 Apr. 4. John H. Perkins, widower, 88. Apoplexy.
 Apr. 28. James Dow, single, 69. Suicide.
 May 11. Lucy Ann Seaverns, single, 76. Paralysis.
 May 14. George E. Harrington, married, 58. Apoplexy.
 May 28. Jeremiah L. Parrish, married, 70. Blood poisoning.
 May 30. Amanda F. Lyman, widow, 81. Bright's disease.
 June 21. Hobart M. Noyes, married, 57. Intestinal paralysis.
 July 8. Althine F. Bement, married, 57. Disease of Pancreas.
 Oct. 17. Delia Maynard Powers, widow, 87. Apoplexy.
 Feb. 2. John Whitman Rice, widower, 82. Fracture of thigh. Died in Framingham.

The average age of the 20 persons recorded above is remarkable, being 71 years, 6 months 18 days; not one death of less than 30 years of age.

The following persons were buried in town during the year who died elsewhere.

Feb. 16. Assarena Lindgren, 40, married. Died in Marlboro.

Aug. 5. George Edward Young, 1 month, infant. Died in Somerville.

Aug. 7. Clara J. Lovell, 68, married. Died in Roxbury.

Aug. 20. George W. Taft, 38. Died in Stow.

November 27. Eliza Ann Oliver, 83, widow. Died in Maynard.

November 28. Bridget Smith, 48, married. Died in Waltham.

Of the whole number recorded above, 18 were buried in Sudbury and 10 in other places.

Of those who died in town, one occurred in Jan., five in Feb., four in March, two in April, four in May, one in June, one in July and one in October, none in Aug., Sept., Nov. or Dec.

Eight of the 20 first named were born in Sudbury, four in Ireland, one in Me., two in Vt., and five in other towns in Mass.

The Town Clerk takes this occasion to repeat in substance what was published in his last annual report; that is that the return of births and deaths made to him are many of them incorrect or incomplete, or both, and more care and promptness on the part of those whose duty it is to make the returns, is at least desirable.

The blanks required will be furnished on application to the Town Clerk.

All of which is respectfully submitted.

JONAS S. HUNT,
Town Clerk.

Sudbury, March 1st, 1906.

Report of the Board of Health.

Gentlemen :

We were very unfortunate this year, in losing by sudden death, one who had for some time been the clerk and agent of the Board.

There have been several isolated cases of scarlet fever, some of typhoid, and a general outbreak of the measles.

Last year the Board had been used to the obsolete way of flagging infected premises and putting notices on the doors of the houses. It was voted to have cards printed, but the procuring of the same was overlooked until the measles were upon us, and behold, there were no cards and the epidemic was half over before they came.

It must not be known to the general public, that notice must be given in case of measles, even when there is no attending physician. Doubtless the disease has formerly been considered of not much account, but there are sequels, pneumonia, bronchitis, glandular swellings and sore eyes. Unfortunately the stage of greatest infection is while the patient is coughing and does not really know what is the matter, the stage of desquamation being short and not very infectious, unlike scarletina.

Mr. Huntley was very prompt in carrying out proper measures in his part of the town.

Mr. J. S. Hunt was chosen as clerk and burial agent to take Mr. Harrington's place, as it seems to be important that the officer should be at the Center of the town and easily reached.

Resp't'ly,

GEO. A. OVIATT,

Sec'y.

Tree Warden's Report.

Amt. expended for destroying pests,	82 50
Use of horse and wagon for same,	29 00
Tools,	1 95
Cash paid,	1 62

Total, \$184 19

I have been over every road in town, and carefully looked the trees over. I found the brown tail moth in every section. I have done the best I could to exterminate them. It is almost impossible to see them all, as some of them are so carefully hidden among the branches.

A Word to Property Owners

I would suggest to property owners that they be a little more prompt in looking over their orchards and shade trees as ordered by the State Supt., and keep our town as free as possible from these pests.

Yours respectfully,

Wm. E. BALDWIN,
Tree Warden.

 Board of Road Commissioners.

Auditor's Report.

To the Board of Selectmen, Waldo L. Stone, Chairman.

This is to certify that I have carefully examined the books and reports of the following town officers : Selectmen, Overseers of Poor, Trustees of Goodnow Library, Town Clerk, Road Commissioners, Tree Warden and Supt. of Cemeteries, and find them in perfect form and supported by proper receipts and expenditures.

