Town Manager Newsletter

August/September 2015

Message from the Town Manager

Town Manager Search Update

On Thursday September 10, 2015 the Sudbury Board of Selectmen interviewed the three finalists for the Town Manager position. These finalists were Stephen Crane, Andrew Sheehan and Melissa Murphy-Rodrigues. All three candidates have a significant amount of municipal management experience. In a unanimous vote, the Board of Selectmen chose to move forward with Melissa. Ms. Murphy-Rodrigues is the Chief of Staff and General Counsel in Everett, MA. In that role she serves as the Chief Administrative Officer of the City. Municipal Resources Inc, the consulting firm hired to assist Sudbury in the search, will now conduct a comprehensive background of Ms. Murphy-Rodrigues while assisting the Board of Selectmen in negotiating an employment agreement. It is expected that an agreement should be reached by early October. –Alan Gould, Municipal Resources Inc.

Sudbury Access Cable Update

You may have noticed that there have been some audio-related issues on recent live cablecasts of Board of Selectmen's meetings. The recordings themselves are fine, but live origination requires that a lot of components work together properly, and in the last few months SudburyTV has identified and remedied two separate issues. We believe the high quality of the live broadcasts has been restored, but we encourage residents to contact SudburyTV directly if they notice any future problems. STV will respond quickly but they can effectively address only those issues for which they are directly notified. Their contact information is on their home page <http://sudburytv.org>. –Jeff Winston, President, Sudbury TV Board of Directors

Website Concerns

Over the past several months we've heard some concerns about the Town website. We want to thank our residents for taking the time to provide your comments and to let you know that we are listening to your feedback! Please see page 8 of this newsletter for details on updates and enhancements to the website.

Volunteer Opportunities

Please see page 14 for a list of some of the Board and Committees seeking new members.

Sincerely, Maryanne Bilodeau, Interim Town Manager

From the Selectmen's Office

At the July 28 Board of Selectmen meeting, topics included the format and plans for the 2015 Town Forum and the Minuteman Regional Technical High School Building Project. The Town Forum is scheduled for Monday evening, November 9 at the Goodnow Library. Planning is in progress and details will be made available as soon as they are confirmed.

On August 20, Representative Carmine Gentile provided a report on the MSBA Board meeting and vote on the Minuteman High School Building Project. Reports and updates were presented on the relocation of Buddy Dog facilities, the progress of the newly formed Budget Strategies Task Force as well as the Fairbank Community Center Task Force. Discussion was also held with regards to the Melone Property Environmental Data Review scope of services, the release of a performance bond for Methods Machine Tools, Inc., the Code of Conduct and Ethics for Town Board and

Committee members, and the drafting of "Pro" and "Con" wording for ballot questions.

Several topics, including plans for the Loring Parsonage, the Melone Property Environmental Data Review scope of services, "Pro" and "Con" ballot question wording and the Board/Committee Code of Conduct resumed on September 8. In addition, Town Trust spending limits, committee interviews and appointments, approvals for several walk/runs and acceptance of a number of donations were voted.

Please note: The above description reflects some of the agenda items discussed at recent Board meetings. They are not meant to be exhaustive of materials received by the Board or all comments on agenda items. For further meeting details, please go to SudburyTV.org to replay the meeting or view the Board of Selectmen meeting minutes, found at:

<https://sudbury.ma.us/boardofselectmen/meetings/>.

Conservation Department

The Sudbury Conservation Commission met several times during the summer. Included in their meetings were discussions and actions regarding the replacement and reconstruction of boardwalks and bridges in the Hop Brook and

King Philip Conservation Land. The plan is to begin work by the end of September 2015.

Also, the Conservation Commission is now using a citation, or ticketing, procedure similar to the Police Department for violations of the Wetlands Bylaw, in an attempt to hold parties responsible for unauthorized work being done in a Wetland Zone.

The Conservation Office is always willing to work with homeowners to determine whether they have any Wetland issues prior to doing work on their property.

*Submitted by: Kirsten Roopenian,
Conservation Department*

Building Inspection Department

The Building Department has completed most of the day care and school inspections this August and early September. We have been very busy as the construction has not let up during the summer. Repairs and roofs have been the most common type of permit issued.

