

May 14, 2025

Town Manager Sheehan & Sudbury Select Board,

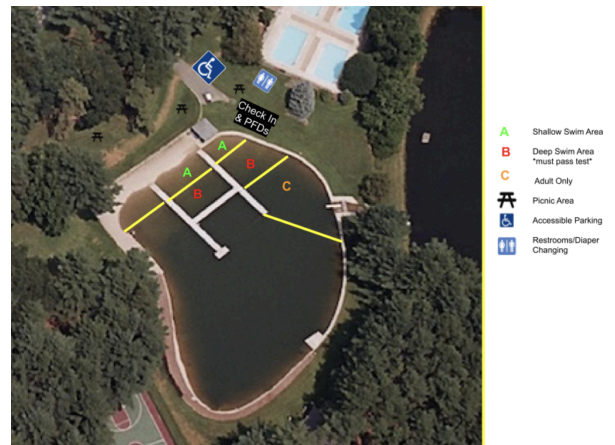

It is mid-May, and that means that summer is just around the corner! The property is abuzz with resident groups, walkers, and a steadily increasing number of fishermen/women! HopeSudbury is hosting its annual Fishing Derby at the pond in a few weeks, young music students will be

showing off their skills in a spring concert in the pavilions, and Scouts are wrapping up their years with meetings and projects on property.

We hope many residents can find time in their busy spring schedules to join us for a backyard bbq style gathering, with lawn games, 9 holes of miniature golf, and an inflatable slide.

In addition to camp-related summer preparation, we have been hard at work finalizing plans and policies (and hiring!) for our weekend Resident Swim program. Resident swim will open June 28, and run through Labor Day weekend (Mother Nature permitting!). The pond will be open on select Saturdays and Sundays from 9:30am - 12:30pm and 1pm-4pm. We have been working with Vivian Zeng, Sudbury Director of Public Health, to finalize swim policies.

On the camp front, we are at the point in the year where there are only a few holes left to fill, both in terms of staffing and enrollment. We are thrilled to share that we have over 50 Sudbury Residents attending this summer through the Resident Scholarship Program.

We hope that you are all enjoying the beautiful spring weather, and all of the celebrations and festivities that the end of the school year brings.

Best Regards,
The Sewataro Team
