

July 15, 2024

Town Manager Sheehan & Sudbury Select Board,

Summer is in full swing at Sewataro. Our first 3 weeks of the camp season have passed in the blink of an eye. Every 5 years, our camp is visited by the American Camp Association, which is a community of camp professionals who ensure the quality of camp programs. Sewataro was up for an accreditation this year, and we are proud to report that not only was Camp Sewataro re-accredited, we passed with flying colors- and a score of 100!

The fishing pond remains the site of constant activity on summer evenings and weekends. The pond is open for fishing Dawn to Dusk September 1 - May 31, and 6pm-8pm on weekdays and 8am-8pm weekends and holidays during the summer months. The pond has bass, perch, and sunfish, and fishing is catch and release. Please bring your own bait and tackle. For more information on MA policies on fishing licenses, please refer to the following:

<https://www.mass.gov/info-details/who-needs-a-freshwater-fishing-license#:~:text=Before%20you%20cast%20your%20line,your%20license%20online%20using%20MassFishHunt.>

The Resident Swim Program has taken off 'swimmingly,' and we are excited to see many new visitors to the property each weekend!

We are carefully tracking sign ups, as well as the number of swimmers in attendance during each swim session. We are also tracking resident feedback (which has been incredibly positive thus far!), and look forward to sharing with the Select Board in the fall.

SEWATARO

SUMMER AS IT SHOULD BE...

We hope that you are enjoying your summers!

Best Regards,  
The Sewataro Team
