election of officers in 1961.

Article 37. To see if the Town will vote to amend the By-Laws, Article IX (Zoning), Section 14A by striking out the words "from any residence zone within the Town of Sudbury" in Column D (Required clear distance from Residence Zone Boundary (Whether at side or rear)) so that it shall read "150 ft." and by striking out the words "or a Town Line" from Column E (Required Rear Yard Depth) so that it shall read "100 ft. unless abutting a railroad right-of-way." Pass any vote or take action relative thereto.

Submitted by the Planning Board.

VOTED: Indefinite postponement.

The meeting adjourned at 10:30 P. M.

A True Record, Attest:

LAWRENCE B. TIGHE

APPENDIX A

Report on Drainage Conditions

Under article 25 of the Special Town Meeting of May 26, 1959, it was voted that the Highway Surveyor and the Town Engineer submit a report on drainage conditions throughout the Town with regards to surface water.

The colored map that is before you shows forty-one different areas which control the flow and direction of surface water. Some of these areas are large and the runoff is slow, other areas are small and the runoff is fast. Also several of these areas upon a complete survey of elevation could be divided into smaller areas of water shed.

You will note that the runoff enters into one of two main brooks which carry away the surface water, that is, namely the Hop Brook and Pantry Brook.

Hop Brook starts at the Grist Mill Pond which is near the Marlboro Framingham line and flows in several directions and empties into the Sudbury River. You will also notice that this brook handles more than fifty percent of the water shed area of the town.

Pantry Brook starts about at Old Sudbury Road and Rice Road and flows in several directions until it enters the Sudbury River.

There is also a third area of water shed which flows generally from Concord Road starting near Candy Hill Road and continuing up to Lincoln Road and over Lincoln Road to the Sudbury River. This water shed flows generally easterly crossing under Water Row into the low lands eventually reaching the Sudbury River.

The conveying of surface water is done by one of two methods, by pipe or open channel. (The circumstances involved with the well known question. I have a large pond of water in front of my property and I think the town should do something about it.) The location of the so-called pond is checked upon the ground; a survey is made with emphasis on elevation, alignment, and point of discharge. After a point of discharge has been decided upon the problem is how to convey the water there. It may mean the laying of all the pipe in the highway for several hundred feet or having the pipe cross through private property, at a shorter distance.

The proposed location through private property could involve several property owners, who would agree to let the town lay the pipe through their land. But when the property owners involved are asked to sign a release for the construc-

tion of the storm water drain the delay begins. The property owners do not want to encumber their property, even though it is for their best interest to construct the drain through their property.

There are many other phases connected with work in trying to eliminate surface water conditions throughout the town. The problem of putting storm water drainage under control is to start by selecting a specific area to be controlled. Beginning at the point of discharge and working back to its source. This brings us to the first step which is an easement or right-of-way over private land to a highway. The size of the pipe to be laid under the highway is determined by the water shed area that is to be controlled.

At the present time there are approximately twenty-five locations throughout the town that need to be corrected and varying in price from \$500.00 to \$5,000.00.

However, any amount of money that is appropriated for the correction of our drainage system would be a step in the right direction.

Respectfully submitted,

F. ALVIN NOYES, Highway Surveyor
GEORGE D. WHITE, Town Engineer

APPENDIX B

**Majority Report of the Committee to Study the Matter of
Taking Over the Sudbury Water District**

Our committee had two general areas to investigate:

1. How does a town go about taking over a water district and
2. Should the Town of Sudbury take over the Sudbury Water District of Sudbury.

Since our organization this committee has held numerous discussion and reporting meetings. As a group or as individuals we have met with and asked information of Commissioners and officers of the Sudbury Water District (Past-Present), the Sudbury Finance Committee, Sudbury Town Treasurer, Tax Collector, a Representative of the Division of Accounts in the State House and many other interested town officials and citizens. We have corresponded with several other towns relative to their experience since taking over districts within their limits, and received one answer. We reviewed activities of several other Water Districts and town Water departments.

The Sudbury Water District was formed under Chapter 100 of the Acts of 1934 of the State Legislature. It is necessary to receive legislative sanction before the District can be taken over by the town. Attached to this report is a sample enabling act which upon petition would be passed by the legislature. This act would clear the way for the transfer and would require ratification by the Town Meeting and the Water District Meeting. The act would live for five years so that if at any time during the five years following its passage both the town and the district were on record as being in favor of the take over it would then become an accomplished fact. This act also determines the method of electing Water Commissioners and other details.

As a result of our study we found that most of the voters of the Town also qualify as voters of the Water District. Recently large areas have been included in the District and now it appears that more than 85% of the voters of the town so qualify. All the town owned buildings are located within the limits of the Water District and the Town is one of the largest users of metered water.

Apparently most of the voters find meetings regarding only water distribution matters uninteresting because they often refuse to attend. The District repeatedly has a problem gathering a quorum although large expenditures are discussed and decided at these meetings. These items would fit comfortably

into the normal routine of a town meeting. If the need for special action arises during the year, there are enough town meetings held to oblige the urgency of most situations.

The town and the district are subject to the same problems of growth and have in common the fact that they are both municipal organizations designed to service Sudbury people. However, under the present district set-up a proposed action should be clearly advantageous to the district before it is taken. An occasion could arise whereby an action of the district would benefit the town but not necessarily the district as a district. It is conceivable that the district might not act under these circumstances.

Some projects require dual action by the Town Meeting and the Water District Meeting. This is a cumbersome and unreliable arrangement. It is possible for one meeting to approve the project and the other reject or not even take it up at all — proving nothing.

If the water system were administered by a Water department, articles involving expenditures would be submitted to the finance committee for their recommendations, as is the case with the other town departments. These expenditures would be considered by the voters of a town meeting along with other requests submitted by other departments. The voter would then be aware of the "Total picture" of expenditures.

Certain expenses and duplication of effort could be eliminated. Although these expenses are minor they cannot be overlooked. There would be savings in billing, printing, costs of elections and meetings and other smaller items. Attached to this report is a letter from the Town Clerk of Acushnet attesting to this.

The activities of the district are of necessity partially supported by the town. The costs of main installations are increased by the need to supply a flow of water for fire protection as well as for domestic use. It now appears that as the need arises the district will look to the town for more financial aid. Without this aid it is difficult for the district to operate in the Black. As a department the transfer of funds would be a bookkeeping transfer.

The majority of the committee recommends that the town of Sudbury **should** take over "The Sudbury Water District of Sudbury." We further recommend that a water department be established and that it should not be a part of a Public Works Department. There should be three (3) elected Commissioners of the Water Department to administer the system. It is our feeling that the present policy of standardizing the component parts of the water system should be adhered

to. We agree that the "Fixed charge" method of financing new main construction is adequate and suggest that it be continued.

The majority of the members feel that it is improbable that all the necessary steps could be taken in less than 24 months. Therefore the legislature should be petitioned as soon as possible.

/s/ RICHARD CLARK
 THOMAS MAGAZU
 MARGARITA P. McCOY, *Clerk*
 WILLIAM HALL, *Chairman*

THE COMMONWEALTH OF MASSACHUSETTS
 TOWN OF ACUSHNET

January 4, 1960

WILLIAM L. HALL, *Chairman*
 WATER DISTRIBUTION STUDY
 Concord Road, Sudbury, Mass.

Dear Mr. Hall:

Your inquiry concerning the District turn over to a town department, which was directed to the selectmen, has been referred to me.

Under C. 35 of the Acts of 1945 authorizing the town to take over all duties and obligations of the water district the town and district by vote duly taken did set up a town water department. In order to smooth the initial turnover it was voted to have the selectmen act as water commissioners in addition to their other duties without salary. The Clerk of the former district continued to act as clerk of the department. This setup continues today. I hold the following positions in town, viz, Town Clerk, Treasurer-Collector and Clerk of the water department, and have been in office since 1942. My comments on the matter are as follows:

The action taken in 1945 was very timely and economical, for, at the time, development was limited to within the district when indications were that the latest area of building was without the district bounds; this potential required either abandonment of the district or legislative action to extend the district.

A tremendous amount of duplication in assessing, collecting, elections, compiling of voting lists and related expenses were eliminated.

The water department has successfully operated on its income, including debt and interest.

My best judgment dictates that the department could function more expeditiously if managed by a board other than the selectmen, preferably a water-sewer board.

Civil service benefits are with the town water department.

Very truly yours,

/s/ ALLAN L. RAWCLIFFE

Minority Report

As a member of the Committee to study the matter of the town taking over the Water District, and as a Water Commissioner, I would like to present a minority report.

First of all I would like to make it clear that I am not opposed to the town taking over the Water District, but I do not feel it would be to the town's advantage to do so at this time.

The Commissioners have certainly had the town's interest in mind by directing money for the fastest economical expansion. Obviously if the expansion had been stopped the District tax could be eliminated.

The District now has mains in approximately 30% of the town roads with approximately 60% of the assessed valuation.

The following might be of interest:

1936	6.54	miles of mains	61	services	40	hydrants
1940	7.4	" " "	111	"	44	"
1945	8.46	" " "	170	"	49	"
1950	9.63	" " "	277	"		
1955	15.9	" " "	462	"	96	"
1959	34.8	" " "	1,056	"	212	"

Before voting for the town to take over the Water District every voter should seriously consider how future water main extensions will be handled. I believe as do other members of the Board of Water Commissioners that should the town take over the water district that Section C of our present fixed charge method, as voted at the Special District Meeting August 1, 1957, might not be legally enforceable by the town with respect to subdivisions. (This means, where a developer now pays the district \$150.00 per lot plus laying all main, setting gate valves and hydrants in their development, this revenue would be lost. This amounted to \$32,550.00 in 1959.

I will therefore want to be very sure about this before voting to have the town take over the District.

Another major problem should the town take over the district would be taxation of those receiving benefit and those not receiving benefit. This is the very reason why water districts are formed. It is why Bangor, Maine, after many years as a water department, recently formed a water district.

In some towns, substantial tax or water rate increases followed the town taking over the water district.

The town finance committee have seen fit to recommend that the town take over the Sudbury Water District, but after hearing statements made by some members I do not feel they have been sufficiently interested to deeply analyze the district financing.

/s/ EDWARD W. COBURN

**PROCEEDINGS OF THE
PRESIDENTIAL PRIMARY ELECTION
APRIL 26, 1960**

Pursuant to law and the foregoing warrant, the Town Clerk attended at the Town Hall on Tuesday, April 26, 1960 and before the time appointed for the opening of the polls delivered to the Presiding Election Officer, Francis W. Trussell, the ballots, cards, the State ballot box with the keys thereto, specimen ballots, tally sheets and total vote sheets all prepared for the Presidential Primary Election, taking the required receipts therefor. At the hour named in the warrant, the Presiding Election Officer examined the warrant, and the return thereon and declared them in proper order. He then opened the election with the reading of the warrant. The Tellers attending, the ballot box was opened and found to be empty and immediately closed and the register set at 0000. Participating in the election were Jane D. Bennett (R), Frederick R. Stone (R), Barbara N. Blanchard (R), Lillie M. Nelson (R), M. Ruth Crowley (R), and Eileen M. Ward (D), Teresa Pirrello (D), Mary Ellen Gale (D), Mary S. Maily (D) and Dorothy R. McCarthy (D).

The polls opened at 2:00 P. M. and pursuant to law were closed at 8:00 P. M. The ballot box register showed the number of ballots cast as 307 which agreed with the number of names checked on the two check lists kept by the ballot clerks and tellers all duly sworn. There were 215 Republican votes and 92 Democratic votes.

The results of the voting as canvassed and counted by the election officers was completed at 10:45 P. M., April 26, 1960, and the results at that time publicly announced by the Presiding Election Officer were as follows:

The Presiding Election Officer declared the election dissolved at 10:50 P. M.

A True Record, Attest:

LAWRENCE B. TIGHE,
Town Clerk.

PROCEEDINGS OF THE
SPECIAL TOWN MEETING

JUNE 27, 1960

Pursuant to law and the foregoing warrant, dated June 14, 1960 and signed by Francis W. Trussell, Harvey N. Fairbank and Lawrence B. Tighe, Selectmen, and the return of service by Augustus V. E. Sharkey, Constable, the Moderator presided, called the meeting to order at 8:20 P. M. and declared there was a quorum present. The Moderator examined the warrant and the return thereon and declared them in proper order, and announced that the amount of "Free Cash" was \$53,578.70.

Before proceeding to the business of the meeting, the Moderator requested a moment of silence in memory of Aubrey W. Borden who had served the town as Selectman for 16 years, and in other capacities for most of his adult life.

The Moderator then proceeded to read aloud the warrant.

VOTED: *To dispense with the reading of the separate articles in the warrant at this time.*

Article 1. To see if the Town will vote to accept from Mrs. Newton J. Taylor the sum of \$150.00, the income to be used for the perpetual care of Lot Number 206 in Mt. Wadsworth Cemetery; balance of income to be used for general cemetery purposes; pass any vote or take action relative thereto.

Submitted by F. Alvin Noyes, Supt. of Cemeteries.

VOTED: *In the words of the Article.*

Article 2. To see if the Town will vote to accept from Miss Florence A. Hosmer the sum of \$150.00, the income to be used for the perpetual care of Lot Number 166 in Mt. Wadsworth Cemetery; balance of income to be used for general cemetery purposes; pass any vote or take action relative thereto.

Submitted by F. Alvin Noyes, Supt. of Cemeteries.

VOTED: *In the words of the Article.*

Article 3. To hear the report of the Board of Selectmen relative to the relocation of Horse Pond Road beginning at Sta. 45 + 08 as shown on a plan entitled, "Town of Sudbury, Massachusetts Relocation of Portion of Horse Pond Road Sta. 45 + 08 to Peakham Road Scale: 1 in. = 40 ft. May 12, 1960"

George D. White, Town Engineer, and extending northerly therefrom to Peakham Road as shown on said plan; and to see if the town will vote to accept said street as relocated under the provisions of G. L. (Ter. Ed.) c. 82; and will authorize the board of selectmen to take by eminent domain or acquire by purchase or otherwise any land necessary for the relocation of said Horse Pond Road, provide the sum or sums of money to pay the cost of damages therefor, and the cost of construction, and direct how said money shall be raised; pass any vote or take action relative thereto.

Submitted by the Selectmen.

UNANIMOUSLY VOTED: *That the report of the Board of Selectmen of the relocation of Horse Pond Road beginning at Sta. 45.08 as shown on plan entitled, "Town of Sudbury, Massachusetts relocation of portion of Horse Pond Road Sta. 45.08 to Peakham Road Scale: 1 in. = 40 ft. May 12, 1960 George D. White, Town Engineer," on file in the office of the Town Clerk, and extending northerly therefrom to Peakham Road as shown on said plan be and the same is hereby accepted; and the Board of Selectmen are hereby authorized to take by eminent domain or otherwise acquire the land described in said report, and that the payment of damages, if any there be, shall be paid from the appropriation made in the vote adopted under Article 21 of the warrant for the Annual Town Meeting of 1960.*

Article 4. To see if the Town will vote to amend its By-laws by adding thereto a new article, to be known as Article V (13), as follows:

OPERATION OF MOTOR BOATS

1. No motor boat shall be operated upon that portion of the Sudbury River, or of its tributaries, or of any inland lake lying within the Town, in a manner which endangers the safety of the public or is detrimental or injurious to the neighborhood or to the value of property thereon.

2. It shall be prima facie evidence of the violation of this By-law if such boat is operated by a motor not having an underwater exhaust, or in a noisy or obnoxious manner, or at an unreasonable rate of speed, or without slowing down and exercising due caution while approaching and passing persons bathing or any other water craft, or at a rate of speed in excess of ten miles per hour.

3. Any person violating any provision of this By-law shall be subject to a fine not exceeding \$20.00 for each offense.

4. The Town may join with any other town, through which said Sudbury River or any of its tributaries flows, in the

enforcement of this By-law or a similar By-law adopted by such other town, in so far as such By-laws relate to said river or its tributaries, and may appropriate money for the enforcement in whole or in part of any or all of such By-laws. Pass any vote or take action relative thereto.

Submitted by the Selectmen.

Report of Town Counsel: There is no legal objection to the provision of section one of the proposed by-law. The provision in section 2: "not having an underwater exhaust" is repugnant to the provisions of G. L. c. 102, section 15, which among other things provides that a motor boat be provided with "underwater exhaust" of a type "approved by, and used in conformity with rules and regulations hereby authorized to be promulgated by the commissioner of public safety." Violation of such provision is punishable by a fine of not more than twenty-five dollars. It "has been held that where by legislation a subject matter has been fully dealt with, a by-law of a town or city dealing further and otherwise with that subject matter is 'repugnant to law.'" *Commonwealth v. Baronas*, 225 Mass. 321, 322. If such provision is retained, the entire section will be invalid. I suggest that it be deleted.

Section 3 may also be elided for the reason that the general penalty provisions in Article VI, section 2 will apply.

In my opinion the adoption of section 4 of the subject by-law would be unlawful as no authority is granted to make by-laws of this character. The exercise of the power granted to cities and towns by said Section 15B to make ordinances individually or jointly with respect to the operation of motor boats granted by said c. 102, section 15B, must exercise jointly. The provisions of said section 4 are unilateral. It should be struck out.

If the changes are made as I have suggested, I am of the opinion that the proposed addition to Article V of the By-laws of the Town will be valid.

AMENDMENT VOTED: *To omit from Section 2 the words "or at a rate of speed in excess of ten miles per hour."*

VOTED: *That the Town amend the By-laws by adding at the end of Article V, under the heading, operation of motor boats, the following new sections:*

Section 13. No motor boat shall be operated upon that portion of the Sudbury River, or of its tributaries, or of any inland lake lying within the Town, in a manner which endangers the safety of the public or is detrimental or injurious to the neighborhood or to the value of property thereon.

Section 14. It shall be prima facie evidence of the violation of this By-law if such boat is operated in a noisy or obnoxious

manner, or at an unreasonable rate of speed, or without slowing down and exercising due caution while approaching and passing persons bathing or any other water craft.

RESOLVED: *That the Board of Selectmen instruct Town Counsel to study the plumbing code recently adopted by the Sudbury Board of Health and to render his opinion as to its validity; and further, if Town Counsel's opinion be that said code has been illegally adopted or is otherwise invalid, void, or of no effect, that the Board of Selectmen immediately take the necessary steps for the adoption by the Town, as soon as may be, of a Town By-law establishing a plumbing code, as required by statute.*

Gordon R. Partridge, chairman of the Board of Health, stated that a special meeting of the Board had been held, with all members present, to discuss a plan of action in regard to the plumbing regulations. After due consideration of all the information received from the two Harvard legal experts who have been advising the Board, the members had voted unanimously to withdraw the regulations and to write an official letter of withdrawal to the Chairman of the Board of Selectmen and that he had been instructed to deliver the official letter to Mr. Trussell.

Article 5. To see if the Town will vote to accept the provisions of Section 8C of Chapter 40 of the General Laws, inserted by Section 1 of Chapter 223 of the Acts of 1957, so that it may establish a conservation commission for the promotion and development of the natural resources and for the protection of watershed resources of the Town. Pass any vote or take action relative thereto.

Submitted by the Selectmen and League of Women Voters.

Finance Committee Report: The Finance Committee endorses this article. We recognize the need of a conservation commission to study, promote, develop and protect the natural resources of the town. It is to be expected that this commission will recommend the expenditure of certain funds in a long range program. The Finance Committee recommends the establishment of this commission which would prepare basic studies before funds are committed to a conservation program.

REPORT OF THE LEAGUE OF WOMEN VOTERS

We should like to offer a brief summary of the provisions of the State enabling act which the Town is being asked to accept in the above article, and at the same time briefly to explain why the League is sponsoring this article.

The broad purposes of local conservation commissions, as defined by the enabling act, are the promotion and protection of the natural resources of the community.

The principal functions of a conservation commission are as follows: As the official resources agency of the community, it has the duty to keep an *index* of all open lands and to *make recommendations* to the state or town as to their proper use and management. It should act as the *coordinating agency* of the community on conservation matters, and give assistance to any existing private or public agencies working in this field. It may conduct *researches* on related problems and prepare *information and educational materials* for the community's benefit. It may *accept gifts* of lands, funds, or buildings on behalf of the community and *manage* donated or purchased properties in accord with the purposes set forth in the enabling act.

