Website

## Eversource 115-kV Project Update

Greetings!

Members of the community can expect to see construction at several sites in Sudbury, Stow, and Hudson related to the Eversource 115-kilovolt (kV) Underground Transmission Line Project. **Eversource asks people to avoid walking on the inactive Massachusetts Bay Transportation Authority (MBTA) rail corridor.**

### Work Hours

Approved work hours are 7 a.m. to 6 p.m., **Monday to Friday** but crews are working from **7 a.m. to 4 p.m.** in most areas. Occasional work may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials

Crew usually work between manholes (MHs) that have been placed in the road or inactive MBTA corridor. Below is an overview of the active work zones. [View the project map](#) for additional details on the location of work crews.

## Hudson

- **On Forest Avenue, between Richardson Street and Main Street**, two crews are excavating and installing duct bank from **7 a.m. to 5 p.m.**, From 7 a.m. to 9 a.m. Forest Ave will have west bound traffic open to Forest Avenue Elementary School. From 9 a.m. to 5 p.m. Forest Avenue in this zone will be closed and only be open to local traffic and other vehicles are asked to follow detour signage during work hours. Eastbound traffic will detour up Woodrow Street to Main Street. Westbound traffic will detour down Main Street to Villa De Porto Boulevard and will detour left up Grove Street to get back onto Forest Ave.
- **At bridge 130 between Chestnut and Main Street**, one crew will be removing the existing dam and bridge.
- **On Chestnut Street, north of Lewis Street**, crews are installing precast arches and wing walls. This portion of Chestnut Street is closed until November and is only open to local access up to the MBTA crossing at Chestnut Street/Marlboro Road. Road restoration will begin in the coming weeks.

## Sudbury

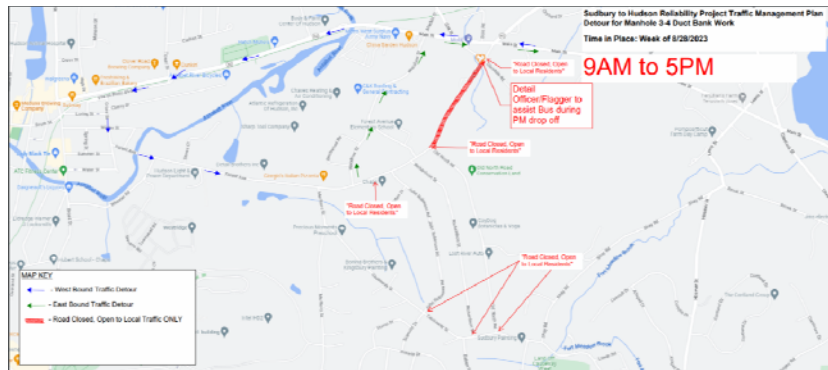

- **From White Pond Road to the Town Line**, two crews are installing duct bank between two recently placed manholes (MH13 and MH15) south of Bruen Road
- **At Bridge 128 between the Town Line and Dutton Road**, crews are continuing to work on the bridge rebuild.
- **From Dutton Road to Peakham Road**, crews are installing duct bank between MH18 and MH17, south of Amanda Road
- **From Bridge 128 to Dutton Road**, crews are installing duct bank between MH18 and MH17.
- **On Horse Pond Road**, crews will be installing duct bank across the road, where it intersects with the MBTA corridor. Starting next week, they will be moving to Union Ave and installing duct bank across the road.
- **At Bridge 127 between Boston Post Road and Landham Road**, crews are stripping, backfilling, and pouring abutment walls.
- **From the Sudbury Substation to Bridge 127**, starting next week, crews will begin installing duct bank between MH26 and MH27.
- **Between Horse Pond Road and Dutton Road**, invasive species removal is on-going, and is expected to continue over the next few weeks.

*\*Due to the complexities of underground construction and weather, the two-week schedule described above is subject to change.*
