## Eversource 115-kV Project Update

Greetings!

Over the next week, you can expect to see project activities at work sites in Sudbury and Hudson on the Eversource 115-kilovolt (kV) Underground Transmission Line Project.

### Work Hours

Approved work hours are 7 a.m. to 6 p.m., **Monday to Friday** but crews are working from **7 a.m. to 4 p.m.** in most areas. There will be no work associated with the project on 12/25/23 or 1/1/24. Occasional activities may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials. Crews work between manholes (MHs) that have been placed along the project route. For a closer look, [view the project map](#).

### Hudson

- **At Bridge 130, between Chestnut and Main Street**, crews have started pouring abutment footings. From there, crews will begin apron and cap installations.
- **Between Wilkins and Chestnut St**, one crew is completing final grading. There will also be crews proofing conduit between the previously installed manholes.

- **Crews has begun to access manhole locations underground in Hudson throughout the MBTA corridor to proof the recently installed conduit.** This process takes several hours and is in advance of the cable installation which will begin in early 2024. Property owners near these activities will receive additional notifications and can expect to see crews intermittently at manhole locations

### Sudbury

- **At Bridge 128, between the Town Line and Dutton Road,** crews are continuing to work on the bridge rebuild.
- **Between Union Ave and Boston Post Road,** crews are installing duct bank between MH24 and MH 25, south of Station Road.
- **Between Bridge 127 and the Sudbury Substation,** crews are installing duct bank between MH27 and MH28.
- **Starting this week,** crews will begin accessing manhole locations underground in Sudbury throughout the MBTA corridor to proof the recently installed transmission conduit. This process takes several hours and is in advance of the cable installation which will begin in early 2024. Property owners near these activities will receive additional notifications and can expect to see crews intermittently at manhole locations.

*\*Due to the complexities of underground construction and weather, the two-week schedule described above is subject to change.*