A commission shall have 3 to 7 members, appointed by the Selectmen, to serve for staggered terms of 3 years each.

A town may appropriate for the work of a Commission a sum not exceeding 1/20 of 1 percent of its assessed valuation for the previous year, and such money may be accumulated from year to year in a *Conservation Fund* and used for any purpose consistent with the enabling act, including the purchase of land.

You will notice that there is no appropriation being asked for in the present article. This is because we believe that a Commission should have the opportunity first to conduct its researches and come to the Town with its own proposals. Whether or not anything is ever done will depend upon a vote of the Town.

During the last year the League of Women Voters of Sudbury has made a study of certain aspects of town planning. As a result of its findings it became convinced that a balanced open space program and the development of sound conservation policies in connection with water and land uses of all kinds are urgently needed by growing country towns. Such towns as Sudbury still possess valuable natural resources, but find themselves in the path of urban expansion and population pressures which could lead to the complete absorption, or to the misuse, of these resources in the near future.

The League feels that Sudbury has assets in the form of its woodlands, wetlands, hills, meadows, ponds, and rivers, which are valuable not only to the present inhabitants of the Town, but to the future inhabitants, and also to the region, or greater metropolitan complex, of which we are a part.

As you know, Sudbury helps to form an extremely important green belt around Greater Boston. This green belt was

officially designated as such by the Massachusetts Acts of 1956, providing for the establishment of the Massachusetts Bay Circuit. You have seen the road signs indicating this Circuit all along the Concord Road. The Bay Circuit is supposed to provide for a system of privately and publicly owned open spaces, including parks, forest, reservoirs, wild life preserves, scenic and historic sites and other properties and reservations, surrounding Metropolitan Boston. Very little action has as yet been taken under the Bay Circuit Act. A Town Conservation Commission could help to give it substance as well as legal form.

Conservation work is slow at best. All the more reason to begin without delay.

This is the first time the Sudbury League of Women Voters has been in a position to take action on the local affairs level of its program by submitting an article for Town Meeting consideration. We are pleased that this initial move has come in the area of conservation, and honored to be co-submitting this article with the Selectmen.

Sudbury needs long-range conservation planning, and we urge an affirmative vote on the motion before you.

VOTED: *That the Town accept the provisions of General Laws, Chapter 40, Section 8C.*

RESOLUTION VOTED: WHEREAS: *The Boston Edison Company has indicated its intention of establishing an overhead high voltage line from the South Sudbury Sub-Station across the Sudbury River Meadow to the Concord, Maynard and Sudbury boundary; and*

WHEREAS: *The Boston Edison Company has further indicated that it will petition the Department of Public Utilities for permission to take such land by eminent domain; and*

WHEREAS: *The citizens of the Town have been afforded little but a perfunctory opportunity to express their opinions and opposition to said taking, and*

WHEREAS: *The area affected vitally affects the scenic, historic and conservation area of the Town.*

THEREFORE BE IT RESOLVED, *that the Board of Selectmen are hereby requested to set a date for a public meeting on the subject and be directed to request the full attendance of every Town Board at such hearing.*

Article 6. To see if the Town will vote to establish a permanent Mosquito Control Committee with representatives

from the Board of Selectmen, Board of Health, Finance Committee, Highway Surveyor and two citizens at large to be appointed by the Town Moderator. Pass any vote or take action relative thereto.

Submitted by the Board of Health and the Board of Selectmen.

Finance Committee Report: Although the Finance Committee recommends a Mosquito Control Committee, we doubt the necessity of a *permanent* committee. It is our opinion that this committee should be a study group to recommend and report to the town on the most satisfactory method of mosquito control.

Under the by-laws of the Town of Sudbury members of the Finance Committee are precluded from membership on any other appointed or elected committee of the Town. Since this committee may possibly recommend and/or expend funds; we believe the Finance Committee may not be represented on the Mosquito Control Committee.

AMENDMENT VOTED: *To omit the word "permanent."*

VOTED: *That the Town establish a Mosquito Control Committee with representatives from the Board of Selectmen, Board of Health, Highway Surveyor, and two citizens at large to be appointed by the Town Moderator.*

Article 7. To see if the Town will vote to grant, appropriate or transfer from available funds the sum of \$1,000.00, or any other sum, for Mosquito Control; pass any vote or take action relative thereto.

Submitted by the Selectmen.

Finance Committee Report: The amount of \$3,000.00 was provided in the annual budget for Mosquito Control. Each spraying costs \$1,000.00 and to date two sprayings have been completed leaving sufficient funds for one spraying. We understand that an additional spraying is desirable and the Finance Committee recommends this article.

VOTED: *That the sum of \$1,000.00 be appropriated and transferred from Excess and Deficiency to the Mosquito Control Account.*

Article 8. To see if the Town will vote to grant, appropriate or transfer from available funds the sum of \$110.00, or any other sum, to purchase a file for the Board of Health; pass any vote or take action relative thereto.

Submitted by the Board of Health.

Finance Committee Report: The Finance Committee recommends this article.

VOTED: That the sum of \$110.00 be appropriated and transferred from Excess and Deficiency to the Office Equipment Purchase Account for the purpose of this article.

Article 9. To see if the Town will vote to transfer from available funds the sum of \$500.00, or any other sum, to cover expenses of the Earth Removal Board; pass any vote or take action relative thereto.

Submitted by the Selectmen.

Finance Committee Report: Because the Earth Removal Board was only recommended and instituted at the annual meeting, funds were not provided for the operation of this board in the annual budgets. The funds requested in this article will be used principally for advertising and notification of hearings. It is our understanding these expenditures will be recovered in permit and application fees under a schedule to be devised and adopted by the Earth Removal Board.

VOTED: That the sum of \$500.00 be appropriated and transferred from Excess and Deficiency to the Earth Removal Board Expense Account.

Article 10. To see if the Town will vote to grant, appropriate or transfer from available funds the sum of \$1,000.00, or any other sum, for Town Hall Expense; pass any vote or take action relative thereto.

Submitted by the Selectmen.

Finance Committee Report: The request under this article is for emergency expenditures as follows:

Improved heating system in addressograph room	\$500.00
Repair Septic Tank	500.00
Repair lower Town Hall ceiling	500.00
	<hr/>
	\$1,500.00

VOTED: That the sum of \$1,500.00 be appropriated and transferred from Excess and Deficiency to the Town Hall Expense Account.

Article 11. To see if the Town will vote to grant, appropriate or transfer from available funds the sum of \$600.00, or any other sum, to purchase a new resuscitator for the Police Department; pass any vote or take action relative thereto.

Submitted by Chief of Police, John F. McGovern.

Finance Committee Report: At the present time the Town owns two resuscitators — one resuscitator is part of the Fire Department equipment, and the second is carried in a Police Department cruiser. The purpose of this article is to provide a resuscitator for the second police cruiser.

VOTED: *That \$600.00 be appropriated and transferred from Excess and Deficiency to the Police Department Account for the purpose of this article.*

Article 12. To see if the Town will vote to grant, appropriate or otherwise provide the sum of \$3,600.00, or any other sum, for the installation of air conditioning in the Town Hall offices; pass any vote or take action relative thereto.

Submitted by the Board of Selectmen.

Finance Committee Report: It is proposed that satisfactory air conditioning be provided for the complete office facilities on a lease basis. The lease will be for a four year term at \$41.00 per month or approximately \$500.00 annually. It is our understanding that this is a complete leasing agreement including maintenance, equipment installation, and will involve no additional costs. However, the electrical wiring in the town hall is inadequate and must be corrected to accommodate this equipment and it is estimated that this cost will not exceed \$750.00

VOTED: *That \$1,000.00 be transferred from Excess and Deficiency to the Town Hall Expense Account; and that the Selectmen be directed to contract for satisfactory air conditioning equipment for the Town Hall offices by a four-year lease contract.*

Article 13. To see if the Town will vote to grant, appropriate or otherwise provide the sum of \$53,000.00, or any other sum, for the completion of plans and the construction of a fire department substation on the northerly side of the Boston Post Road, originally furnishing the same, and for the purchase from the John Hancock Mutual Life Insurance Company for a sum not to exceed \$3,000.00 as a site therefor a parcel of land situated at or near the Raytheon building, containing 28,350 square feet and having a frontage on said Boston Post Road of 135 feet and a depth of 210 feet; pass any vote or take action thereon.

Submitted by the Permanent Building Committee.

Finance Committee Report: In reviewing this article, the Finance Committee has indicated its approval on the following conditions — 1) That a complete description of the land shall be incorporated in the motion to purchase the site, and

2) An appraisal of the value of the land shall be submitted to validate the anticipated purchase price.

It is the understanding of this committee that building estimates will be submitted at this Town Meeting which will assist in the determination of the amount to be appropriated. For the purposes stated in this article the Finance Committee recommends that \$3,000.00 be appropriated from Excess and Deficiency and that the balance of the required funds be bonded over a twenty-year period.

Edward E. Kreitsek, of the Permanent Building Committee gave a report and had slides shown on a screen of the proposed substation.

UNANIMOUSLY VOTED: That the Board of Selectmen be and they hereby are authorized to purchase in behalf of the Town from the John Hancock Mutual Life Insurance Company for a sum not to exceed \$3000, a tract of land situated on the northerly side of Boston Post Road which contains about 27,000 square feet and is bounded and described as follows:

Beginning at the southwesterly corner thereof at other land of John Hancock Mutual Life Insurance Company on the northerly side of Boston Post Road; thence easterly by Boston Post Road 135 feet, more or less; thence northerly 180 feet, more or less; thence westerly 135 feet, more or less; thence southerly 210 feet, more or less, the last three courses being by other land of John Hancock Mutual Life Insurance Company, and that the Town erect a Fire Station thereon under the full direction and control of the Permanent Building Committee, and for the purpose of the purchase of the aforesaid land, the erection of said Fire Station, the completion of plans therefor and originally furnishing the same, that the sum of \$53,000 be granted and appropriated, \$3000 of which shall be transferred from Excess and Deficiency, and that the Town Treasurer with the approval of the Board of Selectmen be authorized to borrow the sum of \$50,000.00 for a period of not more than twenty years as provided by General Laws, Chapter 44, Section 7(3) and to issue bonds or notes therefor..

Article 14. To see if the Town will vote to authorize the Board of Selectmen to purchase as a site for a fire department station a tract of land situated at the corner of North and Dakin Roads, containing about 30,800 square feet, and having a frontage on both said roads of 185 feet and 158 feet, respectively; and to grant, appropriate or otherwise provide the sum of \$4,000.00 or any other sum for the purchase of such land; pass any vote or take action relative thereto.

Submitted by the Fire Chief and the Board of Selectmen.

Finance Committee Report: In reviewing this article, the Finance Committee has been assured by the Board of Selectmen that this site has been approved by the Permanent Building Committee. It is the opinion of the committee that relative to the anticipated purchase price of land for the Boston Post Road site, the purchase price of the site described in this article should not exceed \$3,000.00. We have been assured by the Selectmen that — 1) A complete description of the land will be incorporated in the motion to purchase the site, and 2) An appraisal of the value of the land will be submitted to validate the anticipated purchase price. It is the recommendation of this committee that the funds required to purchase this site be transferred from Excess and Deficiency.

The Permanent Building Committee approved the site.

UNANIMOUSLY VOTED: *That the Board of Selectmen be and they hereby are authorized to purchase in behalf of the Town from L. Roy Hawes and Margaret Hawes, for a sum not to exceed \$4,000.00; as a site for a Fire Station a tract of land situated at the Corner of North and Dakin Roads which contains about 30,800 square feet, and is bounded and described as follows:*

Beginning at the intersection of North and Dakin Roads; thence northerly by Dakin Road 158 feet, more or less, thence easterly by land of Hawes 214 feet, more or less, thence southerly by land of Hawes 155 feet, more or less, thence westerly by North Road 186 feet, more or less; and that the sum of \$4,000.00 be transferred from Excess and Deficiency and appropriated for said purchase.

Article 15. To see if the Town will grant, appropriate or transfer from the Road Machinery Fund the sum of \$8,000.00, or any other sum, to purchase a tractor with backhoe and front end loader for the Highway Department; pass any vote or take action relative thereto.

Submitted by the Highway Surveyor and the Public Works Advisory Board.

Finance Committee Report: The Finance Committee recommends the purchase of necessary and proper equipment for the Highway Department. We have been informed by the Highway Surveyor that specifications will be drawn and submitted for bid.

UNANIMOUSLY VOTED: *That (1) \$8,000.00 be transferred from the Road Machinery Fund for the purchase of a tractor with backhoe, front-end loader and other incidental equipment; (2) Specifications be drawn by the Highway Surveyor and the Public Works Advisory Board and submitted to*

bid; (3) Bids be accompanied by a bond or a certified check in the amount of \$500.00 to guarantee performance.

Article 16. To see if the Town will vote to grant and appropriate or transfer from available funds the sum of \$2,000.00, or any other sum, for the Tree Department; pass any vote or take action relative thereto.

Submitted by E. T. Ferguson, Tree Warden.

Finance Committee Report: The Finance Committee recognizes the problems outlined by the Tree Warden. It is certain that the townspeople must be apprised of the general conditions facing the Tree Warden and a decision must be made as to the extent of the program to be followed. The Tree Department has submitted estimated budgets for 1961 and 1962 in the amounts of \$18,000.00 for each year. This is a substantial increase over the present budget and necessarily should be considered before the next annual town meeting. The amount of \$1,000.00 was appropriated at the Annual Town Meeting to institute a tree planting program. Apparently the purpose of this account was misconstrued. Approximately \$900.00 was used to purchase trees and shrubs and charged to the appropriation, and an additional \$1,400.00 was expended to plant the trees and charged to the Tree Department (Tree and Brush Control Account) budget. At this stage, therefore this committee recommends the appropriation and transfer of funds to correct this situation. It is the opinion of the Finance Committee that we have advanced the tree planting program in excess of the plan for 1960 and this situation should be considered in the 1961 budget.

The net effect of the motion to be presented will 1) provide an additional \$1,500.00 for the Tree Department and 2) account for the true total expenditure of \$2400 for planting trees and shrubs.

VOTED: That the amount of \$1,500.00 be appropriated and transferred from Excess and Deficiency to the Tree Department Planting Program and that the expenditures for planting now charged to the Tree Department—Brush and Tree Control—be reclassified and charged to the Tree Department-Planting Program.

Article 17. To see if the Town will vote to grant and appropriate or transfer from available funds the sum of \$2,000.00, or any other sum, for the Insect and Pest Control; pass any vote or take action relative thereto.

Submitted by E. T. Ferguson, Tree Warden.

VOTED: Indefinite postponement.

Article 18. To see if the Town will transfer from available funds the sum of \$717.67, or any other sum, for the purpose of settling unpaid bills of previous years in accordance with the following schedule; pass any vote or take action relative thereto.

Street Lighting

Boston Edison Company 1/31 - 2/28/58	\$585.05
--------------------------------------	----------

Enterprise Press, Inc.	9/30/59	\$19.45
	11/30/59	9.95
	11/30/59	24.90
	12/31/59	12.45

		66.75

Committee on Town Administration

Bentley's	11/ 2/59	2.98
-----------	----------	------

Civil Defense Administration

Commonwealth of Massachusetts	8/25/59	62.89

		\$717.67

Submitted by the Town Accountant.

Finance Committee Report: It is the understanding of this committee that the accounts have been reviewed to verify the non-payment of street lighting for the period from January 31, 1958 through February 28, 1958. This billing, together with the other bills submitted in this article were submitted too late for payment in the prescribed order of business and have thus been submitted in this article.

UNANIMOUSLY VOTED: *That the sum of \$717.67 be appropriated and transferred from Excess and Deficiency to settle unpaid bills of previous years in accordance with the schedule set forth in this article.*

Article 19. To see if the Town will vote to accept the provisions of Chapter 136, Section 4B, that provides that the Selectmen may grant a license to operate Bowling Alleys on the Lord's Day; pass any vote or take action relative thereto.

Submitted by Katinka P. Coleman.

VOTED: *Indefinite postponement.*

Article 20. To see if the Town will vote to amend Article IX of the By-laws (Zoning) by enlarging Business District No. 5 to include that part of Industrial District No. 2, which is bounded and described as follows:

Beginning at a point 100 feet northerly of the Boston Post Road on Station Road; thence westerly parallel to Boston Post Road by Business District No. 5 to Union Avenue; thence northerly on Union Avenue to Station Road; thence southeasterly on Station Road to the point of beginning. Pass any vote or take action relative thereto.

Submitted by Lawrence B. Tighe for U. S. Post Office Dept.

Report of Town Counsel: The proposed amendment to the Zoning By-law would enlarge the area of Business District No. 5 by carving out of District No. 2, which it abuts, and including therein the area described in the motion. I am unable to find any legal objections to the change which will be made by this amendment. It is my opinion the amendment, if adopted, will be a valid by-law of the Town.

Planning Board Report: At the public hearing on the proposed rezoning of this area from Industrial to Business, several important problems presented themselves.

1. The present Business zone along Route 20 has a depth of only 100'. Many of the businesses in this area have found it necessary to go to the Board of Appeals for variance in order to meet the site plan regulations and conduct their business.

2. The Post Office is planning to build a much needed building in a part of the proposed new zone.

3. About 50% of the land in the proposed change has been zoned as Industry for more than ten years without being used.

For these reasons the Planning Board approves this article.

VOTED: *That Section 1 of the Zoning By-laws (Article IX) of the By-laws of the Town be amended by extending the area of Business District No. 5, as now described, so as to include the following described area which is now part of Industrial District No. 2.*

Beginning at a point on Station Road 100 feet northerly of Boston Post Road; thence Westerly by a line parallel to the Boston Post Road by Business District No. 5 to Union Avenue; thence northerly by Union Avenue to Station Road; thence Southeasterly on Station Road to the point of beginning. In favor 149 — opposed 5.

Article 21. To see if the Town will vote to amend Article II of the By-laws by inserting after section 6 a new section as follows:

Section 6A. No article in the warrant for any town meeting shall be taken up for consideration out of the order in

which it appears therein, except by a four-fifths vote of the voters present and voting thereat. Pass any vote or take action relative thereto.

Submitted by the Board of Selectmen.

Report of Town Counsel: The amendment proposed by this article adds a new section to Article 2 of the By-laws, and provides a new rule in connection with the conduct of Town Meetings; and, in my opinion, if adopted, it will be a valid by-law.

VOTED: *That Article II of the By-laws be amended by inserting after Section 6 a new section as follows:*

Section 6A. No article in the warrant for any Town Meeting shall be taken up for consideration out of the order in which it appears therein, except by a four-fifths vote of the voters present and voting thereat.

Article 22 was then read. During consideration of this article a call for a quorum was made. The Moderator ordered the count to be taken by the Tellers. The count was found to be 141, which was 23 short of the required quorum of 164.

The meeting adjourned sine die at 12:15 A. M.

A True Record, Attest:

LAWRENCE B. TIGHE,
Town Clerk.

**PROCEEDINGS OF THE
STATE PRIMARY ELECTION
SEPTEMBER 13, 1960**

Pursuant to law and the foregoing warrant, the Town Clerk attended at the Town Hall on Tuesday, September 13, 1960, and before the time appointed for the opening of the polls, delivered the ballots, two state ballot boxes, with the keys thereto, the specimen ballots, cards, tally sheets, and the total vote sheets, all prepared, for the State Primary Election, taking the required receipts therefor. At the hour named in the warrant, the Presiding Election Officer, Francis W. Trussell, read the call of the meeting.

He examined the warrant and the return thereon and declared them in proper order. He then opened the election. The Tellers attending, the ballot boxes were opened, found to be empty and immediately closed, with the register set at 0000.

The election officers, all duly sworn, were Helen Burr, Grace Horton, Jane Bennett, M. Ruth Crowley, Fred R. Stone, Barbara Bortle, Lillie Nelson, Alfred Crowley, Robert Noyes, David Baldwin, (R); and Mary Ellen Gale, Eileen M. Ward, J. Leo Quinn, Dorothy McCarthy, Mary Vanaria, Ralph Barton, John C. Powers, Mary Mailly and Russell McMakin, (D).

The polls opened at 2:00 P. M. and closed at 8:00 P. M. The ballot box registers showed that the number of votes cast as 650 which agreed with the number of voters checked by the Ballot Clerks; 366 Republican ballots and 284 Democratic ballots.

