Eversource 115-kV Project Update

Greetings!

Over the next week, you can expect to see construction activity at work sites in Sudbury (in the inactive MBTA corridor) and in Hudson related to the Eversource 115-kilovolt (kV) Underground Transmission Line Project.

Work Hours

Approved work hours are 7 a.m. to 6 p.m., **Monday to Friday** but crews are working from **7 a.m. to 4 p.m.** in most areas. Occasional work may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials. **There will be no work on November 23 or November 24.** Crews work between manholes (MHs) that have been placed along the project route. For a closer look, [view the project map](#).

Hudson

- **At Bridge 130, between Chestnut and Main Street**, one crew is installing structural beams at the bridge. Next, crews will start pouring abutment footings.
- **Between Parmenter Road and White Pond Road**, crews will be working on a swale installation, starting next week.

Sudbury

- **Between the Town Line and Dutton Road**, crews will begin installing duct bank next week.
- **At Bridge 128, between the Town Line and Dutton Road**, crews are continuing to work on the bridge rebuild.
- **From Peakham Road to Union Ave**, crews are installing duct bank from MH20 to MH21, north of Jarman Road in Sudbury, and from MH21 to MH22, south of Bridle Path Road
- **Between Union Ave and Boston Post Road**, crews working installing duct bank between MH24 and MH 25, south of Station Road. Crews will continue installing duct bank from MH25 to MH 26, south of Boston Post Road
- **From Bridge 127 to the Sudbury Substation**, crews are installing duct bank between MH26 and MH27, South of Boston Post Road.

**Due to the complexities of underground construction and weather, the two-week schedule described above is subject to change.*
