Subject: Eversource - Clarification Field Work by VHB and time schedule

Good morning Melissa,

Following up with yesterday's email, I believe the planned field work needed more clarification as well as to share this work will take approximately two months to complete in all four communities (Sudbury, Hudson, Marlborough and Stow).

Our consultant, VHB, shared that they will not be cutting any brush or trees along the MBTA Right of Way. VHB will be doing vernal pool surveys, wetland delineation and forest cover type mapping. Their equipment will include soil augers, dip nets and trays and GPS equipment.

No vegetation will be cut as part of these activities.

If you have any additional questions, please contact me.

Thanks,

JoAnne O'Leary

Community Relations Representative

**Contractor Letter of Introduction Eversource Survey Work on Massachusetts
Bay Transportation Authority (MBTA) Property**

Dear Neighbor,

The intent of this letter is to keep residents informed about various field activities such as land and environmental survey associated with the proposed Sudbury to Hudson Transmission Reliability Project on the MBTA property in your area. The MBTA has given permission to Eversource and authorized representatives from the following firm to access the right-of-way properties and proceed with the necessary field related activities as needed.

- Vanasse Hangen Brustlin, Inc. (VHB)

Over the next few weeks, you may see company representatives in your area performing field activities on the MBTA property. Hours of survey activities work may be performed anytime between 7a.m. - 7p.m., Monday – Friday.

If you have questions about this work, please call the Eversource Transmission Information Line at 1-800-793-2202 or email us at TransmissionInfo@Eversource.com.

Thank you.