The results of voting as canvassed and counted by the Election Officers and announced by the Presiding Officer were as follows:

The election was dissolved September 14, 1960 at 1:00 A. M.

A True Record, Attest:

LAWRENCE B. TIGHE,
Town Clerk.

**PROCEEDINGS OF THE
SPECIAL TOWN MEETING
SEPTEMBER 29, 1960**

Pursuant to law and the foregoing warrant, dated September 16, 1960 and signed by Francis W. Trussell, Harvey N. Fairbank and Lawrence B. Tighe, Selectmen, and the return of service by Augustus V. E. Sharkey, Constable, the Moderator presided, called the meeting to order at 8:10 P. M. and declared there was a quorum present. The Moderator examined the warrant and the return thereon and declared them in proper order, and announced that the amount of "Free Cash" was \$38,043.13.

The Moderator then proceeded to read aloud the warrant.

VOTED: To dispense with the reading of the separate articles in the warrant at this time.

**FINANCE COMMITTEE
GENERAL REPORT**

The first six articles in this warrant deal with the proposed installation of the Boston Edison high tension power lines in Sudbury. While certain of these articles do not directly request funds, their execution may possibly involve the expenditure of town funds in the future.

The Finance Committee is concerned only with the appropriation of money, and it is not within the Committee's purview to make other than fiscal recommendations.

Without prejudice toward the issue, we believe that

- a. The passage of Article 1 entails no financial commitment.
- b. Affirmative action on Articles 2 through 5 may commit town funds.

The recommendation of this committee on Article 6, which specifically calls for an appropriation of \$25,000.00 will be made at the time this article is brought to the floor.

Article 1. To see if the Town will vote to approve or give its consent to the construction of overhead transmission lines in the Town by Boston Edison Company over the route authorized by the decision of the Department of Public Utilities made on August 3, 1960 with such changes and modifications as may be made in such route for the benefit of the Town or the property owners upon and through whose land said lines will be constructed by agreement between the Board of Selectmen

and Boston Edison Company, which said route as authorized is as follows:

The line will extend from the petitioner's Sudbury substation in a general easterly direction crossing the Sudbury-Wayland town line a distance of 0.6 miles to a point, thence northeasterly crossing the Boston and Maine Railroad right of way and the Boston Post Road a distance of 0.3 miles to a point, thence generally northerly crossing Old Sudbury Road, the Wayland-Sudbury town line, Water Row Road and Lincoln Road, a distance of 2.8 miles to a point; thence northwesterly crossing Concord Road, the New York, New Haven & Hartford Railroad right of way, North Road and the Sudbury-Concord town line, a distance of 1.6 miles to a point; thence west-northwesterly crossing Dakin Road, the Concord-Sudbury town line and Marlboro Road, a distance of 1.7 miles terminating at a proposed substation site on the Sudbury-Maynard town line all substantially as shown on a plan on file with the Department entitled, "Boston Edison Company — Key Map of Transmission Line Sudbury to Maynard — Scale 1" = 2000' June 11, 1960" and further identified as exhibit 1, in the proceedings before the said Department of Public Utilities; and that the Board of Selectmen be authorized to consult with and negotiate with Boston Edison Company for the aforesaid changes and modifications, and to assent to any petition to the Department of Public Utilities for the approval of such modifications and changes. Pass any vote or take any action relative thereto.

Submitted by the Selectmen.

Report of Board of Selectmen:

"The Board of Selectmen believe that at the outset of this town meeting the voters ought to know why it was called.

On August 1, 1960 a group of citizens of the Town met at the Town Hall ostensibly for the purpose of discussing the matter of the petition brought by Boston Edison Company, then pending before the Massachusetts Department of Public Utilities for the determination by that department that proposed transmission lines extending from the petitioner's substation in East Sudbury through Sudbury, Wayland, Concord, Acton and Maynard to a sub-station near the corner of the towns of Acton, Sudbury, Maynard and Concord, a distance of about seven miles, are necessary, will serve the public convenience and are consistent with the public interest.

Earlier, on June 21st, a hearing was held in the town hall by the Department of Public Utilities, at which many citizens of the town were present.

Shortly after the meeting of August 1st, the Board of Selectmen were handed a copy of a vote adopted thereat, which reads as follows:

"2. REQUEST THE BOARD OF SELECTMEN CALL A SPECIAL TOWN MEETING AS SOON AS POSSIBLE TO CONSIDER THE FOLLOWING MATTERS:

- a) To direct and authorize the Board of Selectmen to use every power within their command to
 - 1) block construction of the proposed high tension line in Sudbury; or
 - 2) see that any authorized line is placed underground, or
 - 3) see that the line, if approved as necessary, and if incapable of being placed underground, passes over such route alternate to that presently requested as meets with maximum agreement in the Town
- it is understood and agreed that 1), 2) and 3) are listed in order of preference.
- b) To authorize a sufficient expenditure to enable town counsel effectively to give legal effect to the steps authorized in the preceding paragraph.
- c) To authorize the Selectmen to hire such engineering assistance as is necessary to carry out the purposes of paragraph a) above, and to appropriate funds for such purpose.
- d) To consider such by-law changes, zoning or otherwise as necessary to carry out the purposes of paragraph a) above, including but not limited to regulations for the crossing of public ways.
- e) To create historic district zoning for the area of the Haynes Garrison site.
- f) to rezone from industrial to residential the land of the Boston Edison Company on the Southerly side of the Boston Post Road adjacent to Linde Air Products Company.

such meeting agenda to be limited to questions concerning the proposed high tension lines requested by the Boston Edison Company."

The Citizens Committee did not submit any of the several articles appearing in the warrant for this meeting, nor did they suggest, except as to that which appears in that vote, the form or content of the articles to be inserted in the warrant. It can easily be seen that excluding the subject matter of paragraphs b), c), e) and f) of such vote, because of the meagre information furnished, no proper article could be prepared.

The Selectmen would not ignore the request made through the vote of the citizens committee to call a special town meeting; and, after serious consideration of the entire subject matter, prepared the articles in the warrant which relate to the petition of Boston Edison Company. Your Board of Selectmen could not in any event consider the subject matter of paragraph d) because the matter of crossing public ways by Gas and Electric Companies is regulated by statute. It seemed to us quite impractical at this time to create a so-called historic zoning district for the limited area of the Hayes Garrison site at or near the historical marker thereon. A mere casual inspection of the site clearly indicates that little or no attention has been given to it for a long time. At present it is easily to be seen that the grass and brush which had grown on the site have only recently been cut, and a brand new rail fence has been erected to enclose the area around the historical marker.

The suggestion made in paragraph f) of the vote that the town "rezone from industrial to residential the land of Boston Edison Company on the Southerly side of the Boston Post Road adjacent to Linde Air Products Company", could not have been the result of serious thinking by the greater number of those present at that meeting because the thought behind it is sheer puerilism — childishness.

Now, a brief statement regarding the proposed transmission lines and the knowledge of the Selectmen from the time it was originally projected. Some time during the winter of 1959-1960 the Board of Selectmen had several conferences with representatives of Boston Edison Company at which the construction of new transmission lines from the sub-station in East Sudbury was discussed. It was pointed out to the board that such transmission lines were necessary if the company were to maintain efficient service and furnish electricity in the North Sudbury area and in the nearby communities which it is authorized to serve. The selectmen, at the very beginning of their discussions, stated that they were opposed to the construction of overhead lines whenever and wherever located and asserted that they should be placed underground, and, in this instance, urged the Boston Edison Company to construct underground lines. It was pointed out to them by representatives of the company that the cost of the construction of underground lines was prohibitive; and, in no event would the company consider doing so. The apparent urgency and need of the transmission lines were stressed by officials of the company; and at the first of such conferences, the company proposed that the route thereof extend northerly over Goodman Hill and across the town to the site of the proposed sub-station at the corner formed by the town lines of Sudbury, Maynard, Concord and Acton. The board made a

strenuous protest against that route, and suggested that if it were not expedient to construct underground lines, that the overhead lines be located in that part of the town where the injury caused to the town and the property owners would be much less than over the proposed route, and offered as the only feasible alternate route the area over the low lands at or near the Sudbury River, to the proposed site for the new sub-station. We were assured that a route located in the part of the town which we mentioned would receive the earnest consideration of the company, and that we would be informed if the company decided to petition the Department of Public Utilities for authority to establish the route of its lines in that area. The selectmen heard nothing further from Boston Edison Company.

In the late part of April the Board of Selectmen were informed by two prominent citizens of the town that there had been and there was currently considerable activity on the part of Boston Edison Company in the town in connection with the construction of transmission lines; and at or about the same time, or shortly afterward, the planning board appointed a committee of citizens to consult with representatives of that company. Thereafter, a conference or conferences was or were had at which the committee of citizens and representatives of the company took part; and there resulted from such conferences another location for the overhead lines which were later approved by the Department of Public Utilities. Notwithstanding the appointment of the citizens committee by the planning board, we were concerned with a satisfactory location of the proposed lines, and, it seemed that the matter had been considered fully by the Committee, and a location finally agreed upon, which, in the circumstances, was the best that could be had. It appears that the members of the citizens committee urged the construction of underground lines and also advocated the rights of way of the Boston & Maine and New York, New Haven & Hartford Railroads as suitable locations for the transmission lines, and they were told, as the board of selectmen had been told, that the cost of underground lines was prohibitive and would not be considered, and that the rights of way of the two railroads were not practical, even if arrangements could be made with the railroads for the use of such locations as the cost of acquiring necessary additional land or interests in land would be too costly. We should like to quote from the report of that committee to Mr. Jackson, Chairman of the Planning Board, which was read and made a part of the proceedings at the hearing before the Department of Public Utilities on June 21st the following:

“The committee feels that the present route as outlined on the attached map will be less offensive to the town than the original route. The new route will destroy land

of less taxable value than the previous route and will be out of view by the majority of home owners in Sudbury. "The above information is being submitted as a report of the committee. We feel that regardless of where the line is placed it will offend some people. We feel that the new proposal will offend as few people as possible."
(Transcript — pp. 71, 72 and 73)

The Department of Public Utilities, on August 3, 1960, made the following decision:

"... the Department is of the opinion and hereby DETERMINES that the proposed line is necessary for the purposes alleged, will serve the public convenience and is consistent with the public interest."

Within the time allowed by law the town counsel took an appeal in behalf of the Town of Sudbury to the Supreme Judicial Court for the County of Suffolk (Single Justice Session) and there has been compliance with all the requirements of law to perfect the appeal.

We are submitting to the town meeting for its consideration and action the entire matter of the erection of overhead transmission lines as we understand it."

A motion was made in the words of the article.

The following substitute motion was presented by John C. Powers: Move that the Town vote to disapprove any proposed construction of overhead transmission lines in the town by the Boston Edison Company.

VOTED: *To amend the motion by striking out "transmission" and substituting "high-tension."*

UNANIMOUSLY VOTED: *To vote on the substitute motion.*

VOTED: *That the original motion be replaced by the substitute motion.*

VOTED: *That the Town disapprove any proposed construction of overhead high-tension lines in the Town by the Boston Edison Company.*

Article 2. To see if the Town will vote to authorize the Board of Selectmen to proceed with the petition for appeal to the Supreme Judicial Court (single justice session) for Suffolk County, filed by town counsel in behalf of the Town from the decision of the Department of Public Utilities made on August 3, 1960 wherein the said Department, upon application of Boston Edison Company, and after a public hearing held

on June 21, 1960, determined that the construction of overhead transmission lines from the Sudbury-Wayland town line to the Sudbury, Concord, Acton and Maynard town lines "Is necessary for the purposes alleged, will serve the public convenience, and is consistent with the public interest." Pass any vote or take any action relative thereto.

Submitted by the Selectmen.

VOTED: *In the words of the Article.*

Article 3. To see if the Town will vote, in view of the decision of the Department of Public Utilities made on August 3, 1960 on the application of Boston Edison Company for the construction of transmission lines from Sudbury-Wayland town lines to Sudbury, Concord, Acton and Maynard town lines that the installation of underground transmission lines "would place an undue burden on all the rate payers for the benefit of the few", to authorize the Board of Selectmen to consult and negotiate with officials of Boston Edison Company for the installation of overhead lines on a route in the Town which will extend westerly and northerly along the railroad location of the Boston & Maine Railroad, crossing Landham Road, Boston Post Road and Union Avenue to the U. S. Military reservation, easterly over private land and crossing Great Road, North Road and Powder Mill Road to the Sudbury, Concord, Acton and Maynard town lines, and to assent to any petition to the Department of Public Utilities for modification of the route as set forth in the decision and order made by the Department of Public Utilities on August 3, 1960 by substituting the above described route. Pass any vote or take any action relative thereto.

Submitted by the Selectmen.

VOTED: *Indefinite postponement.*

Article 4. To see if the Town will vote, in view of the decision of the Department of Public Utilities made on August 3, 1960 on the application of Boston Edison Company for the construction of transmission lines from Sudbury-Wayland town lines to Sudbury, Concord, Acton and Maynard town lines that the installation of underground transmission lines "would place an undue burden on all the rate payers for the benefit of the few", to authorize the Board of Selectmen to consult and negotiate with officials of Boston Edison Company for the installation of overhead lines on a route in the Town which will extend westerly along the Boston & Maine Railroad, crossing Landham and Boston Post Roads and Union Avenue; northerly along New York, New Haven & Hartford Railroad location, crossing Codjer Lane, Old Lancaster Road, Hudson Road at its intersection with Peakham Road, Morse

Road, Haynes Road and North Road to Concord-Sudbury town line, and westerly crossing Dakin and Powers Roads to the Sudbury, Maynard, Acton and Concord town lines; and to assent to any petition to the Department of Public Utilities for modification of the route as set forth in the decision and order made by the Department of Public Utilities on August 3, 1960 by substituting the above described route. Pass any vote or take any action relative thereto.

Submitted by the Selectmen.

VOTED: *Indefinite postponement.*

Article 5. To see if the Town will vote to authorize the Board of Selectmen to engage an engineering consultant or consultants to advise as to all technical matters which have arisen and which may hereafter arise in connection with the appeal from the Decision of the Department of Public Utilities in the matter of the petition of Boston Edison Company to construct transmission lines in the town, now pending before the Supreme Judicial Court. Pass any vote or take any action relative thereto.

Submitted by the Board of Selectmen.

A motion was made in the words of the article.

VOTED: *To amend the main motion by inserting after the word "Consultants" the words "who shall be approved by a committee of three to be appointed by the Moderator."*

VOTED: *To authorize the Board of Selectmen to engage an Engineering Consultant or Consultants, who shall be approved by a committee of three to be appointed by the Moderator, to advise us to all technical matters which have arisen and which may hereafter arise in connection with the appeal from the decision of the Department of Public Utilities in the matter of the petition of Boston Edison Company to construct transmission lines in the Town, now pending before the Supreme Judicial Court.*

Article 6. To see if the Town will vote to grant or appropriate the sum of Twenty-five Thousand Dollars (\$25,000.00), or any other sum, for fees to be paid to engineering consultant or consultants and counsel to be engaged in the prosecution of the appeal from the Decision of the Department of Public Utilities in the matter of the petition of Boston Edison Company to construct transmission lines in the town, now pending before the Supreme Judicial Court. Pass any vote or take any action relative thereto.

Submitted by the Selectmen.

Finance Committee Report: "The Finance Committee has been informed by the Selectmen that they have been quoted fees of \$30,000.00 to \$75,000.00 for consulting and legal services for the purposes of this article, and that the figure of \$25,000.00 is an estimated minimum requirement. We have also been informed that in the Town of Essex, a similar case has been prosecuted with private funds and no town funds have been employed. We also understand that no town funds have been appropriated by the Town of Wayland for the purposes of an appeal. We recommend that no Town of Sudbury funds be appropriated for this purpose."

A motion by the Finance Committee for indefinite postponement was defeated.

AMENDMENT VOTED: *To change the figure \$25,000.00 to \$5,000.00.*

VOTED: *That the Town appropriate the sum of five thousand dollars (\$5,000.00), for fees to be paid to engineering consultant or consultants and counsel to be engaged in the prosecution of the appeal from the decision of the Department of Public Utilities in the matter of the petition of Boston Edison Company to construct transmission lines in the Town, now pending before the Supreme Judicial Court, and that sum be transferred from Excess and Deficiency.*

Article 7. To see if the Town will vote to accept from Alfred W. Halper a grant of a parcel of land shown as "Area A" on a plan on file in the Land Court, No. 28124A, known as "Barton Pool," upon such conditions as to reversion, if any, as the donor may impose, which said parcel shall be held by the Town, under the jurisdiction of the Park and Recreation Commission, solely for swimming and recreation purposes. Pass any vote, or take any action relative thereto.

Submitted by Abel Cutting.

UNANIMOUSLY VOTED: *That the Town accept from Alfred W. Halper with sincere gratitude a grant of a parcel of land shown as "Area A" on a plan on file in the Land Court, No. 28124A, known as "Barton Pool" upon such conditions as to reversion, if any, as the donor may impose; provided, that such conditions shall be approved by the Park and Recreation Commission and their approval noted on the Deed of Grant, which said parcel shall be held by the Town, under the jurisdiction of the Park and Recreation Commission, solely for swimming and recreation purposes.*

Article 8. To see if the Town will authorize the Board of Selectmen to petition the General Court for authority to take over the properties, rights, powers and privileges of The Sud-

bury Water District, as established by Chapter 100 of the acts of nineteen hundred and thirty as amended. Pass any vote or take action relative thereto.

Submitted by the Selectmen.

Finance Committee Report: "The Selectmen have inserted this article in accordance with the resolution approved at the last annual town meeting. Action under this article is not definitive; it merely requests provision for authority to consider a course of action at a subsequent town meeting. Final action to incorporate the Sudbury Water District must be presented and approved at both a Sudbury Water District meeting and at a Town of Sudbury meeting.

The reports of the committee appointed to study the incorporation of the water district into one governmental function in the Town of Sudbury showed concurrence with such action. The minority report in general indicated a divergence of opinion only as to the timing of such incorporation.

The Finance Committee has appointed a sub-committee which will examine the facets of this proposal and will report thereon at the next annual town meeting. At this time, therefore, we recommend positive action under this article."

A motion under this article was defeated.

Article 9. To see if the Town will transfer the sum of \$3,500.00, or any other sum from the Excess and Deficiency account to town counsel account. Pass any vote or take any action relative thereto.

Submitted by the Selectmen.

Finance Committee Report: "The amount of \$5,000.00 was appropriated for Town Counsel at the annual town meeting and at August 31, 1960 there was a balance of \$4,600.00 in this appropriation. As of September 15, 1960 the town was billed \$4,046.00 for services rendered to the various departments of the town; therefore the uncommitted balance of this appropriation is \$554.00. We understand that the following specific actions are unfinished:

- Star Market
- Dingley appeal
- Rice — equity petition
- Precourt — equity petition
- Beckett
- Halper — re building permits
- Caputo — School Construction Contract
- Shay — Trust Fund
- Plumbing By-Laws

It is not certain which of these actions will be considered or finished during the balance of this year. Under the circumstances, we recommend that \$2,000.00 be appropriated."

VOTED: *That the sum of \$2,000.00 be transferred from Excess and Deficiency to the Town Counsel Account.*

The meeting adjourned at 12:25 A. M.

A True Record, Attest:

LAWRENCE B. TIGHE,
Town Clerk.

**PROCEEDINGS OF THE
PRESIDENTIAL ELECTION
NOVEMBER 8, 1960**

Pursuant to law and the foregoing warrant, the Town Clerk attended at the Center School Auditorium on Tuesday, November 8, 1960, and before the time appointed for the opening of the polls, delivered to the Presiding Election Officer, the two State ballot boxes, specimen ballots, cards, tally sheets and total vote sheets all prepared for the Presidential Election. The Presiding Election Officer examined the warrant and the return thereon and declared them in proper order. He then opened the election with the reading of the warrant. The Warden and Tellers attending, the two ballot boxes were opened, found to be empty, and immediately closed with each register set at 0000.

Assisting in the election were ninety citizens named and recommended by the Chairmen of the Democratic and Republican Town Committees, all duly sworn by the Town Clerk.