The Treasurer's books and report have been carefully examined and the receipts and expenditures are entered in proper form and disposed of in like manner, and the balance of \$8,571.10, including uncollected taxes agrees with that of the Selectmen's balance.

The books and report of the Treasurer of the School Board only show an overdraft of \$102.74, which should be according to Selectmen's orders drawn against the school account an overdraft of \$300.74. The difference is caused by bills to the amount of \$198.00 that was properly approved by the other members of the board that was not honored or accepted by the School Treasurer as a just expense against the school account.

The Collector's books and report were not examined thoroughly, as all reports were ordered in by March 13th at noon and the books and report did not reach my hands until the 12th inst., thereby giving too limited a time for proper examination.

Yours respectfully,

H. M. HALL,
 Auditor.

Report of Clerk of Trustees Goodnow Library.

Gentlemen :

Being requested to make a report in regard to Goodnow library,
I submit the following :

There are many needs and few chances of getting them supplied. The town granted one hundred dollars toward paying the debt, which helped a great deal. At the same time there has not been enough money in hand to pay the expenses of carrying on the work of a well conducted library.

The library should be classified and a card catalogue made.

The books on the shelves should not be taken down except by the librarian, or else extra shelves provided, where books inspected can be left to be replaced by the librarian alone, so that they will be found in their regular order. There are notices all over the building, warning people not to disturb the books, but in the reading room there is not much chance for the librarian to see what goes on.

The performance of advertising for bids for the position of librarian is a farce, as power is given to the trustees to do as they please about accepting the bids. Often they prefer to keep one they are used to, unless the party prove unsatisfactory.

It is a great misfortune that a liberal salary cannot be paid to both librarian and janitor so that efficient work could be done and the parties be incited to good work, so that they might be sure of retaining the positions as long as they should desire them.

There have been some very instructive and valuable books added

to the list this year. In regard to the fiction of today the less said the better. One turns with pleasure to the earlier writers of the last century, which are as good reading as ever.

Many thanks are due to Mr. A. F. Rowe of South Sudbury for the great amount of careful typewriting he has done in the way of lists and supplementary catalogues.

Resp'tly yours,

GEORGE A. OVIATT,
Clerk.

Trustees of Goodnow Library.

The trustees are pleased to announce the re-appointment of Miss Cutter to the position of librarian which she has so acceptably filled in previous years, and to report that the condition of the building and contents will compare favorably with years past. They also wish to call attention to improvement in the grounds and avenue leading from the library to the square, the unsightly bank-wall and fringe of bushes and briars having been removed and a commodious sidewalk constructed. The thanks of the trustees and the public generally are due Mrs. Turner, for her interest and action in the matter.

FRANCIS F. WALKER, Treasurer,
GEO. A. OVIATT, Clerk,

Report of School Committee.

To the Citizens of Sudbury :

The Committee having accepted and ordered to be printed the reports of the Supt. of Schools, Principal of the High School, and the Supervisors of drawing and music, you are respectfully referred to said reports for a detailed statement of the work that is being carried on in your schools. Speaking in a general way, we are happy to be able to state that we consider your educational system to be in a very satisfactory condition and a credit to a town of our population and financial valuation. Our school buildings are nearly all in good condition. The rooms and furniture in all the buildings with exception of the North Sudbury primary have been gone over and thoroughly renovated during the past year. The walls in the Intermediate were newly plastered and a new hard wood floor put in. A room was finished and fitted up with shelves, at the rear of the high school room, for storing books, etc., and the high school and Wadsworth building were painted outside. In regard to the expense incurred in this work, we would state that but little in this line had been done for some years, and a large amount of labor and material were required to put the properties in proper condition. We feel well satisfied with what has been accomplished in this direction and with the care the teachers and scholars have taken of their rooms since they were repaired. We wish to report the following expenditure on account of schools not reported by the treasurer of the School Committee.

Paid J. Stanley Rice for transportation of pupils, \$198.00.

Relative to the transportation in the North Sudbury district, we wish to make the following statement of facts. During the winter term of 1904-5, trouble began to manifest itself on the barge and several complaints were lodged with the committee. Some time about the middle of the term Mr. Austin, the driver, sent letters to some of the parents and guardians complaining of the actions of the children while in his charge.

