Certifications

To ensure that the participation of any third party in its award does not invalidate any of those certifications, MassDOT requires each of its subrecipients to review the executed attached FTA Certifications and Assurances document and assist MassDOT in ensuring that it meets its obligations as defined in that document. Failure to acknowledge this assistance will result in a finding and may include the invalidation of any agreement and a revocation of any funding between MassDOT and its subrecipients.

Subrecipients do not sign the Certifications and Assurances, rather download and review the FTA Certifications and Assurances, and then check the box below demonstrating agreement to the following:

2023 Certifications and Assurances

Select Fiscal Year: ▼

As the official authorized to sign for my organization, I attest and certify that I have received and reviewed the attached version of this Year's Federal Certifications and Assurances, and agree to assist MassDOT in ensuring that the participation of my organization does not invalidate any of the certifications made by MassDOT to the FTA.