The polls opened at 6:30 A. M. and pursuant to law were closed at 8:00 P. M. The total votes cast as shown on the two registers of the ballot boxes was 3344. This total, 3344, agreed with the number of names checked as voters by the Ballot Clerks. The absentee ballots were then opened and cast. The ballot box registers then totaled 3497. There were 153 absentee ballots cast.

The results of the voting as canvassed and counted by the Election Officers were completed at 3:00 A. M., November 9, 1960 and the results publicly announced at that time were as follows:

REPORT OF THE TOWN ACCOUNTANT

To the Honorable Board of Selectmen:

I herewith submit the report of the Town Accountant for the year ending December 31, 1960, arranged as follows:

1. Balance sheet as of December 31, 1960, showing all debit and credit balances on all open ledger accounts.
2. Detailed accounts of all money received by the Town classified in accordance with the requirements of the Division of Accounts of the Commonwealth.
 - a. Summary of Cash Receipts.
 - b. Summary of Income Accounts.
 - c. Recapitulation of Estimated Receipts.
 - d. Recapitulation of Excess and Deficiency.
3. Details of all Departmental Accounts showing the appropriations, credits, expenditures, and balances.

All bills and vouchers on which moneys have been paid from the treasury during the year ending December 31, 1960 have been examined and found correct, and all have been properly approved.

Respectfully submitted,

CLIFTON F. GILES,
Town Accountant.

EXPLANATION OF SYMBOLS

- R — Amount transferred from Reserve Fund in 1960.
 B — Balance brought forward from previous year's appropriations.
 * — This amount carried over to 1961 for completion of the project or purpose for which the money was originally appropriated.
 F — Federal Aid received in 1960 or carried over from 1959.
 1 — Includes Loan of \$57,000.00.
 2 — Includes Loan of \$20,900.00 in anticipation of reimbursement from State and County.
 3 — Includes Loan of \$13,500.00 in anticipation of reimbursement from State and County.
 4 — Includes Loan of \$4,000.00 in anticipation of reimbursement from State and County.
 5 — The original sum was taken from the Road Machinery Fund so these unexpended balances are returned to that account.
 6 — Payment of an insurance claim.
 7 — Income from Trust Funds.
 8 — Includes loan of \$26,000.00.
 9 — \$1,167.00 brought forward from 1959.
 10 — Must be paid by the Town in 1961.

REPORT OF THE ASSESSORS

The Board of Assessors are continuing their efforts to establish the new system of assessing property voted by the Town three years ago. We believe, from our experience in this effort, that the prime interest of the taxpayers is that they be assessed on an equitable basis with their neighbors and the rest of the townspeople.

The formula recommended by the state was used by the Board of Assessors to determine all assessments on homes in 1960. This system of assessment was thoroughly explained in the 1959 Town Report and also at numerous meetings during the past year. In order to assure the success of this system it is necessary to have a detailed knowledge of each dwelling. To keep the system up-to-date all changes, additions, and work done on previously unfinished houses must be accurately checked each year. At the present time four hundred to five hundred houses in this category will have to be checked in detail. This will be time consuming in addition to the regular duties of the Board.

A number of surrounding towns are employing full or part-time assistance, whichever is necessary, to do their field work. To serve the townspeople properly this Board favors adopting this method and thereby recommends in this year's budget, a sum of money to be spent for this work.

In 1960 the increased valuation totalled somewhat less than four million dollars, the Raytheon plant making up approximately twenty-five per cent of this amount. The Board of Assessors does not anticipate any such increase this year. If expenditures keep rising at a faster rate than the valuation, as has been the pattern for the past few years, the tax burden for the coming year may be reason for concern.

It is our belief that Real Estate Taxes have reached a limit, and additional wealth must be attracted in order to continue the increasing services demanded of the Town.

Please bear in mind that approximately every \$15,000 voted by you at Town Meeting is one dollar added to your tax rate.

Table of Aggregates of Polls, Property, and Taxes as assessed in the Town of Sudbury, January 1, 1960:

	1959	1960
Number of persons, partnerships and corporations assessed on property	3,024	3,307
Number of Male Polls Assessed	1,752	1,967
Value of Assessed Personal Estate:		
Stock in Trade	\$43,600.00	\$39,100.00
Machinery	1,024,300.00	1,086,652.00

REPORT OF THE BOARD OF APPEALS — ZONING

The Board held 55 hearings during 1960, as follows:

- | | | |
|-------|--|------------------|
| 60- 1 | Mr. and Mrs. John C. Sims — Maple Avenue
Real Estate Office | Permit Granted |
| 60- 2 | Walter A. Beckett — Pheasant Avenue
Inadequate frontage | Variance Granted |
| 60- 3 | Michael C. Moore — Pine Street
Change fronting of lots | Variance Granted |
| 60- 4 | Caulshaw Realty Trust — Crystal Lake Drive
Inadequate sideline, frontage, setback | Pending |
| 60- 5 | Mitchell Estates, Inc. — Blackmer Road
Removal of loam | Permit Granted |
| 60- 6 | Fern Rock Homes, Inc. — Patricia and Landham Rds.
Inadequate frontage | Variance Granted |
| 60- 7 | Ferigno & Walker — Colonial Road
Inadequate frontage | Variance Granted |
| 60- 8 | Paul E. Benjamin — Lakewood Dr. and
Oakwood Avenue
Inadequate setback for garage | Variance Granted |
| 60- 9 | D'Arrigo Bros. Co. — Concord Road
Country Club facilities in residential zone | Variance Granted |
| 60-10 | D'Arrigo Bros. Co. — Concord Road
Removal of sand, loam, etc. | Permit Granted* |
| 60-11 | William R. Lamb — Plympton Road
Inadequate frontage | Variance Granted |
| 60-12 | Peter Gulloto — Beechwood Avenue
Inadequate sideline | Variance Granted |
| 60-13 | Sandy W. MacKinnon — Summer Street
Hen Coop, raise hens | Permit Granted* |
| 60-14 | Caulshaw Realty Trust — Boston Post Road
Business use in Industrial District | Denied |
| 60-15 | Joseph Buckhalter — rear of Sudbury Inn, Boston
Post Road — Extension of Business use in Industrial
District | Denied |
| 60-16 | Rosario J. Bomba — Hudson Rd. and Lakewood Dr.
Inadequate rear setback | Variance Granted |

- 60-17 Charles R. and Gertrude T. Scott — Pratt Mill Rd.
Raising Hamsters Permit Granted*
- 60-18 Ronald Boucher — Elaine and Ford Roads
Inadequate setback for garage Variance Granted
- 60-19 Aubrey B. Dingley — Boston Post Road
Park vehicles and equipment in Residential District
Denied
- 60-20 Fern Rock Homes, Inc. — Patricia Road
Inadequate frontage Variance Granted
- 60-21 Sandy W. MacKinnon — Summer Street
Raise rabbits Denied
- 60-22 John R. Borden — off Goodman Hill Road
Interior lot, no frontage, for building lot Denied
- 60-23 Arthur McLean — Peakham Road
Divide lot, inadequate frontage Variance Granted
- 60-24 Hanna Laine — Haynes Road
Establish two-family dwelling Permit Granted*
- 60-25 Charles B. Gardner — Stone Road Extension
Inadequate frontage Variance Granted
- 60-26 Winifred Cline — Boston Post Road
Kindergarten and Nursery school Permit Granted
- 60-27 Earl W. and Dorothea Huckel — Concord Road
Rent existing dwellings
Extension of non-conforming use*
- 60-28 Sunny Hill Pre-School — Old Sudbury Road
Extension of hours of operation Extension Granted*
- 60-29 Camp Sewataro — Gloria Walsh — off Haynes Road
Summer day camp Permit Granted*
- 60-30 Raytheon Company — Secatore property, Concord Rd.
Extension of time, test tower Extended to 12/31/61
- 60-31 R. Stevens Kleinschmidt — Pelham Island Road
Business use in Residential District Permit Granted*
- 60-32 Longfellow's Wayside Inn — Boston Post Road
Enlargement, existing non-conforming building and use
Authorization Granted*
- 60-33 DeMarco Brothers — Stub Toe Lane
Inadequate sideline Variance Granted
- 60-34 George E. Emery — July Road
Extension of non-conforming building
Authorization Granted*

- 60-35 Joseph Vecchione — Butler Road
Inadequate area, 2 lots Variance Granted
- 60-36 Dorothea D. Tooker — Concord Road
Book shop, Business in Residential District Denied
- 60-37 Harold Lundy — Boston Post Rd. near Wayland line
Driving Range Permit Granted*
- 60-38 Eileen Whitworth — Old County Road
Auto paint and body shop Permit Granted*
- 60-39 Massachusetts Lumber Company —
Edison siding, Boston Post Road
Unloading freight cars Permit Granted*
- 60-40 Edmund R. Brown — Pratt Mill Road
Inadequate frontage Variance Granted*
- 60-41 DeMarco Bros. Realty Corp. — off Hudson Road
House trailer use as construction office
Special Permit Granted to 12/31/62*
- 60-42 Malcolm W. Mackiernan — Hudson Road
Second dwelling on residential lot Denied
- 60-43 Leslie B. Griffin — Blueberry Hill Lane
Inadequate front setback Variance Granted
- 60-44 John Bartlett — Boston Post Road
Ruling for enclosed recreation field Request Denied
- 60-45 Halper Homes, Inc., A. W. Halper — Wayside Acres
Appeal from refusal of Selectmen to issue build-
ing permits Appeal Sustained**
- 60-46 Wayside Estates, A. W. Halper — Wayside Acres
Appeal from refusal of Selectmen to issue build-
ing permits Appeal Sustained**
- 60-47 Harold A. Wilfand — Tanbark Road
Appeal from refusal of Selectmen to issue build-
ing permit Appeal Sustained**
- 60-48 Paul L. Tocci — Blueberry Hill Lane
Appeal from refusal of Selectmen to issue build-
ing permits Appeal Sustained**
- 60-49 John Pagnani — Eva Lane and Delia Road
Inadequate frontage Variance Granted
- 60-50 Donald Hillman — Pine Street
Appeal from refusal of Selectmen to issue build-
ing permit Appeal Sustained**
- 60-51 DeMarco Bros. Fruit & Produce, Inc. —
Grindstone Lane

- Appeal from refusal of Selectmen to issue building permits Appeal Sustained**
- 60-52 DeMarco Bros. Realty Corp — Grindstone Lane
Appeal from refusal of Selectmen to issue building permits Appeal Sustained**
- 60-53 DeMarco Brothers — Grindstone Lane
Appeal from refusal of Selectmen to issue building permits Appeal Sustained**
- 60-54 Jennaro Montopoli — Withdrawn
- 60-55 John Sarkisian — off Weir Hill Road
Raise and breed greyhounds Permit Granted*

The cases indicated (*) above were limited by provisions safeguarding the interest of the Town and are a public record on file in the office of the Town Clerk.

The cases indicated (**) were cases in which the Board of Selectmen appealed to Superior Court for reversal of the decisions of the Board of Appeals. The cases were dismissed. The decisions of the Board of Appeals stand and permits have been issued.

At the annual business meeting of 1960, the Board took the following action:

Arthur L. Singer, Jr., was elected Chairman, succeeding Walter R. Hickler who has accepted the appointment as the Board of Appeals' representative on the Earth Removal Road. Mr. Hickler also retains his position as a member of the Board of Appeals. The Board expressed appreciation for Mr. Hickler's past service as Chairman.

Edward E. Kreitsek was re-elected Clerk of the Board.

In 1959, the requirement for legal advertising for Board of Appeals hearings was changed by State law, requiring two weeks' advertising instead of one. In order to have the costs of hearings covered by the application fees, the Board voted to increase the fee to \$10.00, effective June 1st, 1960. It has been established that variances or permits requested of the Board of Appeals are special privileges sought by certain individuals and part of the cost to the Town should be borne by the applicants. Any applicant may, for valid reasons, request waiver of fee, which the Board can grant. The Board members, of course, receive no salary or fee, and the money collected is used to cover cost of advertising, stationery, postage, record books, etc.

An amendment to Section 18 of Chapter 40-A of the General Laws of the Commonwealth, enacted April 18, 1960, and effective July 18, 1960, requires that all Permits and Variances

granted by the Board of Appeals be recorded at the Middlesex County Registry of Deeds, with a recordation fee of \$4.00 payable to the Registry.

 Town Accountant.

REPORT OF THE BOARD OF HEALTH

ANNUAL REPORT FOR 1960

During 1960 the Board of Health held 24 scheduled meetings and continued its efforts to develop a long-range comprehensive public health program for the Town by focusing on two major objectives: (1) The extension of well-defined operating programs in several new directions; and (2) the development of much needed new program areas.

Under the first category are the following accomplishments:

1. *Communicable Disease Prevention and Control*

With the growth of the Town and the addition of several sorely needed private physicians, the distribution of vaccines, toxoids, blood sera, et al, has become increasingly important. The Board of Health purchased a refrigerator for the storage of these products, developed policies for their distribution to schools and private physicians, centralized the entire operation in the Town Hall.

2. *Continuation of Polio Immunization Program*

A follow-up clinic was held in the Town Hall on May 25 with Dr. Tristan in charge and 265 people took advantage of this. If polio epidemics are to be prevented, this program must be continued indefinitely or until new protective measures are developed.

3. *Continuation of Rabies Control Programs*

For the third consecutive year, a rabies inoculation clinic was held. Each year large numbers of dogs are being protected, and this year 190 dogs were inoculated. As in former years, expert assistance was obtained from Harry Rice, Dog Officer.

4. *School Dental Clinics*

Because of the increased number of children needing dental care, several additional clinic sessions were held for the Fairbank school group during May and June.

5. *Tuberculosis Control Program*

In addition to the on-going public health nursing surveillance of all cases and contacts, a community-wide chest X-ray survey was held during October, in cooperation with the Middlesex Tuberculosis and Health Association and the Sudbury Public Health Nursing Association.

6. *Mosquito Control*

In preceding years, the Board was not involved directly in this program. During 1960, the Selectmen invited the Board of Health to meet with them and discuss a long-range, year-round mosquito control program. This resulted in the introduction of an article in the warrant of the June 27 Town Meeting, calling for the establishment of a Mosquito Control Study Committee. One member of the Board will continue to serve on this representative Town Committee.

New program developments were realized in the following areas:

1. *Periodic Inspection of All School Cafeterias*

At the request of the Superintendent of Schools, the Board of Health has set up a program of quarterly inspections of all school cafeterias. Reports of all inspections are sent directly to the Superintendent of Schools with any recommendations that need follow-up. The first round of inspections indicated that our school cafeterias *rank exceptionally high in all sanitation indices.*

2. *Inspection of Nursery Schools*

During 1960 the Board began applying the regulations passed in September, 1959, relative to the operation of nursery schools and day care centers. We are pleased to report that our nursery schools are among the best in Massachusetts and that the owners and operators have cooperated with the Board in every possible way.

3. *Medical Advisory Committee*

Drs. Adelson, Nicholson, and Tristan have volunteered their services in working with the Board to formulate medical policies and procedures pertaining to the operation of all clinics sponsored by the Board and to the evaluation of the school health program. They have already established such policies and procedures for the operation of our first diabetes detection clinic.

4. *Diabetes Detection Program*

Representatives of the Sudbury Public Health Nursing Association and Board of Health have met twice with corresponding members of the Wayland Nursing Association and Board of Health to devise a comprehensive diabetes detection program for the two towns. Consultants from the Massachusetts State Department of Health and the U. S. P. H. S. have advised the group from the beginning. Further joint meetings will be

held monthly through April, when the detection program will be launched.

5. *Statement of Policies for the Joint Operation of the Sudbury Public Health Nursing Association and the Sudbury Board of Health*

Since the nursing service is such an integral and essential part of most public health programs, clearcut policies are necessary to insure smooth program operation, especially in the event of an incipient epidemic or the possible spread of a serious communicable disease. Medical, nursing, and public health responsibilities must be clearly defined if the health of our community is to be protected. Members of the SPHNA, together with the Board, developed a working draft of this much needed policy and procedure manual during 1960. This is now in operation and will be revised from time to time as new medical and public health developments demand.

We should like to acknowledge with thanks the services rendered to the dental clinic during the first half of 1960 by A. M. Belton, D.D.S. and to express our regret at his resignation. In October, we were fortunate to secure the services of another well-qualified dentist, Martin Nichols, D.M.D., to fill the vacancy in the dental clinic.

Michael Tristan, M.D., and William Adelson, M.D., shared the administration of the monthly well child conferences sponsored and financed by the Board of Health with the assistance of members of the staff of the Nursing Association.

As in previous years, frequent inspections were made of the Sanitary Land Fill and, as always, it was found to be in an excellent, sanitary condition. It is receiving statewide recognition as one of the best land fill operations hereabouts.

We wish herewith to express our appreciation to all those in other Town departments and agencies who cooperated with us in our efforts to develop a more comprehensive public health program for our rapidly increasing population.

Very special thanks are due to Mrs. Vera Presby for her unwavering devotion to all program activities, deep sense of responsibility, boundless patience, and ethical handling of all problems and requests. Without her competent, conscientious assistance, progress would not have been possible.

Respectfully submitted,

GORDON R. PARTRIDGE, Ph. D., Chairman
MARJORIE A. C. YOUNG, Secretary
LOUIS H. HOUGH

REPORT OF THE BUILDING INSPECTOR

December 31, 1960

Board of Selectmen
Town of Sudbury
Sudbury, Massachusetts

Gentlemen:

There were 279 building permits issued during the year 1960. Of these, 196 were for single family dwellings. 201 certificates of occupancy were issued.

Some people have occupied dwellings during the past year without first obtaining a certificate of occupancy as required by the building code by-law. Any person doing so is subject to a fine and should not complain to the building inspector if there is something wrong with the dwelling.

Several amendments to the building code will be voted on at the 1961 town meeting concerning the construction of chimneys and the installation of built-in kitchen ventilating fans. Both of these amendments will reduce fire hazards in buildings.

Many residents still have not placed their street number on their dwellings.

I traveled approximately 10,000 miles during the year making inspections during the construction of buildings in the town.

The following is a list of the building permits issued and the estimated construction cost as stated on the building permit application.

196	Dwellings	\$2,428,800.00
7	Business and Industrial	1,459,920.00
5	Additions (Business and Industrial)	38,700.00
46	Additions (Residential)	111,100.00
16	Private Garages	18,775.00
1	Greenhouse (Small)	250.00
4	Demolitions	
<hr/>		
275	Permits	\$4,057,545.00
1	School Addition (Regional High)	\$800,000.00
1	Police Station	50,520.00
1	Fire Sub-Station (So. Sudbury)	41,949.00
1	Firefighters Training Building	5,000.00
<hr/>		
4.	Permits	\$897,469.00

I wish to thank all those who assisted me during the year.

Respectfully submitted,

ALBERT ST. GERMAIN,
Building Inspector.

REPORT OF SUDBURY CIVIL DEFENSE DEPARTMENT

Board of Selectmen
Town of Sudbury
Gentlemen:

This is the eleventh annual report of activities of the Civil Defense Department of Sudbury.

Erik Stromsted, our Radio Officer, has moved from Town and has been replaced by Ted Seble. Mr. Seble, president of the King Phillip Radio Club, has incorporated the club into Civil Defense, thereby, increasing our radio operator force by twelve. A rotor antenna has been installed at our control center to insure good communication with our own Town net and State Headquarters.

Governor Furcolo declared a state of emergency during hurricane "Donna." We activated the control center at noon and dispatched a radio car to survey any damages and to report same to us. A radio was installed in the Town Barn to notify the Highway Department of fallen trees and other debris on the roads. Selectman Trussell contacted the Edison Company and they sent us a man equipped with a radio. As reports of fallen wires filtered into the control center, they were relayed via radio to the Town Barn where the Edison man stationed himself. He radioed the information to his Company and they in turn gave instructions to the roving Edison truck that was in Town. One example of how efficient this system proved to be, we received a call from our survey team reporting burning wires down on the Post Road. Within eight minutes, the Edison men had arrived on the scene and cut the wires. Operations were secured at 2000 hours.

A new division was added to our department known as Scuba or Underwater Rescue. All the equipment necessary

has been purchased and four men trained as divers. Two of the men trained are affiliated with the Fire Department. The equipment is stored in the Rescue Truck so that it could be dispatched with personnel quickly if needed. One of our divers, Larry Cousens, was one of the first divers to enter the submerged tail section of the Electra that crashed in Boston a few months back.