Tear downs have become a familiar sight in Sudbury. It's very controversial as there are many pros and cons. Town Bylaw Article XXVIII Demolition Delay of Historically Significant Buildings, Structures or Sites is set up to help preserve houses & structures built before 1940 that may be of historic value in keeping our heritage. There are many obstacles that can occur restoring older homes such as hazardous materials, structural rot to existing

live and dead loads, energy efficiency, historic materials not readily available, fire protection, code compliance and the cost.

Some of the homes in town are not candidates for historic preservation or relocation. One such property was located at 505 Hudson Road. An example of a preserved building which was dismantled, relocated and lovingly reassembled is 667 Concord Road. The barn at 30 Rice Road was restored in its original location.

A lot of work and expenses have gone into these perseverations.

Submitted by: Mark Herweck, Inspector of Buildings

505 Hudson Road: Removed as it was not a candidate for preservation

667 Concord Road: Relocated and preserved, inside and out

30 Rice Road: Renovated to preserve historic appearance

Department of Public Works

Town Center

E.T. & L., the contractor working on the Town Center project, has completed installation of drainage pipe at the Town Center. The installation of Fire Alarm System conduits is currently in progress.

The next steps are:

- Excavating for the road widening
- Installing conduit for the signal posts
- Installing sloped granite curb
- Repaving the area

*Pictured Above: The last of the drainage being installed at Town Center
Below: Two conduits being installed for the fire alarm system at Town Center*

Curtis Middle School

The reconstruction work associated with the Curtis Middle School sidewalks, curbing and parking lots has been completed. The funding for this project was voted at the 2015 Annual Town Meeting in May.

Pictured Above: Walkway construction completed at Curtis Middle School

Drive and Walkways

A paved access drive has been installed around the softball field at Featherland Park (*pictured below*) and a section of walkway was reconstructed on Hudson Road from Saxony Drive to Teakettle Lane (*pictured right*).

Submitted by: Bill Place, Director of Public Works

Facilities Department

Police Station Update

The new Sudbury Police Station continues to take shape at its new home next to the Fire Station on Hudson Road. The construction is progressing and the contractors are taking full

advantage of the nice summer weather. The project is on schedule and it is anticipated that we will begin to move furniture and equipment into the new station in November.

Pictured Above: Exterior of the new Police Station, photographed in September 2015.

During July and August, the General Contractor, Hutter Construction, completed the interior walls of gypsum and the associated joint treatments, and the first coat of paint on the walls is completed on the second floor. The mechanical systems composed of fire protection, mechanical, electrical, and plumbing work are filling in the above ceiling spaces (*shown below*) and are on schedule.

The acoustical ceiling grids have been installed and some of the HVAC louvers are already installed in the ceiling. The jail cells have had the hard ceilings installed and the detention doors are in place. Concurrent with operations and construction inside the building, the site work operations include a continuation of excavation and rough grading at the rear parking lot, installation and backfill of storm drainage structures and piping, infrastructure for communications and generator power, and site lighting.

Presently, the work is proceeding in accordance with the contractor's planned operations. The following are major work items scheduled in the coming thirty (30) days:

- Fine Grading & Paving (binder course) at Police Station driveways and parking areas
- Continuation of Mechanical, Electrical and Plumbing services
- Delivery and Installation of the Emergency Generator
- Site / earthwork operations, including drainage installation, site utilities and removal of excess fill, rock, etc. as encountered. Stockpiled loam is expected to be positioned through the site in advance of landscaping operations.
- Continuation of above-ceiling wire installation for technology work, including premise cabling, security wiring (duress alarms), and 911 antenna wire
- Continuation of Elevator Car and associated components
- Continuation of building finishes, including painting, ceiling grid, flooring and associated work. Lockers and Casework deliveries are anticipated in early to mid-September.

Presently, the work is proceeding in accordance with the contractor's planned operations and is forecast to complete November 1st, 2015.

