## Eversource 115-kV Project Update

Greetings!

Next week, members of the community can expect to see construction at several sites related to the Eversource 115-kilovolt (kV) Underground Transmission Line Project. Below is a summary of upcoming work zones **with updates in blue highlight** building on this week's previous email communication that was shared on Wednesday (5/31).

### Work Hours

Approved work hours are 7 a.m. to 6 p.m., Monday to Friday but crews are working from **7 a.m. to 3:30 p.m.** Additional crews are working from **9 p.m. to 5 a.m.**, in the Hudson roads at the intersection of Main Street and Forest Avenue. Occasional work may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials.

Below is an overview of the active work zones. [View the project map](#) for additional details on the location of work crews.

### Hudson

- **On Forest Avenue, west of Marlboro Street**, crews will begin to excavate and install duct bank in the road between MH2 and Marlboro Street.
- **On Forest Avenue and Wilkins Street**, crews are continuing to excavate and install duct bank in the road between two cables vaults (MH4 and MH5) between Glendale Road and Main Street. Crews are also performing night work (9 p.m. to 5 a.m.) at the Main Street crossing at Forest Avenue. Work at this road crossing is expected to be completed by the end of this week.
- **In the corridor between Wilkins Street and Bridge 130**, crews are beginning the excavation and installation of duct bank between MH6 and MH7.
- **In the corridor from Main Street to Parmenter Road**, crews are working to complete final grading. This activity will continue next week.
- **On Chestnut Street north of the corridor**, crews will be working to construct an emergency vehicle turn-around that will be used during construction of the Chestnut Street crossing. This work will be completed by the end of the week.

### Sudbury

- **In the corridor from Dutton Road to Horse Pond Road**, crews will be grading the limits of work in several areas starting next week.
- **Between Horse Pond Road and Union Avenue in the corridor**, crews are beginning to excavate, install duct bank, and backfill trenches between two recently installed cable vaults (MH21 and MH22) north of Jarman Road.
- **Between Horse Pond Road and Union Avenue**, crews are beginning to excavate, install duct bank and backfill trenches between two recently installed cable vaults (MH21 and MH22) north of Jarman Road.
- **Off Union Avenue in the MBTA corridor**, crews are installing another cable vault (MH24) west of Union Ave. Work to install the vault will last through this week and next week.
- **In the corridor from between Bridge 127 and the Sudbury Substation**, work will begin toward the middle of next week to install a cable vault (MH26). After this vault is installed, crews will continue to install MH27, west of Landham Road.
- **At the Sudbury Substation**, crews continue working on upgrades to the station. All work occurring within the existing limits of the station

*\*Due to the complexities of underground construction, the two-week schedule described above is subject to change.*