Respectfully submitted,

LAWRENCE J. LEONE,
FRANCIS E. WHITE,
Directors of Civil Defense.

THE CIVIL DEFENSE OF SUDBURY

Sudbury, Mass.
2 January, 1961

Mr. Clifton Giles
Town Accountant
Sudbury, Mass.

Dear Mr. Giles,

The following is the financial report of the Civil Defense Department of Sudbury.

Director, Civil Defense.

REPORT OF THE DOG OFFICER

To the Board of Selectmen:

Dogs licensed for the year of 1960	1,027
Dogs picked up and disposed of	108
Dogs placed in homes	38
Dogs confined for 10 days	62
Miscellaneous complaints relative to dogs	756

A number of dogs have been placed under restraining order by the Selectmen. These dogs are now confined by their owners.

All dogs should have a collar or harness with the license tag attached to it. All dog licenses expire March 31 of each year. All dogs must be licensed on or before April 1st, or the owners or keepers thereof are liable to a fine. The law applies to all dogs *3 months old or over*, regardless of time of year ownership is acquired.

No tax bills are sent to dog owners.

At this time I wish to thank the Police and Fire Departments for their fine co-operation during the past year.

Respectfully submitted,

HARRY C. RICE,
Dog Officer.

REPORT OF THE EARTH REMOVAL BOARD

Appropriation	\$500.00	
Expenses	44.13	
	<hr/>	
Balance		\$455.87
Fees Collected		\$60.00

REPORT OF THE FIRE DEPARTMENT

December 31, 1960

Board of Selectmen
Town of Sudbury
Sudbury, Mass.

Gentlemen:

The following is my report on the activities and condition of the Fire Department for the year 1960.

Two hundred and one alarms for emergency service were received at headquarters as follows:

- 26 for fires involving buildings
- 63 for grass and brush fires
- 20 for motor vehicle fires
 - 6 chimney fires
 - 8 rubbish fires
 - 4 resuscitator calls
 - 3 accidental alarms
 - 1 out of town call
 - 2 oil burner fires
 - 5 motor vehicle accidents
- 15 rescue calls
 - 1 trip to hospital with injured person
 - 3 false alarms
 - 2 lockouts
 - 1 electrical fire
- 13 for burning Edison wires
- 10 for pumping flooded cellars
- 18 miscellaneous

The number of grass and brush fires increased for the year 1960. Twenty of these fires were set by children. Parents should try to keep matches away from small children. 2182 permits to do burning in the open air were issued over the telephone. When calling for a permit please use the business telephone number 2239. The emergency telephone number 2323 is to be used only for reporting a fire or other emergency. No school information will be given over the 2323 line. Over 1200 telephone calls were answered by the fire department.

FIRE ALARM SYSTEM

The fire alarm system was connected to the Methodist Church buildings. The municipal fire alarm system was extended along Dutton Road from Hudson Road to Barton Drive and connected to the alarm system in the Halper subdivision which was a gift to the Town. Also along Landham Road from the Post Road to the Framingham line with alarm

boxes at all street corners. The system was also extended along Ames Road to connect the DiRen sub-division alarm system. Both the Loring and Nixon school fire alarm systems were also tied in to the municipal system. The new Raytheon plant on the Post Road also has a fire alarm box in the guard office. A fire alarm box was installed on Taylor Road at the expense of the developer.

The 1961 fire department budget includes the same amount of money as previous years to extend the alarm system towards North Sudbury as follows:

Candy Hill, Concord Road to Pantry Road to Haynes Road to Marlboro Road to Mossman Road and along Mossman Road connecting with the Johnson sub-division alarm system to be installed at Mr. Johnson's expense. Then along Haynes Road by the school site to North Road connecting with the Ferigno & Walker sub-division alarm system. Fire alarm systems must be installed in all sub-divisions at the expense of the developer.

MANPOWER

The manpower situation in the daytime is still critical. Two additional permanent firefighters were added in April making a total of six. This provides two men on duty at the center station at all times. Each shift works 56 hours per week. There are now 14 call firemen with only about 4 to 6 during week days. The 1961 salary budget provides for 3 additional permanent firefighters to man the new fire station now being constructed in South Sudbury. There will be one man on duty at all times, each one working 56 hours per week.

FIRE STATIONS

In 1960 the town purchased two fire station sites, one in South Sudbury and one in North Sudbury. The Town voted funds in June to construct a fire sub-station in South Sudbury. After many delays, construction has started on the station. The same building is adaptable to both sites. Construction of almost 200 dwellings in North Sudbury has started. This means that before long there will be about 400 dwellings and a 20 room school to protect in the North Sudbury area. The North Sudbury sub-station will have to be constructed in the near future.

APPARATUS

Funds are being requested at the 1961 Annual Town meeting to purchase a Class A fire truck to be housed in the South fire station. This is necessary in order to obtain insurance reductions for everyone within 3 miles of the new station. At present the department has only one piece of fire appa-

tus that complies with Fire Underwriters' specifications, the one purchased in 1956 and is now paid for. Other trucks which the department has, some of which are obsolete and unsafe to drive in today's traffic are as follows:

1930 Model A Ford — 40 horse-power	31 years old
1930 International — 56 horse-power	31 years old
1938 Ford 1½ ton — 90 horse-power	23 years old
1942 Ford 1½ ton — 100 horse-power	19 years old
1947 International Oil truck — 80 horse-power	14 years old

As Chief of the Department, I wish to take this opportunity to thank the Police Department, Town Officials and all the Townspeople for their co-operation during the year.

Respectfully submitted,

ALBERT ST. GERMAIN,
Fire Chief.

GOODNOW LIBRARY REPORT 1960

With the rapid growth of the town and continued use of the library and space needs in the very near future, it has been found necessary to make plans for the addition of a wing to the library. Towns with libraries of similar size have been visited and architects have been interviewed by both the library and permanent building committee.

The past year has been a busy one and we are pleased to report a circulation in the adult department of 38,232 and 24,867 in the children's department. 480 new borrowers have been registered in the adult department and 477 in the juvenile department during 1960. Of course, this is not an accurate figure for several members of the family sometimes use one card.

Numerous reference as well as general books have been added to the library to facilitate the school summer reading program. Books have been shelved in a special section to make it more convenient for the students. It is interesting to note that many adults find this section attractive to their tastes but as much as we like to have the adults use this section, it is hoped that they will refrain from doing so during the summer reading program. For even though we have many extra copies, it never seems to be quite adequate to meet the student need.

Book Week was celebrated by the purchase of many new books and the presentation of Pinocchio in costume by Mrs. Virginia Howard who has been so generous with her time at the library. This program was tremendously enjoyed by the children. At the first presentation, the attendance was 95 children and two days later at a second performance 72 attended. Mrs. Janet Howe Cawley also very kindly gave us time and the older children were entertained by many dog stories which she told. We felt book week to be very satisfactory. Additional story hours have been held at various times during the year with Mrs. Howard doing the story telling and the attendance has been very gratifying.

A most interesting display of Indian relics, excavated from a site in Cochituate by Mr. Leslie Longworth and Mr. Alfred Mansfield, were on display at the library. These relics were estimated to be 3,500 years old and the exact race of people were unknown. Many people from Sudbury as well as surrounding towns visited the exhibition.

We were fortunate to have two lovely Art exhibitions, one by Miss Jill Cowie of St. Hubert's school and the other by Mrs. Grace Way. Their oils were greatly appreciated.

The Sudbury Players very generously presented us with a check for \$50 to purchase books on plays and the theater. We are very grateful to them for this kind gesture. We also wish to thank the many patrons who have at various times presented us with books and magazines. Again we thank both Garden Clubs who have made the library so attractive during the past year by supplying us with floral arrangements and gay Christmas decorations.

Mrs. Farrell and Mrs. Ruth Baldwin have been added to our part time staff and have been a tremendous help to us.

Respectfully submitted,
 DENE HOWE, Chairman,
 LUTHER CHILD
 BERTHA SMITH, Trustees,
 ELIZABETH ATKINSON, Librarian.

**RECEIPTS AND EXPENDITURES FOR THE
 LIBRARY DEPARTMENT**

1960 Receipts — Dog Tax	\$1,580.58
Trust	1,273.31
Appropriations	12,750.00
	\$15,603.89
1960 Expenditures	\$15,603.89

There is an unexpended balance of \$1,500 allocated for preliminary plans and specifications for an addition to the Library. The Permanent Building Committee has now decided upon an architect and plans are being started. Since this is an appropriation for a specific purpose, we assume it will not be necessary to have the appropriation renewed.

LUTHER M. CHILD, JR.

Approved,

CLIFTON F. GILES,
 Town Accountant.

REPORT OF
GOODNOW LIBRARY CENTENNIAL
COMMITTEE

John Goodnow's bequest in 1862 to the Town of Sudbury of land and money for a library building, as well as money for books, made possible the second oldest free public library in Massachusetts, although there were at that time a few other towns which circulated books from stores or private homes.

The Goodnow Library Centennial Committee, in co-operation with the library trustees, plan the 100th Anniversary Celebration in three phases. The first phase, covering the first 100 years, will be an exhibit of old pictures, manuscripts, and other material of historical interest relating to the early days. The second phase will feature contemporary Sudbury's contribution to the library. The committee plans to include in this section exhibits by Sudbury's artists and writers. The third phase will be an attempt to project the role of the library in the town for the next 100 years, showing how the library plans to expand to meet the growing needs of the town.

The Centennial Committee welcomes suggestions and assistance of anyone interested in helping to develop and carry out the Centennial observance. The Committee is most anxious to know about early historical material as soon as possible. Information can be given to Miss Atkinson at the library or to a committee member. More definite details will appear in the local papers.

Respectfully submitted,

THE HISTORIC STRUCTURES COMMISSION

The Loring Parsonage has been partially restored and its exterior appearance now displays the refined taste of the pre-Revolutionary architecture. The windows of proper 12 over 12 construction replace the later ones of 6 over 6; which had fallen into a bad and hopeless state of repair. Other improvements include restoration of a fine Middlesex county, Georgian doorway with correct hardware. The entire building has been scraped, renailed and painted with two coats of lead in oil paint in an appropriate 18th century color which closely approximates an earlier paint discovered in test scraping. Future improvements will include the removal of the shed extension and proper landscaping.

Resulting from a thorough and careful study of proposed uses for the partially restored "Loring Parsonage" the Commission on Historic Structures has the following recommendation:

- A. Vacating present occupants in near future to town's convenience.
- B. Restoring interior ground floor to function as a practical headquarters for small civic groups.
(See proposed Plan)
- C.
 1. Area designated as historical society will be restored by them.
 2. Area as Commission will be headquarters for consultation service free of charge to Sudbury residents interested in proper restoration of privately owned buildings within the Community. Members of Commission will extend this service to enhance the traditional environment of Historic Sudbury.
 3. Meeting area to be restored with meeting house benches and colonial lectern and will be available to various groups as Ladies Club, Garden Club and small group meetings of 40 or less etc., where atmosphere background is desired.

It is impossible for the Commission to evaluate potential expenditure under its present occupancy plan and we suggest that we submit detailed cost account at time of vacancy.

Also being considered is the possibility of housing such groups as the planning board, etc. in second floor projection.

REPORT OF
SUDBURY INDUSTRIAL DEVELOPMENT
COMMISSION

To the Honorable Board of Selectmen:

The Industrial Development Commission regrets that it has not accomplished its work this year. Although at least as much time, effort, and money have been expended as usual, courting desirable industrial prospects, no trip has reached the altar. And we end the year with no very good prospects for 1961.

Al St. Germain's report shows nearly a million and a half dollars worth of industrial construction for which permits were taken; but even that is a million short of the value of residential permits. In our best year we still fell behind by a million dollars in our attempt to balance commercial and residential building.

In conjunction with the Engineering Department, plans of all industrial and business property, as well as pertinent information, are being worked up.

Citizens, we need good industrial prospects!

If you pick up even a small scrap of information about a good industrial firm which might locate here, relay it at once to any member of the Commission. We will observe absolutely any degree of confidence you or the prospect requests.

Respectfully submitted,

ABEL CUTTING, Chairman,
Sudbury Industrial Development Commission.

REPORT OF INSECT AND PEST CONTROL DEPARTMENT

To the Citizens of Sudbury:

The past year our sanitation efforts to remove diseased trees was made as soon as utility cooperation to remove cables was made in some cases.

Spraying a heavy dormant spray onto the trees after frost damages in early spring gave a more satisfactory coverage.

Dormant spraying permits, more D.D.T. use, plus more gallons per tree. Trees near hay fields may be done with no hazard. Birds and bees, safer and less car hinderence. Elm Beetle feeding was noticeably lighter.

Following is a financial report for the year 1960:

Town Grant		\$5,000.00
Salaries:		
E. T. Ferguson	\$832.00	
Augustus DiBiase	62.00	
	\$894.00	
Expenses:		
Alexander Automotive Service	\$32.61	
Alpine Tree and Landscape	3,538.14	
E. T. Ferguson	118.24	
Augustus DiBiase	32.00	
Town Line Hardware	4.98	
Eastern States Farmers Exchange	300.34	
Frost Company	12.74	
Mercury's Service Station	54.27	
Tony's Service Station	10.00	
	\$4,103.32	
Total Expenditures		\$4,997.32
Balance		\$2.68

Respectfully submitted,

ERNEST T. FERGUSON,
Superintendent.

Approved,

CLIFTON F. GILES,
Town Accountant.

REPORT OF THE INSPECTOR OF ANIMALS

To the Board of Selectmen:

I submit herewith my report as Animal Inspector for the year of 1960.

I have inspected all neat cattle, sheep, swine and horses as ordered by the Massachusetts State Division of Livestock Disease Control; 56 sheep, 47 cattle, 48 horses, 1,053 hogs, 68 dog bites, 6 bites by dogs, owners unknown.

Respectfully submitted,

HARRY C. RICE,
Inspector of Animals.

REPORT OF THE INSPECTOR OF WIRES

To the Board of Selectmen
Sudbury, Massachusetts

During the year 1960 I issued 365 wiring permits. Six hundred inspections were made during the year.

Many home owners are still using the improper size fuses in their wiring systems thereby increasing the chances of a fire.

After January 1, 1961 all fuse holders installed must be for the type S fuses. The sizes of fuses cannot be changed in these holders.

Again I wish to warn all persons not to let any one start to do a wiring job on their property unless they have a written permit from the wire inspector.

208 Permits @ \$3.00	\$624.00
148 Permits @ \$2.00	296.00
9 Permits Free	000.00
	<hr/>
365 Permits	\$920.00
Paid Town Treasurer	\$920.00

Respectfully submitted,

ALBERT ST. GERMAIN,
Inspector of Wires.

Approved,

CLIFTON F. GILES,
Town Accountant.

REPORT OF
THE LINCOLN-SUDBURY REGIONAL DISTRICT
SCHOOL COMMITTEE

In June 1960 the Regional High School graduated the first class that had completed all four of its high school years at the new "Regional." Much which has been learned from the completion of our first full production cycle has been incorporated in our operating policy.

In June 1960 work on the first addition to the building got seriously under way. The additional space to be made ready by the fall of 1961 will increase the total capacity of the school to somewhere near 1100. At the close of 1960, construction was going forward on schedule under the direction of a dedicated building committee made up of John B. French, Chairman, Ernest P. Neumann, and Mrs. Norman Hapgood of Lincoln, and Mrs. Alan B. Stott, Secretary, Allan G. Bowry,

and K. L. Throckmorton of Sudbury. These individuals richly deserve the deep appreciation they have won from this Committee and the two communities for their painstaking and time-consuming service in planning and directing this large and complex capital improvement.

In September 1960 the Regional High School commenced its fifth year of operation with a total enrollment of 635 and a teaching and supervisory staff of 44. This compares with an enrollment of 247 and a staff of 19 when the school opened in 1956.

There is no basic change in the Committee's policy or outlook to report. Our objective, as previously stated, is to provide each individual student an excellent educational opportunity in a stimulating educational environment.

In pursuit of this objective, the Committee endeavors to direct its attentions at regular intervals to the quality of each of the essential parts of the school's operation. These are the staff, both teaching and supervisory, the curriculum, the guidance program, the so-called "activities" which include athletics, publications, etc., the physical facilities and the necessary housekeeping services, such as transportation, cafeteria, etc.

The Committee can report that it is pleased with the quality and level of performance thus far attained in each of these areas. While we are not always entirely satisfied with all of the particulars in a system expanding so rapidly, we recognize that growth brings opportunity for improvement in many ways, such as in the diversity of curriculum and in student programming. It also reduces the reach of the proven teachers over the entire student body and requires annual additions to staff who, in their turn, must prove themselves and adjust to the system. Not all do, or ever will, in this or any other school.

Finally, the Committee has a great financial responsibility to the two towns. While money alone will not obtain good education, good education will not be obtained without money. How much the communities want and how to take fair measure of their ability and willingness to pay for this is the Committee's most difficult task. We welcome more assistance than has thus far been obtained from public budget hearings and other limited opportunity to poll public opinion.

The Committee is indebted to our Superintendent, C. Newton Heath, and our Principal, Leslie M. Tourville, for guidance in the formulation of policy and for its faithful and exceedingly competent execution. Without question, the school's greatest asset is its staff of people, who in all levels of responsibility, have joined together in a remarkably harmonious

effort to obtain the educational objective set forth by the two communities.

Respectfully submitted,

VICTOR A. LUTNICKI, Chairman
 ELIZABETH B. HARDING, Vice Chairman
 KENNETH W. BERGEN
 ELLEN DeN. CANNON
 HOWARD W. EMMONS
 DONALD J. MacRAE

Treasurer.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

This fifth Annual Report of the Superintendent of Schools reviews significant phases of the operation, program, and evaluation of our activities.

The continued growth of the school has necessitated expansion of the teaching staff. Through our teacher recruitment program this past year, three members were added to the faculty, and there were thirteen staff replacements. These staff selections were made from approximately three hundred applications. To aid in the recruitment program a brochure is being prepared for distribution to various graduate school placement offices and other placement agencies.

The position of vice principal has been placed on a twelve months basis. During the summer of 1960 three members of the English department, two from the mathematics area, and a representative of the history department were employed on a limited basis to develop curriculum materials. The 1961 budget provides for approximately one fourth of the present staff to work on an eleven month basis. Such provision will enhance our academic offerings through improved courses, creation of teaching devices, and development of materials for large group instruction.

Our new building will relieve our present crowding and make possible a refinement of our class group sectioning which this year has been a handicap to the functioning of our schedule and program offerings. The availability of the lecture hall, the improved and enlarged library, an isolated industrial arts area, increased and improved science rooms, and enlarged physical education space will improve our total operation.

Dr. Leslie M. Tourville, Principal of the Regional High School, reports on the following:

"The presentation of this annual report marks the completion of our first four-year cycle with the graduation of ninety-four members of the class of 1960. During these four years of operation the school has begun to develop patterns and to accumulate statistics which reflect its growth. Below are some of these statistics, prepared by Mr. Paul Vernon, Director of Guidance, which may illustrate some of the school's activities in the area of academic achievement.

PLACEMENT OF OUR FOUR GRADUATING CLASSES

	Class of 1957		Class of 1958		Class of 1959		Class of 1960	
Four-year colleges	10	31.2%	13	34.2%	30	44.8%	45	47.8%
Two-year colleges	4	12.7%	1	2.6%	13	19.4%	8	8.5%
Nursing	2	6.3%	3	7.9%	0	0.0%	4	4.3%
Other Post-Secondary Schools	1	3.0%	3	7.9%	3	4.4%	18	19.1%
Post-graduate work	1	3.0%	1	2.6%	0	0.0%	2	2.1%
Married	5	15.7%	2	5.3%	2	3.0%	0	0.0%
Working	9	28.1%	13	34.2%	13	19.4%	13	13.9%
Military			2	5.3%	6	9.0%	4	4.3%
	32	100.0%	38	100.0%	67	100.0%	94	100.0%

NATIONAL MERIT SCHOLARSHIP QUALIFYING TEST

“In their Junior year forty members of the Class of 1960 took the National Merit Scholarship Qualifying Test. One of our students scored high enough to receive a Certificate of Merit. Six others were runners-up and each of them received the next award known as a Letter of Commendation.