Fire Department

New Paramedic

Firefighter Nick Howarth recently passed the state examination to be certified as a Paramedic. Nick started on the Sudbury Fire Department as an EMT and worked diligently to attain this certification attending classroom instruction, spending time in the emergency room, riding on a Paramedic Ambulance to hone his skills, then passing the practical and written exams administered by the State. Nick will now bring his enhanced skills to our Advanced Life Support Program. Congratulations to Nick on a lot of hard work!

Shown Above: Nick Howarth (left) receiving congratulations from Chief Miles (right).

New Cardiac Monitors in Service

As a result of a unanimous vote at the May 2015 Town Meeting, we purchased new Lifepak 15 cardiac monitors for use by our Firefighter/Paramedics. All department members received training in their use from Crystal Perry from the Physio Control Corporation (*shown below*).

The new monitors have more features than the previous models and will greatly assist our Paramedics in providing emergency medical care here in Sudbury. Once again I thank the residents for their support enabling us to purchase this vital equipment.

Board of Health

Flu Vaccination

Flu Season is upon us. We are currently planning flu clinics for the town. Stay tuned in the next few weeks to see when your clinic will be.

Vaccines save lives and we need to remind everyone that vaccines are not just for children. They are needed throughout our lifetime. Please reference the links that follow if you are not sure what vaccines are recommended for different age groups.

Emergency Preparedness

September is National Preparedness Month. It is important to understand which disasters could happen in your community, know what to do to be safe and mitigate damage and take action to increase your preparedness. Below is a list from www.Ready.gov to build a basic emergency preparedness kit. Please check out their website for a more comprehensive emergency planning guide. Stop by the Board of Health Office for your free Know Plan and Prepare re-useable shopping bag while supplies last.

Recommended Items to Include in a Basic Emergency Supply Kit:

- Water, one gallon of water per person per day for at least three days for drinking and sanitation
- Food, at least a three-day supply of non-perishable food

- Battery-powered or hand crank radio and a NOAA Weather Radio with tone alert and extra batteries for both
- Flashlight and extra batteries
- First aid kit
- Whistle to signal for help
- Dust mask, to help filter contaminated air and plastic sheeting and duct tape to shelter-in-place
- Moist towelettes, garbage bags and plastic ties for personal sanitation
- Wrench or pliers to turn off utilities
- Can opener for food (if kit contains canned food)
- Local maps

Algae Confirmed to Be Cyanobacteria

Testing conducted last week (9/11/15) confirmed the reappearance of cyanobacteria (blue-green algae) at Willis Lake. The advisory has been reinstated. Residents should avoid contact with the water until two consecutive samples show levels below state guidelines.

Testing by the Massachusetts Department of Public Health will occur this week and results will be posted upon receipt.

William Murphy, Health Director*

Information Systems

Town Website Updates and Enhancements

It's been a year since we launched the new WordPress website on a single Windows 2012 Server running IIS 8, MySQL 5.6, and PHP 5.5. This was an improvement over our previous Content Management System (CMS) which was developed in-house back in 1998. The older system was a mash of several servers running outdated software and operating systems

(Windows 2003 and 2008), classic ASP, IIS 6, SQL 2005, and PHP 5.1.

Moving 16 years of data which consisted of over 10,000 documents, 3,500 news stories and over 5,000 meetings with agendas and minutes into the new system was no easy task, but we were able to create a WordPress CMS that was simple, compact and up-to-date.

Despite all the modern packages used, we realized that the new server was not the best fit for the new web platform. Primarily the issue was with IIS and PHP, which was unbearably slow and error prone as the website's traffic rose. Therefore, though a great deal of research, we elected to switch to a Linux based infrastructure for the website in April of 2015 to improve stability, reliability, and performance. To better understand and respond to outages, we set up external website monitoring and incident management to handle outages as quickly as possible. This monitoring system was so effective that it remains in place and has been expanded to monitor several other publicly accessible town services such as email and VPN.

We opted to decrease resource allocation and repurpose the Windows Server as an HTTP load balancer and add a Linux Server to run the website.

Also, with Linux we were able to take advantage of a tool called Memcached to improve performance and caching which was not available on Windows.

We have also introduced new search capabilities to the website which were outlined in a previous Town Manager Newsletter ([January 2015](#)).

