

Uber Covid protocols

DCarty, Wed July 22 2020

From Gregory Jacobs (Uber):

Take a look at our COVID website [here](#) and our general safety page (includes more info on COVID) [here](#). We are doing a ton of work in the space and continuing to change our approach as the situation evolves. A few additional callouts:

- Mandatory face covering policy (using selfie technology)
- Purchasing PPE & PPE reimbursement
- (Temporarily) disabled UberPool globally and limited UberX capacity (no front seat riders)
- We have given over 5 million masks and 115,000 units of other cleaning supplies to drivers in the United States and Canada
- Offering drivers COVID-19 sick pay