“It is very interesting to note the high level of achievement of the forty students who participated in this test:

Six Areas Tested Percentage of our 40 students in the
Country's top ten percent and twenty-five percent

	10%	25%
English Usage	57.5	87.5
Math Usage	77.5	95.0
Social Studies	75.0	95.0
Natural Science	62.5	90.0
Word Usage	85.0	90.0
Total Composite	80.0	97.5

“The Regional High School Guidance Department has recently completed an Academic Inventory of talented students, that is, students with an intelligence quotient of 115 or higher. This is the same range of quotients used by Dr. James Conant in his widely publicized report. Our group consisted of 52% of the boys and 41% of the girls in the class of 1959 in comparison with the 15% used in Dr. Conant's report.

“This “Academic Inventory” is an attempt to identify the courses being elected by our more capable students. A satisfactory academic inventory would indicate that a **majority** of the “academically talented” students would complete:

1. 7 courses in English and Social Studies
2. 7 courses in Mathematics and Science

3. 3 years of a Foreign Language
4. 17 courses in the above areas during the four years.

ACADEMIC INVENTORY OF THE CLASS OF 1959

		Boys	Girls	
English	4 years	100%	100%	
Social Studies	3 years	100%	100%	
Social Studies	4 years	15%	30%	
Combination of English and Social Studies	} 7 years	100%	100%	
		15%	30%	
Mathematics	3 years	100%	45%	
	4 years	95%	10%	
Science	3 years	95%	65%	
	4 years	95%	20%	
Combination of Math and Science	} 7 years	95%	25%	
		95%	0%	
Foreign Language	2 years	100%	80%	
	3 years	80%	55%	
	4 years	70%	55%	
	5 years	20%	25%	
	6 years	0%	10%	
Total Number of Academic Subjects Completed in 4 years	} 16	100%	65%	
		17	100%	45%
		18	80%	35%
		19	70%	10%
		20	20%	0%

SUMMARY

“Boys — From the statistics above it is clearly indicated that our “academically talented” boys of the class of 1959 far exceeded Dr. Conant’s recommendations. They have elected Mathematics, Science, English, Social Studies and Foreign Language to a vastly greater degree than he has suggested for an ‘adequate’ high school program. Dr. Conant recommended that a **majority** of the boys should elect 17 academic courses in four years, and we find that 100% of our boys elected 17 courses and of these 70% elected 19 academic courses.

“Girls — The “academically talented” girls of the class of 1959 did not fare as well as their male counterparts in the evaluation of the high school courses they elected. The above figures reveal that the girls elected an adequate number of courses in English, Social Studies and Foreign Languages. However, they failed to elect sufficient courses in Mathematics

and Science and a majority did not elect 17 academic courses in four years as is recommended.

CONCLUSION

“From this study it would appear that our “academically talented” boys are pursuing very adequate scholastic programs while a majority of the “academically talented” girls are not electing the rigorous academic program of which they are capable. It would seem that one of the tasks of the school staff and the parents of these academically capable girls will be to induce them to elect courses of the number and rigor as those taken by our boys.

“It is interesting to note that this pattern of divergence between boys and girls is a national one as indicated in the findings of Dr. Conant's Study. It suggests that while the girls take courses which will assure them of college admissions they may not feel the need to extend themselves in further mastery of Mathematics and Science because of a failure to identify themselves with a lifetime career in these areas.’

“The Regional High School has continued its program of curriculum improvement during the past year despite the restrictions of the overcrowded building. A new approach through materials and methods was made to students of short interest span and limited reading ability in the study of History. In the English Department a simple “learning machine” was introduced and promises to be an effective teaching aid. A text was written by members of the Mathematics Department and is being used. The Business Department added a course in Business Organization and Management. It also contacted one hundred business offices and stores with a questionnaire devised for further curriculum improvement.

“In the area of Physical Education and interscholastic sports the school has maintained a highly creditable record. Over the past four years the teams have achieved a winning percentage of 75% of all games played, while the soccer team has won four straight Eastern Massachusetts championships. Our major focus, however, continues to be on the body-building aspects of calisthenics, gymnastics, tumbling, and intramural sports which affect all students.

“The daily schedule of classes was revised in September to permit a period of each day for the Music program to function. This has led to the establishment of choral groups ranging from seventy-five to two hundred students in size, as well as a forty-five piece school orchestra. The revised daily schedule also permits the expansion of a tutorial period which is now in operation an average of four days per week to assist students in remedial and enrichment instruction.

“Our school publications received awards and certificates of merit in national competition while the dramatic group

repeated its success of 1959 and won top honors in the New England competition. We are, however, hampered in the areas of Music and Dramatics by the lack of auditorium space and special rooms needed for these and other phases of school activities.

"College placement has been enhanced by constant visits from and to the college admissions officers. We find our candidacy well received and the placement of our students has been favorable and gratifying.

"During the past summer two boys and three girls from the Regional High School participated in the Student Exchange Program. This school year we have three girls from Norway who are visiting Lincoln and Sudbury and attending the high school."

The following matters need our early consideration:

1. The successful activities of the music department have brought into sharp focus the serious space deficiency in the form of music rooms and auditorium. These areas should be given early reconsideration, possibly before we reach the third building stage in 1964-5.
2. We should make provision for the establishment of language laboratory and electronic classroom facilities.
3. Plans should be developed for summer school opportunities of an enrichment nature for our students.
4. The continuing growth of the school requires positive action in curriculum planning to incorporate more Advanced Placement Programs in our system.
5. Our growth pattern dictates a need for varying educational opportunities for our "terminal" students; i.e., "work-experience" and courses in civic education.
6. Time for continuous research in curriculum and the construction of teaching units and materials should be provided for the staff on an annual summer basis. Funds for this type of professional activity should be increased each year to insure a greater percentage of our staff being involved on an eleven months basis.

There is a real job satisfaction for a superintendent in a school system where both the School Committee and the public believe the most important single influence for superior education is the total school staff, and where adequate financial support makes this belief a reality. A high degree of staff professionalism coupled with a sincere concern for making our guidance centered program really serve the needs of our high school youth, creates an excellent learning climate.

Respectfully submitted,

C. NEWTON HEATH

NO-SCHOOL SIGNAL

In the event of exceptionally severe weather conditions or when the transportation system is disrupted, WBZ, WCOP, WEEL, WHDH, WKOX, WNAC, and WSRO will broadcast the no-school announcement between 7:00 and 8:00 A. M.

Since weather reports are not always reliable, and since the School District desires to render maximum educational service, the schools will remain open except in very severe weather.

REPORT OF THE PARK AND RECREATION COMMISSION

During the second year of operation we have held regular monthly meetings at the Town Hall and a large number of special meetings at the Hall and in the field.

The purchase by the Town of the Featherland Farm property has provided for expansion of the recreational facilities of the Town and long range plans are being considered for the development of this property. At the present time tennis courts are under construction at the corner of Concord and Morse Roads. The Sudbury Little League has been granted use of a portion of the property and a field is under construction which they hope to have in use this year. The Sudbury Rifle Club has cleaned and started renovations on one of the buildings on the property for use by its members and other interested townspeople. Test borings have been made to determine the suitability of the area for use as a swimming area and further studies along these lines are contemplated for the coming year.

During the past summer the Commission has operated the Barton Pool for the smaller children of the town. Two lifeguards were in regular attendance and a large number of children made use of this area. In addition to this the two pools at the Vassalotti area were in operation most of the summer. One of these pools is for intermediate swimmers and the new pool, opened this year, is for more advanced swimmers and is equipped with a diving board. Attendance at these two pools increased steadily during the summer and with the improvements we hope to make this year, we expect to serve a growing number of teenagers as well as adults.

The skating rink, donated by the Kiwanis Club last year was erected on the pond area at the Horse Pond School and has had good usage. The basketball areas maintained at the Library and in the Pine Lakes area received almost year around usage.

The Commission worked with the Red Cross in securing the Walden Pond facilities for use by the swimming classes and it is hoped that the same arrangement can be made for 1961.

The commission wishes to thank the many people and organizations that have cooperated with us during the past year and we hope to be able to offer increased play areas during the coming year. We especially wish to thank Mr. Halper for his donation of the Barton Pool Land to the town as a recreational area and for his donation of a diving board for the Vassalotti pool. Also, Mr. Stevens for the donation of

signs, the Boston Edison Co. for electric service to the Vassalotti pool, The Sudbury Water District for water, and Chief St. Germain and the Fire Department for assistance in our pumping problems.

For 1961 we feel that our biggest job is to continue the expansion of our swimming facilities so that a larger number of people can be served and to get our tennis court program well under way.

Respectfully submitted,

RICHARD T. CUTLER, Chairman
 CURTIS HARDING, Clerk
 ABEL CUTTING
 KENNETH HANNA
 RICHARD HAWES

REPORT OF THE PERMANENT BUILDING COMMITTEE

In 1960 the Permanent Building Committee completed two elementary schools and a police station, and began construction on the Fire Department sub-station. In addition, preliminary planning proceeded on the Haynes Road Elementary School, the Goodnow Library addition and the Junior High School addition.

The final details of equipment and furnishings and building items were completed on the Fairbank School and this project is considered complete.

The General John Nixon Elementary School was completed in June and occupied in September of 1960.

The Israel Loring Elementary School was completed and occupied in December 1960.

The Police Station was completed and occupied by the Police Department in October 1960.

The contract for construction of the Fire Department sub-station on the Boston Post Road was let in November of 1960. Construction has been delayed because of a formal protest filed with the Department of Labor and Industries by one of the bidders. This problem has been resolved and the contract, as let by the Committee, has been approved. It is anticipated that this building will be completed by early spring of 1961. The site for this sub-station is a parcel on the land occupied by the Raytheon laboratory. We appreciate the cooperation offered by Raytheon Company in helping to clear the details of purchase of this land by the Town from John Hancock

Mutual Life Insurance Co., from whom Raytheon leases the site.

The proposed twenty room elementary school on the Haynes Road site must be started this year to meet the requirements of occupancy by September 1962. An article requesting an appropriation for this purpose will be presented at the Annual Town Meeting. The site on Haynes Road is not large enough for the twenty room school and an addition of approximately four acres must be obtained. This proposed twenty room elementary school will follow the general design and construction that has proved to be satisfactory in the four new elementary schools already completed and occupied.

The preliminary planning on the extension to the Goodnow Library indicates that it will be difficult to develop plans or estimates to present to a town meeting without proceeding further into final plans and specifications. The peculiar requirements of a compatible and functional addition to an existing building that is almost a hundred years old cannot be properly developed from preliminary plans alone. An appropriation will be sought at the Annual Town Meeting for sufficient funds to complete final plans and specifications.

The Committee is pleased to report that all projects completed or in process are within the budget established by the town appropriation. To date, the town has appropriated \$1,700,500 for work of this committee. At the end of 1960 \$1,405,546 had been expended. To date, we have achieved our objective of contracting or completing the building without need for requesting additional funds.

A survey examined by this Committee contains an item of interest to Sudbury taxpayers. The average total building cost per pupil for Massachusetts elementary schools is \$1,600. The average total cost per pupil for the Sudbury elementary school building is \$1,168.45 or 27% less than the state average. The economies that achieve this lower than average cost have not compromised the educational function for which the buildings were developed.

In 1960, Mr. Donald W. Neelon, who had been a member of this Committee since its establishment in 1958, resigned. He was replaced by Mr. William S. Warren, appointed by the Moderator.

The Permanent Building Committee appreciates the cooperation and assistance it has received from the town employees, boards and committees.

Respectfully submitted,
 EDWARD E. KREITSEK, Chairman
 ROBERT J. CALDWELL
 STEPHEN E. GRANDE, JR.
 FRANCIS E. PUBLICOVER
 WILLIAM S. WARREN

REPORT OF THE PERSONNEL BOARD

To the Board of Selectmen:

Last year was the occasion for a major revision of the Salary and Classification Plans. The new schedules were put into effect by the Town at the 1960 Annual Town Meeting. The Personnel Board feels that the salary levels then established continue in the main to reflect equitable wage rates.

Because the Town has grown rapidly in the last few years, however, some of the rates for the part time positions no longer provide adequate compensation for the increased work loads involved. Two examples come to mind.

Last year the Town appropriated \$700 for the services of Building and Wiring Inspector. This was a temporary solution accomplished without formally amending the Personnel Plan. The Board will recommend this year that the Plan be amended by setting up a separate rate for this position giving definite recognition to the fact that the duties of this position must be considered as being in addition to and not a part of those of the Fire Chief.

The work of the Town Accountant has increased to the point where a new rate should be set for this position. A specific recommendation will be made for the 1961 Annual Town Meeting.

The Board's main effort this year has been in developing Job Classifications, Standard Personnel Records and uniform

Rules of Procedure. These will be published shortly with the hope that they will contribute to the smooth handling of personnel matters as the Town continues to expand.

Respectfully submitted,

RICHARD A. SCHMALZ
WILLIAM F. HELLMANN
WILLIAM P. GORMBLEY
FRANCIS R. SHEEHAN
ERNEST D. PHELPS
Personnel Board.

REPORT OF THE PLANNING BOARD

During the year the Planning Board took action on the following:

9 subdivisions considered, involving 220 lots
53 nonsubdivision plans signed
11 site plans reviewed

This represented about 75% of the scheduled meeting time of the Planning Board members.

Additionally, our major efforts included a study of the Planning Board Subdivision Regulations and a revision which resulted in requirements which more adequately meet the needs of our fast-growing community. These Regulations are on file with the Town Clerk and are available upon request.

Regional planning has been discussed on frequent occasions throughout the year and Planning Board members have dutifully attended regional seminars and meetings held by the Framingham Association of Planning Boards, the Mass. Federation of Planning Boards, the Sub-Region 5B, and others. At the present time we do not feel that much has been accomplished in this field, however, we plan to continue our participation in the hope that better things are yet to come.

Through the past year the State has become active, yet again, in its perennial consideration of our Route 20 By-Pass. Many hearings have been held in the State House by the Department of Public Works during which two basic proposals were made:

- (1) Beginning at Robin Hood's Ten Acres in Wayland, and going west south of the Post Road, returning to Route 20 just west of Nobscot Road. This plan was basically approved by various town officials in both Wayland and Sudbury.
- (2) Due to the high cost of the above proposal, the DPW offered a compromise by-pass proposal which began

again at Robin Hood's Ten Acres travelling west just south of the Post Road and returning to it on the east side of the Sudbury River. From this point to Landham Road in Sudbury they planned to widen and straighten the existing Route 20. At Landham Road the By-Pass would again go westward south of Route 20 and return to Route 20 just west of Nobscot Road.

At the last hearing it was indicated by the Department of Public Works that funds were not available for the complete By-Pass at this time and they were proposing that only the section on the Wayland side be built for the present. It is not now possible for us to predict what the DPW will do in the Sudbury area. Needless to say this is a thoroughly discouraging situation for the townspeople in their effort to properly plan the development of this section of our community.

At the 1960 Annual Town Meeting the Town voted \$12,000 to hire professional assistance in developing a Master Plan. A Steering Committee was formed for the purpose of selecting a planning consultant. Our thanks go to the members of this committee for their efforts in making this choice. After frequent meetings and numerous interviews Mr. Charles Downe was selected as our consultant. The Planning Board then took immediate steps to apply for matching funds from the Federal government.

In the early spring it became evident that these funds would not be immediately available. It was decided by the Board to take \$2,000 of the funds voted to contract directly with Mr. Downe for the preparation of source data so that the gathering of information so urgently needed for our Master Plan would be delayed no longer than necessary. Through the summer months the following items were completed:

1. Base Map
2. Land Use Map
 - a. Topographic map
 - b. Slopes over 14%
 - c. Existing Land Use
 - d. Local Watersheds
3. Population Maps

At this time a preliminary report based on this data has been submitted to the Planning Board and is being studied and edited by the Board. This material will be made available in the near future.

Since the entire Master Plan was estimated to cost approximately \$36,000, and only the first stage (\$12,000) was funded

at the last Annual Town Meeting, the granting of the Federal funds makes it possible for the Planning Board to accomplish Stage 2 without requesting further funds from the Town. Thoroughly snarled red tape from here to Washington, by way of Boston, delayed the granting of the first Federal funds. The most recent, and final (?) knot was untied by unanimous vote of the Special Town Meeting in January, 1961. We have learned enough from this experience not to expect clear sailing in the future when dealing with complex governmental structures, but it is expected that funds for the third, and final stage will be requested at the 1962 Annual Town Meeting.

TRUEMAN JACKSON,
Chairman

SUMMARY

As usual I wish to warmly thank all town departments for their most cooperative attitude during the year. The Fire and Police Departments continue to work very closely. We of the Police Department are very pleased with our new station. This year we have been able to do the job very well with the men we have at this time. We also wish to thank the group of Merchants who showed their faith in us by purchasing a new floor waxing machine for our station and also gave us a sum of money for our association. We will try to do the very best job possible for the townspeople with the fine personnel and equipment which we now have at our disposal.

Very truly yours,

JOHN F. MCGOVERN, Chief
Sudbury Police Department.

REPORT OF THE SUDBURY PUBLIC HEALTH NURSING ASSOCIATION, INC.

To the Selectmen and Citizens of Sudbury:

The Sudbury Public Health Nursing Association takes pleasure in submitting its report to you for the year 1960.

The following are the total calls made by the nurses during the year:

Non-Communicable Diseases	413
Acute Communicable	22
Antepartum	3
Premature	3
Neonatal	5
Infant	14
Preschool	31
Crippled Children	4

School Health	173
Adult Health	52
Not at home and not taken under care	38
	758

A description of the above table of figures is enclosed in the report which is herewith submitted.

What has the Sudbury Public Health Nursing Association accomplished during the year 1960? It would be easy to quote the above list of figures for our answer, but would this give a comprehensive view of our generalized health program? Would this give a fair picture of the time spent in persuading a reluctant patient with a diagnosis of tuberculosis to seek treatment for his disease, or would this answer show the vision or hearing which has been saved by good casefinding, referral and follow-up? Further, would this answer take into consideration the anxieties which have been unburdened when the public health nurse visits the home for nursing care, health teaching, or supervision? This area of intangible accomplishments is a nebulous one — one which is sometimes difficult to envision, but nevertheless should be taken into consideration when it becomes time to review and evaluate a year's work.

Before we revert to our original question concerning the accomplishments of the Sudbury Public Health Nursing Association, some time, however, should be spent in reviewing the objectives of our association and in defining the term "generalized health program." Our goals — prevention of disease, promotion of health, and care of the sick — are small in number, but large in scope, and seem most efficiently achieved by our coordinated program. This program is one which is jointly administered and jointly financed by official and voluntary groups with direct community service performed by a single group of public health nurses. In Sudbury the participating members are the Lincoln-Sudbury Regional School, the Sudbury Public Schools, the Sudbury Board of Health, and the Sudbury Public Health Nursing Association. This type of program not only offers efficiency because of a minimum overlap of services and continuity of care, but also offers an opportunity to gain perspective of the overall health needs of the community.

The school health program continues to consummate a large portion of the total time spent in our community health program, but when the school age population is taken into consideration, this time does not appear to be out of proportion. During 1960 the school health services remained essentially the same as the previous year, with physical examinations, vision and audiometer screenings, immunizations and tuber-

culin testing, home visitations for purposes of health guidance and follow-up, and first-aid constituting the programs rendered. The significance of these services lies not in the program per se, but in the results. For example, the Massachusetts Division of Maternal and Child Health Services report that during the past school year, of all school children required to have a physical examination, only 13% were examined by their family physician. In Sudbury, 75% of all children examined were seen by their family physician. This percentage is commendable, we believe, because of many obvious reasons — the time factor, better facilities, and the family physician's relationship to the family unit. Also, is this not a positive learning experience which may develop into a positive health habit?

The vision screening program also commands notice. Of the 137 students who failed their vision re-test, 127 students received treatment from an eye specialist. We like to believe that this total resulted partially from good home follow-up and referral. Besides routine immunizations (Diphtheria-Tetanus and Diphtheria-Pertussis-Tetanus) polio was added to the list on the recommendation of the State Department of Public Health. Because of this program 522 students and school personnel were immunized.

A discussion of the school health services would be incomplete without mention of the home visitation program. Through this medium much can be accomplished. We feel that by making home health visits, more cooperation can be obtained, more family health teaching can be achieved, and more insight into the whole child can be gained. Because of this philosophy, there has been an upward trend in school health visits which we hope will continue during the coming year.