As the term passed on, matters did not improve, and the three members of your School Committee visited the high school building to investigate, and if possible find the cause of the friction and trouble on this route. We called the children out separately, and without one exception they told of things they had done themselves or seen others do while in the barge that was not in accordance with the preservation of order and good behavior, some of them testified that the driver had sworn at them and spoken to them in a manner that could not help lessening their respect for his authority.

After giving the matter considerable thought a majority of your committee came to the conclusion that a change of drivers on this route would be of benefit to the service, and when we received the bids we awarded the contract to Mr. J. S. Rice.

We recommend that the sum of \$5,725.00 be granted for the support of schools for the ensuing year and will state that no grant for the salary of superintendent will be required.

In conclusion we wish to thank the superintendent and teachers for their faithful efforts during the year. It would be a difficult thing to find a more earnest and efficient corps of teachers than we have at the present time.

Respectfully submitted,

FRANCIS F. WALKER,
THOMAS F. O'NEILL.

Minority Report of the Sudbury School Board.

Sudbury, Mass., Feb. 28. 1906.

To the people of the Town of Sudbury,

Gentlemen : I have not signed the report of the School Board and I wish to state here why I have not.

I cannot approve of the course pursued during the past year of Mr. Walker and of Mr. O'Neil, the other two members.

I cannot approve of their course in respect to taking the contract of transporting the pupils of North Sudbury away from Jeremy Austin and giving said contract to J. S. Rice for a higher bid.

Last April when we opened the bids for transporting pupils, or rather before we opened them, we voted and agreed to give the preference to the old driver, provided there were but a few cents, "like ten or fifteen," difference between the old driver and a new bidder, unless there were good and sufficient reasons shown.

In accordance to that vote when we came to the bids of Mr. Noyes and Mr. Hunt, we still retained Mr. Noyes, although he was underbid by Mr. Hunt fifteen cents per week. Then when we came to the bids of Mr. Austin and of Mr. Rice, Mr. Austin being the then present driver, Mr. Austin was not only the lowest bidder, but was the lowest bidder by ninety cents per week, and notwithstanding that he was the then present driver, the contract was taken away from him and given to the new bidder for (90) ninety cents per week more. I objected to that course as wholly unfair and unjust.

Now I wish to say right here that I did no more for Mr. Austin at that meeting then I would have done for any other of the drivers. If Mr. Bills or Mr. Perry or Mr. Hall or Mr. Noyes had been deprived of their contract in that way I would have stood up for them just as much as I did for Mr. Austin, and I think they all know it.

What I have done since has been done as one of the parents. I have a boy of my own on that barge and am as much interested as anyone.

Within twenty-four hours the parents presented a petition to the Board, signed by all the fathers and mothers, asking them to still retain Mr. Austin, saying that they were perfectly satisfied with him and did not wish any change.

The mothers also went before the Chairman and the Board three separate times and did all in their power to have them retain Mr. Austin, and failing in this they last June notified the Board in regular session that as a last resort they had concluded to put Mr. Austin on themselves and pay him, and that at the next March meeting insert an article in the town warrant asking the town to pay them for transporting their children and would trust to the justice of the people to see them paid.

These parents will be at the March meeting and lay their case before you, and I hope and trust that you will grant what they ask. Do as you would be done by.

There are a few other things which I would like to speak about.

First, the condition of the different buildings. Last spring the town voted to paint and repair the Centre and Wadsworth buildings, and the town granted \$100.00 to paint and repair the Centre building and \$175.00 to paint and repair the Wadsworth.

The painting and repairing of the Centre building was given into the entire charge of Mr. O'Neill and the Wadsworth and Landham to Mr. Walker. These buildings are now in fine shape. There has been nothing done at the North building where I have charge, excepting putting in a new pump and pipes in the well.

The building needs painting and repairing some and I would

respectfully request that a certain amount of money be granted for that purpose. What repairing has been done there I have done at my own expense.

The other members of the Board kindly asked me if I did not wish to do some painting and repairing there this year, and offered to give their consent to it, but there was no grant, and I knew the other buildings had cost so much and that the prospect was that we were going to overdraw, that I told them we better wait another year.