In the spring we built in automated monitoring of the website and other town servers. We added

NewRelic server monitoring to several town servers to give better insights into resource utilization and downtime.

In June, the Town unveiled its new Twitter account which was integrated into the Town's Website, so that website information posted could be immediately shared with our Twitter followers. "[Introducing the Town of Sudbury's New Twitter Account](#)"

We also built an internal "watchdog" that can solve some common downtime problems automatically before they are even noticed.

Over the summer we spun up a beta server for testing and development which we are working on improving for use by both internal developers and outside contractors who might need to make changes to any part of the web platform without affecting the production website.

Additionally, we have started work on automating the configuration of the website's servers.

We look forward to offering continued enhancements and creating increased user functionality. As new features are added we will continue to provide updates.

Submitted by: Mark Thompson, Technology Administrator

Park, Recreation and Aquatics

Pool Programs

Registration is under way for all fall pool programs and sign up is open. We have a couple of new programs starting this fall:

Pi-Yo-Chi uses movements from Pilates, Yoga and Ai Chi, combining fast and slow movements

with stretching. It enhances breathing and personal calm. This class will be held in the dive well on Friday mornings and be taught by Geralyn Strella.

Water Safety Instructor (WSI) is for anyone interested in teaching swimming who is at least

16 years old. You will learn the skills necessary to teach swimming. Class is held on Sundays.

Private Swim Lessons are offered on Monday afternoons and Tuesday evenings for those interested in receiving private lesson instruction.

All these classes are available to sign-up on-line or in person at the Atkinson Pool.

Annual Maintenance Shutdown

The Atkinson Pool staff were very busy during the Annual Maintenance shutdown period. The major project that was undertaken this year was the draining of the dive well (*shown below*). The well walls were scrubbed and cleaned, new drain covers were installed to bring the well up to the new safety standards. The showers in each locker room were repaired as well as repairs to some missing floor tiles. All pool deck safety equipment was inspected and cleaned. Also done were a wide variety of cleaning projects and touch up painting to get things ready for the new program year.

Lifeguards Needed

The Atkinson Pool is accepting applications for anyone interested in lifeguarding. Applications may be obtained at the Atkinson Pool front desk

or from the pool website at www.pool.sudbury.ma.us. Please contact John Barrett, Assistant Aquatics Director at 978-443-1092 or barretj@sudbury.ma.us with any questions.

Family Swim hours for September

Monday-Thursday 1pm-9pm

Friday 1pm-7pm

Saturday 12pm-5:45pm

Sunday 12pm-3:45pm

New Staff

We welcomed Tricia Freeman as the Park & Recreation Program Coordinator in August. Tricia comes to Sudbury with a background in early childhood education and recreation. Most recently, she directed a summer camp for middle school students in the Wayland Recreation Department. Prior to that, she worked as a Building Substitute at Loker Elementary School in Wayland. Tricia also enjoyed her time at Happy Feet, a preschool soccer program focused on a love of fitness and developing growth and social skills. Her experience leading camps and classrooms compliments the program coordinator position well. She's excited to make a contribution to Sudbury's recreation programs and community.

4th Annual Halloween 5k and Fun Run

Join us for our fourth annual Halloween 5K & Fun Run! This is a great event for the whole family – run, walk, cheer, or volunteer! The 5K will be a timed event starting at 11:00 AM followed by a 1-Mile Fun Run around our paved Haskell Field loop. Please note that registered 5K participants are welcome to join the Fun Run as well at no additional charge. Free refreshments available for participants. Costumes are encouraged, so get in the spirit!

Date: Sunday, October 25, 2014

5K Time: 11:00 AM Cost: \$25.00

Fun Run: 12:00 PM Cost: \$10.00

T-shirts: Register by October 7th to be guaranteed a t-shirt!

Volunteers of all ages needed! High school community service hours opportunities! If interested, please register as a volunteer online!

5k Course Map:

Registration is now open! Online Registration is strongly recommended and is the preferred method: [go to our website](#) to register online. We will accept day-of registration, however we cannot guarantee a race bag or a medal for race day registrants.

REGISTRATION IS NOW OPEN!