Although a large portion of time is devoted to preplanning and executing the forementioned programs, other community health services should not be overlooked. The last Wednesday in the month remains to be a popular time for the Well-Child Conferences which are held at the Central Nursing Office in the Junior High School Building. These conferences are financed by the Sudbury Board of Health and staffed by local pediatricians, a volunteer worker, and the nursing personnel of the S. P. H. N. A. During the past year 12 conferences have been held, with a total of 133 infants and children in attendance. This total in itself is not startling, perhaps, but the fact that 33 infants and children were new to the service seems to be indicative of progress in the area of prevention.

The school dental program, which is also financed by the Sudbury Board of Health, continues to serve a need for Sudbury elementary school children. A dental screening was

performed in a segment of our school population last year with approximately $\frac{1}{3}$ of the students found to require immediate or near-future treatment. 47 of these children received 282 fillings and 36 extractions at the school dental clinic.

Community health services during 1960 also included two polio immunization clinics which were held during the months of May and June. With the combined efforts of the Sudbury Board of Health, the S. P. H. N. A., Drs. John Nicholson and Michael Tristan, and many willing volunteers, this program was deemed successful. If we add the 466 persons who received immunization at these clinics to the number of students who were immunized at school, the number is most gratifying.

In our discussion of community services, the X-ray screening program should not be excluded. This program was held in October in cooperation with the Middlesex Tuberculosis and Health Association, Sudbury Board of Health, and the S. P. H. N. A. Not only was this service offered to Sudbury residents, but was offered to all Sudbury industries as well. Of the 446 residents receiving X-rays, only 2 persons required further follow-up.

In our generalized health program, nursing care to the sick has remained a small but valuable service. In the past year the number of nursing visits has decreased somewhat and as yet it is difficult to determine the causative factor. It possibly may be that oral drugs are replacing intramuscular medications. Perhaps nursing homes are replacing home care or perhaps this slight decrease in nursing visits indicates an age-shift in population. Whatever the factor behind this reduction in nursing visits, it remains our responsibility to continue to look for new or different methods to serve the nursing needs of the community.

What has the Sudbury Public Health Nursing Association accomplished during 1960? We like to think that we have achieved some prevention of disease, some promotion of health, and some nursing care to the sick, but should we remain satisfied with our accomplishments? Should we remain complacent because our present programs and services are relatively successful? We think not. We feel that there are many "new frontiers" in the field of public health nursing service. We believe that we should not remain satisfied with our small achievements, but we should be willing to go forward with new programs — programs which better meet the health needs of our community.

The first step toward this "new frontier" has already been taken. This step is a diabetic detection program which is being planned for the last week in April. To foresee the second step toward our "frontier" is not yet possible, but the

road is paved with innumerable possibilities — glaucoma screening clinics, student programs, improved geriatric services, for example.

With the continued interest and cooperation from the citizens of Sudbury these programs and more can not help but be successful, can not help but be profitable, and can not help but meet our objectives of more prevention of disease, more promotion of health, and more nursing care to the sick.

Respectfully submitted,

VIRGINIA WHITNEY, R. N.,
Senior Staff Nurse.

REPORT OF THE BOARD OF PUBLIC WELFARE

Year Ending December 31, 1960

To the Citizens of Sudbury:

Herewith is submitted the report of the Director of the Board of Public Welfare.

ROLAND R. CUTLER, Chairman
RICHARD C. HILL
LOUISE F. WYNNE
BEULAH A. STONE
ALFRED F. BONAZZOLI

Board of Public Welfare
Sudbury, Massachusetts
Gentlemen:

The Sudbury Board of Public Assistance operates under the direction of the Massachusetts Department of Public Welfare and it is responsible to conform to the laws governing the various categories of assistance as well as to adhere to regulations promulgated by the State Agency in order to qualify for reimbursements by the Federal and State governments. Assistance is based on need, grants to recipients being determined by a budgetary system set up by the Commonwealth. Regulations require that the cost for medical care and supplies shall be provided, and during 1960, this constituted approximately one-third of the total amount expended for assistance. Charges for nursing homes and hospital care have

reached an all time high. The Director of the Division of Hospital Costs and Finances has established a rate of \$6.50 per day for nursing homes, and efforts are at present under way for an increase in this rate. Each January, a new fee schedule for the various hospitals throughout the State, is issued, and in 1960, a rate of approximately \$25.00 per day was set for the hospitals in this area ordinarily used by our recipients. Although the number of persons, receiving assistance in recent years, has generally decreased, grants to recipients have steadily increased, because of the rising cost of living and because of soaring medical costs. On July 1, 1960, all recipients received a 5.2% cost of living increase.

Aid is rendered in the categories of Old Age Assistance, Aid to Dependent Children, Disability Assistance, and General Relief. As of October 1, 1960, a new category of Medical Assistance to the Aged, became effective. This aid is intended for those recipients who are patients in nursing homes, chronic hospitals or public medical institutions, where the patient needs no other residence. In this category, eligibility requirements are more liberal, and at present it is difficult to anticipate the number of new cases who may apply, but eight recipients who formerly were in receipt of Old Age Assistance were transferred to Medical Assistance to the Aged, and one new case has been added. Under this new program, Towns and Cities will receive increased Federal and State reimbursements, the Federal government paying one-half of the total costs, and the State paying two-thirds of the remainder, while the locality bears the cost of the remaining one-third. During 1960, a total of forty-one persons were aided under Old Age Assistance, and at the end of the year, twenty-seven cases remained active. The unusually large decrease was due to the fact that eight cases were transferred to Medical Assistance to the Aged. As of January 1, 1961, all Recipients of Old Age Assistance will receive an increase of \$1.50 per month, this amount being designated for additional travel allowance which was formerly \$2.50 monthly and now \$4.00. Five cases with a total of thirteen children were aided under the Aid to Dependent Children Program, and at the end of the year, three cases with a total of eight children, remained active. Two cases were closed because need no longer existed. Three cases were aided during the past year under the category of Disability Assistance. At the end of the year, two cases remained active, one case having been closed because of death of the recipient. As of January 1, 1961 Recipients of Disability Assistance received an increase of \$6.50 monthly, four dollars of which was designated for, Leisure Time Activities and two dollars and fifty cents for Travel Allowance. Until 1961, recipients of Disability Assistance did not receive an allowance for these items. General Relief or Temporary Aid

continued in a very light degree. The sum of \$552.24 was paid to another community for two cases not living in Sudbury, but with Sudbury settlements. One hospital bill of \$393.25 was also paid for a Sudbury resident.

The Welfare office is staffed four days each week, Monday through Thursday, but in cases of emergency, any member of the Welfare Board may be contacted. The personnel of this department wished to thank the Board members and other Town officials for courtesies, and cooperation extended throughout the year.

Respectfully submitted,

MARY M. LAFFIN,
Director.

HOME SERVICE COMMITTEE

Mrs. Norma Edelman, Chairman

The Home Service Committee handled 6 cases in 1959 and 5 cases in 1960.

TRANSPORTATION COMMITTEE

Miss Hazel Ring, Chairman

The volunteer drivers of the Transportation Committee made the following trips during 1959:

- 8 to Framingham Union Hospital
- 1 to Peter Bent Brigham Hospital
- 1 to Massachusetts Memorial Hospital

The Transportation Committee made no trips in 1960.

FIRST AID AND WATER SAFETY PROGRAM

Mrs. Bette Littlefield, Chairman

1959

The Red Cross Water Safety Program, during the summer of 1959, gave swimming lessons to 305 children. Of these, 151 passed the requirements for certificates in the various classes.

The Red Cross was able to send Miss Leslie Sears to Aquatic School to earn her Instructor's Certificate. She and Miss Nancy Schuhle conducted the Junior Life Saving Course.

We again wish to thank the Frost family for enabling our classes to be conducted at Whites Pond.

For the Beginners, Intermediate and Advanced classes, we had 8 instructors.

1960

For the first time, the Red Cross Water Safety Program was conducted at Lake Walden in the private area of the Pond. It enabled the program to take in 420 children making up six classes lasting all day three days a week with ten instructors teaching. Due to the change in the swimming program, it was possible to screen the children and place them in their proper classes, allowing for advancement according to their ability.

There were 125 certificates issued for the different classes, including 19 Junior Life Savers, and 5 Senior Life Savers to the 5 assistant instructors.

BLOOD PROGRAM COMMITTEE

Mrs. Mary Ellen Gale, Chairman

As in past years, the Wayland and Sudbury Red Cross chapters cooperated in a combined blood drive using the facilities of the Red Cross Bloodmobile and the Parmenter Health Center in Wayland. On June 4, 1959, Sudbury residents donated 25 pints and on May 10, 1960 they donated 22 pints.

On August 12, 1960, a blood drive was conducted at the Raytheon plant in Sudbury. 66 pints were credited for use by Raytheon-Sudbury employees and their families and also Sudbury residents.

The dates for blood drives in 1961 will be as follows:

Combined Sudbury - Wayland	May 5, 1961
Raytheon - Sudbury	March 1, 1961

JUNIOR RED CROSS COMMITTEE

Mrs. Elizabeth Burekes, Chairman

Junior Red Cross started in 1940 when 320 children in 14 rooms comprised the entire school system. Now over 600 at Regional are enrolled and participate in service under the direction of the Student Council, and over 1700 more are enrolled in 72 classrooms of the Elementary Schools.

At the Junior High, a student council, for the first time, has written its own skit and taken over direction of the enrollment and service program. Three other assembly programs were held at Horse Pond, Nixon, and Fairbank Schools, presented by the children from a script prepared by the JRC Chairman reporting on last year and what we would do this year. At the Edison School and in all Grades 1 - 3, homerooms were visited by mothers who told the story so this age could understand.

The enthusiasm and eagerness with which these assemblies were entered into, and the response given, shows they are becoming a well-remembered part of school experience. As such, the teaching staff has given them greater recognition, and appreciation, and teacher sponsors have been appointed in each school. They will become more active as each school settles down into its own building.

With the money contributed this year, \$75 was sent to the National Children's Fund, which helps other children in time of need such as the Chili earthquake and the Japanese typhoon. Most popular again was the filling of 185 small gift boxes, each with 10 or more articles for use or fun, such as pencils, paper, comb, hair ribbon, toys, sewing kit — which go as an expression of friendship to children of other lands.

Back from Peru have just come 25 thank you letters in Spanish from some of the children who received the 145 boxes sent last year.

Various gifts were also made to hospitals including 100 greeting cards for veterans to send at the VA Hospital in Roanoke, Virginia. A year ago, Junior Red Cross paid the shipping on 300 pounds of clothing sent to the small town of

Brent, Ontario, whose only contact with the world is the Canadian Pacific Railway. This year we sent the clothing gathered at the Edison School for Christmas to a needy family in Kentucky.

Thus we have continued the broad program of educating children in what Red Cross is and does — providing them opportunities suited to their years to participate in service and friendship for others in tangible ways they can understand.

CLOTHING DRIVE

The Sudbury Red Cross Chapter conducted a midsummer drive for clothing for Chilean earthquake victims; since midsummer in Massachusetts is midwinter in Chile, the need was great. Hundreds of articles of warm winter clothing were given to help meet this need. Our thanks to the many who contributed, and a special word of thanks to the members of the Fire Department who cooperated in the use of the Fire Station as a collection center.

FUND DRIVE

Every contributor of five dollars or more to United Fund Drive in the fall of 1960 is considered to be a member of the Red Cross for 1961 and is entitled to attend the annual business meeting of the Sudbury Chapter.

We wish to express our appreciation to all those whose generous support, either directly or through the United Fund, enables us to continue our service to the community.

Respectfully submitted,

DAVID G. ARMSTRONG, Chairman
 ROBERT A. BAREISS, Vice Chairman

REPORT OF SUASCO WATER SHED ASSOCIATION, INC.

To the Board of Selectmen:

I submit herewith a report of the Suasco Water Shed Association, Inc. This is now at a complete standstill due to the actions of state and government personnel. The Board of Directors has disbanded for the time being. We feel now that nothing will be done on the Sudbury River.

Respectfully submitted,

HARRY C. RICE,
Treasurer, Suasco Water Shed
Association, Inc.

THE SUDBURY FOUNDATION

The following brief report of the activities of the Sudbury Foundation, together with a commentary on its objectives, has been submitted by the Individual Trustees and is hereby made available as public information.

December 31, 1960

THE SUDBURY FOUNDATION

The Sudbury Foundation, founded December 30, 1952, has been able to serve those purposes for which it was created in nearly every respect.

The charitable purposes set forth in the Trust Indenture are:

1. Payments to educational institutions for worthy and needy students, particularly students residing in Sudbury, for the purposes of furthering their educations and increasing their capacity for usefulness, through loans granted on very liberal terms, or through outright grants, if, in the discretion of the Trustees, the applicant seems worthy.

The Foundation's record to date is forty-seven loans to twenty-four boys and girls from Sudbury, totalling \$26,079.24 to assist them in financing their college tuition and board. Of the above, four have repaid the Foundation, and others are gradually repaying money so loaned.

2. Payments to churches in Sudbury for capital improvements, repairs, current operations and other church purposes. There have been no additional payments this year, but to date our record is \$10,422.61, paid to the churches of Sudbury for capital improvements, repairs, church schools, etc.
3. This year a grant of \$100 was made to The Sudbury Public Health Nursing Association, Inc., to provide extras to worthy and needy persons, who for various reasons, are in need of assistance and comfort to ease their plight and increase their joys. A similar grant was made during the first year of the trust.

The Sudbury Foundation, organized exclusively for charitable purposes and supported primarily by the contributions from the general public, is exempt under Section 501 (2) of the Internal Revenue Code. Contributions to it are a proper deduction in a contributor's income tax, as a charitable contribution. This fund should be of particular interest to the citizens of Sudbury when they consider their charitable donations, as it is operated almost exclusively for the citizens of Sudbury.

Again, there have been no contributions to the fund this past year, but it is our hope that as the Foundation continues to prove its worth to Sudbury, more community support will follow.

If you know of anyone who would like to make a gift to this fund, or leave a bequest to it under their will, we suggest that they write to the Trust Department of The Mechanics National Bank of Worcester, Worcester, Massachusetts.

REPORT OF THE SUDBURY SCHOOL COMMITTEE

Sufficient building space continues to be a major problem facing the School Committee. The problem of increased enrollments will be facing us for several years to come. The use of the Nixon School in September 1960 and the Loring School in January 1961 was much later than scheduled. As of January 1961 we have adequate classroom space. In an attempt to solve the space problem we pointed out in our last year's report that we need a new twenty room elementary school by September 1962 and an addition to the Junior High School by September 1963. Sometime ago we established educational specifications for these two buildings and we are urging that immediate action be taken in order to provide the necessary space by the time it is needed.

A study must be inaugurated to consider the next step in building construction. A problem related to school location is the growth and cost of the transportation system. It is becoming apparent that there is need for sidewalks for the use of school children as well as others. Various factors are causing the Commonwealth of Massachusetts to reduce the transportation allowances, and sidewalks would pay for themselves over a period of years.

The Superintendent of School's report provides more details about our educational program, but we especially would like to call attention to some outstanding features of our system. We are making constant efforts to improve our educational program; we are continuing the development of our non-graded system which was also reported last year; and we are requiring our pupils and teachers to spend more time in the pursuit of learning. All teachers are on duty ten months a year, and some are working eleven months. The administrators have been on a full calendar year. We are very proud of our entire staff, many of whom are gaining recognition even beyond our own system. Our merit salary plan aids us in attracting and keeping good teachers.

We have continued our study of common problems that face the Lincoln, Sudbury and the Lincoln-Sudbury Regional School systems, by joint committee meetings from time to time. We are pleased with the generous support received from so many of the townspeople of Sudbury who, like us, are determined to have an excellent educational system. We urge continued and increased interest in the efforts of such groups as the Citizens Council for Sudbury Schools and the various Parent-Teacher Associations. We are confident that educational progress is greater when school and home work together.

We wish to publicly extend our thanks to our Superintendent of Schools, our entire staff, the many town officials and the citizens who have helped us so extensively during the past year.

LAWRENCE W. TIGHE, Chairman
 ELLEN JANE SIEGARS, Vice Chairman
 JOHN A. ANDERSON
 ROBERT P. BOWEN
 EDWARD C. PLUMLEY

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

This is the sixty-third annual report by Superintendents of Schools in Sudbury and the fourth one by the present school administrator. The calendar year 1960 was similar to the four preceding ones in that our school population continued its very rapid growth rate and classroom space needs created serious scheduling problems. However, during the year 1960 substantial advances were made in the many phases of our educational program.

The following report of Miss Janet Broadbent, Supervisor of Elementary Education, cites activities at the elementary level:

Introduction

"Increased school population, staff additions, a new school and curriculum changes have been present in the Sudbury Elementary Schools again in the year 1960. The willingness of our entire staff to accept changes, and to maintain high standards of work from our pupils made it possible to accomplish many things during the past year. However, these factors cause my position to be most rewarding.

Curriculum Notes

"Any school system should be continually revising its curriculum to keep pace with the changing needs of its pupils. Likewise, it is advantageous to carefully observe any innovation to be sure satisfactory results are being achieved. Since many changes have been instituted in recent years, this has been an important facet of the last year's work.

"In the field of reading, more difficult materials for able pupils at all grade levels have been purchased. The use of the **Science Research Materials** has been employed in certain

grades. These materials permit a pupil to progress at his own rate and can be easily checked by the teacher so that assistance can be given when any difficulty arises. The success obtained through use of these materials warrants additional purchases.

“Due to limited and outworn materials in the area of language, a committee of teachers examined texts and talked with consultants and recommended the purchase of materials edited by Edna L. Sterling, Director of Language Arts for Seattle, Washington and published by D. C. Heath and Company. The series emphasizes a thorough understanding of grammar and early use of correct terminology, i.e., nouns, pronouns, etc. These books are not expected to be a complete course of study but rather an initial step in improving our program.

“Due to the fact new programs have been instituted in Reading, Handwriting, Arithmetic, Social Studies and Science during the last two and a half years, these subjects are being carefully observed by teachers and administrators to note both strengths and weaknesses.

“The Educational T. V. Programs, produced by WGBH, are constantly being improved. Programs in Science, Music, Literature and French are used at appropriate grade levels. Better instructional guides for teachers are now available and the services of the coordinator of the French Program, Madame Frances, are available to us on a limited basis. Madame Frances works with both teachers and pupils about once a month. She has been most complimentary about the Sudbury Schools.

Teaching Methods

“The acceptance of the Non-Graded Program which was started at the Center School in September, 1959, and which is now in operation at the General John Nixon School has been most gratifying. Eight rooms comprise a Primary Unit and six rooms an Intermediate Unit. A difficulty noted in the 1959-1960 school year was that pupils who may start slowly, who may transfer from other school systems or who may have difficulty with a certain phase of the school program, often cannot advance into a faster moving group, when they have overcome their difficulties, because the omission of material might compound their problems. Thus, a transition teacher has been engaged who can aid pupils in bridging these gaps. Because continual evaluation is very essential in the program, this teacher also carries on the testing program. With the extension of the program into an intermediate unit, it becomes even more evident that it will be at least three years before we can truly appraise this type of program.

“Grouping among the classes at each grade level in the Horse Pond Road, Fairbank and Loring Schools continues to

be based on reading achievement. Although no plan is a panacea, the general achievement level of our pupils indicates that this plan is working successfully. The groups within our classes are flexible and a pupil can be transferred into another class of the same grade level whenever his achievement indicates it.

"A few classes are employing 'Team Learning' in arithmetic. This plan was devised by Dr. Donald Durrell and several of his associates at Boston University. Two pupils similar in ability and achievement work together and with the teacher. It permits desirable competition which is very practical in the field of arithmetic.

Testing Program

"The results of the spring testing program were most gratifying. One important aspect of a standardized testing program is to measure pupil progress from year to year and another is to permit school personnel to interpret how Sudbury's teaching methods and content compare with the country as a whole. In ability, the median (middle point) score of Sudbury pupils is slightly above average. In April, 1960, in every subject, Sudbury pupils were at or above median in achievement in all areas tested.

"Pupils were scheduled by appointment for their first grade reading readiness tests. The staff is most appreciative of the cooperation received from parents. This eliminated pupils being assigned to one teacher and then being reassigned a few days later, which in previous years, was of concern to both pupils and teachers.

"The growth of our school population warrants in the near future a person specifically trained in the administering of tests and the interpretation of them.