In regard to the teachers in the various departments I am very glad to say that we have a fine staff in every particular, and I think it would be hard, yes, very hard, to improve upon them.

We have had to make some changes on account of some of the teachers resigning, but we have been very fortunate in securing their successors.

This is all I care to say, and perhaps the last of this has been mentioned in the majority report.

Respectfully submitted,

FRANK P. BARTON.

FRANK P. BARTON,
Treasurer of School Committee.

Report of Superintendent of Schools.

To the School Committee of Sudbury.

Gentlemen : I have the honor to present the eighth annual report since the formation of the Union district.

BUILDINGS.

During the summer vacation the Centre building was thoroughly renovated and repaired, and it needed all that was done. Clean, pleasant school buildings are essential and too much stress cannot be laid on the influence of environment on the pupils.

The Wadsworth and Landham were also subjected to the same course of treatment, and these buildings as well as the Centre present a different appearance from that of last year.

The care shown by the pupils in keeping their rooms and the hallways in good condition is the best evidence that they appreciate the new state of affairs.

SPELLING.

For a number of years the spelling of the pupils in many sections of the country has been quite severely criticized, and justly so. Because of this criticism investigations were started to determine the cause or causes for such a state of affairs.

The most important of these were made at Sioux Falls, Iowa, and at the school of pedagogy, New York University, New York City.

As a result of the study of the conclusions reached at these places, the following plan was instituted nearly a year ago, in all the schools in the union district of Wayland, Sudbury and Dover.

A lesson of five words is assigned and studied by teacher and pupils orally pronouncing each syllable as it is spelled.

After a careful study of these words they are spelled orally, pausing after each syllable, but not pronouncing it.

These same words are then spelled with the pen by the pupils, and practice is given in using them correctly in sentences. This is done four days in the week and on Friday the twenty words so learned are thoroughly reviewed; particular stress being laid on their correct usage. The teachers report gratifying results.

It may seem that twenty words a week are too few, but beginning with second year and continuing through the remaining eight grades, counting thirty-six weeks to the year, the pupils will learn to spell and use five thousand six hundred and sixty words, a vocabulary larger than that used by a large majority of the people of this land. It has been found out that many pupils are unable to pronounce words because of their inability to divide them into syllables.

ARITHMETIC.

There is no subject in the curriculum on which so much time and energy is spent as that of arithmetic. Eight years with daily recitations are given to the pursuit of this subject with results entirely incommensurate to the force applied. There seems to be two kinds of arithmetic, mental arithmetic and detrimental arithmetic, with the latter kind far in the lead.

Lately the teachers have been trying to perfect the pupils in the mechanics of this subject, i. e., to teach them to add, multiply and divide accurately and rapidly, to perform operations without the use of pencil and paper, to omit the non-essentials and to fit the subjects taught to the business of daily life.

Much valuable time is wasted because the pupils are not proficient in the four fundamental operations and they become discouraged and lose confidence in their ability to perform ordinary examples.

Is it not time that this subject should be shorn of of its "morbid excrescences."

ENGLISH.

While spelling and arithmetic have received special attention, the teaching of English has not been neglected. To speak correctly and express thought in terse idiomatic language, both oral and written, and to gain an intimate acquaintance with the best authors has received careful attention.

This subject demands and should receive persistent and hearty effort on the part of both teachers and pupils.

OTHER BRANCHES.

Commendable progress has been made in other branches.

MANUAL TRAINING.

That the Commonwealth recognizes the value of manual training is shown by the fact that in 1898 this law was enacted, Revised Laws, Chapter 42, Section 9.

"Every city and town containing twenty thousand inhabitants or more shall maintain the teaching of manual training as a part of both its elementary and its high school systems."

Essentially this says that there are other means than books for developing the mind. While Sudbury cannot introduce a complete system of manual training, there are many things along this line that could be done which would be of benefit.

A visit to any manual training school or grades where this subject is taught would prove profitable.

It is not the province of this report to discuss this subject, but to suggest that it is worth investigating.

TEACHERS.

There were no changes in the corps of teachers during the year ending June 1905.

DRAWING AND MUSIC.

Drawing under the direction of Miss Hosmer and music under the charge of Mr. Mason have shown a marked progress.

That the schools have advanced during the past year is due to the efficient work done by the faithful and progressive teachers who have had charge of our schools.

UNION MEETINGS.