Mini Wild Wednesday (Elementary School)

Come to Park & Rec every half day during the school year! We'll have free swim each week, dedicated homework time, gym & outdoor

games, nature activities, crafts, and special themes & events. A snack will be provided, but please bring a lunch. Transportation from all elementary schools to Fairbank is included. Pick up from Fairbank Community Center by 6:15pm.

COST: \$45 per day or save \$90 when you sign up for the whole school year at once!

Wild Wednesdays (Middle School)

Trips, Trips, Trips!! This is the same great half day program we've always offered, now with hours

extended till 6:15pm! We'll go on a different trip each week. The program meets in the Curtis Cafeteria after school. Students will eat lunch (please pack) and then head out for an adventure. Transportation from Curtis and back to the Fairbank Community Center will be provided. Pick up by 6:15pm.

COST: \$60 per day or save \$90 when you sign up for the whole school year at once!

Oct. 7th — Kimball's Farm (please note change)

Oct. 21st — Kayaking on Charles River (please note change)

Nov. 4th — Friendly Fire Paintball

Nov. 18th — Sky Zone

Nov. 25th — Roller Kingdom

Dec. 2nd — Boston Trapeze School

Dec. 16th — Snow Tubing @ Nashoba

Jan. 13th — Laser Craze

Jan. 27th — Ice Skating

Feb. 10th — Snow Tubing @ Nashoba

Feb. 24th — Boston Rock Gym

Mar. 9th — *Movies & Solomon Pond Mall*

Mar. 16th — *Jump on In*

Apr. 6th — *CoCo Keys Indoor Water Park*

Apr. 27th — *Pinz Bowling*

May 4th — *Patriot Place/5 Wits*

May 18th — *Boston Duck Boat*

Feeley Field Project Update

The Park and Recreation Department recently finished resurfacing the tennis courts at Feeley Field. If you haven't had a chance to play on the new courts yet, check them out, they look

and play great. Also, we will be adding new poured in place surfacing to the back swing area of the Lyons Pride/SMILE Sudbury playground at Haskell Field. This project is a result of a very generous donation by the Lyons family and will be completed this fall.

The fall is sure to be an exciting place at Park, Recreation and the Atkinson Pool! Join us!

Submitted by: Nancy McShea, Park, Recreation, and Aquatics Director

Planning & Community Development

The Planning and Community Development department has been working on a variety of projects over the summer.

The Town is currently updating the [2009 Open Space and Recreation Plan](#). As part of the update, the Town issued a survey over the summer, which was completed by 384 residents. The survey results along with all comments can be accessed [here](#). The survey will be one tool to help inform the Park and Recreation Commission and Conservation Commission of the priorities to include in the 5 year Action Plan component of the Plan. The Commissions will be discussing the Plan over the next several months at their regularly scheduled meetings. Residents who are interested should review the committee agendas posted on the Town's website to see when discussion will take place. Additional public feedback will be advertised as the Plan takes shape.

The Landham Brook Marsh (formerly Johnson Farm) Conservation Area and trail system is progressing and is scheduled to be open to the public by year's end. A small parking area is

being constructed by DPW, the Conservation Commission has approved the trail location and Sudbury Valley Trustees are building the trail. Check back on the Town's website later this year for more details on the Grand Opening celebration.

The Sudbury Center intersection improvement construction project is ongoing. ET&L, the contractor awarded the project, has been completing the necessary drainage work, and the roadway and signal improvements are anticipated to be installed in the next 2 months. While these construction activities are taking place, the Sudbury Center Improvement Advisory Committee has been reviewing the draft Landscape Plan for the Town Center project with the Town's consultant, Sudbury Design Group, in hopes of completing some of the work this fall. The draft plans can be viewed on the Town's website.

Also in the Town Center, the Town Hall Blue Ribbon Committee met several times over the summer to continue the analysis of options for the future of Sudbury's Town Hall. The Committee will be meeting throughout rest of the year and anticipate a report to the Selectmen by late fall.

The Sudbury Housing Trust's 3 unit affordable housing project at 278 Maynard Road broke ground in July. This development will produce 3 units of affordable housing for households earning less than 80% of the area median income. The units will be sold by a lottery system. The application deadline for the lottery is September 23, 2015 at 1:00 pm. Occupancy is expected in the spring, 2016.

