## Eversource 115-kV Project Update

Greetings!

Members of the community can expect to see construction activities at several sites related to the Eversource 115-kilovolt (kV) Underground Transmission Line Project. Eversource asks people to avoid walking on the inactive Massachusetts Bay Transportation Authority (MBTA) rail corridor.

Crews are focused on placing cable vaults (also called manholes or MH for short) and installing duct bank. In both cases the operation begins with excavation, installing the cable vault or duct bank, and backfilling trenches. Crews typically work between recently placed cables vaults to install duct bank, for example, between MH12 and MH13 in Hudson.

### Work Hours

Approved work hours are 7 a.m. to 6 p.m., Monday to Friday but crews are working from **7 a.m. to 3:30 p.m.** Additional crews will be working from **9 p.m. to 5 a.m.**, based on Town approval, in the Hudson roads at the intersection of Main Street and Forest

Avenue for the coming weeks. Occasional work may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials.

Below is an overview of the active work zones. [View the project map](#) for additional details on the location of work crews.

### Hudson

- **On Forest Avenue and Wilkins Street**, crews are starting to excavate and install duct bank in the road between two cables vaults (MH4 and MH5) between Glendale Road and Orchard Drive. Crews are also starting to perform night work (9 p.m. to 5 a.m.) at the Main Street crossing at Forest Avenue. Work at this road crossing is expected to last for at least three weeks.
- **Also on Forest Avenue, west of Marlboro Street**, crews will begin installing another cable vault (MH2) in the roadway starting as early as next week.
- **In the corridor between Chestnut Street and Bridge 130**, crews will begin performing final grading and gravel installation next week.
- **In the corridor from Parmenter Road to White Pond Road**, crews are excavating, installing duct bank, and backfilling the trench between MH12 and MH13. Work in this area should be completed toward the end of this week.

### Sudbury

- **Between Boston Post Road and Bridge 127 in the MBTA corridor**, crews plan to install a cable vault (MH25) north of Maple Ave in the next few weeks.
- **From Horse Pond Road and Union Avenue in the MBTA corridor**, crews are currently installing a cable vault (MH23) in the area north of Farmstead Lane.
- **Between Peakham Road and Horse Pond Road in the MBTA corridor**, crews will begin to excavate and install duct bank working west from a previously installed cable vault close to Horse Pond Road (MH21).

*\*Due to the complexities of underground construction, the two-week schedule described above is subject to change.*

---

## Typical Construction

Pictured is a work crew in Hudson last week repaving a section of duct bank installed across Main Street near Kane Industrial Drive.

## Stay Informed

Eversource is committed to being a good neighbor and doing any work with respect for you and your property. If you have questions, please contact us directly or click on one of the resources below.
