

Sudbury Construction Update - Winter 2022/2023

Dear Neighbor,

Eversource's contractor BOND Civil & Utility Construction and their subcontractors (ET&L Construction Corporation, M-O-N Landscaping Inc., and Moosehead LLC) are working on the Eversource 115 kilovolt (kV) Transmission Reliability Project in your area. This upgrade is one of a group of projects designed to improve the reliability of the electric system. Construction activities are not expected to interrupt electric service.

Crews are located in the inactive Massachusetts Bay Transportation Authority (MBTA) rail corridor in Sudbury, from the Town line to the Eversource Sudbury Substation located off Boston Post Road.

Initial activities in the inactive MBTA rail corridor have been completed through the establishment of construction entrances at road crossings. In the coming weeks, contractors will be clearing vegetation, removing rails and ties, and grading work areas to make way for the installation of duct bank and cable vaults. Please scan the QR code below to sign-up for routine email updates if you'd like to learn more about the Project.

Work Hours

Approved work hours are 7 a.m. to 6 p.m., Monday to Friday but crews will be working **from 7 a.m. to 3:30 p.m.** Due to unforeseen conditions like weather, occasional activities may extend beyond these approved hours based on feedback from municipal officials.

Traffic Management

We coordinate closely with the Sudbury Police Department and Town officials to maintain a safe and effective flow of traffic around work areas. Local access to property owners and businesses will be maintained along with vehicle traffic.