Reporting to Parents

"Again this past year, the staff has promoted the Parent-Teacher Conference as a means of keeping parents informed of their children's progress. This form of exchange of information between parent and teacher is most helpful. The Group Conference held in each classroom at the beginning of the school year afforded the teacher an excellent opportunity to explain the work of the ensuing year. Attendance at these evening meetings was most rewarding.

For Immediate Consideration

- "1. An opportunity for teachers during the summer months to:
 - A. Prepare teaching materials.
 - B. Develop courses of study.

- C. Investigate teaching machines and additional use of audio-visual aids.
 - D. Re-evaluate present curriculum areas.
2. Extension of the Non-Graded Program.

Conclusion

"The support which the Sudbury Elementary Schools receive from the townspeople is most gratifying. The present teaching staff is the finest with which I have ever been associated. These factors combined, place our schools in a very desirable position."

Mr. William Mayer, Principal of the Junior High School, reports on the educational activities at the Junior High School level:

"The individualization of the Junior High School student's program allows a high degree of flexibility for placement in academic subject groups. Each student has the opportunity to work to his capacity at his own rate and to be successful within a particular class group.

"The Student Council is contributing to the social and managerial activity of the school. Members of the Student Council have added the sponsorship of the Junior Red Cross program to their functions.

"The Activity Program, begun in 1958, has expanded the number of interest centered activities to include: Girls' Chorus, Boys' Glee Club, French Club, Girls' Shop Club, Natural Science Club, Boys' Chef Club, Knitting and Handsewing Club, Physical Science Club, Dramatics Club, Photography Club, Debating Club, Audio-Visual Club, Chess Club, Radio Club, Model Making Club, Free Reading Club, Newspaper Club, Art Club, and a Mathematics Club.

"During the course of the year educational specifications were drawn for an addition to existing facilities to take care of anticipated enrollment growth.

"The September 1960 Junior High plans called for the complete utilization of both buildings for classroom space. A lag in the Loring School Building Program required the re-allocating of classes to allow three classrooms to be used for elementary grade students. The September 1960 enrollment showed an increase of sixty students. The six period day has been changed to a seven period day to accommodate the following program expansions:

Social Studies

"As a result of the continual evaluation of our program, more emphasis is being placed on map study skills and

geography as it influences history. A multi-text approach is being used to expose a student to the views of different authors. Community resource people have been invited to meet with classes and have contributed to the school program. Field trips have been most helpful to students. The presidential election was carried on complete with campaign speeches, voting, and an opportunity to view the Town of Sudbury's actual voting procedure.

Language Arts

"As a result of discussion by teachers with specialists in the area additional materials have been developed for the reading program. Other areas, spelling, grammar, etc., are being surveyed and revised.

Mathematics

"Two eighth grade groups, selected on the basis of previous performance, are working with the materials of the School Mathematics Study Group which are being developed at Yale University. A regular program of seventh and eighth grade mathematics is being carried on in other sections. Mathematics teachers, during a summer workshop, developed a much needed curriculum. A program has been developed whereby teachers are able to observe each other's methods and procedures. Consideration is being given to the introduction of a master teacher program.

Science

"Science instruction has been increased from four to five periods per week. Another classroom has been equipped as a science laboratory. The total school 'Science Fair' held last spring was so successful a similar program will be undertaken again.

French

"French is required of all seventh grade students and is elective for eighth graders. The aural-oral conversational method employed has been extended to include basic reading and writing skills.

Industrial Arts

"The addition of a second teacher has allowed us to extend the time for Industrial Arts. Also, it has allowed us to offer Mechanical Drawing as an elective for eighth graders. This course is new to the school program, designed to be an exploratory experience for students who have an interest in engineering.

Homemaking

"For the first time, two classroom spaces and two teachers are available for the girls in homemaking. Girls in each grade

take a half year of foods and a half year of clothing. Child care, good grooming, nutrition, and etiquette are involved in the total program.

Vocal Music

"A major improvement has been made by the purchase of a new piano and a Hi-Fi record player. These have strengthened the program of singing and listening. Student reports are correlated with a survey of music theory. Plans are now ready to include the school in the Channel 2 televised music program.

Physical Education

"A major effort has been made this year in expanding the intramural program. This affords more students the opportunity to participate in individual and team competition.

"A greater emphasis this year is being placed on individual physical fitness.

Art

"This teaching area is now located in the Old High School building. Separate storage facilities and a sink in the room help the operation of the Art classes. The program is highly correlated with the social studies program.

Library

"The library is now located in larger and more convenient quarters in the brick building. Book circulation has increased one hundred percent while enrollment has increased only twenty-five percent. About five hundred new books have been purchased this year. A survey of books read showed an average of 24.1 books per pupil as opposed to 13.5 books per pupil in 1959. Circulation averaged fifty-two books per day. An audio-visual department has been set up under the direction of the librarian. Film strips were purchased, catalogued, and filed with existing audio-visual aids.

Instrumental Music

"During the 1959-60 school year the band met during the Activity Period. In June, the band presented a concert for the Dover Elementary Schools.

"September, 1960, saw the formation of a Junior High Orchestra. The band and orchestra each meet twice a week during the home station period.

Personal Typing

"A typewriting course for all students, two periods per week, has been introduced this year. This course not only provides a tool for use when students reach high school and college but also provides an exploratory experience for potential business students. Twenty-five typewriters and the necessary classroom furniture were provided from federal aid funds.

Guidance

"The guidance program has been expanded to include individualized and specialized testing in addition to the school-wide testing program. Certain teachers have been assigned time to discuss with students and parents academic and social progress and plans for the future.

Conclusions

1. High quality teaching is being maintained; at the same time procedures are strengthening the program.
2. Additional staff is required to meet the problems created by increasing enrollments.
3. Staff reaction concerning time for planning and curriculum study indicates a necessity for a twelve month year. The operation of a guidance centered school makes many more demands on the faculty of the school than the operation of a traditional program.
4. Consideration must be given to the physical facilities which would allow additional teaching methods for better staff utilization. These programs have been discussed, and some experimentation has been carried on."

Staff expansion has kept pace with our increased enrollment. Added to the staff in 1960 were the following: two elementary school principals, eleven elementary teachers, one part time special subject teacher, five junior high school teachers, two custodians, one maintenance worker, three secretaries, and three cafeteria employees. The position of Business Manager was created at the office of the Superintendent of Schools. Expenses for this newly created office are shared with the

Regional District.

Our 1961 school budget includes the addition of six elementary teaching positions, two special subject teachers, and one junior high school assignment. Also included are two custodians.

The October 1, 1960 census reveals the fact that Sudbury now has 1547 pre-school children. This is the first time that our pre-school population has exceeded our enrollment in grades one through six. Current figures show 204 more "under school age children" than are enrolled in our elementary schools. This indicates clearly that our staff needs will continue to expand annually for the next six years and probably at an increased rate.

Previous planning had designated the two-room South School as the central supply and book storage as well as maintenance headquarters, but tentative enrollments indicate that we shall need this building for classrooms next year.

Recommendations

1. During the summer of 1961 approximately one-fourth of the teaching staff will return for four weeks of curriculum development and non-graded pre-planning. This is our first step toward an eleven month year for the teaching staff. Future plans and budgets should provide for a larger percentage of staff involvement on a calendar year basis.
2. The Channel 2 Television Programs in music, science, and elementary French, have implemented our regular classroom teaching, but at present only one television receiver is available at each school. At least one additional set should be provided at each elementary school and three additional receivers at the junior high school.
3. Teaching via electronic devices is proving to be effective, and Sudbury should plan to add to its present facilities the newer of these, i.e., overhead projectors, language laboratory equipment, and teaching machines.
4. Planning monies were appropriated last March for another elementary school and an addition to the junior high school. It is imperative that both these buildings be voted immediately. Otherwise, there will be no alternative but to resort to double sessions within the next two or three years.
5. The enrollment growth calls for added staff services in the very near future:
 - A. A science coordinator for grades one through eight.
 - B. Department heads in English, mathematics, social studies and science at the junior high school.
 - C. A psychometrician to serve all grade levels in the area of test administration, evaluation, and interpretation.
 - D. A coordinator of audio-visual instruction including television and electronic classroom teaching.
 - E. A cafeteria supervisor.
6. A committee should be appointed to work directly with the School Committee for the express purpose of projecting our school building needs for the next ten years and recommending in which of our school districts plant expansion should receive priority.
7. Space for adequate and effective library functions should be provided at each elementary school. The present classroom library corners serve a minimal need only.

8. If our present program of instrumental music continues to expand, proper space must be made available in each elementary building.
9. The present triple-threat use (auditorium, cafeteria, and physical education) of the multi-purpose rooms in our new elementary schools is taxing these facilities to the hilt. It is presently impossible to expand and improve our present program of elementary physical education.

Sudbury has the services of a truly professional teaching staff and capable, dedicated workers in supervision, maintenance and secretarial functions. Supported by adequate financing and with strong citizen interest in educational excellence, our School Committee has provided an educational service of which we can be proud.

Respectfully submitted,

C. NEWTON HEATH,
Superintendent of Schools.

SCHOOL ENTRANCE

Any child who is five years and six months of age on September first of the current school year may be admitted to the first grade, but in every case admission of a child under six shall be dependent upon the fitness of the child to profit by the work of the school, such fitness to be determined by the Superintendent. A child who is five years six months or five years seven months shall be eligible for admission only if he has a mental age of six as established through an individual test of mental ability, and who is physically fit and socially mature.

NO-SCHOOL SIGNAL

In the event of severe weather (storms or sub-zero temperatures) or when the transportation system is disrupted, WBZ, WCOP, WEEL, WHDH, WKOX, WNAC and WSRO will broadcast the no-school announcement between 7:00 and 8:00 A. M. In addition, blasts 2-2-2 will be sounded on the fire alarm at 7:00 A. M. and 7:30 A. M. This audible alarm is for the elementary school only. The Regional High School will be announced on the above radio stations.

We feel these signals are clear, and therefore urge parents to refrain from flooding the homes of School Department personnel with telephone calls. Parents should **not** call the Fire Department on its emergency line which is HIlltop 3-2323.

On days when the signal is not used, weather conditions may warrant the non-attendance of certain children. Lack of normal health would tend to make it advisable for parents to keep a child at home. Since weather reports are not always reliable, and since the School Department desires to render maximum education service by having the schools open on the greatest number of days, storm signals will not be used on ordinary rainy or snowy days.

CLIFTON F. GILES,
Town Accountant.

REPORT OF THE COMMITTEE ON TOWN ADMINISTRATION FOR THE YEAR 1960

Many of the major projects of your Committee on Town Administration were disposed of in previous years, through the work of subcommittees made up of competent and well-informed volunteers and assisted by the invaluable and whole-hearted support of the officials and boards of the town. The work of the Personnel Subcommittee, for example, represented an effective contribution to town administration, and resulted in the recommendation of a personnel by-law which was adopted by the town. The work of the Finance Subcommittee resulted in a comprehensive chart survey and forecast published in the last Town Report. As a result, forecasting and advance programming of capital outlays were taken over by the Finance Committee. This will serve to mention just two.

Your Committee hopes that any town citizen who would like to work with us, or has any suggestion for committee activity or study will feel free to contact any of the Committee members. Your ideas and help will not only be appreciated, but are necessarily indispensable to the progress that can be made in taking up projects worthy of attention.

Public Works

A Public Works Subcommittee was formed last year. Its members are Joseph M. Maher, Daniel B. Jameson, Anthony P. Urgotis, and John B. Perry, Jr., with attorney Alan I. Alford serving as counsel and Chairman.

This subcommittee was set up to study such matters as the office of the highway surveyor, equipment, public recreation, the office of the Town Engineer, and the question of the town's taking over the Water District, in which last-mentioned matter its studies were subordinate and auxiliary to that of a special committee formed by the town to explore that specific subject.

This subcommittee has to date been preoccupied with the task of gathering data, and is expected to submit a preliminary report in the next Annual Town Report.

Executive Secretary

A detailed study was made by your Committee on the advisability of having a town manager or an executive secretary, and its written report was set out in the Town Report for 1956. Legislation proposed by the Committee for an executive secretary was narrowly defeated in 1957, but the subject continues to generate much interest. We have received

numerous requests for copies of the written report from many citizens. Your Committee has responded to the renewed interest in the subject by undertaking at this time a review of the entire matter, particularly in the light of the marked growth of the town and the increased complexities of town administration over the past four years, with a view to determining whether new legislation should be proposed for action by the Town Meeting.

Board of Selectmen

Your Committee is studying a separate proposal that the membership of the Board of Selectmen be increased from three to five. Bound up with that proposal are the questions of whether a five-member board would be an effective step to better government, and whether such a board would be a satisfactory alternative to either an executive secretary or a town manager. Information on this study will be made available.

Legal Expense

Your Committee is conducting a comparative survey of the expenditures of various towns for legal expense, in an attempt to shed some light on the marked increase in recent years in the town for legal fees and expenses. In addition, the town counsel by-laws of certain towns are being examined, with a view to possible improvement of the town's own by-law on this subject. Information on this survey will be made available.

The Future Program

In addition to the foregoing projects, your Committee is eager to continue its work to determine whether Town Meeting procedures cannot be further improved and streamlined. Since historically Sudbury was the birthplace of the New England Town Meeting, the Committee feels that the present trend of lengthy, complex warrants and marathon town meetings endangers the effectiveness of the institution, designed to provide for pure democracy in action. In this connection, serious study should be given to the advisability of the representative town meeting.

Respectfully submitted,

J. FLEET COWDEN, Chairman

REPORT OF THE TOWN ENGINEER

January 15, 1961

To the Board of Selectmen
Sudbury, Massachusetts

Gentlemen:

I hereby submit the following report for the year ending December 31, 1960.

During the year 1960 this department has received requests for information from practically every department, board and committee of the Town. The following is a description of some of the more important requests.

Requests were received for the preparation of plans and descriptions for street acceptances; for the printing of zoning maps; to attend conferences with officials of the Department of Public Works; Boston and Maine Railroad, and the County Commissioners with regards to lay-outs, land taking, and drainage easements; for plans and descriptions of the new Fire Station lots, Police Station lot, Haynes Road School site, Library lot, Little League ball field and Tennis courts; to check property transfers, assign street numbers, and for information necessary to grant approvals for release of subdivision bonds.

Concord Road, Plympton Road, Water Row Road, and Lincoln Road have been surveyed and many of the property bounds have been located for the purposes of completing this area for the assessor's maps. Although a great deal of time has been allocated to this area both in field work and office work there still remains a great deal more to be done because of the very indefinite descriptions of the individual parcels of land. This area for which proper description can not be obtained at the Middlesex Registry of Deeds will have to be determined from field surveys. In order to complete these field surveys this department must obtain permission from the individual land owners to enter their land for the purpose of locating property corners.

This department has found it necessary to establish a card Index system of approximately 3000 property owners or parcels of land in order that we may stay ahead of the ever increasing number of property transfers. This system will also be of upper most help, when time will permit, in the searching of properties for the original owners.

This office has obtained many plans that are on file at the Registry of Deeds in Cambridge and the Land Court in Boston. It is our desire to obtain copies of all the plans on file

within the next two years. We have checked the number of plans needed to bring our records up-to-date and find that we are in need of approximately 650 plans.

I wish at this time to express my thanks to the Town Departments, Boards, and Committees for their cooperation during the year. I also wish to express my thanks to those who worked sincerely to make this Department a success.

Respectfully submitted,

GEORGE D. WHITE,
Town Engineer.

Mr. Clifton Giles,
Town Accountant
Sudbury, Massachusetts

Dear Sir:

The following statement of appropriations and disbursements for the year 1960 is as follows:

	Appro- priation	Expendi- tures	Balance
Salaries	\$10,450.00	\$10,378.28	\$71.72
Expenses	750.00	748.00	2.00
Travel Expense	600.00	600.00	-----

Respectfully submitted,

GEORGE D. WHITE,
Town Engineer.

Approved,

CLIFTON F. GILES,
Town Accountant.

REPORT OF
THE TREE DEPARTMENT ON
SPECIFIC PROJECTS

To the Citizens of Sudbury:

The past year has brought us into a new phase of tree care — pruning, culling and offset selection of specimen trees. Roads listed are as follows: Concord Road, Lincoln Road, Great Road and a partial amount of Maynard Road.

Following is a financial report for the year 1960:

Town Grant		\$3,300.00
Salaries:		
E. T. Ferguson	\$96.00	
	<hr/>	\$96.00
Expenses:		
E. T. Ferguson	\$54.80	
Alpine Tree and Landscape	2,997.00	
James H. Cookman Company	14.00	
	<hr/>	\$3,065.80
Total Expenditures		\$3,161.80
Balances		\$138.20

Respectfully submitted,

ERNEST T. FERGUSON,
Tree Warden.

Approved,
CLIFTON F. GILES,
Town Accountant.

REPORT OF THE TREE DEPARTMENT

To the Citizens of Sudbury:

Trees this year were to be pruned over the entire town by utilities.

This was let on contract. Relations with contractor and trees became poor, so as a result they were stopped.

I agree with many arborists that tree work should not be done on contract or to any living organic thing or being.

Continuing work study and effort is constantly being used to keep trees out of reach of progress. Pruning of young trees at the proper time allows for shape desirably and less need of heavy pruning in future years.

Following is a financial report for the year 1960:

Town Grant		\$4,200.00
Salaries:		
E. T. Ferguson	\$1,706.00	
Augustus DiBiase	15.00	
Theodore Davison	15.75	
	\$1,772.75	
Expenses:		
E. T. Ferguson	\$403.08	
Augustus DiBiase	7.00	
Alpine Tree and Landscape	1,894.06	
Robinson's Farm Machinery	3.35	
Town Line Hardware	22.77	
James H. Cookman Company	85.18	
	\$2,415.44	
Total Expenditures		\$4,188.19
Balance		\$11.81

37 $\frac{3}{4}$ Days Utility Supervision.

Respectfully submitted,

ERNEST T. FERGUSON,
Tree Warden.

Approved,
CLIFTON F. GILES,
Town Accountant.

REPORT OF
THE TREE DEPARTMENT ON
TREE PLANTING

To the Citizens of Sudbury:

The past year has given us about eighty new trees. Some were planted, some reclaimed and three were furnished by contractor to compensate for a cutting error.

Much gravel and rock composed new locations, so soil and fertilizer was brought in.

Following is a financial report for the year 1960:

Town Grant		\$2,500.00
Salaries:		
E. T. Ferguson	\$160.00	
	<hr/>	\$160.00
Expenses:		
Alpine Tree and Landscape	\$1,057.00	
Town Line Hardware	33.91	
Murphy & Snyder, Inc.	10.15	
Eastern States Farmers Exchange	163.15	
E. T. Ferguson	198.94	
Littlefield-Wyman Nurseries	833.50	
	<hr/>	\$2,296.65
Total Expenditures		\$2,456.65
Balance		\$43.35
Garden Clubs		\$25.00
		<hr/>
		\$68.35

Respectfully submitted,

ERNEST T. FERGUSON,
Tree Warden.

Approved,

CLIFTON F. GILES,
Town Accountant.

VETERANS' SERVICES

To the Board of Selectmen:

Following is a report of the Department of Veterans' Services for the year 1960:

All cases were investigated and had the approval of the Commissioner of Veterans' Services and the Town will be reimbursed 50% by the State.

A new law passed in 1960 provides for the town to be reimbursed for money spent in cases where Veteran or family has to be assisted because of an accident covered by insurance. We had one such case in 1960 and the town was reimbursed in full.

Families in need were assisted. Hospitalization and medical care provided as required.

Cases that were not Sudbury Settled were investigated, applications taken and mailed to agents of other towns and cities with copies to the Commissioner of Veterans' Services.

Assistance was given with applications for pensions and compensations. Applications taken and submitted to the Commissioner.

Appropriation — 1960	\$5,000.00	
Balance as of December 31, 1960	2,336.28	
Money spent for assistance — 1960		\$2,663.72
Reimbursement — Accident Case	\$528.30	
Reimbursement — State (1961)	1,067.61	
		\$1,595.91
		\$1,067.81
Cost to the Town of Sudbury for 1960		

Respectfully submitted,

MARY E. QUINN,
Veterans' Agent and Director.

Approved,

CLIFFORD F. GILES,
Town Accountant.