With the passage of Article 47 at the 2015 Annual Town Meeting (Town-Wide Walkways), residents who desire a walkway in their neighborhood are encouraged to submit a petition for a new walkway this summer. The process and requirements for submitting a petition can be found [here](#). The Planning Board will be hosting a Walkway Forum in October

2015 to discuss and prioritize all new walkway petitions.

Over the summer, the Planning Board, in its new position as the Site Plan approval granting authority, granted approval to the Chabad Center of Sudbury at 100 Horse Pond Road, which allows a change of use of the property from residential to religious assembly. The Board also granted site plan approval to Denis and Marie Lewis to expand a building at 9 Old County Road for office use. Northern Bank has begun construction of their new branch office at 430 Boston Post Road, and the North Ridge Farm 6 lot single family subdivision has continued construction on Route 117. Dudley Brook Preserve Senior Residential Community is nearing construction completion, which also included reconstruction of Tall Pine Drive.

Residents interested in any of these issues are welcome to attend the various meetings at which these projects are discussed. Check the Town's website calendar for a listing of meeting dates and times.

Submitted by: James Kupfer, Assistant Town Planner

Police Department

On July 7th Sergeant Hagglund had the opportunity to read for some children at the Goodnow Library. Both he and the children enjoyed the book "Officer Buckle and Gloria." *Picture shown right courtesy of Sudbury Patch.*

On July 14th a Sudbury detective observed a motor vehicle that was reported stolen the previous day. The detective was following the stolen vehicle awaiting the arrival of additional officers when the vehicle pulled into an unrelated residence on Peakham Road. Felony stop procedures were initiated with additional

units arriving to assist. Aramis Ortiz (18) of 19B Beaver Terrace Circle in Framingham, MA was subsequently arrested at approximately 11:12 AM for the stolen motor vehicle, unlicensed operation and marked lanes violation. He was booked and brought to Framingham District Court for arraignment.

On July 15th the Sudbury Police Department was advised by the Milford Police Department of a suspect involved in an incident in their jurisdiction who resides in Sudbury. In cooperating with Milford Police, a Sudbury officer located the suspect's vehicle at his residence. Milford was appraised of the circumstances and responded to Sudbury, where Sudbury and Milford officers placed Jose Cabrera (24) of 655 Boston Post Road Apt. 1303 in Sudbury, MA under arrest at approximately 2:42 AM for unarmed robbery and larceny over \$250. Cabrera was booked and turned over to Milford officers.

Detective Hanchett and Officer Milley participated with other town departments for "Truck Day" hosted at the Goodnow Public Library. This is a great event hosted by the Goodnow Library allowing for personnel to show children different equipment while providing photo opportunities. The officers enjoyed interacting with residents and it is our understanding there was record attendance at the event.

During the morning of July 17th, dispatch personnel began receiving calls of a possible attempted break in the previous evening in the Blueberry Hill Lane area as well as other suspicious activity residents related as kids ringing doorbells at their residence and running away. We eventually received a report from the resident involved with the attempted break in which remains under investigation. We strongly encourage residents to report any suspicious activity immediately following them becoming

paware of it. The safety of residents is paramount and intervening and/or providing an opportunity to search for involved parties while initiating a timely investigation is extremely beneficial. Residents would not be bothering us as some thought they would have been. For clarification, if an official written report is necessary, we do so in person; either at your residence, our station or a location beneficial to the investigation. We feel it is not prudent, typically, to take reports where we cannot validate the identity of the reporting party(s).

On July 21st, the Sudbury Police Department received a report from Federal authorities of a male subject on their property carrying a rifle case with unknown intentions. When confronted by federal personnel, he told them the rifle was only an air rifle but avoided further interaction, leaving in an unknown direction while acting oddly. Sudbury officers arrived in the area locating the male party leaving on a motorcycle with the rifle case strapped to the back and initiated felony stop procedures. The ensuing investigation revealed that the weapon was indeed a scoped air rifle recently purchased, according to the subject, to hunt small varmints. Although the subject did not commit any crime, it was explained to him that his actions were not the most prudent.
