## Eversource 115-kV Project Update

Greetings!

This is an update on activities related to the Eversource 115-kilovolt (kV) Underground Transmission Project in Sudbury and Hudson.

### Work Hours

- **Sudbury** - Approved work hours are 7 a.m. to 6 p.m., Monday to Friday. During the cable installation process, crews are working from 7 a.m. to 5 p.m., Monday to Saturday. All other activities in the corridor will happen from 7 a.m. to 4 p.m.
- **Hudson** - Approved work hours are 7 a.m. to 6 p.m., Monday to Friday. Crews are working in the Hudson roads from 7a.m. to 5 p.m., Monday to Friday. During cable installation, crews are active from 7 a.m. to 5 p.m., Monday to Saturday in the corridor.

Occasional activities may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials. Crews work between manholes (MHs) placed along the project route. For a closer look, [view the project map](#).

## Hudson Activities

- On Forest Avenue, crews are installing the new underground transmission duct bank between Hudson Light & Power and Marlboro Street. Crews are also removing an existing underground distribution line to make room for the new transmission duct bank. One lane of alternating traffic will be maintained whenever possible.
- At the intersection of Wilkins Street and the inactive MBTA corridor, crews are excavating and installing duct bank to tie into sections already installed.
- Between Wilkins Street and Chesnut Street, crews are installing fence post rails.
- At the intersection of Main Street and the inactive MBTA corridor, crews will be working on installing cross walk signals.
- Between Chestnut Street and Parmenter Road, starting next week, crews will begin splicing cable underground between MH9 and MH10.

## Sudbury Activities

- Between Peakham Road and Union Avenue, two crews are installing the new transmission line underground by way of splicing from MH22 to MH23.
- Between Bridge 128 and the Sudbury Substation, crews will be working on upgrading the access road. Starting in the coming weeks, crews will be delivering transmission cable reels to the Sudbury Substation yard.

*\*Due to the complexities of underground construction and weather, the two-week schedule described above is subject to change.*

## Stay Informed

Eversource is committed to being a good neighbor and doing any work with respect for you and your property. If you have questions, please contact us directly or click on one of the resources below.