Soon after taking charge of the schools in this superintendency district it seemed to me that the work of the schools should be unified: that there should be conference of teachers of the different towns, also of the committees; uniform text books and the same course of study for all: that the committees and teachers should have an opportunity to meet members of the State Board of Education or its representatives, and a chance given the state to know of the teachers of this district.

After consulting with the secretary of the State Board and the committees of the several towns it was decided to have three union meetings a year: one in the fall in Dover, one in the winter in Wayland, and one in the spring in Sudbury, and that the state be represented at each meeting. The first one was held the last week of September, 1904, in Dover, and like all subsequent ones was a thoroughly enjoyable and successful meeting.

The following is an outline of what was done there. Exercises began at 9.45 a. m., with Mr. Richard H. Bond, chairman of the Dover committee, in the chair. Devotional exercises were conducted by Mr. F. F. Walker, chairman of the Sudbury committee.

At ten o'clock Mr. George H. Martin, secretary of the State Board of Education, gave a talk on "Ideals." At 11 o'clock the

teachers held conferences, and the joint committee held a conference with Mr. Martin. Adjourned at twelve o'clock for lunch. Convened at 1.45 p. m., at which time Miss Lillian A. Ordway of the Framingham Normal school gave a talk on "Geography as a Background for History." Adjourned at three o'clock. This is typical of the programs of the meetings held since.

In furtherance of the plan of unification, all the schools in the district have the same course of study and uniform text books in reading, arithmetic, geography, history, penmanship, music and in grammar in the upper grammar grades.

It is the opinion of both teachers and committees that these meetings have been beneficial.

I wish to thank the teachers and committee for the heartiness with which they have aided me in my work.

Respectfully submitted,

JOSEPH T. CORLEW.

Report of Principal of High School.

Mr. Joseph T. Corlew, Supt. of Schools :

As Principal of the Sudbury high school I herewith submit the following report.

During the past year the attendance has been about the same as in former years. We began the year with an enrolment of twenty-three pupils, and during the year three have left. It is an interesting and pleasing fact to note that of this number nine are first year pupils. Of the thirteen graduates of the grammar school last June, twelve entered high schools and eleven entered the high school here. This seems to prove that the people of the town realize the advantages of a high school education. If the succeeding classes add twelve to fifteen members to the high school each year, it is plain to see that in a few years Sudbury high school will have an enrolment of forty instead of twenty. As to the regularity of attendance, I am sorry to say, that it is not what it should be, although there is a marked improvement as compared with last year's data. It seems to me the parents are more to blame for this than the pupils. An effort, yes, a great effort should be made by all parents to have their children at school every day; for no pupil can do himself justice who is absent once or twice a week.

The parents should also encourage home study, for it is necessary and lessons are assigned with the expectation that each pupil shall do some studying at home. Not only should the parents give them opportunity, but should see that they use it.

This year we have been following a definite course of study, prepared for us by the superintendent. I have heard the complaint

made that we are not following that course of study. Allow me to state that in only two cases has an exception been made and that was in the combining two classes to save time, which is a very important factor in a small high school. A course in agriculture was added to the course of study last year, and studied with interest by a number of pupils.

During the year an interest has been awakened in athletics, a new but by no means an unimportant element in a high school. Owing to the small number of pupils our success has been limited. The advantages derived from this branch are many : it gives the pupils a topic for conversation, something to interest them outside of school hours; it unites them, teaches them to help one another, and, if the contests are played as they should be, tends to develop many qualities in them.

Of course the needs of the high school are many, but I will only refer to a few. The arrangement for heating the high school room is poor. It is impossible to keep an even temperature, generally varying twenty degrees in different parts of the room. This question of heating applies to other rooms as well as the high school room, and I advise that this be considered before another winter and some change be made.

The different schools in the building ought to be supplied with water in some way. Just what arrangement could be made I cannot say, but it is plain to everyone that pupils staying on the school grounds, as most do, from 8.30 a. m. until 3 p. m., and eating their dinners there, ought to be supplied with drinking water at least.

Our equipments for work in physics and chemistry are not what they should be, in order to properly fit scholars for college. A laboratory in a small school cannot be supplied with all requirements in one year or two years; but if a little is added each year to the supply we already have, we should soon have enough apparatus to do creditable work.

