## Eversource 115-kV Project Update

Greetings!

This is an update on activities related to the Eversource 115-kilovolt (kV) Underground Transmission Project. Eversource is aiming to place the transmission line in service in the coming months which will conclude the Eversource portion of the work in the Inactive MBTA corridor in Sudbury and Hudson. Other restoration activities will be ongoing throughout the rest of 2024. From there, Eversource will turn over work in the inactive MBTA corridor to the [Massachusetts Department of Conservation and Recreation](#) (DCR) who will install the new shared-use rail trail starting as soon as Spring 2025.

### Work Hours

- **Sudbury** - Approved work hours are 7 a.m. to 6 p.m., Monday to Friday. During the cable installation process, crews are working from 7 a.m. to 5 p.m., Monday to Saturday. All other activities in the corridor will happen from 7 a.m. to 4 p.m.
- **Hudson** - Approved work hours are 7 a.m. to 6 p.m., Monday to Friday. Crews are working in the Hudson roads from 7a.m. to 5 p.m., Monday to Friday. During cable installation, crews are active from 7 a.m. to 5 p.m., Monday to Saturday.
- **There will be no work on October 14th.**

Occasional activities may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials. Crews work between manholes (MHs) placed along the project route. For a closer look, [view the project map](#).

### Hudson Activities

- One crew will be working at Hudson Light & Power to excavate and install duct bank.
- On Forest Ave, between MH1-2, one crew will be working to install the underground transmission cable by way of cable pulling and then splicing.
- Over the next few weeks, crews will continue to install plantings in the corridor throughout Hudson. Installations will take place between Wilkins Street and the Town line.
- In the inactive MBTA corridor, crews are installing loam and seed that is part of the restoration effort.

### Sudbury Activities

- Over the next few weeks, crews will be working to finish planting installations throughout the corridor in Sudbury. Installations will occur between Dutton Road and the Town line.
- Between Station Road and Boston Post Road in the inactive MBTA corridor, crews will be working to upgrade a culvert. This work has been closely coordinated with the Town of Sudbury.
- Between Dutton Road and Peakham Road in the inactive MBTA corridor, crews will be cleaning culverts.
- Between Landham Road and the Sudbury Substation, crews will be cleaning out culverts.
- Starting in the coming weeks, crews will begin restoring a water line underground on Boston Post Road, between Maple Ave and Station Road. Work in this area is expected to last two weeks and will be followed by final road restoration. Once this activity is finished, crews will complete the final road restoration at other road crossings in Sudbury, including Union Ave, Horse Pond Rd, and Dutton Rd.

*\*Due to the complexities of underground construction and weather, the two-week schedule described above is subject to change.*

---

## Stay Informed

Eversource is committed to being a good neighbor and doing any work with respect for you and your property. If you have questions, please contact us directly or click on one of the resources below.
