# Child Care Subsidy

## Information about Child Care Subsidy Vouchers

Regional offices serving Massachusetts residents provide free information and referrals to families who are in need of childcare as well as information on the statewide childcare subsidy wait list. They can also answer specific questions about a home-based or center-based program you are considering to care for your child.

Child care vouchers are available to those who qualify based on income and "activity". Activity requirements are that parent(s) in the home are working a minimum of 20 hours per week for part-time care or 30 hours per week for full-time care, or they are in school (other than graduate school) for those same hours. Children must be citizens of the U.S. Parents or children with a diagnosed and documented disability or special need may be eligible irrespective of income. Grandparents with legal custody of their grandchildren are also eligible to apply.

If you are eligible in the "general income-based" category, it can take 6 months for your name to move up the list so if you anticipate needing childcare within that time frame you should consider applying now. Vouchers usually have a co-pay amount in addition to the subsidy. When your name comes up on the wait list you will have 8 weeks to meet the activity requirement.

## **Informal In-home Child Care with a Subsidy Voucher**

Families who qualify for a child care subsidy can have their child care provided by an adult in the child's own home, or by a relative of the child in the relative's own home. This does not require a license from the state. In order for the child care provider to be paid through the voucher system, informal caregivers must register with the Dept. of Early Education and Care (links below).

### Relative Child Care Providers:

A grandparent, aunt, uncle or sibling (18 yrs. & older) of the child can provide care after passing a sex offender registry check (SORI, takes 3-6 weeks). Relative must be able to prove the relationship with documentation. Care may be provided in the child's home or in the relative's home.

### Non-Relative Child Care Provider:

Care must be provided in the child's home by a neighbor, friend, or non-biological relative. Caregiver must pass SORI, CORI, and DCF background checks and be fingerprinted before beginning care.