I wish to add that all the teachers at the Center building appreciate very much the improvements made during the summer vaca-

tion, and have tried their best to keep the building in good condition.

The pupils in the high school are very agreeable to work with, and the time I have been with them has been very enjoyable. As to the progress made during the year I feel encouraged; for I can see a marked improvement in many respects.

I wish to express my sincere thanks to all who have worked with me in the interest of the school.

Respectfully submitted,

G. EARLSCOURT DENISON.

Report of the Supervisor of Music.

Mr. J. T. Corlew, Supt. of Schools :

Dear Sir : I herewith submit my fifth annual report.

The study of music is being continued along the same lines as last year with practically no changes in the general method of teaching, but with an effort to do better and more efficient work. New books were placed in the grammar and high school last fall. There has been a decided improvement in the high school chorus this year owing partly to the increased number of male voices; partly to the new music book which contains so many delightful choruses; and largely to the enthusiastic way and manner the assistant teacher, Miss Sanders, has carried on the work.

That there is a strong and healthy school spirit and a live interest in music among the teachers and scholars was proved by the splendid rendition of the cantata "King Winter," given in the town hall, December 15, '05, by the scholars of the Centre school.

Your supervisor feels especially proud of the performance because it was given with no outside assistance. The solos were sung by our own girls and boys, while the choruses for soprano, alto, tenor and bass were delightfully rendered in four parts by the combined schools, and to the teachers, great credit is due, for it was through their untiring efforts in teaching the cantata that the success of the performance was made possible.

I desire to thank the teachers of the town, the members of the Committee, and our Superintendent for their kindly interest in assisting me in my work.

Respectfully submitted,

HOWARD MASON,
Supervisor of Music.

Report Supervisor of Drawing.

Mr. Joseph T. Corlew, Superintendent of Schools :

In submitting my third annual report on drawing in the schools of Sudbury, I quote a few lines from an article recently published by a well known educator of Boston :

"Is devotion to art in the public schools a sentiment or a conviction? Is the zeal of the specialist a fad or has he a mission? Is the money paid for public school drawing an expense or an investment?"

"In attempting to answer these questions they will be dealt with as one general inquiry and all comments will be based on observations over a wide field for twenty years; from seeing drawing taught in about a hundred cities in some twenty-five states each year, and not from the point of view of a theorist or of a specialist, and certainly not from a personal, professional or business interest.

"What are the characteristics of states and cities that earliest and most uniformly teach drawing? They are cities which are by universal consent the most delightful in which to make a home when one seeks the maximum of favorable conditions and minimum of undesirable circumstances; they are states in which one finds the maximum of skilled labor, the highest wages, the most social stability, the most civic progress, and the most of public and private provision for the defective and unfortunate classes.

"Is this a mere coincidence? Probably not, for all indications point to the fact that such interested attention to the eye, the hand, the thought, as is given in the teaching of drawing, develops skill to earn more as an artisan, to expend it more wisely, to take

better care of one's material possessions, to have higher ideals of personal life and public effort.

"If there is any considerable element of truth in these generalizations from a wayfarers' observation, then those who are devoted to the promotion of art in the public schools may be believed to have conviction behind their sentiment; the zealous specialist may be credited with having a mission, and the public money may be charged up to the dividend paying investment account."

The force of these words will be felt by all who have given the subject serious thought. Drawing and the different branches of art should influence every life for good, making not only one's surroundings better, but truer men and women as more and more one is enabled to appreciate God's beautiful nature.

I most certainly realize the responsibility of my position and trust that in some slight way I may help to guide others to see more in the common walks of life.

We have continued with our work in all the grades very much on the same lines as last year, having some definite reason for every drawing.

In the high school the students worked upon harmonies last fall, and I offered a prize to the pupils who made the best book. Four drawing teachers in Boston acted as judges, and while it was very close between Miss Alice Harrington and Miss Helen Moore, the committee finally awarded the prize to Miss Moore. After these two the next best books were made by Miss Gladys Gerry and Miss Bessie Parmenter. The work was excellent and all showed much intelligent thought.

I thank you, Mr. Corlew, and members of the school committee for your kindness to me this year and all the teachers who have so faithfully and enthusiastically rendered assistance in this phase of school work.

Respectfully submitted,

FLORENCE HOSMER.
